Message from the Galactic Federation of Light 3/23/12

Posted: 23 Mar 2012

The g-vernments of your world are playing a game of quid pro and quid pro quo. (Latin: What for, what for what.) We have given them every opportunity to step down peaceably and offer their assistance in the implementation of your new system. They have refused time and again to cooperate and now it is time for them to be removed in any way possible to clear the path for your further development and your new go-ernmental and financial systems. Please allow us the opportunity to assist you to remove these stubborn individuals and institute worldwide gover-mental regime change that will once and for all end this dark period in your planet's history.

So much waits on the removal of those sworn to the old system of corruption and chaos, and we need to get underway with the vast sweeping changes of your world as time is running very short and there is so much work yet to be done to secure your paths to ascension. What we propose is a sweep of gov-rnmental offices from top to bottom, from bottom to top, and remove each and every individual from their position, either elected or appointed, who are aligned with the forces of darkness otherwise known as the C-bal.

We see this as a means to an end, and this must be accomplished and must be accomplished within a suitable timeframe so we can begin to implement the many other changes that are necessary as you move forward into your year of 2012. Many changes to your civilization are just up ahead, and many of you have no idea the impact these changes will have on your society and your planet. We are here in your skies and have traveled here from great distances to assist you in what will be your time of need. There is no reason to be frightened. Together we can suitably handle these changes and allow you to safely move forward into your futures.

Many of your gov-rnment officials would rather see you suffer than to step down from their positions of power, so we see no other alternative than to remove them forcibly. This can and will be done without a need for violence on any level, but it is up to those of your gover-ments being removed how they wish to proceed. These men and women need to understand that they will face harsher penalties for their actions by refusing to step down from their positions. Their jobs are, and have always been, in service to the citizenry, and they were called upon to act always in a manner that would be best for the welfare of the people. Instead, everything they have done worked against the people, to strip them of their money, their health, their rights

and their freedom. This will now end, and we offer our assistance to our Earth allies who must now move forward and remove these individuals from their offices and take them into custody. This must be done in the name of the people, and it must be done in the name of your new world.

It was known all along that these individuals could not keep their positions of power within your governments as there is no place for corruption and dishonesty, selfishness and greed in your new world, especially through the ranks of your governmental bodies. How these individuals were to vacate their positions has always been a matter of choice, and it is their choice now. They have stubbornly refused all offers to make this as easy a transition as possible for them, and they are now out of time and out of bargaining power. The next time they hear from us and our Earth allies will be when we are knocking on their door to take them away and into custody.

This is the way it must be as this is the way they have chosen it to be. We wished very much for this process to proceed differently, in a way that would be a smooth transition for them and also a smooth transition for the citizens of your countries. Instead, it will be a rockier transition, but nonetheless the end result will be what we, your Earth allies, and the awakened people of your world want and understand is necessary for the betterment of all of you and your society as a whole. We will now move ahead with this phase of the operation and begin the take down of those seated within your governments who are aligned with the powers of the dark and who are corrupt through to the bone. They will be replaced by those souls of honor and integrity, balance and foresight, and who possess within them an honor of duty. These men and women are highly trained at the positions they will fill and they are, or will be, sworn to uphold the law of light, of freedom and the sanctity of the human soul and spirit, and if anyone who takes office fails to maintain this focus they too shall be removed.

We have much confidence in these men and women who will be stepping in to these leadership roles and you may be very confident in them as well.

Many of these individuals have waited in the wings for their time to shine, and that time has now come. We will converse with our Earth allies and set up a suitable removal process of those still aligned with the dark, and we will move forward with this operation as soon as is possible as time is of the essence. We wish for all our Lightworkers in the field to again be pillars of strength and a fountain of information for those who will thirst through misunderstanding, fear and confusion at what they will be witnessing.

Try to keep in mind that for those who yet have no idea of what is transpiring around them, the removal from office of so many of those they have come to trust can be quite a shock, and we wish you all who know and understand what lies at the heart of these events to be there for your brothers and sisters and offer your guidance and your knowledge to help better ease them through these transitions.

We cannot thank those of you in the field enough for the work you have been doing. Nothing you do goes unnoticed by us, and we are deeply grateful for everything that you have been doing in the name of progress for this world. We understand many of you are growing impatient awaiting to see the changes long discussed, but we tell you they are just up ahead and once they begin they will not slow or stop and you will never have cause to wait impatiently again. Try to see and understand that what has been transpiring behind the scenes has been extremely complex, and at times, very dangerous for those of the light, and it was necessary that we, as well as your Earth allies proceed as slowly and as cautiously as possible to protect our mission, as well as to protect lives. No time has been squandered away through inactivity; instead, we and our Earth allies have been working continuously, pressing forward in our mission and gaining ground each and every day. In due time when we are able to speak freely with you, we will explain everything that we have been doing unbeknownst to you, and at that time we are very confident you will see

that there was great cause for you to remain as patient as possible.

As we have said, this part of your mission will be over shortly, and the next phase of operation will see you fully abreast of each and every development and there will be no longer any need for secrecy. This will come as a relief to many of you who at this time have only a few sources of information, and we were not able to reveal everything through our c-annels. This is changing as we are now able to share more with you, and in the days ahead there will be nothing that we cannot openly discuss with you. Look for the changes in your gov-rnments to coincide with the mass arrests of those of your criminal Ca-al, their underlings, and many of their associates.

Many of these individuals are associated through their illegal and underhanded dealings, and as such will be removed from your society whether they are elected gov-rnment officials or not. Those who hold positions within your governm-ents have never been, and are not today, entitled to any kind of special treatment or protection from your laws which they have broken time and again. They will be arrested and charged just as any criminal would in your society and held to face the charges against them. While these proceedings move forward your new govern-ents will take shape through those who have shown themselves worthy and who have earned the trust of us as well as our Earth allies. You will be meeting these men and women in the days ahead, and we wish for their welcoming to be warm, exciting, and full of expectation, for what they will be bringing is a new and better way for all of you.

Look for these changes to be rapid and look for them to be far sweeping as the corruption reaches through the many branches of your go-ernments. Your new governing bodies will take root and grow strong and healthy, bearing fruit for the people of your world. Allow this process time to nurture and to grow, and again be patient as this is a very delicate process that must be handled with due care. What we are speaking of is not an easy process for any world. We have handled many situations just as this before, and we will see to the successful conclusion of this operation as well. Bear with us at this time and show your support for us as well as our Earth allies. We know how long you have waited for this day, but we tell you this day has now come and all your waiting and your hard work will be well worth all of it.

Please continue to monitor your news outlets for these breaking news stories and share this information with all who wish to understand better this event. Again, we wish for this event to be the s-ot heard round the world that will awaken as many as possible as to how their world is changing all around them. Help them to see that these arrests are good news and nothing to be frightened of, and help them to see that there is a better way and a better world available to them. Help them to see these arrests are clearing the way, making it all possible, and a better world is what will stand when all the smoke clears.

We are the Galactic Federation of Light.
