Subject: Why We Are Here. Part 2 of 2.
2012.

Mar. 3,

This tells how our lives will change if we welcome the space people to come into our Earth.

.....
.....

The greater the level of fear or distrust, the greater the task of removal. Your C-bal understands this, and this is one of the reasons for their continued efforts to instill fear within your societies through their pr-paganda campaigns. As so many of your world readily buy into these attempts, we must busy ourselves with damage control to lessen the blow of these efforts of the dark ones. This is another reason why your efforts as Lightworkers to spread the truth of who we are and why we are here is so important at this time. As we have said, our mission together cannot be accomplished without your help. Please continue to shine your light all throughout your circles and throughout your reach of influence as your efforts are so important to the successful accomplishment of our joint mission. Your efforts are greatly appreciated at this time, and we again assure you they will not go unrewarded.

We are so very close to reaching the first milestone of our campaign, and we suggest again to you to monitor your media outlets for the news of the arrests of the men and women of the criminal -abal that will be your signal that it is time for the immediate implementation of the next phase of our operation. There will not be a prolonged period of inactivity between these two phases, and we ask you to remain vigilant as this day is approaching rapidly.

The news of these arrests may come rather suddenly, as advance notice would only be advantageous to the C-bal and they shall receive no further gift of charity from us. They have used up all their favors and excuses, and it is now time to face the music that has been a long time coming. Many of these individuals possess the arrogance to attempt to make a deal for their surrender at this point, but we are now far beyond the time for making any deals and there will be no concessions offered for their surrender as they possess nothing left to barter with.

The dark ones have been given opportunity after opportunity to surrender, and much was offered them on many occasions, yet they arrogantly balked at the last minute each and every time at surrender, believing they can somehow avoid the inevitable. There is no avoiding what they will now receive for their unjust actions against the people of Earth, and they cannot delay these proceedings one moment longer. It is our Earth allies who will decide when their time has come, and come it will.

Looking over at what is possible for your world; we see many great things in store for you in the days ahead once we can get busy on our many scheduled projects together. Your society will quickly and efficiently be raised to the level of a Galactic society, and we see so many of you being amazed at the wonders in store for you. There exists no aspect of your current society that will not be modified, and we see great advancements for your personal lives as well, beginning where it always begins, at home.

Your homes will be brought up to the standards of a Galactic society, with pure water running throughout and clean and efficient energy systems that will not cost you anything. Your kitchens will also be advanced greatly, with devices that will change the way you not only prepare food, but obtain it as well. This is just a small sampling of what is in store for you once we can safely interact with you upon the takedown of your criminal Ca-al. We look so forward to witnessing the celebrations all around your planet at the news of these arrests, and ask you again to share with others what you have learned about these proceedings and what they mean to the people of your world. We do not wish for these events to fail to fulfill their great potential as a wake-up call to all of humanity that a new day has dawned, and all that has perpetuated their lives of hardship and struggle now fades away in the new light of your new day.

We are the Galactic Federation of Light.
