Subject: Offer Of A Gift.

May 29, 2012.

The good type space people are offering to give us a gift of something. This explains what the gift is.

Noah's Ark R-incarnated for the 2012 Summer Olympics

Posted: 28 May 2012

Noah's Ark has made a return, and its creator, Dutchman Johan Huibers, hopes to present it at the 2012 Summer Olympics in London, England, replete with mechanical as well as live animals, to teach children about the biblical story of the great flood and Noah and his family's efforts to preserve two of every kind of animal on the planet. The 3,000 ton, 450 foot (JW The original ark may have been about 550 feet long or otherwise called 300 cubics long.) long and 75 foot high ark is an exact replica in size and design of the biblical ark, and is the result of a quest began after Huibers awoke from a dream about another great flood that rose above Holland's dyke system.

F-ee energy zones:

Fr-e energy zones will be areas of designation that are provided to supply clean and free- without charge or cost energy to those in these areas willing to participate in these projects. What we would like to do is put aside your current means of supplying your households with energy and installing a new technology that will better improve the efficiency and the supply of clean energy into your home. These projects will be performed on a worldwide level and there will come a time when each and every household on your planet will be furnished this technological advancement that will supply clean energy without a cost to the subscriber of this technology.

To participate in this program, we ask those of you who are willing to make certain changes in your household to make their names available to us either telepathically or through posting or commenting throughout your online social networks and we will enter your name into our database for consideration for this advancement in your home. What this technology entails is an entirely new way to harness energy from the atmosphere surrounding your planet. This area of your planet is known to you as the stratosphere, and it is here that energy is available for this kind of use through the implementation of a device that is installed in a home or dwelling. This device will pick up radiating energy that encircles your planet. It will then clean and purify this energy before its use to power appliances, heating and lighting in your home. What it will not do is power automobiles, trains, buses and airplanes, but we have other means to power these systems of

transportation that at this time are important to your world.

We would like to begin the implementation of these energy devices in the homes of those of you willing to participate in our initial programs to introduce this technology to your world. We will be monitoring the publicly accessible areas of your online social networks to monitor your responses to our offer. We hope to see a large number of you willing to participate in this program, as we feel a large number of you utilizing this technology will act as an icebreaker for many of our other projects that we wish to implement that will advance your world greatly and benefit so many.

We wish to begin the implementation of these energy devices in the months ahead, no later than September, although always keep in mind that timelines are fluid and unforeseeable schedule changes do occur for a myriad of reasons and complications concerning the matter of your criminal cabal. They, of course, will not be very pleased to discover that we are now going to go ahead with the distribution of these free energy devices. This is one of the larger points of their discussions amongst themselves, as they perceive this as a great blow to their power. We relish the opportunity to take away so much of their stolen power and deal a blow to their illegal and unconstitutional empire. These factions of your criminal organizations will begin to see the destruction of their power structure immediately upon the implementation of these free energy devices, as it is the hoarding of energy and its ransom like sale to you, the people, which has lined the pockets of many members of your criminal cabal with riches.

By taking back your right to pure, clean energy, you are taking back your right to exist on your planet without having to pay someone rent, tax or tribute in any way. This is one of our main goals here in your world and we, the Galactic Federation of Light, will not leave here until you, our brothers and sisters of Earth, are freed from the tyrannical control of these dark masters. Breaking you free from the bondage of heavy taxation and extortion for energy that can easily be provided to each and every being on your planet completely free of charge is a task we are committed to accomplishing, as we see this as a major tipping point to who yields the power in your world. We wish to give the power back to you, the people, and set certain rules and guidelines to ensure that the people will forever be in power here before we depart to again assist another world break free from the limitations that currently bind them to lives of drudgery, toil and limited freedoms, rights and rights of expression.

Our job here is not nearly complete, as there is a great amount of work to be done by us as well as by you. Help us help you make these changes throughout your society by dispensing this information as far and as wide as you can. Do not allow the snickering and the bickering of some that have yet to see the greater picture dismay you in any way from your task of being a fountain of information for these new ideas and concepts. As we have advised you, you will be seen as a pioneer of your new world, as in the days ahead all will see that what you speak of today is a sneak peek into the future of everyone that calls this lovely planet their home.

What a joy this will be for your families who can turn on a light switch or an appliance and power your technologies with our technology that we will very happily share with our friends. We see the sharing of this technology as a bridge that will be built between our two civilizations, yours of Earth and ours from the stars. Do you already feel how empowering it will be for you to be able to tear up your contracts with those who currently supply your homes with electricity, heating oil, propane or gas? Do you see already how much of your hard-earned wealth you can preserve for better uses for you and your families? We are very excited to present you with our first gift of technology, and we look forward to seeing many of your names provided either telepathically to us or posted publicly in forums in your online social networks. We have staff

ready to begin monitoring these online sites for your reaction to our offer to supply you with these new free energy devices that can and will be easily installed in your homes.

How these devices will be presented to you from us is a matter we will disclose at a later date when we are more comfortable with the position of your criminal and their many minions. At this time, they yet roam free in your world, but this will change and it will change for good. We see these arrests of these individuals as a very important step for your world and your people, and we urge at this time your members of the teams undertaking this great task to step up their efforts to make this event a reality. Again, we wish to make it clear that we remain fully prepared, backing you up in protection from those of your world militias who may choose to attempt to interfere in some way with these procedures.

As we have said, we will do all that we can to make sure your efforts go unmolested by any militias or factions yet aligned with your criminal organizations. This is what we will do for you, but we cannot make these arrests for you, as it is your world and you must take it back from those who have stolen it from you. This is the way it must be, and we hope that the people of your world can understand this and see why it is so important for you yourselves to take back your rights of sovereignty and your right to live in a world free of those who only understand the concepts of more power, more money, more control and more struggle and hardship for those they feel they possess like so many assets in their accounts.

(JW Well I'll say for myself I'm ready for this form of energy.)

Part 1.
