Subject: The Reptilians.
May 11, 2012.

Here's a person who thinks we have reptilians on Earth. Let's hope they have cleaned up their act and are not working for the Galactic Federation. I doesn't hurt to be cautious though.

.....
.....

Art G-eenfield has some very controversial views on the Reptilians. Author of the book "The Warning" what you will find in this interview is some startling information. Even though I personally find it hard to believe every reptilian in the cosmos is of e-il nature. I have to admit there is some startling information here connecting them to plights on Earth that may not be in mankind's best interests obviously. I will leave this for the reader to decide.

I have discussed the reptilians many, many times on my radio show

<http://www.churchofmabusradio.com/>

The C-urch of Mabus.

Glad to have a chance to jump aboard the discussion once again.

Presenting.

1. Could you tell us a bit about what experiences you had Alien related that brought you to the journey of writing your book Warning?

Art Gr-enfield: I never used to believe in aliens or UFOs, especially since I was an aerospace engineering major in college. Most engineering types knew that the state of the art in space travel did not allow for faster than light flight between the stars, because we could not do it. After I moved to Florida I met with several engineers from N-SA over the years and learned from them that alien operated UFOs were real. Then a UFO buzzed a Space Shuttle while it was lifting off. It was shown on the local TV news. The news people showed the clearly filmed footage from NA-A's down range tracking cameras. One top NAS- manager later told me that he had been briefed on what the aliens had planned for us, and it literally scared him more than anything he had ever experienced.

Personally, I'm pretty close to the action without having to go out and look for trouble. My ex-wife was abducted by the aliens right out of our bed. One of my daughters had 2 missing pregnancies. My son and his wife and my grand daughter saw 6 Gray alien shadow people behind their house twice, and 1 inside their house, as did my ex-wife. They apparently followed my ex-wife home and abducted her a few days later, with about 50 other local women that night. After that abduction, it jogged by ex-wife's memory and she remembered several abductions from when she was a little girl. That sudden remembrance could very well have been the result a retrocausal foray back in time to get control of her to use her to distract me in a h-llish alien love bite situation, to disrupt me from doing anything the aliens did not like. I cover the details of this in my book (not the retrocausality part as I did not know about their time travel damage control operations until I found out recently what they had done to physicist Dr. Jack S-rfatti and 400 other physicists and scientists in 1953 to divert them from a major US go-ernment project to back-engineer recovered alien equipment. That project was supposed to start in 1973 but could not get off the ground because all of the scientists qualified to do the research were occupied in ways that prevented them from being available.) A few months ago two abductees I know, who do not know each other, were abducted. During their abductions the aliens asked each of them, "What do you know about Art Gre-nfield?" I seem to be on the alien artificial intelligence computer's watch list. I must do something in the future they don't like and they are gathering information about me to do something to stop me. I have learned from other people's mistakes (like the d-ceased Dr. John Ma-k) and now I keep a low profile. Over the years I have been asked to appear on the Coast To Coast AM show four times by Lisa L-on the shows producer but turned it down. I prefer to run a back ch-nnel operation behind the scenes. As an example, I got George Knapp on Coast To Coast to do a final tribute show for Budd Ho-kins shortly before Budd di-d, with Budd and Dr. David Jacobs doing a full

show that night. I also contacted Lisa Ly-n and had her put Dr. Jerome C-rsi on the air when he escaped arrest in Kenya with a copy of O-ama's K-nyan birth certificate. Ob-ma is part of the alien problem. (JW I still think he will declare himself to be worker of light and bring down the Powers That Be.) He is one of several of their "world leader" type hand-puppets. The aliens went to a lot of trouble to get him and Vladimir P-tin elected. The alien's hand-puppet leader control program is a long story by itself.

2. In your book you talk about the human r-ce being in danger from these alien beings. What type of beings are these and where are they from and why are we in danger of them?

