In a riveting interview on TruNews Radio, Wednesday, private investigator Doug Ha-mann said high-level, reliable sources told him the U.S. Department of Homeland Sec-rity (DHS) is preparing for massive civil wa- in America.

Folks, we're getting ready for one massive economic collapse, Ha-mann told TruNews host Rick W-les. Sign-up for my 100% FREE Alerts We have problems . . . The federal gove-nment is preparing for civil uprising, he added, so every time you hear about troop movements, every time you hear about movements of mili-ary equipment, the militarization of the po-ice, the buying of the ammuniton, all of this is . . . they (D-S) are preparing for a massive uprising.

Hagma-n goes on to say that his sources tell him the concerns of the DH-stem from a collapse of the U.S. dollar and the hyperinflation a collapse in the value of the world's primary reserve currency implies to a nation of 311 million Am[ricans, who, for the significant portion of the population, is armed. Uprisings in Greece is, indeed, a problem, but an uprising of armed Am-ricans becomes a matter of serious national security, a point addressed in a recent report by the Pe-tagon and highlighted as a vulnerability and threat to the U.S. during -ar-game exercises at the Department of De-ense last year, according to one of the D-D's war-game participants, Jim Ric-arads, author of Currency Wa-s: The Making of the Next Global Crisis.

Through his sources, Hag-ann confirmed Ricka-ds' ongoing thesis of a fear of a U.S. dollar collapse at the hands of the Chinese (U.S. treasury bond holders of approximately \$1 trillion) and, possibly, the Russians (threatening to launch a gold-backed ruble as an attractive alternative to the U.S. dollar) in retaliation for aggressive U.S. foreign policy initiatives against China's and Russia's strategic allies Iran and Syria.

The one source that we have I've known since 1979, Ha-mann continued. He started out as a patrol officer and currently he is now working for a fed-ral agency under the umbrella of the Department of Hom-land Security; he's in a position to know what policies are being initiated, what policies are being planned at this point, and he's telling us right now look, what you're seeing is just the tip of the iceberg. We are preparing, we, meaning the gov-rnment, we are preparing for a massive civil -ar in this country.

There's no hyperbole here, he added, echoing Trends Research Institute's Founder Gerald C-lente's forecast of last year. Ce-ente expects a collapse of the U.S. dollar and riots in Amer-ca some time this year.

Since Cele-te's Civil W-r prediction of last year, executive orders N-AA and National Defense Re-ources Preparedness were signed into law by Pre-ident Oba-a, which are both poli-ically damaging actions taken by a sitting pr-sident.

And most recently, requests made by the DH- for the procurement of 450 million rounds of hollow-point ammunition only fuels speculation

of an upcoming tragic event expected on Ame-ican soil.

These major events, as shocking to the Ameri-an people as they are, have taken place during an election year.

Escalating preparatory activities by the executive branch and -HS throughout the last decade from the Patriot Act, to countless executive orders drafted to suspend (or strip) Am-rican civil liberties are just the beginning of the nightmare to come, Hagm-nn said.

He added, It's going to get so much worse toward the election, and I'm not even sure we're going to have an election in this country. It's going to be that bad, and this, as well, is coming from my sources. But one source in particular said, look, you don't understand how bad it is. This stuff is real; these people, the Department of Homeland Se-urity (D-S), they are ready to fight the Am-rican people.

TruNews Wil-s asked Ha-mann: who does the D-S expect to fight, in particular? Another North versus South, the Yankees against the Confederates? Hag-ann stated the situation is far worse than a struggle between any two factions within the U.S. it's an anticipated nationwide emergency event centered on the nation's currency.

What they [-HS] are expecting, and again, this is according to my sources, what they're expecting is the un-sustainability of the Ame-ican dollar, Ha-mann said. And we know for a fact that we can no longer service our debt. There's going to be a period of hyperinflation . . . the dollar will be worthless . . . The economic collapse will be so severe, people won't be ready for this. Sign-up for my 100% FREE Alerts
