Feminine Balancing - The Cosmic Trigger Final Phase

Greetings Dear Ones, I am Metatron, L-rd of Light ! I greet and honor each of you in Unconditional Love, and nurture you within the space vector of this moment.

And so we speak today of the Final Phase of that termed the Cosmic Trigger. Indeed its completion is at hand and will absolutely occur and finalize in your linear year of 2012.

The Cosmic Trigger, as we have explained in previous ch-nnels, is the download of Geometric Crystalline Codes necessary for the completion of the 12-Dimensional expansion of the planet. The geo-codes are in the language of coherent light, coherent crystalline light. For Dear Ones, S-cred Geometry is the core-fabric of all realities. Sa-red Geometry is the language, the 'reality program' of the Cosmos.

Dear Human, your reality is in Truth, a geometric hologram insertion of coherent conscious energy. So it is imperative you understand that Sac-ed Geometry is far more than a mathematical branch. It is a living sacr-d science, an aspect of the science frequency you call 'Unconditional Love'. It is a sacre- science that in fact forms every nuance of your 'physical' duality within linear space and time.

The Pyramids of the 29.6 Latitude are the Receival Mechanisms

The Codes are received initially in the Pyramidal structures of Giza and Moody, and disseminated across the planet. They are catalysts for awakening & releasing stored codes kept in crystalline mineralogical strata on the planet.

The codes are of -acred geometric matrix, octahedronal in format . That is why they are received specifically in the octahedronal structures - Pyramids, of the 29th latitude.

Both the Moody Gardens Pyramids and the Giza Pyramids are constructed on precise vectors of dimensional reality convergence. So while the aforementioned octahedronal Pyramidal structures in themselves are extraordinarily powerful receivers and transmitters, it is the specific placement within what may be termed major 'absolute' Coordination Points of Reality that empower them into omnipotence in the Earthplane and indeed beyond. Coordination Points are specific location vectors or Mega-Portals in which multidimensional energy merges . Moody & Giza are on Coordination Merge-Portals of Omnipotent Omniverse Omni-Earth Veracity.

It is why Giza has always been recognized, and why the Moody-Pyramids were specifically, precisely (re)established on what is termed the 'Head of the Dove'.

Multidimensional Energy (as well as thoughts) will be naturally pulled in the direction of absolute or Omnipotent points of reality coordination. Dimensions are coinciding in and out. This occurs indeed at the Moody Pyramids as well as Giza. Phi Pyramids exists on such points not only

across your Earth, but across every planet in your solar system.

There is a unique expression of the in-take/ out-take of reality flash in the Harmonic Cycle or Torus-Effect of reality flash. Although Giza (and especially the Moody Pyramids) are not recognized or fully understood, immense activity of a benevolent nature is taking place through them. All four phases of the Cosmic Trigger were received through these points.

With these structures then are absolute points of multiple reality, containing great and greater energy potential; 'absolute' coordinate points, indeed, where all realities interconnect & merge. There are main coordinate points, pure geo-mathematic sources of unimaginable energy, and Moody and Giza are two of the most important at the present 'time' on your planet.

Each have subordinate coordinate points, coordinated in number according to the dimensional reality of the placement. All of the dimensional program stabilizers termed 'Sun Discs' are placed at such vectors. These are all in fact connected to the two primary coordination Pyramids of Giza and Moody. You as yet have no idea of the energy networks that form your realities. Nothing is happenstance !

Phi Pyramids Expand Consciousness

Spending focal time within such Pyramidal points allows an extraordinary opportunity to the serious advanced seeker for even greater growth and thought concentration expansion to aid in amplifying emotions and such, which would help in greater manifestations of thoughts into both 'physical' and 'nonphysical' realities. Manifestation of thought is , as such, accelerated for those capable of sufficient light quotient to comprehend the mechanics of mental creation processes in bridging the ego brain into meld with the d-vine mind.

