Subject: What Winifred Barton Has To Say About Mother's Day. May 12, 2012.

Here are some words from my friend Winifred Barton regarding Mother's Day.

.....

*EARTH IS OUR MOTHERSHIP - MOTHER OF ALL *

MOTHER GODDESS DAY - 2012

The Soul of every True Mother is a mirror reflection of the WORLD SOUL. Today we celebrate the return of the TRIPLE GODDESS, now penetrating the human psyche, to manifest the Mother Spirit in every feminine particle of the *LIVING WORLD SOUL. *

The Female Psyche experiences the seasons of the spiritual and emotional evolution of the *VIRGIN EARTH - *

SHE - *Our Wondrous *BLUE PLANET, is the MYTHRAIC GODDESS, born in the flesh, visited by the Lord of Light to conceive a Sky-Earth Child, born of the union of Heaven and Earth. Yes, She goes from virginal awakening - through her *mythraic RED QUEEN spree when their offspring are growing up - *thus we say '3 cheers for the red white and blue!' as time returns to light

*AS ABOVE - SO BELOW *is the DAY OF FULFILMENT. Psyche's Anointing of the Holy Spirit in the Temple of The Soul is underway. This is the fulfilment of the Arc of The Covenant! Sunrise in "Garden of Eden II." The New Heaven imprinted on the New Earth.

THE SKY EARTH CHILD is the functional Solar Cross where all dimensions coincide. The great magnetic grid coming from the four corners of the Earth snaps together with magnetic precision. This completion of the Conical Romance is valid on an individual and global basis, for all is one in the *UNIFIED MAGNETIC FIELD. *

The horizontal knit and the vertical zip of the Magnosphere are secure. The longitude and latitude of the New Earth Horizon is limitless. Life sparkles with infinite possibilities to challenge the genius of each and every Son and Daughter of the dualistic monopole of the God Goddess Parent.

SHE lives within THE COMMONALITY as the Right to Life of every creature under THE SUN. Biased thought of better/worse than thou are impediments to GLOBAL BLISS.

*ALL MEN & WOMEN ARE CREATED EQUAL. *

Ethnocentricity is Our Lady's Glorious garment. Each tribe and culture has its own unique colour and flavour ready to be polished to perfection for Earth's ROYAL COMMAND PERFORMANCE.

The rocks and stones sing HALLELUJAH! The TRIPLE GODDESS is alive, and marching in the global MILLION MOTHERS MARCH for abundant life and mutual benefit systems 2992. Life energy is neutral. The human brain is a reduction machine. Earth is a ship of relations. Man has the power to turn life energy to good or evil purposes.

*A GLOBAL UTOPIA IS THE ORIGINAL INTENT. *

The Feminine Principle is our infinite interior world. The outfling of technical evolution, by which Utopia is made manifest is the product of YANG. TODAY we can go to the end of the Love's Creative Thought, and rejoice in our move from Lower to Upper Kingdom ethics and modalities as "Children of the One."

THE WORLD SOUL is the heart flame of every Human Psyche. The MOTHER'S MYTHOLOGY is written in all the books and stones of Ancient literature: SHE is the Mother of All Life on this Blue Planet. Believe and Receive Her Grace in our Heart, that Earth can be free of the law of Sin and

Death, in a moment, in the twinkling of an eye as we enter the State of Pure Rapture.

The Mythology of the Mother Goddess penetrates all cultures, though She goes by many names. All Her Names reflect the rainbow facets of this One Glorious Being. In Palaeolithic times early examples of the VENUS figure, were found near Vienna. Stonehenge tells the same story.

*SHEKINAH - GAIA - ISIS - MARY -KALI -SHATKI SOPHIA is ONE BEING
*clothed in different aspects of the Feminine Archetype, which represents the creative power of nature, the processes of fecundity, the periodic renewal of the cycles of life, death, and resurrection.

The Virgin Earth/Gaia, incorporates the Archetype of feminineseasons if the heart, from adolescence to *WISE OLD CRONE * which a woman's life cycle exemplifies.

Most fertility goddesses are portrayed as having a young male consort who dies and is continually reborn. In Greek mythology, *APHRODITE * is frequently portrayed with a young male consort, as in the myth of *ADONIS *. This element of the dying male deity, representing vegetation, which dies in winter and is reborn in the spring time, depicts how THE WORLD SOUL makes Her transition from her primal state of being an unmarried mother to having a son, a lover, or both.

ISIS is a variant of this relationship in the mythical death and resurrection of her brother-husband, OSIRIS. Isis became a universal goddess, with the 12 member zodiac orbiting around Her head. The statue of Mary in the Vatican based on the of the fertility myth, 11.8 correlates. The cult of Isis persisted during the first four centuries of the Christian era. In Christianity the figure of the Virgin Mary as the "Mother of God," has clear affinities with the ancient mother goddess who gives birth to the Divine Child, the dying and resurrected male god whose blood is shed for the sins of the world is a central common denominator.

The "Second Death" is how we come alive again as we "rise up in the air to meet him" and become one with THE ETERNAL. In the Lower Kingdom people are like dreamsleepers, not yet fully AWAKE to the awesome wonder of their own infinity.

False sex images and manipulative emotional byplay have destroyed the true image of The Goddess. When this happens, poverty becomes a state of mind, and each true heart is filled with an endless longing to bring The Mother Goddess back again.

"Love them as I have loved you. I AM Divine Love, Truth, and Wisdom, the Triple Goddess of love divided into all its wavelengths, loving, teaching, healing, nurturing.

SHE comes to free mankind from the demagoguery that is deluding the common people. The Common Man loves his brother and seeks only to reach out his hand in friendship. Our whole earth life is a reflection of the Magical Journey of the Cosmic Lover which ends on this MAY DAY 2000.

+++++

For at the gates of the Mighty, She hath taken her seat,
and at the entrance thereof chanteth Her song...

"In the beginning before the Lord made the Earth,
When He furnished the Heavens, I was with Him;
and when He set apart His throne on the winds,
When He set the sea its bound, and the waters passed
not the word of His mouth I was harmonizing with him.
I was the one in whom He delighted, and I was daily
gladdened by His presence on all occasions."
