Subject: Words From The Federation Of Light. Part 2 of 2. Feb. 23, 2012.

The space people say they can show us how to clean up the pollution.

.....
.....

Keep in mind as you proceed into the coming days and the events they will have in store for you that we wish you to remain calm and balanced and to respond to the call to assist your fellow human family members if fear shall overcome them upon these arrests *which may be startling for some*. Not all will react to this news as good news, as many will see this as a bad sign or a rude awakening from their slumber. We ask you, our Lightworkers, to do what you can to calm others and reassure them that all is well, for indeed it is. *Your planet is now on a firm path to ascension, and you will soon be welcomed into your Galactic community*.* This is an honor, and with this honor comes many new responsibilities and we wish you to know what this entails.*
Firstly, as a member of a Galactic community you no longer possess the option to settle your differences with w-r, as wa- has never been a viable option. *All of your differences shall be handled democratically, according to a proper discussion of the opposing viewpoints and a vote.* *There will be men and women overseeing your affairs who are highly trained and skilled to see to it that all your differences are handled in the proper and peaceful manner.* There shall be no other means to settle your differences permitted *if you wish to remain a member of your Galactic community.*

Secondly, *all the pollution of your world must be purified,* and *no further polluting of your planet will be tolerated.* *We will supply you with the technology and the training necessary to accomplish this goal.*
Furthermore, we must insist that you all begin to treat each other with the respect you all deserve. R-cism, bigotry, and h-tred on any level is not suited for worlds that are members of the Galactic community, as* this sort of behavior can be seen as a virus or plague and cannot be allowed to spread throughout this and other worlds*.

The planets you will be joining in a peaceful and cooperative alliance have themselves shed their 3rd dimensional skin, and have experienced similar challenges and tests just as you have. To permit their worlds to fall backward after they have come so far because we allowed worlds who continue to exhibit signs of lower dimensional behavior to interact with them would be a dereliction of our duties as one of the management teams of this galaxy. We are sure you understand this, and *we are certain you will agree that once your world enjoys the advancements of a Galactic society that you too will not wish worlds that may have the power to destroy all you have accomplished to interact with you*.

Please understand,* we do not wish to control you or force you to do anything you do not as a collective wish*, and* you do possess a choice at all times to withdraw from the Galactic community* *and once again isolate yourselves and be quarantined until you once again decide to make a commitment to higher dimensional ideals and virtues.* We are confident that once you begin to experience what it is like to be a part of the Galactic community you will make great effort to maintain your communities and to continue to advance as a Galactic society. Not only will your world receive the benefits of advancement, but so too will you, as your programming will be advanced and you will enjoy many new attributes of your physical vessels. We look forward to assisting you in making this great leap from an isolated third dimensional world to a fifth dimensional Galactic civilization, and we are honored to be permitted to be your guides for this momentous occasion.

Please work with us as we do all we can to make this as smooth as a transition as possible, and please remember to look out for your fellow brothers and sisters who may need your assistance. You all have gotten here together, and together you shall continue on into the higher realms of this universe. It has been a very long journey for many of you, and we say to you that all of you have gone through many very difficult experiences and tests of your will and determination. *This is why you are the ones here today, as it is you that have demonstrated that you have earned your right to be here at this time.* There can be no other way, and you all deserve such credit for your achievement to grace this stage

today. *We salute all of you for choosing to be here through these difficult times,* and say to you that your struggles will finally *be over for good* very shortly* as we proceed with the purification of your world.*

Remain patient. We assure you that you do not have long to wait now. The *next phase of our operation is about to commence, and you will see just what we have been so busy with for many long months and years.* *The scope of these proceedings is quite enormous, and we are sure many of you will soon see just why none of this could be rushed and patience was instead called for to see the desired outcome achieved. *These many investigations and legal processes took many thousands of hours of manpower, and the men and women of your human family who have taken part and have given these processes so much of their time, effort, and dedication, deserve much gratitude from their fellow brethren, and we see a day s-on when you will have the opportunity *to make your appreciation** made known to them*.

Until then, continue to *do all you can on your side of the ball setting the table for these many connected events*. *We see all the hard work so many of you are doing and we thank you greatly for your efforts to bring about the changes that will clear the path to your new home and your membership within the Galactic community*. The benefits of which are great and are many, and we are confident you will clearly understand that all your hard work has been well worth your efforts. *Continue on now with your work and expect to see fireworks in the near days ahead.* We assure you that you will not be disappointed. *You have earned all you are to receive and this is your day, and we wish you to all enjoy it as it will be a day worthy of celebration.*

We are your Family of Light from the stars.
