The Recalibration of Knowledge (...and a conversation with a Lemurian)-  
a message from Kryon c-anneled by Lee Ca-roll - January 14, 2012 in Boulder,  
Colorado

"The Recalibration of Knowledge"  
(...and a conversation with a Lemurian)  
This live chann-lling was Given in Boulder, Colorado  
January 14, 2012

To help the reader, this ch-nneling has been revisited [by Lee and Kryon]  
to provide even clearer understanding. Often what happens live has implied  
energy within it, which carries a kind of communication that the printed  
page does not. So enjoy this enhanced message given in Boulder, Colorado.

-----  
Greetings, dear ones, I am Kryon of Magnetic Service.  
There's no 3D time here where I am, and it's difficult for me to give you or  
my partner messages that are synchronistic to the reality you live in.  
Instead, we often give you information about the energies and the potentials  
that are here and not something on your timeline. So that is what this  
particular message is about.

We have only a few things to say, but it's going to require that we do it  
slowly and accurately, for we're dealing with things my partner has no  
knowledge of. So I give him intuitive visions, and he then translates them  
in real time as he receives them. Even the voice that you hear, the  
consciousness that you perceive, and the energy that is around him is his  
ability to meld with S-irit in a quantum state. This allows him to bring  
forward in what you call real time a message that he is not aware of. He  
steps aside as he does now and, with curiosity, listens to what's happening  
next. It is not a takeover.

The man who is in the chair and I have an agreement, and it's one he hasn't  
talked about much. Years ago when I said to him, "We are going to c-annel in  
this fashion," he said, "I refuse to have a takeover." So instead, I offered  
him a meld and I said to him, "If you will meld with me during these times,  
there will come a day when the meld is permanent." And he agreed. Then he  
asked me, "Is the meld unusual?" I told him no. It is what every single  
Human can do - not to sit in front of humans and cha-nel as you see now, but  
instead to have a direct portal to the Creator in all things. It isn't  
unusual. In fact, it's what every Human on Earth intuitively feels is what  
they want - a connection to home.

These things have been done by Humans many times before, and before that  
they were done, and before that they were done [explained in a chann-lling  
to come later]. The result of doing the meld properly eventually connects  
you to the Creative source and you stop being a Human, as you define it.  
The ones who seeded this planet walk this day here and they don't d-e.  
They're in a quantum state and they can travel wherever they want. They  
reside in certain parts of the earth, including Shasta and Hawaii [in your  
country] and many other portals on the planet. Many of you reading this know  
what I'm talking about. And that is the promise of what happens with earths  
everywhere that go through a process where they pass the decision points and  
start another process, a process where they change their reality out of 3D  
into a new paradigm.

My Cryptic Communication

I am trying not to be cryptic, and at the same time I do not reveal the  
specifics of things that are not known to you yet. Sp-rit has a promise to  
humanity: Since you are the planet of free choice at the moment, we can't  
give you hints. All the things that are revealed must already be here in  
Human potential thought. All inventions of what might come about have to  
already be germinating somewhere in the Human mind. And if it isn't so, we  
don't speak of it. This respects the process of the test that is before you

and the experience you have come to have. It's your agreement with us. Perhaps this is the first time you've heard this from a channeler, the fact that we do not reveal things that are not already here in some form? It's the truth. However, typically Human creative thought, even of invention, of potential, of philosophy, may take a decade or more to reach the place where the masses may hear about it. So today I'm going to tell you some things that we see the potentials of that are there already. It isn't fortune telling. It's on the earth already. So I will walk you through some things quickly.

#### The New Energy 2012

You're in a new energy and it's just starting. It's different than the past New Energy. The end of 2011, mushing into this 2012 year, brought about what we have been predicting to you for a long time. It is The Bridge of Swords. The Bridge of Swords we have described before is a bridge that humanity uses to go from one energy to another and it's celebrated all over the Universe. It's celebrated by those who helped seed the planet and by those who helped seed them, and the ones before them and the ones before them. They are standing around you, in front of you, in the corridor of your life, crossing the swords above our head, celebrating a victory. Like the ceremony of marriage in the military, where the comrades in battle stand and cross the swords and you walk down the aisle, that's the Bridge of Swords and that's what you're doing.

Oh, dear ones, it may sound cryptic to you again, but these who cross those swords have gone through what you have gone through. They KNOW what is happening and where it may eventually lead you. They have been waiting for this for a very long time. There are so many from so many different parts of the Universe, and they all know.

#### Help With What is Currently Happening

You've got help. What happens to a planet that is starting to so often? Old souls are the Lightbearers and have been for years. They're the ones who can show the rest of the earth light in a dark place. That's what you've been doing for years, and it's been an uphill battle.

It's an overused metaphor, but one that we continue to use for simplicity. Consider that you have those on the planet who have walked in the dark for thousands of years. It's just darkness. It's not evil or mystical, but simply the absence of light. It's a darkness where humanity doesn't unify, because it is hard to do that if an entire Human race is walking in the dark. It's hard to know what to do when you can't see where you are walking. So you take care of yourself. It's more about survival than anything else - the basics.

In survival, you collect others around you for safety and comfort. You can hear them; you can sense them; you can collect that which is what you would call a group, and you huddle in the dark, metaphorically. This is the metaphor for the planet as you know it. Wars break out because you're in the dark. You can't see the others, so you fear them and prepare to always defend your reality. That's the way it has been for almost all of history. Suddenly, however, there is light.

What happens when there's light in a dark place, even a little? Suddenly, many can see to walk from here to there. Imagine having to walk in the darkness from A to B for centuries, and suddenly there is a light on the path. There is no fear about the unknown when you can see in front of you! You're free to unify, since you can see that the others are just like you! You're free to have ideas. You're free to have knowledge.

This particular message is what I told you it would be. You may call it The Recalibration of Knowledge on the Planet. Unknowing to you, and very slowly, as softening is taking place, moving the energy of the planet more from the masculine to the feminine. That is to say, it is balancing what was unbalanced. North and South are coming together hemispherically, so that there's no longer a macho Northern hemisphere, but rather one which is balanced. It has to happen this way for Africa to do what it's going to do. (predictions ahead)

Look at Africa on the map. You'll know what I'm talking about. Balance must occur and it is occurring. Africa is literally going to be the "New World" within 75 years. What happens when you heal a continent and the basics are then available without the control of disease or dictators? The answer is an amazing beginning of a civilization that has no boundaries and nothing to unlearn but poverty. Watch for it and "stand back."

What happens when the earth starts to soften up and there's more light? Even the terrorists change. I invite you to watch for it, Human Being; I invite you to watch all of it. You can watch some things happen that you didn't expect. When the Soviet Union fell over, how many of you had the answers of why that took place without a civil war? It was because that old energy was no longer supportable by the Humans who lived there. There comes a time in the physics of consciousness where if you do not have a cooperative group of Human Beings who will agree with an old energy precept, it cannot be sustained. What happens when the majority of the world doesn't want war anymore? You are actually seeing this develop. Has anyone told you that you are "overdue" for another world war? In 3D, you are. Within the paradigm of the old energy, you are.

This World Will Change.