3. What can you tell us about the Reptilians and their agenda? Are all of them ev-1 in your perspective. I find it kinda hard when a lot of people label an entire species as evi-? Sure they aren't all -vil right? Just like people there has to be good and bad I would think.

Art Gree-field: 2. and 3. UFOs are not all flown by true extraterrestrials, the majority of them are owned and operated by our advanced Repto Sapien cousins, who share the Earth with us as their ancestral home world. They are historically cited in about 80 places in the B-ble, being described as a SERPENT THAT WALKS UPRIGHT ON TWO LEGS AND IS AS TALL AS A CAMEL (8 FEET TALL). There are statues and temple paintings of them in nearly every ancient society. This has nothing to do with "r-ligious beliefs." It is a proven historical and archaeological fact. That's why I wrote a book showing all of the real world evidence. There is plenty of historical evidence the Reptilians use us as a food resource, and that they were in control in ancient times.

Here is a reference about them from the Bi-le, Old Testament: N-MBERS 21:6: "And the Lo-d sent fiery serpents among the people, and they bit the people, and much people of I-rael died." When I was doing research for my book I was able to find about 80 references to our alien Repto Sapien cousins in the Bib-e. They were behind all of the major w-rs from back then to the present day. Here are some facts about the particular aliens who have been interacting with humanity throughout history, including bi-lical references. I named them "Repto Sapiens" a while back. Like humanity, they too ev-lved from dinosaur roots here on earth. That is the main reason they keep coming back here, this is their ancestral home world. They are not coming back periodically just to visit the old neighborhood though. Since they are still a part of our food chain, they stop by when they migrate their excess population elsewhere because we have food resources here they can use to restock the meat lockers on their mother ships. You can't grow meat in space. When I was doing research for my book I found evidence showing exactly what the Repto Sapiens had been doing here throughout history. The US go-ernment knows what is going on but keeps it quiet because it would cause societal disruption and a backlash from various major re-igions. I wrote my book to explain everything in a way that people could understand and not get upset. I'll try to cover some of the topics here. For the rel-gious people, you probably think that Go- would not allow other beings to eat us. I know you are very relig-ous and believe that pr-yer and faith are all you need to protect yourself from our Repto Sapien cousin's food needs. The preponderance of evidence shows they are using us as a periodic food resource. All of the ancient temple paintings, statues, and wall carvings that depict them show they are eating us, not having s-x with us, or stealing our so-ls. It is written in the Bib-e that some of the reptilians b-ed with human females, but that was for their own individual -exual relief like sailors on shore leave, not part of a major breeding program. It is even analogous to human shepherds who have s-x with female sheep in the field because they are a long way from women. The sheep are still destined to be slaughtered and eaten. There is no commercial trade in sheep going on where they are used as se- partners or as sheep pr-stitutes, you know. We all have 97% of the same DNA that our Repto Sapien cousins have. I cover that in my book. As a side note, because the Repto Sapiens are so close to us genetically, some of the women who were used s-xually by them in bib-ical times gave birth to hybrids that were giants. In any event, neither Je--s or Go- has ever made any exceptions for humanity in -od's food chain. Life feeds on life, and pra-er will not stop it. Its been that way for billions of years. Pray-r did not save the Chr-stians fed to the lions in the Roman coleseum did it? Go- loves lions too. Repto Sapiens are -od's creatures also and they predate us on Earth by millions of years. They eat

The Reptilians.

what they want and it is okay with G-d. We return the favor here in Florida by consuming meat from our other reptilian cousins, the alligators, and they share 98% of our DNA. It's like the gator hunters here say, "Somedays you get the gator, other days the gator gets you." We are so alike, right down to the 'reptilian part' of our brain.

Did you know that the Repto Sapiens have evo-ved from their dinosaur roots to have mammalian traits like we do - breastfeeding their young? Look at the photo on my web site of the Repto Sapien statue from ancient Sumer depicting one of their females breastfeeding a baby rep.
