The group that claims to have started the American, French and Russian revolutions state they have issued a March 31st deadline to the committee of 300, according to their spokesman Alexander Romanoff. In addition, Prince H-rry has been in touch with the group and has agreed to take over control of the British Royal family from Q-een E-izabeth. There are signs, such as the resignation of over a dozen senior bankers and the announcement of a \$15 trillion fraud in the UK and a \$6 trillion fraud in Italy, that these warnings have been taken seriously. The Italian case is especially noticeable because one of the people arrested was former Prime Minister Silvio B-rlusconi. In addition a meeting is scheduled this week between a W-ite Dragon Society representative and a representatives of the dragon family in mainland Asia to discuss the creation of a meritocratically staffed economic planning agency.

It can also now be disclosed that Ireland, Portugal, Greece and Spain have all told the banks they are not going to pay back any of their loans because the loans were made illegally. This is one of the reasons why Moody's downgraded 114 financial institutions including C-tibank, Goldman Sa-hs, Bank of A-erica, Deutschebank etc. These are the institutions that own the Federal R-serve Board and the Federal Re-erve Board is going to be shut down soon, according to Pentagon sources. In other words these countries are going to default, and for a change it will be the bankers and not the average citizens, who will pay the price.

The resignation of the heads of the World Ba-k, Credit Su-sse, the Bank of India and planned resignation of the head of Goldman Sac-s is just the beginning of a complete dismantling of the Khazarian bank-ng monopoly. All money created through fraud is now going to be deleted from the global financial computer systems, according to officials involved in the take-down.

The \$6 trillion fraud case in Italy is noteworthy because it is the one of the first such cases major corporate propaganda media outlets have reported worldwide. Italian newspapers have also now started reporting on the Neil Keenan lawsuit against the Davos World Forum, Berlus-oni, the UN etc. accusing them of a \$1 trillion theft. The arrest of 8 people is a further concrete sign of action being taken against the P2 F-eemason lodge. This means that people who were hitherto above the law and above institutions like the V-tican and the UN are no longer immune from arrest.

The announcement in the UK Upper House by Lord B-ackheath that \$15 trillion had been stolen from a member of the Indian-Ch-nese royal family by Federal Res-rve Board Chairman Ben Ber-anke, US Treasury sec-etary Timothy Gei-hner and Yusuke Hor-guchi (we are making enquiries about this individual), is a another sign of big change. The most interesting aspect of the Upper House testimony was the reference to a Lord S-ssoon. The Sassoons are one of the families that profited from both the Op-um w-rs and the colonization of Japan and it is interesting to see their name finally appear in the spotlight. Lord Sa-soon has, as the testimony makes clear, already committed pe-jury in relation to the \$15 trillion case. He is expected to be arrested and questioned s-on.

In the US, as well change continues under the surface. The pent-gon has already decided that a major purge of Khazarian S-tanist influence and control of corporations, banks and professional organizations will take place. Among the organizations expected to experience high profile arrests are the American M-dical Association, the American D-ntal Association, the

Psychiatric and Psychology Associations, the Bar Association, the chambers of commerce and of course the Washington D.C. beltway.

Particular attention is going to be directed at the Pharmaceutical and chemical companies as well as sa-anic corporations like Microsoft and Monsanto, according to the Pentagon sources.

Rahm Emmanuel, Karl Rove, Paul Wolfowitz, Donald Rumsfeld, J. Ruckelshaus, the Bushes and the various Neocons, are also due for arrest, according to multiple sources. The proof of these claims of course, can only be made if these promised arrests actually take place. Until then skepticism remains the order of the day.

In Japan there is more credible evidence of change. The top power brokers in Japan have decided that a revolution will take place. They are pushing for Osaka Mayor Toru Hashimoto to be the leader of the new regime in this country. It is particularly noteworthy that two bitter, but extremely influential, rivals among the power-brokers both support Hashimoto. The Zionist flunkies are also trying to co-opt Hashimoto and make him one of their tools. This will not be allowed to happen.

Ruling Democratic Party of Japan power-brokers Ichiro Ozawa (a Rockefeller servant) and former Prime Minister Yukio Hatoyama (a Freemason working for European royal families) will be bringing a large group of MP's to China in March in search for financial and other support. It has already been concluded they will return from this trip empty-handed.

There is much more this writer knows but has been asked to remain silent about. However, there will be proof and detail from this week's meetings available in next week's report.
