Subject: Rough Ride. Part 2.

April 20, 2012.

This explains some of the financial changes that they are planning to make.

.....
.....

From now on, the people are in control of A-erica and have told their state representatives to arrest these g-ngsters!

Here's how this works the m-litary must obey the wishes of the Gov-rning Body which in the past has been to stage undeclared w-rs on innocent people around the world something they are sick of doing as they know it's wrong. The constitution forbids them from breaking into civil homes and arresting innocent Ame-icans, but the c-bal has been trying to stage this World W-r 3 for quite some time now so they can declare ma-tial law in America and force the milit-ry to ignore the constitution and obey their orders to round us all up and put us in F-MA camps.

This plan isn't going to work, and it will actually turn against them as they will be the one's rounded up and put in these FE-A pri-on camps not us sheep! (ROFLMA here! payback is a B-tch Baby!) Sorry gang I just write down what I feel and sometimes it's anger, and sometimes it's laughter he he he he! Too funny here! I just had to make this picture!

Anyway, back to how this is going to work. The good guys in the p-ntagon (that are mostly mil-tary people) have wanted the people of Ame-ica to rise up and take their right back (peacefully and legally of course not violently), and that's exactly what the states have done by filing the proper paperwork with the International Court of Hague.

So, now that the international community has recognized these individual states as currently being the new Gov-rning Body of Ame-ica, (and not the Corporation) the mil-tary of the Un-ted States can legally act on behalf of the will of the people who want these gang-ters arrested and you can believe that they are very happy to get this request!

The process that follows is for the people to inform their respected states of what they want done (which they have), the states to inform the mili-ary (which they did), the m-litary to instruct the US Marshalls Office to deliver this list of ga-gsters to be arrested to the local sheriff's office in the various cities and towns across America which they are working on currently, but haven't done yet.

This will be of course a very coordinated effort, involving a whole lot of people to carry out these arrests. It is a plan that will be done in about a 72 hour period once started. The date for this mass arrest is unknown currently, but will be told on the internet 24 hours before it happens to create a viral explosion. They want everyone to know that the mi-itary will NOT be entering any civilian's home to arrest them.

This is to be done 100% legal, by the law of the constitution, which prohibits them from acting in the policing of American citizens, but instead they will be simply standing by to assist the US Marshalls and the local Sheriff's officers during these arrests to make sure they are protected in case these gangsters don't come out willingly.

There is 1,000s of resignations to date and 450 last week as well as 200 arrests.

That's 650 people involved in finance running scared like the r-ts they are and just in one week! This is world wide right now and growing as every day passes. This link from CNBC (a Main Stream Media outlet not just internet co-spiracy blogs) shows a Hong Kong gangs-er getting arrested, so this

is REAL folks not just a bunch of talk!

Drake has his sources and the match up with the latest from Ben F-lford as well. The arrests are continuing and will bring freedom to the Ameri-an people and the world. The dollar will collapse but the funding set aside by the good guys will likely keep the stock market from crashing as huge as was previously expected (by myself and many others). This is really a good thing of course, even if we bears don't get our chance short this pig as we have all been waiting on for so long now.

So, when the time comes later this year (May/June is my expected high in the market) I'd only be looking to short the dollar after it peaks within the two week window from the time the euro crashes. Drake stated that we would have about 2 weeks after the euro collapses before it hits Ame-ica, which confirms what Lindsey W-lliams says too. It's coming but the when part is still unknown?

Here is Ben F-lford's latest, which states that a New Financial System is already online now and will be there to provide funding when the time comes. This is good as these funds will be used to bring out the f-ee energy technology and other suppressed information that these gang-ters have kept to themselves for decades now.

Over 200 senior ba-kers arrested last week as new financial system goes online by Benjamin Fu-ford, 3-26-12

The new financial system is online now and abundant financing is either already or soon to be made available, according to dra-on family representatives. The final take down of the crim-nal ca-al has also begun in earnest with over 200 senior ba-kers arrested and 450 resigned last week alone, these sources say. Japan is also now doing the final paperwork needed to set up an international economic planning agency with an initial funding facility of \$10 trillion or about 200 times what the World Ba-k lends every year, according to Japanese gove-nment sources. There will be some sort of announcement about this and other things on Tuesday evening, March 27th, 2012 Japan Standard Time according to ill-minati and White Dr-gon Society sources. The arrest of some very high profile individuals is imminent.

The general structure of the fina-cial cab-l and its top leaders has also now been mapped to some extent. For example, the Rot-schild family dynasty leaders have been identified. The Swiss branch of the family is run by David de Rot-schild in Geneva, the French branch by Guy de Roths-hild, the German branch by Rothsch-ld family member and H-tler daughter Angelina Me-kele and the British branch by Evelyn de Roths-hild.

In the US, JP Mo-gan is a Rot-schild front.

The Rockef-ller family syndicate uses Goldman Sa-hs and Cit-bank as its major financial fronts. Bank of Am-rica is a front for the Italian b-ack nobility behind the Vatican and the m-fia, run in part by Peter Hans Kol-enbach, the former bl-ck p-pe. Pop- malevolent the 16th is also a senior member of this sata-ic group.

The Na-i faction is run by Fuhrer George B-sh Senior with Ben Be-nanke acting as Deputy Fu-rer. Their chemical and pha-maceutical mass mu-der division is run by the Du Po-t family.

The Bill and Melinda Ga-es foundation is now in Africa forcing families at g-npoint to accept the sterilization by vaccine of their daughters. In North Am-rica, Japan and elsewhere the mass sterilization by vaccine is taking place under the guise of protecting girls against ce-vical c-ncer. Message to Bill Ga-es: your company and foundation are going to be confiscated and you are going to spend the rest of your life making restitution.

The Un-ted States gov-rnment has been so compromised by these and other ca-al families and their foundation fronts that the upcoming US Pre-idential election, is nothing more than a power struggle between the Chicago mo- and their front man Mitt Ro-ney versus the Bu-h Texas ill-gal dr-g ma-ia and their guy Jeb Bu-h.

Hopefully the new financial system, once it is fully implemented, will pull the plug on the entire farcical show and Am-ricans will

be able to choose their own leaders based on true information provided by free media. For now though, electronically rigged elections and corporate propaganda provide sham democracy for dumbed down and drugged up Americans.

However, a look at the Pentagon budget for this upcoming year shows they have dedicated plenty of resources to financing reserve troop units inside the United States. This does not mean they are preparing to put average Americans into FEMA camps as feared by many. To the contrary, they are preparing for a mass round up of casual agents and proxies, according to Pentagon and CIA sources.

There was a clear indication of change on March 20th, when instead of having the casual scheduled earthquake hit Tokyo, a magnitude 7.4 earthquake hit Oaxaca, Mexico exactly when President Obama's daughter was vacationing there. Furthermore, this earthquake was advertised in advance through pamphlets distributed locally. This is a clear sign the bad guys no longer play the HAARP.

The London financial district is headed for further purges and the talk is that Lord Ssoon is headed for a big fall. The investigation may even extend to the UK Royal family, European CIA sources say.

In Japan, meanwhile, the status quo is expected to remain on hold until the March 31st end of the fiscal year because of overwhelming workloads in the bureaucracy and the parliament. After March 31st, there will be concrete negotiations taking place involving the Finance Ministry, Bank of Japan, Prime Minister's office and Royal Household Agency aimed at setting up a new international economic planning agency.

The Japanese self-defense forces and bureaucracy are also planning a major purge of cabinet puppets in the Japanese Parliament, banks, corporations and media.
