Subject: E-mail From Margaret Rustin.
April 12, 2012

Here is some information sent to me from Margaret Rustin the lady who was taken into the mountain called Mt. Shasta in Northern Calif. maytimes. She also lost her kittycat up there in the space people returned it to her.

.....
.....

Hi John...I have had contact from the brother I met on the mountain those many years ago. It would appear, from what he said, that many are in the process of leaving the mountain and moving in a southerly direction. (I am thinking perhaps Peru but he didn't indicate that.). Have you received any information about those living inside the mountain being on the move?

Margaret

Subject: Man From Inside Mt. Shasta Says They Are Moving. April 12, 2012.

This is the young man who took me into he mountain back in the 60s. His name is Mikel. Over the years we have had many conversations. Some in the physical but for the most part by telepathy. He usually comes when I am distressed or thinking about him and the mountain. This last time we spoke it was by telepathy. The conversation came about quite late last Saturday evening. I had been asleep for about 4 hours when my cats woke me up. They were stalking something I couldn't see but they will do that if s-irit is especially close. Since I was wide awake I went to the kitchen and heated a cup of coffee. I got back in bed and was about to turn on the TV when Mikel spoke. We talked for a long time about a number of my personal issues...the fact that I was without transportation as I had totaled my car and only got a split lip out of it, about my recent move outside of Houston and a couple other matters. He indicated there would be assistance coming for me...but he didn't say from where or who. He then told me that he and the groups I had met and seen when he took me inside the mountain were in the process of getting ready to leave the mountain. I asked him why they would move and he said they had been advised that their surroundings would become unstable in the not too distant future. He didn't expand on why it would become unstable but there is no panic it seems...just their preparation to depart the mountain to a place more conducive to a stable environment. I asked him where they were going but he indicated he would communicate that later after the move had been safely made. For some reason, as he spoke about the move I was seeing Peru...don't know why. We talked a bit more and he said he would be back in contact as things progressed. We talked a bit longer and he indicated he needed to be present at the mountain, He left but assured me he is always aware of my energy.

You are welcome to share this as my curiosity is certainly aroused to see if anyone else has received any information on this projected move or the condition of the mountain.

Thanks John. Appreciate your help.

Margaret

JW No I haven't heard anything about that. I would be interested in knowing more about your contact with him, how he contacted you, was it by telepathy or in physical, what is his name and I'll share this information with the internet or kept it confidential. This is really something interesting.

Margaret Rustin.
