Subject: More Death Valley. Part 3.
April 8, 2012.

This talks about the city inside of Mt. Shasta.

If you place a large magnet on this entrance (it has a large computer near the surface, you can hear it), it will affect an immediate interruption.

So, you can take it off in a short time (1 hr) and take it with you. They will still have to come and reset the system. If you plant magnets (camouflaged like rocks) around these entrances, the EBES won't come out & the sell outs won't be able to find them. The EBES are also allergic to high concentrations of sugar. You will find that at two locations I have poured sugar around their exits. Always wear magnets near these locations, they interrupt the EBES' sense of direction (due to an internal compass much like those found in migrating birds) similar to our loss of balance when our ear drum is affected.

"Please wait until I have returned, if you have an airplane, I would like to take aerial photos, we can photograph them together.

"Our alliance crest, symbolic of the EM Shield, and our sign/mark/graffiti is inclosed. Do not reveal them or else every- body will use them & you won't know the real from the pseudos.

"YOU DO NOT KNOW ME, I DO NOT KNOW YOU. THIS IS NOT FOR PUBLIC DISSEMINATION. ZEALOTS MAY DISRUPT THE BALANCE BEFORE V-EBE DAY."

Another researcher by the name (or pseudonym) of Jason Bishop was revealed that 'John', to whom the letter was addressed, is non other than John L-ar (one of the most decorated test pilots in U.S. history, and whose father William Le-r founded Lea- Jet Corp., invented the 8-track tape recorder, and so on) who himself claims many connections with people 'in the know'.

According to the letter, both the Nevada Test Site and Deep Springs are areas of conflict between U.S. Govt.-'Nordic' groups who are at war with the saurian grays or the 'reptilians' - since the internal makeup of the grays is reportedly reptilian- based rather than mammalian-based.

Jason Bishop also released some other information he received by way of John L-ar, from this individual whose letter we just quoted. According to Le-r, the author of the letter was actually a Security Officer at the Test Site who had called in to the Billy G-odman talk show (KVEG radio - Las Vegas, NV) on a few occasions. This person used the codename: 'Yellowfruit,' which he claimed was actually the codename of a top s-cret group that worked at the site, with which he was involved. YF also sent Lea- a copy of the 'Benevolent' teachings. The 'Benevolents' are allegedly working at the Test Site with M--12 and are 'Blond-Nordic and/or A-yan-like' people. It is not certain whether these 'aliens' are tied in with the so-called exterran Nordic' Pleiadeans, the terran 'Ar-an' Antarciticans, or the subterranean 'Blond' Telosians - as all three groups allegedly exist according to different sources, and may have been confused with each other in the past. All three of these groups allegedly posses aerial disks, although in reality their societies may be somewhat distinct from each other.

The BENEVOLENT TEACHINGS (not limited to the below) were identified as follows:

"DISCOURAGED - NON PREPARATORY SPORTS (Activities That Can Not Be Used

In Nonsporting Life) motocross, auto- racing, skateboarding, roller skating, football, baseball, hockey. Also Discouraged: Processed Sugar, Recreational Carbo- hydrates, Recreational Fluids, W-ite Bread.

"ENCOURAGED - NONCEREMONIAL LESSONS OF THE MAJOR R-LIGIONS & PREPARATORY SPORTS (Activities That Can Be

Used In Nonsporting Life) swimming, running, hiking, martial arts, survival arts. Teach Your Children.

"FORBIDDEN - Alcohol, Illegal D-u-gs, Nicotine, Recreational Dr-gs, Unjustifiable Homicide.

"MUST - Avoid Weakness (e-il grows in weakness). Execute Ev-l Prisoners In Order To Help Other Prisoners (Editors Note: One personal suggestion would be to place all 'unreformable' d-ath-row prisoners together for life, without possibility of parol, in large though sealed single-entrance extreme-security closely- monitored DEEP underground 'p-isons' with others of their own kind and gender. Provide minimum life provisions and possibly even re-igious-Ch-istian consultation, or broadcasting, and hope at least that the 'H-ll' that these people make for each other will motivate some of them to seek for a better existence in the afterlife - Branton).

"MUST - Quarantine Contagious D-sease (A-DS) Victims Humanely. Show Strength. Stop Illegal D-u-gs. Stop Destruction of Environment. Stop Pollution. Use N-clear Power.

