Subject: Words From The Galactic Federation Of Light. Feb. 23, 2012.

This is said to be from the group of space people who call themselves "The Galactic Federation Of Light." They are, in my opinion, the good guys.

The Galactic Federation of Light speak

You want answers. \*Please quite [quiet] yourself for a moment.\*  
\*There will be certain events unfolding within the next few days that will alter the course of your lives on Earth.\* \*The \*\*mass arrests we have spoken of will begin in earnest\*, and we would suggest you prepare yourselves for this. We see \*some disruptions to some services, but not many\* as \*these beings are taken into custody,\* and \*we would like all of you who have informed yourselves of the importance of these events\* to share this information far and wide and also educate others as \*to their relevance\*. Be on the lookout for \*the initiation of these arrests\* that shall begin very soon. Our Earth allies are in place and are prepared to undertake this massive endeavor. Large numbers of men and even some women will be taken \*out of your society and into custody where they can no longer interfere with your lives and the proceedings of the events set to unfold in your world\*. We would like you to know that great sums of time and effort have been put into the planning stages of these proceedings, and \*we, the Galactic Federation of Light, would like at this time to thank all our allies in the field who have dedicated so much of their lives to seeing this plan blossom.\* Humanity will be set free upon these arrests and this we feel is certainly a cause for celebration, and it is celebration we would be very pleased to see. Celebration will help to create the necessary energies that **\*will allow others to feel what this event means to them\***, as many may be puzzled **\*and even frightened\*** by these proceedings. There is nothing to be frightened about. These arrests are an important step on your way to ascension and you, as a society, will immediately begin to reap the benefits of their success. Many arrests **\*will occur simultaneously\***, however, some arrests will follow on successive days. We will do our best to see to it that no disruptions to these arrests are made by outside influences \*such as the portions of m-litaries that have not aligned with the plans for your new Earth\*. They will also be dealt with in due time, but for now, we will simply keep them neutralized so they \*cannot thwart any of these proceedings.\*

- We always have your safety in mind as a top priority, and we strive to see to it \*that no harm ever comes to you.\* Be advised, the c-bal wishes to interfere with these arrests even though many of their ranking officials have agreed to surrender to authorities. \*They will fail at any attempt to stop or slow these

proceedings\*, and we will see to it this is the case and protect our Earth allies and the public as to the best of our abilities. Keep your eyes to your media outlets. It will soon become clear to you which companies have agreed to cover these events and which ones declined to be a part of this coverage. This will also give you a clue as to which media companies have agreed to align with your new system and even give you some insight as to which media companies will assist in the coming disclosure announcements. In time, we see all media companies

**\*complying with the new direction\***, but for now, the few who have made the commitment will suffice and\* we thank the men and women of these companies greatly for their courage and commitment to assist in the implementation of your new system.\*

**\*Your new system\*** will begin to come online \*within days of the removal of these obstacles\* who have thwarted every attempt at the initiation of the programs necessary to implement your new system. This is why they are being removed from your society, as we saw no other choice as \*their stubbornness and arrogance saw no end\*. This is the bed they have made for themselves and now they must lie in, and \*it will be quite some time before many of them achieve the necessary restructuring they need to again enter a society freely\*. We will make sure of this, as other souls need to be protected from these dark hearts.

Your society will also be shielded from these planners and schemers and be free to flourish to heights never before seen on your planet. To reach this goal, many changes will need to be made that will seek improvements in every conceivable area, and\* these changes will begin immediately upon word \*that \*a suitable number of these dark ones have been taken into custody.\* The charges against these individuals will be varied, and there will be many charges levied against many of them. This will ensure they cannot wriggle their way out of these proceedings and reenter your society and once again wreak havoc on your systems. \*Please give us your support and demonstrate this support to others who will not immediately understand these proceedings, and take the time to inform them what they are all about and how their lives will now improve dramatically now that those who have plotted and schemed against them for many decades have been removed from their positions of power.\* Assure them that all is well, and in fact, \*have not been better for many long years and that your society will now reap the many benefits that can now safely be made available to you.\*

\*We have a long series of projects lined up that are ready for implementation, and we know many of you will be quite pleased and excited at what is in store for you\*. You will receive a new financial system as the old system of corruption will now see its last day with the removal of those behind its corrupt mechanics. Your new system will be based on equality and fairness, and each and every one of you will enjoy the natural flow of abundance that is rightfully yours and **\*has always been\***. The men and women who you will soon witness being taken into custody have successfully plotted and schemed to keep you from experiencing your natural state of abundance, but upon their removal you will now receive what has been denied you for so very long.

We will discuss with you further your new financial system in due time, but let us today focus on the removal of these dark ones from your society. Stay alert and remain vigilant for the launch of these arrests as prior word may not be given to you. We will say that \*we, as well as our Earth allies, have given our signals that we are all set to move ahead with the operation and we see no delays or stoppages to our mission\*. Again, your safety is always a top priority with us and \*we will be on guard for you at all times and protect all of you\* as best as we can.

\*Please inform as many as you can as to the nature of these arrests\* and what they mean to your society as to strengthen the impact of them, as \*the many projects scheduled to follow depend upon the mindset of your people.

\* \*We feel the momentum created by this event will be sufficient for us to launch the follow-up programs, and under the proper circumstances they will begin to be initiated immediately upon the conclusion of these initial arrests\*. Many other arrests will follow as well as the tentacles of the Ca-al reach far, but we are confident these initial arrests will sufficiently clear the path for the initiation of the next phases of the overall operation. We promise you dear ones \*this will be quite a show and well worth waiting for.

You will be \*kept abreast of any new developments and other plans\* for the next phases of the operation through our c-annels, and soon we will be able to begin communications with you

through some of your cooperative media companies. \*You will be able to witness these arrests for yourselves through certain media outlets, and we advise you to monitor your media and inform your brothers and sisters of which companies begin coverage of this event as it is important as many of you as possible witness these proceedings\* as this will be the signal that humanity is finally free from their oppressors. We wish you all to know \*this day could not have been made possible without the tremendous efforts of all our agents in the field that we respectfully refer to as Lightworkers\*, and\* each and every one of you who have worked so hard to clear this path to your new reality\*. We thank you so much for your hard work and dedication to bring change to this world, and promise you that **\*you will reap the rewards of all your efforts\***.
