Subject: People Who Are Sent To Meet Me.  
2012.

April 3,

It seems that when I sit down to wait on a person to come pick me up, people come near me and want information. Yesterday I was sitting in front of a grocery store and man set down by me and asked if I knew what time it was. I looked at my fancy gold colored SECO watch and told him what time it was. Next a nice looking middle aged lady came up and asked what my name was. I told her it was John Winston and the conversation got around to the subject of me being on the internet and I had been posting to about 100 people on my personal mailing list, 23 news groups like alt.fan.rush-limbaugh which has more than 4 milion messages on it and also some more groups.

She then asked me what I talk about and I told her, ESP, UFOs and Bigfoot. I also told her that I had been asked and had volunteered to be the ambassador of the space people to this world. The man next to me then took over the conversation and told her all about the Uranita book. I then told them both that we study the Uranita book at Ralph Squire's home. I asked the man if he knew Ralph Squire and he said he didn't.

My friend then honked our car horn and I said I had to leave.

This same thing happens to me quite often.

Here is some information as to what the space people are doing now.

May 1, 2012

The prevailing theme these days seems to be chaos in the West but what we are really witnessing is the controlled implosion of the criminal c-bal that took over the Western financial system and nearly destroyed Western civilization. Among the events associated with this collapse were: a fake missile launch in North Korea, the ongoing cover-up of a botched as-assination attempt against O-ama, multiple liens being placed on ca-al-controlled central b-nks, a tri-ateral commission meeting in Tokyo, unprecedented mi-itary maneuvers and more.

We are entering a very dangerous period as the cornered cab-lists are certainly planning a massive new te-rorist attack (possible tagets : Tokyo, Rome, London) in an attempt to stay in power. Mili-ary, p-lice and other action against caba- power centers is also picking up pace.

One sure sign of change for those still clinging to the old power paradigms is the joint mi-itary maneuvers linking the Chinese, Russian and US a-med forces. On the one side rogue pentagon forces working for the ca-alists trying to steal Asian gold stashes were confronted by joint Chinese and Russian forces. On a different front, a joint US and Russian force is preparing to storm the N-zi ca-al base under Denver Airport. These mi-itary maneuvers make it clear, if nothing else, that it is now better to think of geopolitics in terms of transnational factions than it is to think in terms of nation states.

The split between the Ob-ma faction and S-bbatean g-ngster faction is one such example. The m-rder attempt against Oba-a in Columbia by members of his own se-ret service early in April is a good example.

The corporate pr-paganda press is only reporting this as a pros-itution scandal. However, both M-6 and C-A sources say the mu-der attempt against Oba-a was a hit ordered by Israeli Prime Minister Benjamin N-tanyahu and top North American M-ssad agent Rahm E-aniel.

Obama- is not publicly naming them because if he did so, stories about the mur-er of his l-ivers in Chicago and other -bama s-crets would start appearing in Sa-batean ga-gster pr-paganda outlets like the J-w York Times.

The Sab-ateans, for their part, are putting out stories on internet chat boards claiming the whole assas-ination attempt was planned by amateur rogue agents.

In any case, Ne-anyahu and his mess-anic faction is now finally being renounced by mainstream Je-s and Isr-elis. The most public sign of this was former Isr-eli Internal S-curity Chief Yuval Di-kin denouncing Net-nyahu and his colleagues as incompetents with a me-sianic complex. Unlike other such comments, this was widely quoted in the corporate pr-paganda media. It seems the real -ews are finally taking action against the fanatical messi-nic gan-sters who have been terro-izing them.

US protest movements like Oc-upy Wall Street are also gearing up for what is expected to be a summer of discontent. The organizers have been waiting for warm weather and that weather has arrived.

Meanwhile, although there is still talk of mass arrests taking place to clean out the corruption and gan-sterism that has taken over the Was-ington D.C. po-itical process, it still has not happened. A growing number of people both within and without the mi-itary and agencies are growing impatient with the delay. However, the word from the penta-on is that it will not move until all the i's are dotted and t's crossed in the new fina-cial system.

In Europe, meanwhile, signs of collapse are visible for all to see. The crisis in Spain, imminent regime change in Holland and France, arrests all over Europe and the implosion of the big b-nks are there for all to see either in the corporate media or on the internet.

In relation to this, the W-i the Dragon Society was asked to relay the following message: A US agency cleaner, by the name of L-ftie, has been sent to Italy to remove scum. Presumably this refers to the hyg-enic risk posed by clumps of bacteria to be found in Italian public facilities.

In Asia, meanwhile, a lot continues under the surface. The cab-l sub-committee known as the Tr-lateral Commission met last week in Tokyo. The public discussions were fairly low-key but there was a lot of talk about the value of underwater resources in the South China Sea. This was accompanied by p-ntagon and allied mi-itary maneuvers around China and provocative statements by various ca-al assets about tiny territorial disputes with China.

This saber rattling was accompanied by a farcical show in North Korea. Hundreds of c-bal luminaries and other international guests were invited to North Korea for the 100-year anniversary of Kim Il Sung. As one of the highlights of the festivities, the guests were all taken to see the provocative rocket North Korea was about to launch. However, at the time of the so-called launch, no foreign guests were present and the entire launch area was covered in fog. According to Japanese mi-itary intelligence no foreign gov-rnment agency was able to get any images whatsoever of the failed launch. The best guess is that the entire thing was a giant publicity stunt.

Presumably the upcoming nuc-ear test, is also some sort of negotiation and publicity ploy by ca-al forces desperate to stir up trouble in the Far East. They will get nowhere.

Japanese Prime Minister Yoshihiko N-da is also in Washington this week where he is expected to get the cold shoulder. He will be asking for access to the vast sums of money located inside Ba-k of Japan computers but Ob-ma and other Washington lackeys are not in a position to hand it over. If they could, you can be sure they would use it themselves.

Instead, a lien has been placed on the Ba-k of Japan claiming this institution has been engaged in ille-al and fraudulent money creation since 1968. Depending on its response to the lien the BOJ may be impounded by poli-e acting on orders from In-erpol.

The best guess for fundamental regime change in Japan and the West is that the month of May will be characterized mainly by the continuing collapse of the old world order. There is plenty of talk about big events

in June linked to the liberation of the West and Japan.

The White Dragon Society, for its part, has begun a systematic campaign on multiple levels to overthrow the -abal. There will not be much to see at first but just wait.