Much of what occurs in Pyramids may be unrecognized in ego brain, for the nuances occur in the 'digital crystalline format' of the Di-ine Mind, (or super-subconscious) wherein lies your true Div-ne nature. Humans operating in ego brain will oft dismiss what is truly available in such vectors, because the experience does not occur in frontal brain. That is precisely why lucidity bridges into the subconscious are the gateways of higher light quotient , which are essential in a humans individual growth into Ascension. Such is the path of duality. Yet even the doubters are expanded by the experience, whether immediately recognized or dismissed.

We have told you before that all Pyramidal structures automatically generate a reflective opposite to form an octahedron in multidimensionality. As such they generate a light coded sound frequency that forms axial-tonal connections through the Law of Harmonic Oscillation, forming a Cosmic Network of multidimensional receival and transmission.

The Cosmic Trigger Codes

The codes are Metatronic in source and aspect , and absolutely essential to the Ascension. Consider them as resonate energy upgrades to the holographic inserts that are the geo-information-portals of the graduating Omni Earth. Program upgrades, in your computer terminology.

The initial downloads of the final wave surge occurs on the May 20 'Ring of Fire' Solar Eclipse of 2012, the latter surge on the triple date frequencial portal of the 12-12-12.

We have told you that the world remakes itself now and whether or not humanity in micro or macro is supportive of expansive change or against it, whether it is understood by mankind en masse or not, it is truly a moot point as the inertia of transition speeds into reality more quickly today than it did yesterday on the linear and Omni-Earth.

This is indeed the final completing stage of the Cosmic Trigger, and its time is here in the heralded year of 2012.

It reaches apexial download on the May 20, 2012 Solar Eclipse and encompasses four primary progressions:

- (1) The release of long dormant coded crystal energies in formation of the dual ellipticals of the New Firmament
- (2) The transition of the previous version of the Mer-Ka-Bah to unified zero-point Crystalline upshift of Mer-Ka-Na.
- (3) Final balance of male-female aspect into integral unity
- (4) Full integration of dimensions 5-12 into harmonic interface with dimensions 1-4, the 12 combining to form the 13th Field...The Quantum

Field of Dimensional Unification.

2012 Acceleration of 'Ascension Symptoms'

All is quickening, time is accelerating as the Ascension draws center within your individual & group experiences. The year 2012 will be intense and will have periods of calibration that may throw humanity out of balance temporarily.

Accordingly as the duality planet recalibrates itself into the Crystalline Field it will also reshape the experience of mankind, of visible and invisible forces of nature and that of the face of the Earth itself. Every astrological pattern, every date of Eclipse, Solstice, Equinox and Lunar Phase is extremely powerful in 2012. These are being exponentially amplified by Coronal Mass Ejections, Solar Winds.

Humanity will feel the impact of these through what is termed 'Ascension Symptoms', and these may be experienced as mood swings, dizziness, insomnia, anxiety, lethargy, apathy and fatigue. For each advancing energy will require physical, emotional and mental adjustment to the higher frequencies downloaded.

It is akin to a training course, one designed to increase humankind's capacity to operate in higher resonant energy. The intensives will ebb & flow, in a continual momentous pattern, gaining in inertia through the 12-12-12, the 12th Wave of the Ascension. It is indeed an auspicious time.

You may at times feel as though you are taking one step backward before taking two steps forward... something akin to a miniature Saturn Return ! But keep in mind, the two steps forward will occur.

Do not despair, for the symptoms will pass quickly, and the benefits are a stronger 'you'. The key is understanding what is happening, and persevering ...and maintaining a positive energy and an intact Auric Field.

Fear not, there are balancing energies within the up-shifts of 2012. The Ring of Fire Solar Eclipse of May 20th, is followed by a potent Lunar Eclipse on June 4th.

The energies of this phase are actually very balancing, musical in nature. The light codes have a tonality that enhances your capacity to transform into the Crystalline Light Body (Mer-Ka-Na) as the downloads contain harmonic melodic progressions that upshift the capacity of your field.
