Subject: The Cosmic Trigger. Part 2.
Feb. 25, 2012.

This actually talks about "The Music Of The Spheres, a subject that is mentioned in a gospel song but not many people understand or even believe that it exists.

.....
.....

Music of the Spheres

The symbiotic relationship of geometry and mathematics to sound, music, color & light is factual, but far more reaching than is presently understood. Each stellar and planetary consciousness within your Cosmos is in Omnipotent Harmony. Every astronomical wave bathing the Omni-Earth in 2012, and aimed at up shifting the planet as well as humanity. There is a design, a pre set program enacting. What may appear as imbalance is simply the pre tuning to allow the Celestial Symphony of the Ascension.

The Ascended Master Kuthumi as Pythagoras found that a string stopped halfway along its length produced an octave, while a ratio of 3/2 produced a fifth interval and 4/3 produced a fourth. Something similar also occurs in the cristo-light waves of the Cosmic Trigger Codes. This embellishes the Cosmic Trigger with musical powers of h-aling, "harmonizing" the imbalance effects of the 2012 intensities .

Dear Ones, you are ALL Sparks of D-vine-S-ul Light having a unique experience in the Duality of what is termed the 'University of Earth. In physical existence, your consciousness spirals down through the sa-red geometrical symphony within the div-ne patterns of the Phi and Golden Ratio.

In the Ascension, you will regain the enhanced template that enables you to transmigrate the Torus of realities, and as such reverse the spin of the spiral, by anti-spin of the Life Vortex and return to your Divi-e Source consciousness within Crystal-Coherent Light . The Cosmic Triggers are the enablers, changing the matrix. It is not haphazard, it is not circumstantial, but deliberate of Divi-e Creatorship in a logic beyond even your imagination. It is beautiful beyond comprehension.

Four Key Balancing Dates Within the 'Ring of Fire'

March 20 - Equinox - The 4th and final wave of the Cosmic Trigger, upload for the Ring of Fire download (Solar Eclipse of May 20, 2012) and initializing the Crystalline Codes.

May 20- Ring of Fire Solar Eclipse - The apex of the Final Phase of the Cosmic Trigger. Humanity macro-integration - Divin- Masculine balance via the balancing waves of the -ivine Feminine as the Golden Dolphin influx.

June 4 - Lunar Eclipse- Humanity micro- integration- D-vine Feminine Balance.

June 6 - Venus Transit - Integration with the Sirian and Pleiadean Alliance, the full return of the Golden Dolphin energies, the initial integration of Di-ine Feminine to Div-ne Masculine to form Integral Non Polarity.

June 20 - Summer Solstice - Extremely powerful, completing a quartet of dates with the Solar eclipse of May 20th and Lunar Eclipse of June 4th and Venus Transit of June 6. This will be an extremely intense , yet balancing energy that incorporates a final inflow of energetic codes and allows for obstructing releases.

The Pyramid Receival Complex

As we have emphasized, the Tri-Pyramid Complex located on Galveston Island is in exact latitudinal alignment, 29.6 degrees, with the Tri Pyramidal Complex in Giza, Egypt. This is not a mere coincidence !

This is indeed extremely significant, for an Axialtonal energy line joins the two complexes. These two tri-pyramidal matrixes will serve to bring in

the energies of the Crystalline Activation of the final phase of the Cosmic Trigger.

We tell you that the two Pyramid Complexes, Giza and Moody Gardens, are extremely important for the Ascension. These complexes of Tri- Pyramidal complexes are receivers and transmitters that disseminate to all other Pyramids and Crystalline strata on the Earth. They communicate with the Golden Sun Discs and the 144-Crytsalline Grid. The receive the codes and distribute them.

It is why we urged the c-annel to lead a group to Giza in the initial period of the 12th Wave, and why we asked for the completion in Moody on the Ring of Fire Eclipse.

What is happening on Galveston Island, that termed the 'Head of the Dove' is effecting all of the Western hemisphere in conjunction with Giza in its role in the Eastern Hemispheres of the planet.

