The Ca-al Me-bers and their 6,000 or so minions are now quitting their banking positions in the hundreds and soon to be thousands, because the individual states filed the proper paperwork to become independent of the US Corporation (owned by the Federal Reserve Bank, who's controlled by the Cabal) which means that the US Military must obey what the states want, and not what the cabal wants!

This is HUGE! The military is sick and tired of following the orders of the Cabal as they know it's totally wrong but they were forced to, because it's the law. They must follow what the governing body tells them to do, and that governing body has been the United States Corporation which is controlled by the Elite Illuminati Gangsters. They have put the US Corporation in debt Trillions of Dollars through fraudulent actions of passing the losses on it, while stealing the profits through companies like Goldman Sachs, Bank of America and JP Morgan Chase.

They force the Treasury to borrow money from the Federal Reserve Bank (which they own, and is a private corporation that reports to NO One) and have basically piled all the debts that THEY created (not the America people) onto the Treasury which makes the US Corporation so far in debt that they are essentially bankrupt.

They plan to make us sheep pay that debt while they live like kings and use us as their slaves.

Their plans will fail, and are currently failing as I write this In this new interview with an insider named Drake, who speaks with David Wilcock about what is currently going on behind the scenes, the people are but HAVE now taken action to free the America people from these Illuminati Cabal Gangstes. They have filed the proper paperwork to make the various states (I don't know how many, but a majority of them has done this) independent sovereign nation states.

(to watch on youtube:

<http://www.youtube.com/watch?v=3DKjZgsRt8PBc>)

In this 3 hour interview Drake explains how he was listening to a radio show where the host was giving bad information on how to argue with a judge in court on how to get out of a speeding ticket, not pay your debts, beat the IRS, etc Drake knew this information was not correct and could get you up to 6 months in jail if done the way that host was telling people to do it.

Drake got frustrated and decided to call into the radio show to correct it. He's studied the law for over 2 1/2 years recently about how to get your freedom back, which covered a lot more than what this guy was telling people. Drake was introduced to a group of people in 1979 that wanted him to read a 5 inch thick stack of documents that would free America from the ca-al way back then, so he wasn't new to the idea of using the legal law to protect yourself in court.

It went much deeper than anything this host of this radio show was speaking about. In fact (back in 1979) these people even thought of staging a mil-tary coup against the ruling el-te that was enslaving the America people, but decided against it and instead looked to find legal laws that would do the same thing.

Drake talks about how you can declare your own sovereignty, which I'm sure got the host of that show to listen more to what Drake had to say as he clearly was giving out information that wasn't fully correct. Drake speaks on that show of how you can declare your own Nation State independent of the US Corporation. This was all 100% legal and all it took was filing the correct paperwork.

Someone from Pennsylvania was listening to the show taking notes who was very knowledgeable in the sovereignty and lawfulness about the law and decided to implement what Drake has said. They put together a Proccss of Notification and sent it off to The International Court of Hague. (This is the civil division). It was sent by certified mail to make sure that they had proof that it was delivered to them. The Court sent a reply back that they received it.

Stay with me here folks, as it's just getting interesting.

This meant that it goes into Hague public record and is similar to posting a notification in an international newspaper. It's basically stating that I'm not responsible for my debts any longer and We are now an Independent Sovereign Nation State. This freed Pennsylvania from the debts created by the El-te Il-uminati Cab-l through the Federal R-serve Bank that was put onto the US corporation.

When this happened the office of the International Court of Hague gets a call from a higher up in the pentagon (the military good guys who are sick of this cab-l) who want to know if they can duplicate the paperwork (to be used to free other states of course). The clerk that answers the call was sure but said that it's possible. (This clerk simply works there and had no clue what the document really meant I believe, and I'm sure he/she didn't have any affiliation with the Illumi-ati Cab-l which meant that he/she would be happy to assist the request by the higher up in the pent-gon).

So, they started to duplicate this paperwork (all this starting in about October of 2011). And since it was started with someone from Pennsylvania whose got the idea from listening to the radio show that Drake called into they contacted Drake and asked him if he would help in putting this together. Drake was of course extremely happy when he realized that someone from Pennsylvania was listening to his call into that radio station and that they actually decided to take action and do what he was talking about.

Currently, as of about February the 20th of 2012 there are enough states that filed to make America free from the US Corporation!

He gladly assisted them in helping to put this package together for many other states (a majority is all I heard in the interview, and no specific number) which has now been completed, sent off, received, and filed by the International Court of Hague. They (the good guys in the pentagon) received notice in the end of February of 2012 that the office of the International Court of Hague basically got all the paperwork from all the states and filed it. This makes it legal and declares these states as Independent Sovereign Nation States.

The basic premise of a nation state is that while they could write their own new constitution (or use their existing one), it had to agree with the 1787 US Constitution, with the original 13th amendment (founded in 1812), the bill of rights, and the articles of confederation and The Declaration of Independence.

By the states declaring their own nation state sovereignty, and therefore removing themselves from the US Corporation, this rebirths the The Declaration of Independence which states (on page 2) that if the government gets out of control you have the right to get rid of the problem.

The manor and format of using these original founding documents, injunction with a meeting of resident representatives of those states gives those people the right to make the declarations. This in turns gives legal rights by the civilian authority to request the mili-ary to take action as necessary to back up the civilian action (basically carry out the will of the people of those states).

The military just loved it, as they can now follow the legal law and actually carry out the will of the civilian people not the e-ite Ill-minati c-bal anymore. There was also a group of Indian nations that submitted paperwork in such a fashion that the Un-ted States (the individual states) has been set free from the corporate government (the ca-bal gangsters) literally on a lawful basis and recognized internationally just like the Indian nations were.

Having this International recognition means that the Governing Body of America is NO Longer the US Corporation (run by the Cab-1) and is now the individual states that filed the proper paperwork that together make up the Un-ted States, which is basically the people of each state and not some evil group of old rich men that I call the Illum-nati Re-tilia-n Ca-al Banksters.