"STUDY - Bill Of Rights, Biology, Computers, Economics, Geography, History, Latin, Mathematics, Philosophy, Survival Skills, U-ited States Of America's Declaration Of Independence, Un-ted States Of America's Constitution, Vocational Skills."

Yellowfruit also provided coordinates for the Electro-magnetic Triangles he referred to in his letter. These include: N 37 22 30 - E 117 58
0; N 38
21 0 - E 115 35 0; N 35 39 0 - E 114 51 0.
Also: Yucca Lake: N 37 0 30 - E
116 7 0.

From what we can gather from the letter quoted earlier 'there are many' areas of conflict or 'standoff' between the humans and saurians around the world. Those who realize that the conflict exists, such as the inner go-ernment, have failed to warn the general population of the problem possibly out of fear. However, as we have seen, the documentation proving that such a hidden conflict between the human and serpent rac-s has existed since ancient times is surfacing en masse. We must realize however that due to the likelihood of the existence of recovered antediluvian technologies (as well as the apparent existence of hidden human and reptilian communities within the earth, which have utilized and added to such technologies since ancient times), the possibility exists that this 'wa-' began on the surface of the earth, spread to the caverns, and was later propelled out into interplanetary and interstellar space.

From the depths of the earth both 'ra-es', as these technologies developed, apparently rushed to take control of as much territory as possible before the other side had a chance to, the humans - motivated more by their desire to expand their civilizations for the good of their overall societies; and the reptilians (and possibly humans "sellouts" who had collaborated with them) - motivated largely through Imperialistic tendencies, including the desire to establish g-d-like control over all creation without regard for universal law, a 'prime directive', etc. However, we must be reminded that man is partially to blame for opening the 'door' for these intelligent yet corrupted creatures to enter in and invade our societies, as well as possibly opening the way for their parasitical infestation of the hea-ens. Perhaps the '-ar in he-ven' between Michael and the 'Dragon' or the 'Old Serpent', referred to in R-VELATION chapter 12, ties in with this scenario as well?!

Utilizing the ancient technologies and adding upon them through a multiplication process, it is uncertain just which 'ra-e' was first able to land itself upon Luna and other planetary bodies, the humans or the reptilians? But there are indications that they both may have done so at least a few thousand years ago, give or take a millenia. According to John Le-r's Intelligence sources, U.S. astronauts have even been warned of the dangers of space exploration by human 'UFO' occupants who have allegedly monitored and even accompanied many of the space shots - possibly something along the line of similarity to an older brother

teaching a younger brother how to ride a bike, although in this case the stakes are much higher. Many of these 'dangers' would no doubt include malevolent alien entities. UFO's have also allegedly followed U.S. space shots such as the Apollo and the Shuttle flights, the latter of which have actually 'filmed' what appear to be battles between alien craft and earth-based 'SDI' de-ense systems. The Apollo shots were allegedly followed FROM EARTH by UFO's, suggesting that an ancient Terran society which already went through the 'space -ace' phase, perhaps hundreds or thousands of years ago, was concerned with the feeble efforts of their 'little brothers' to move out into space. As we will see later on in this file, the possibility that an ancient Terran race developed space travel thousands of years ago is one which may be backed-up by actual evidence. When we realize that the Un-ted States itself became the major world power in less than two hundred years, and as we've said had essentially gone from the 'horse-and-buggy' to interplanetary travel in less than 75 years; then how much activity might have resulted in extraterrestrial realms over a period of two or three thousand years by human AND saurian beings whose 'sciences' were increasing at a synchronous rate? Also, do the 'benevolent' human-aliens allegedly working at the Nevada Test Site have any connection with the Hav-musuvv described earlier? Were the 'human' occupied bases on Luna as seen by N-SA officials, according to George H. L-onard and others, actually installations placed there by the Hav-musuvv or another society affiliated with them? These are questions we intend to answer in this File. As we've indicated, there are numerous accounts suggesting that an ancient ra-e who utilize high-technology now resides in the bowels of Mt. Shasta in the Cascade Range of northern California. According to researcher William F. H-milton, who claims to have met representatives of this society, the inhabitants of the subterranean 'city' under Mt. Shasta are usually tall, blue- eyed blonds who number in excess of over one-and-a-half million in their large 5-leveled, 20-mile long underground city.
