Subject: Why We Are Here.

Mar. 3, 2012.

This explains the main reason why we are on this Earth.

.....
.....

By Greg G-les

Hand-in-hand we shall overcome all obstacles before us. There exists no one and there exists nothing that can stand in our way. You, as a 3rd dimensional human, have fared greater challenges and adversities than what you are experiencing today and we believe in you, all of you, and we know you can get through these last difficult times of your journey together and emerge out of it into the light of the higher realms. This is your goal. This is the main reason for your current i-carnation and you are almost there. Do not let anything slow or stop you now, as nothing can. Try to look at everything as a challenge that has been purposely placed before you, for indeed this is most often the case. Try not to look at your troubles and think "Oh, poor me, another problem", and instead look upon these obstacles as another challenge that you will conquer, and emerge that much stronger on the other side. This is how we see your journey every step of the way, and this visualization technique may assist many of you to head into yet another test of your will and determination with renewed vigor and fortitude.

Up ahead we see better days for all of you, far better days, but we also see additional challenges as well. Prepare yourselves for both, and you will fair a lot better throughout these challenging times. All along your long journey you have received challenges that you were forced to overcome somehow, someway, but you also received help and guidance from above even if another of your human family was enlisted in this effort.

Today, we see many of you coming to the aid of your brothers and sisters and we are overjoyed at the display of brotherly and sisterly love for one another. How far you have all come in such a short period of time. You all have stellar families that are looking on in admiration for your efforts to assist one another in your times of need and they are so proud of each and every one of you. They will be able to express their feelings to you personally in the days ahead when you will enjoy a long deserved reunion with them. We see this day approaching quickly, and each successive day we see further obstacles removed that today keep us apart.

Much continues to develop behind the scenes and we would like to share with you a little of what has been going on. We, the Galactic Federation of Light, have many divisions whose task it is to seek out and neutralize any hostile forces that wish to interfere with us as we offer assistance to worlds such as yours. Here in your world we have encountered a fighting force of reasonably substantial size and strength, but nothing we have not dealt with before and nothing we cannot handle in any way. Our teams are actively scouting for these hostile forces, and upon locating them we neutralize them and remove them from this area of space without any attempt to harm any personnel within these crafts, although the same cannot be said for our opposition as they continually make every effort to harm our personnel with everything that they have got.

We of the higher dimensions do not allow our emotions to overcome us and we see these soldiers as souls who have more learning and growth ahead of them, as do we all. No one in this universe has completed all their lessons and has learned all there is to know, and when one realizes this, a door is opened to greater avenues of knowledge and wisdom.

Upon incarceration of the soldiers of your dark Ca-al, they begin a reeducation program where they first learn who they are fighting for and risking great personal injury and their lives for. Upon learning just who is behind their forces and their governments as well, a great deal of these men and women experience great disbelief and choose instead to believe it is we that are deceiving them. It is only after showing them clear evidence of this do they only begin to believe they may have been led to, duped by cunning and ruthless minds behind many of your governments and military forces.

As part of a rehabilitation program we allow these men and women to observe

our working and social environments for themselves. Here they can observe us in our natural environments and begin to realize, perhaps for the first time, that we are not the enemy and that we are in your world on a mission not to conquer, plunder and e-slave, as they have been told time and again by their military superiors as part of their indoctrination program, but we are here on a mission of service to humanity, to assist them make the many changes that will advance your society greatly and relieve the suffering of every man, woman and child on your planet. This is what we do, and although many refuse to believe this for a time, most eventually do come to the realization of our honorable intentions.

There are many non-military personnel within your world as well who have bought into the propaganda that we are here with hostile intent, and as we ourselves cannot extend these individuals the same rehabilitation program as the others, this task can be accomplished by our Lightworkers in the field. This is an area you are better equipped for and we ask you at this time to share your light and your truths of who we are and what our intentions are here. This will eventually clear the way for our reunion with you as we remove yet another obstacle from our path.

Today there remain many of your world who fear us, and we do have to compete with the never-ending parade of propaganda displayed through your television and film industry. We understand that many humans are quite susceptible to the information handed to them through such medium, and we do have plans to counteract this barrage of falsehoods and allow those who yet to see a clearer picture of us view an alternative explanation to our purpose here.

We ask for your continued assistance helping to spread the truth about us and our intentions, and we thank each and every one of you for your tremendous efforts to inform your brothers and sisters.

As we have said, we do have many projects that we feel are imperative to begin immediately, and we are making every attempt to clear the paths so we may safely begin. Our Earth allies are responsible, with our assistance, for the task of rounding up and incinerating a significant number of members of your criminal Cabal that will effectively destroy their treacherous organization.

We stand by at this time for the news that those many arrests have been undertaken and as always remain fully prepared for any countermeasures by the military units who yet stubbornly remain aligned with the dark ones. It was never expected that all of your Armed Forces would end their alliance with those of the dark agenda, and we have plans for them as well. If these groups insist upon noncompliance with your new system they too will be removed from their current locations and begin their reeducation program.

Upon working with us, many of you may be interested in such positions where you will interact with incoming soldiers and help facilitate their reeducation programs. Who better to work with these men and women than someone from their own human family? We see many walls of trust being broken down immediately when the soldiers can meet and speak with someone from their own country or even city. We see the rehabilitation process proceeding far more quickly and efficiently with the assistance of those of your world, and we look forward to enlisting the help of many from your human family.

There are many other positions as well where the assistance of those of your world would be greatly beneficial, and these assignments too will be available to you in the coming days ahead when we feel we can safely interact with you. We will make every attempt to keep you abreast of all relative developments towards this goal, and we will make clear at the appropriate time the procedure to make your intentions known that you are interested in beginning a new career with us of the Galactic fleets. We see many of you are looking forward to this opportunity, and we are extremely pleased at the willingness of so many of you to take part in our efforts in service to others. It will be a joy to work together with you, and we look so forward to this occasion where we can begin our initial orientations with you.

Turning towards matters of humanity's ascension, we see matters proceeding perfectly according to plan, and we will not permit any delays at this time as time is now running short and there is much yet to accomplish to clear your path for as smooth a transition into the higher realms as is possible.

Many of you have astutely taken notice of your days that may appear to pass by at an ever advancing rate. Time is compressing for you and this will appear as if time is speeding up and we say to you that the period between today and the culmination of your ascension will elapse far more quickly than you may imagine at this time. Before you know it, December will be upon you and much at that time will have needed to be accomplished.

Details of all the different projects that must be accomplished we will make clear to you when the time is deemed appropriate, and we will need to fill many positions required for these tasks. We will make every attempt to give you as much prior notice as

Why We Are Here.

possible of the many positions available so you will have sufficient time to reach a decision as to which positions you would be interested in. You will then begin your training as soon as possible as some of these positions require much training and study on your part.

Part 1.
