Subject: We May Get To Join The Ashtar Command. Part 2 of 2.  
March 2, 2012.

It may be ultimately up to us to make the changes on this Earth.

.....  
.....

Some of you may feel certain aspects of your recent experience has been nothing more than a waiting game, but we assure you that it is we who have been waiting on you. As we have often made very clear, it is your world and it is up to you. We are assisting, this is all we have been permitted to do and we cannot overstep our bounds. We await you to reach certain levels of understanding and consciousness, and we also await certain actions to be undertaken by you. Upon the reaching of these milestones, we can then assist you to reach another.

At this present time we are focused on the arrests of the men and women of the criminal Cab-1 and we await the actions of our human Earth allies in the field. Again, you're not waiting on us or our signal that it is time to proceed.

This signal has been given by all parties involved, terrestrial, as well as extraterrestrial, and we see the successful implementation of this carefully laid plan at any moment. We hope you enjoy this moment, you assuredly earned it, and as we have said, this event is merely the beginning as the fireworks will continue unrelenting for many months to come.

Your world will experience wonderful advancements throughout this period in your history and your world today will barely resemble your new Galactic society we will begin to create together. This would surely be a wonderful and exciting time to be here, and this is why many of you chose to be here today.

You felt it was worth all what you knew you would have to endure to reach this point, and yet you made the decision without hesitation. This is what awaits you dear ones.

It is quite appropriate for you to display a childlike expectation of excitement, as this will all be new to you and you have not experienced anything new such as this since you were a child. Feel free to enjoy this moment and celebrate it, for it has taken you many long years to get here and you have earned every part of it.

Enjoy this moment, for it is your moment, as each and every one of you has contributed to your journey in one way or another. Your achievement has truly been a team effort, and all deserve to take part in your celebration.

We are your Family of Light from the stars.

Subject: Trip To Alice Ray's House. Part 2.  
April 2, 2012.

I probably should have called this information, "Alice In Wonderland", because so many things can be seen and observed in this area such as:

1. Bigfoot.
2. UFOs.
3. Angels.
4. The little people, sometimes called "The Peep A Boo People" which are leprechauns.
5. Mysterious Black Panthers.
6. Bears.
7. Mountain Lions.

8. And etc. etc.

When I got to talking with Alicen Ray I suggested that she write a book on how to get angels to heal you. She then told me that all you have to do is ask. I told her that I had a friend that I would like for her to meet, who could possible help her in her work but I told her the lady's name is Debby and she is a hippy. She then told me, "Don't you know John, I am a flower-child myself". I then added that Debby can see the little people called leprechans. She then added that she could see them too.

.....

Now to change the subject a little bit, I did contact the person in the trailer just to the right of Alice Ray's house. His name is Ron and he is the person that I gave a ride home on the cold and rainy night a few weeks ago. He was very glad ot see me again. I told him that something had told me to contact him and answer some questions that he had about life. I told him that I had been talking about ESP, UFOs and Bigfoot on the Internet. The conversation got around to Chemtrails and he said that was the question he wanted to know about. He asked me, "What are Chemtrails"? I gave him the following answer:

On the surface our g-vernment is made up of some pretty nice people who we think are in control but behind them are some very bad people called "The Se-cret Gov-rnment". They are the big bankers and people with a lot of money in banks who actually control things such as starting wars and etc. P-esident Ike tried to warn us about them and said for us us to be aware of the m-litary industrial complex. These people who actually call the shots don't want to have things changed by the space people and use jet airplanes to spray us with a substance called Chemtrials. They are used to keep us apathetic or dumb and sick so we don't have enough energy to resist them. These Chemtails are spraying us continually and they are using our tax dollars to pay for it.

Ron then said, to his wife Connie, "That's exactly what I wanted to know, you remeber that that one of my kinfolks tried to tell me that." He then put out his hand to me and shook my hand. He said, That's exactly what I wanted to know, that what you were sent here to tell me.

After that we started to talking about Sasquatch sometimes called Bigfoot and I told him I would like to he and his wife to start feeding the Saquatch that are in that area. I told him about one of them walking through the lighted parking lot in front of Scott's Stawberry Store. I also told him about Scott's dressing up his father to look like a Sasquatch and putting a hoax story in the Mountain Times newspaper. They made up a funny story about it and Scott told me that it was his father who was dressed up like a Sasquatch. They were just having a little fun.

Then I told Ron that I would like for him to start putting out food such as rainbox trout heads and etc. for the Sagsquatch to eat. He asked me why I wanted him to do that. I told him that I would like to befriend the Sasquatch so people could get to know the Sasquatch and see them personally. He then said that he would do this.

Of course we have to be careful because there are laws that you can't feed any wild animals or birds, not even a sparrow.

Part 2.
