Subject: Good News From Our Galactic Family Part 2 of 2 And Trip To Alice Ray's House. Feb. 28, 2012.

The space people say that we will be seeing more of their crafts in our skies. I will start my report of going for a healing at Alice Ray's house.

.....  
.....

As we have said, we have much to do and time is running very short, so we must step up our combined efforts and we ask you for your cooperation as well to increase efforts in your vital areas. As we have said, you have many allies, and your media outlets are not without those of the light as well. There have been certain media groups who have been assisting our joint cause for some time now and we wish at this time to thank them tremendously for their courageous efforts in this regard.

These groups will now be joined by additional outlets who have also agreed to assist with our efforts to inform your people of the events transpiring around them. Many of you will take notice of these welcomed additions to our team, and we thank them as well for their courage and commitment to help build a better world for all of you. Upon your discovery of these media groups and their programming and written content, we ask you to share this information to all within your reach and sphere of influence. Your grassroots campaign to assist in this manner is vital to our overall mission, and your efforts and your successes have been invaluable. We thank each and every one of you for your hard work and dedication, and again say to you that your work in this area is nearly complete. Push forward now with all you have as the end of this part of your mission is clearly in sight.

We will continue to keep you up to date of the latest developments, and we will have very good news to report to you very shortly. We cannot share with you more at this time, as we have explained, a level of s-crecy must be maintained to protect your many allies in the field who may be working on the front lines of our campaign. We await word from them that it is now time to proceed with the next phase of our operation.

You, our trusted Lightworkers, will also be notified that a milestone has been reached and it is time to proceed with the next phase of the overall operation, and as we have said, we are very confident you will find your next assignments very enjoyable. Until then, keep up the fine work you are all doing as our mission could not be successful without your tremendous efforts. We understand many of you have been working hard in this regard for many months and even years now, but we say to you that all your efforts are s-on to pay off greatly for each and every one of you. We are the Galactic Federation of Light.

Subject: My Trip To Alice Ray's House.  
Feb. 28, 2012.

Some of you may be interested in knowing about my lastest trip to Alice Ray's house, the lady who claims to use angels to heal people. I know a lot of people don't believe in angels, other don't think angels work with people nowadays but please bear with me and maybe a few people will get some good out of this.

I first of all made an appointment with her for 1:30 on Friday, Feb. 24, 2012. I pulled into her place exactly on time and as she was just puling in front of

house driving her Ford automobile. I got out and asked her where I could put the two paper grocery bags full of stove wood that I had bought her. She showed me where to put them in inside her 10 by 70 foot trailer home, just across the street from the Chevron Gasoline Station in Sierra Village, just East of Wi-Wuk Village, Calif., on hyway 108, 12, miles East of Sonora, Calif.

She works on people on a contributory basis. You can either come to her home or she can do the healing over the telephone. Her address is Alice Ray Golden.  
24966 Mi-Wak Village  
Space number 10.  
Phone Number 209-586-4302.

She had me sit in one of her chairs and she was seating in another chair opposite me. I had a hearing aid in my good ear but still couldn't hear her very well so she moved over to a stool just opposite me and took my hands in hers. She told me that we would be using a form of acupressure where we would be using certain accupressure points on the body to do the healing.

I then asked her is there any angels present and she said they were there. I asked if there was just one of them and she said there are many. She could see them when she closed her eyes.

.....

I will now skip to next morning after I visited and continue the story later.

.....

I awoke and while still in bed my foot bent up to the normal position as when you lift your foot at the ankle. I thought it hadn't move like that for many years. I had a nightmare 40 years ago and thought a monster was after me. I went to the front door and knocked out the glass and wood that was the upper part of the door. I dove through it and caught my ankle on the glass. It cut the top of my foot and also cut some tendons. I woke up and went into the bathroom in the consciousness and everything went white and I lost consciousness in the bathtub.

Medics arrived moments later, stopped the blood and I was taken to the doctor. They had me wait on a gurney for several hours before a medical doctor arrived who was a specialist in that area. He grabbed my tendon and attempted to connect it again but my muscles were so strong that he couldn't hold the tendon.

They then gave me a shot to knock me out and he connected the tendon by using a wire that he stuck out through the bottom of my foot.

After that I could not raise my foot to the normal level and had to drag my foot somewhat.

I tell you all of this because I followed Alice Ray's advice and now my foot works just fine.
