Of what numbers are the factors of 33? Our answer is 1, 3, 11, and 33. These numbers hold a special place within the structure of your world, and these numbers have been used by the light as well as the dark for many ages, not just in recent times. As you as a collective reach certain points along your journey, you will find you will begin to recognize many signs and symbols that have been placed before you either by the light or the dark. Just because a symbol has been inserted into your environment by agents of the dark, it does not necessarily denote an e-il attempt to control you or manipulate you.

Take for example the many signs and symbols utilized by those of your s-cret societies, including the I-luminati and the F-eemasons. You will find many of their signs and symbols are not of their construct at all, but are in fact ancient symbols denoting many different s-cred powers and structural aspects of your reality. Many symbols possess within them activation codes and the ability to awaken once dormant powers or memories within a being. Many of these symbols are being used at this time to do just that; awaken many s-uls who are yet asleep as we quickly approach the time when all so-ls will be awakened.

The awakening process all of you are currently experiencing, or will soon experience, has been planned meticulously to be as smooth and gentle a process for you as is possible. We wish not to shake you violently out of your dreamlike states, as this sudden awakening can be quite damaging to your energy systems. Those of you who are awakened today are leaders of your fellow man. You have demonstrated that it is you that are suited for and prepared to begin to receive your activations that will return your memories to you of who it is you truly are and all the memories that have been stored within your memory banks before your current i-carnation into the physical. All your cherished memories have been safely preserved for you and will be returned to you at the appropriate time. This time is approaching rapidly and we see many of you making great strides towards this day by clearing your no longer needed and burdensome lower dimensional thought forms, habits and tendencies. We would be very pleased to see many more of you begin to do this, and we of the Galactic Federation of Light will continue to display the signs and symbols of ancient design that will assist you in these processes.

You may wish to not always assume that if a symbol is of an esoteric nature that it is being used by the dark for ev-l purposes. Most of these esoteric symbols are birthed from the higher realms, and it is here in the higher realms where the polarity of good and evi-, light and dark, does not exist. There are those symbols displayed by the dark at this time and all throughout their reign; however, this hidden language is not of their own manifestation and has only been borrowed by them.

What these symbols stand for and what powers of creation they possess is up to you to learn and understand for yourself, and today this information is readily available to all throughout the Internet and bookstores and

libraries as well. We suggest to you not to be afraid or shun these symbols, but to learn about them and discover their true meanings and origins. You will find many of them possess no ill intent or dark powers of any kind. Looking ahead now to our plans to return you to full consciousness, we see many of you rather excited for this day. We will proceed as slowly and cautiously as is possible, and as such will attempt to give you clues along the way to help better ease you back to this remembrance and not to rush you in any way. The realization of who you are and what lives you have left behind may be rather startling for many of you, and we will do our best to make this as gentle and fun a process for you as we can. We feel many of you already have come to the firm realization that your present incarnation is not your first incarnation. We are very pleased to see this, as this milestone is surely the most important as we begin the process of returning you to full consciousness. We would even say that this step is essential to your memories being returned to you.

We see that it would be quite a shock to many of you if your memories of your prior existence were returned to you when you had no idea they existed in the first place. Preparing yourself with the understanding that many of you not only have a prior history but a lengthy history going back many thousands of years is a very healthy start to these necessary proceedings. Another valuable understanding at this time is that we of the higher realms are not strangers to you at all, as all of you have connections, friends and family, that have remained within the higher dimensions while you journeyed down into the physical realm of the third dimension. Understanding this will alleviate much of the fear and anxiety some of you are feeling and many more of you will succumb to in the days ahead. To believe that your loved ones who have been guiding you and protecting you throughout all your physical incarnations would sit idly by as negative beings interfered with your journey at any point is without reason or sound conception, and we see this belief as entirely false based due to uninformed opinion.

Please assist us as we assist you spread this information far and wide. There are many channels and sources of this type of liberating information and we wish to see this information at least available to all who may, or may not, choose to at least familiarize themselves with it. This is all we ask as we cannot force anyone to read our words or to believe them upon reading. This is the sacred right of all souls, and all must be permitted to choose their own path and awaken according to their own schedule. Although we would very much like to move ahead with our many plans and projects, we cannot rush those who are not yet ready for such revelations that have the power to do damage to certain individuals. There are so very many of you who have achieved very different levels of consciousness and we must cater to those who have yet awakened as it is these souls who are susceptible to damage caused by the sudden shock of such information. All is proceeding very well however, and our plans are proceeding on schedule thanks to our many Lightworkers in the field who are helping spread the word of all that is transpiring in your world. Each of you have your own areas of expertise and knowledge, and we are quite pleased at the coverage of so many different areas of these many different processes and subjects that all deserve their recognition as they each hold a place of relevance at this point in your collective, as well as individual journey. Please keep up the fine work you are all doing, and soon you will reap the benefits of all your labors.

We continue to see the removal of the fighting forces of the Cabal and their destructive machines, and we are also pleased to share with you that the plans to eradicate them from your reality are also proceeding perfectly according to our prearranged schedule. We see no delays or problems in this regard, and it will not be much longer until they have not one space fighter left available to them.

The Cabal had amassed quite a force of space fighters and other space travel related crafts as their financial resources were virtually limitless due to their pilfering of the people of your world for centuries. This is the kind of wealth that will soon be returned to you, the people of Earth, upon the initiation of your new financial system in the days ahead.
