Subject: Disclosure. Part 2.
April 26, 2012.

While I was at a meeting at the place where I go on Wednesday nights, I struck up a conversation with a person who is in my area of responsibility for taking care of pictures. I told her that I was attempted to get some pictures of Bigfoot and wondered if she would like to take some picture of the Bigfoots from about 100 feet away. She said she would like to do that and she said that the pictures would be very valuable. I told her that she could keep the money all for herself. She has state equipment, digital cameras, tripod, self timers, and an assortment of telephoto lens. We'll see if all works out well. There are also bears, mountain lions, the Wee people, UFOs, Orbs, Grey aliens and black panthers in this same area.

This part mentions that Ronald Reagan was told the truth about flying saucers by people in our own government and he believed what he was told.

.....
.....

[From Above Top Secret by Timothy Gode, William Morrow and Company, Inc. 1988.]

The AlienUFO issue is the biggest one there is. Everything else follows from it. Staggeringly huge budgets for black technology, derived from found, or traded, alien tech, are paid for by your taxes and a huge industry of covert, illegal operations. To make a long story short: since Eisenhower or Nixon, this parallel world which deals with the AlienUFO has been privatized. It is owned and managed by the military-industrial complex, Rockefeller, those people.

The last US president to be briefed on the AlienUFO was apparently Ronald Reagan, who promptly spilled his beans.

John F. Kennedy was apparently not okay with keeping this matter from the public.

President John F. Kennedy Secret Society Speech version 2

)

You just can not trust these presidents who, once in office, actually think that they are entitled to know deep secrets. One must wonder what can possibly be hidden in those 27 security clearance levels above that of the US president. That is a lot of room where to hide stuff.

Now let's look at examples of such credible research into the AlienUFO. All these fine intelligence and military people eventually become ex-intelligence and ex-military fine people. They approach the end of their earthly lives and some decide to take their secrets to the grave, while others decide to leave those secrets outside of their coffin. But before they die, they live their lives as retirees, with grandchildren and all, they stay in touch with their colleagues. They talk. They may be still under oath to shut up or else, but when one's life draws to a close, everything becomes relatively ... relative. Many of these people have chosen, and choose, to confide their secrets before they leave. And not a few of them must be compelled to find out more about the AlienUFO by exchanging information and putting new incoming data into perspective.

Getting a bigger picture

Such is the case of Project Serpo. About 150 of these now private citizens with low profiles but formerly high positions and insights in all sorts of agencies and fields meet in an email forum. Anonymous informants show up in this forum and spreads highly novel information regarding AlienUFO. They conclude that, as outlandish as it is, the anonymous whistleblower's information merits very close scrutiny. They also try to find out who this whistleblowing person is, and among themselves, speculate about his identity (it turns out that there are three informants, one only contributing a few

percent while another over 80% of the highly class-fied information, reportedly of some 3,000 pages total). Keep in mind that any serious whistleblower who does not go anonymous is a de-d whistleblower, perhaps barely able to whistle past the graveyard, his graveyard. And if the informant answers the right questions to him in the totally wrong way, he gets kicked out of this special sandbox. If this piques your interest, keep the link handy:

Ben R-ch, Lockheed Skunk Works director, has admitted in his Deathbed Confession that Extraterrestrial UFO visitors are real. Dr. Ben R. Ri-h confirmed:

<http://www.viewzone.com/event1-lockhead.gif>

1. There are 2 types of UFOs -- the ones we build and ones 'they' build. We learned from both crash retrievals and actual "hand-me-downs." The Gov-rnment knew and until 1969 took an active hand in the administration of that information. After a 1969 Ni-on "purge", administration was handled by an international board of directors in the private sector...
2. Nearly all "biomorphic" aerospace designs were inspired by the Roswell spacecraft -- from Kelly's SR-71 Blackbird onward to today's drones, UCAVs, and aerospace craft...
3. It was Ben Ric-'s opinion that the public should not be told [about UFOs and extraterrestrials] . He believed they could not handle the truth -- ever. Only in the last months of his decline did he begin to feel that the "international corporate board of directors" dealing with the "Subject" could represent a bigger problem to citizens' personal freedoms under the Un-ted States Constitution than the presence of off-world visitors themselves.

Most of these people are very easy to find on the web, and have given plenty of interviews telling their story. The Natio-al Press Club has hosted several top-level conferences dealing with UFO's interfering with intercontinental ballistic m-ssile systems, turning them off, or reprogramming their target coordinates. Exopolitics is the new game in town. The biggest new discipline ever to come unexpectedly from left field. Straight out of woowoo-land, the AlienUFO complex is being exposed by courageous and articulate people, many of them, if not most, US citizens.

Some of them are definitely kooks and di-information agents, but the vast body of evidence is reflected in a concerted effort to put together a bigger picture. Some claim that Disclosure, official Disco-co-closure with pomp and circumstance, is just around the corner. Who knows what will come up at the next major interruption of your regular programming. Very likely, more programming. Disclosure is what you can and perhaps should do for yourself. It also is happening all around you, on the internet, in thoughtful conversations, at conferences. It is not an easy subject to get into, and aren't we all too busy? It stands your world on end and shakes it, no question about it. AlienUFO is not stranger than you suppose, it is stranger than you can suppose. AlienUFO is not going away but only getting hotter by the year, by the month, by the week. It has been going on for many decades, and we are coming to a critical point. Apocalypse means Re-elation. If there is a bigger reve-ation than the revelat-on of the multiplicity of intelligent life in all shapes and forms around us, below us, above us, and within us ... tell me which one it is. Meanwhile, we are going to put together a good collection of material that shows you that daily disclosure has been happening, and happens. You just don't know it until you know it. Dislose this. For yourself. Nobody official is going to do it for you without lying about it. Choose your sources well and apply a good dose of uncommon sense, intuition and pattern recognition. And forget about official Disclosure happening on your teevee. Before that happens, it happens in a few primetime TV series to get you used to it. Predictive Programming is what it is called.

Post 2.

Part 2 of this series, we are going to Disclose This AlienUFO thing as if there was no tomorrow. You will be surprised what hair-raising evidence is out there!