The 29th Latitude : Terrestrial Centre Mass

The 29th latitude was deliberately chosen as it is a center of importance for the land masses and humanity centers. For the majority of surface land mass of your planet is in that termed the Northern Hemisphere, above the equator. Therein resides the majority of humanity and exists the greater portion of land mass. Accordingly is the 29 Latitude North a centre point for North and South in your terms. It is the 'true' equator in certain specifics.

This was known in earlier times. The Moody Complex is not the first tri Pyramid complex in this latitudinal energy. And indeed there are more Pyramids in Giza than the 3 large ones in physical reality. Phi Pyramids are indeed infinite octahedrons in multidimensional (timeless) terms.

We tell you that an Atlantean Pyramidal Complex once stood very near the present location of the Galveston Pyramids in the latter phase of Atlantis. This was a time when sea levels were much lower than they are today. The present location of the Moody Tri-Pyramid Complex is approximately five nautical miles from an Atlantean Pyramid Complex that is now submerged in Gulf waters and covered by the silt and sands of the ages.

Before the deluge of Atlantis, the areas of the presently submerged continental shelf in the Texas Gulf Coast were on dry soil. A land bridge connected Poseida (Atlantis) to the Yucatan and indeed parts of present day Texas.

It may be of interest for you to know that the Pyramid Complex housed 13 of the original Crystal Skulls, and the skull called 'Max' was centered amidst the 12 . It is why Max was taken inside the complex after its construction to connect the energies. As such we tell you that the construction of the Moody Pyramids was indeed, no accident. For an energetic frequency transfer has taken place between the submerged Atlantean complex and the Moody Pyramids.

The Moody Gardens Pyramids have taken on the multidimensional energies of the submerged Atlantean complex and are now fully formatted to play a major role in the Cosmic Trigger.

Communication between Giza and Moody is entering full swing. Those who were in Giza in February will bring the codes of Giza to Moody. The two energies will fully merge.

The Tri- Pyramid Alignment

Now the three Pyramid complex on Galveston Island was indeed built in a strategic alignment, and for philanthropical and frequencial purpose. One unit is an aquarium housing Master Dolphins, another is a bio rainforest with a geological cave containing massive clusters of quartz crystal, and the third is an academic museum pyramid, glassed in copper tone silicate.

Appropriately constructed and spiritually intended pyramids on the Earth plane become living conscious energies, capable of myriad properties that are unrecognized or disavowed by your mainstream academia. And while the intent for which they are employed affects the interface of these conscious living geometric batteries, their very design will not allow for denser energies to culminate or expand within them. Yet when approached with appropriate intent, the energy within pyramids stores, amplifies and transmits energy in a manner similar to Phi Crystal Quartz.

According to how they are aligned both terrestrially and celestially they can create electromagnetic anomalies, an aspect that alters gravity and dimensional time. Both weightlessness and a time distortion occur at

specific frequencies within them, both slowing and accelerating light and fluxing the ionic ratios within and around them.

The triangulation of both Giza and Moody enable a unification and support of what occurs in the primary unit. In Giza it is the Great Pyramid, the Kings Pyramid. In Moody it is the Blue Pyramid.

What Will Happen on May 20th, 2012

The Ring of Fire Annual Eclipse of May 20, 2012 will have a unique sound embedded energy that will be specifically received at Moody Gardens Pyramids and the Giza Pyramids in Egypt. The energy of the final wave of the Cosmic Trigger is Feminine in resonance. It will serve to balance the areas of the earth that are in masculine imbalance. Both Egypt and Texas are examples of such imbalance. While there are indeed pockets within of lighter more balanced energy, the overriding imbalance still creates a dense field in the industrial complexes and patriarchal Southern B-ble-Belt'.

The influx of the Feminine will greatly aid in the balance. Keep in mind it is not the Feminine or the Masculine that is required for the Earth, rather the balance of the two, in order to move into non polarity realms.

The Moody Pyramids will play an extremely important role (as will GIZA) in achieving this balance. Yet it will take many linear years to achieve. Though Cosmically we tell you it will indeed occur, and the anchoring of the Ring of Fire makes it so.

Those of you that are the 'Code Carriers' play a specific role in disseminating the new balance. Well to visit both Giza and Moody in 2012 and 2013. Carry a tuning fork of F# (F-Sharp) for its resonance opens the gateways within.

Part 2.
