SaLuSa 1-June-2012

This year you have come a long way in such a short time, and our allies have progressed to the point where their efforts are about to pay off. At times it has been a precarious journey, as the more successful you have been in anchoring the Light upon the Earth, the more the dark Ones have been determined to halt your progress. Yet you have risen to the challenge, and the possibility of you being stopped before you have reached your goal has passed. It is therefore plain sailing from hereon, as our plan unfolds and almost everything is in place for the final thrust. Timing as always is the biggest factor at present, and when we get the signal to go ahead matters will move forward very quickly.

As people have awakened to the Light within, so the Light quotient upon Earth has increased exponentially and has reached a powerful level. The result is such that the lower vibrations are being transmuted, and that a far greater level of consciousness exists than before. It means that all of the planning and hard work to raise such levels has been a great success. Suddenly more of you are receptive to the new ideas that are being put forward, that will lift your civilization up and out of the dark period that you have just gone through. The idea of dramatic changes to your life, ingrained habits and beliefs, is suddenly being welcomed, as you can see the benefits it will bring. Nothing comes without some sacrifices, but as we have often informed you, it is all for your future happiness and wellbeing.

We view your present position as one that enables you to cope quite easily, and we look to you to carry other people forward who are less aware or uninformed. The preparations that we have made, will at some stage take over the responsibility of keeping people up to date with what is happening. That is viewed as very important, as we must be seen to be operating in your best interests at all times. It is in fact very easy for us to superimpose our messages upon your television sets, even when they are not switched on. However, once we are allowed to openly meet you the circumstances will change, as we can then appear live and operate our own c-annels.

The extent to which there has been an ongoing cover-up of the truth for many, many years, is quite astonishing to us, as your Gov- rnments have spent enormous amounts of money in supporting the organizations that are being used for this purpose. Even now it continues with SETI who search the Universe for signs of intelligent life, yet your Gove-nment has had a continuous dialogue with the extraterrestrials you know as the Grays. It has been going on for some 70 years, and on a regular basis. Even we of the Galactic Federation of Light have had contact with your leaders, and our offers to bring peace to the world were refused. That did not surprise us, because the agenda of the dark Ones was to take over the world and e-slave the people. Their plans were well advanced and within sight of success, until you suddenly responded to the Light and began to understand the truth.

In the past you have looked to us to save you, but that was not permissible as with freewill choice you created the circumstances that developed and trapped you. It relates to the Law of Attraction, and when the vibrations reached a very low point it allowed extraterrestrials Beings of a similar vibration to contact the Earth. That was when agreements were made to allow them bases on your world, in exchange for advanced technological information. It was of course used for ulterior purposes, and mainly weapons of destruction. Very little of it has been passed on to you considering how the great advancements would have benefitted your lives. That suited the dark Ones plans, as they knew that people who have a lack of the necessities to live a normal life are reliant upon them for their existence.

The most abominable aspect of the plans of the dark Ones, was their intent to keep you in a state of w-r even if it meant starting them by false means. They have the guilt hanging over them for the deaths of millions upon millions of souls. We know some of you cannot understand why in such circumstances we did not intervene, but we are not allowed to interfere with a civilization's evolution. The only exception is where we are given divine authority to do so, as happened more recently when it was decreed that no more wars would be allowed. We will add that it also includes off world wars, and a long time ago your big powers were told in no uncertain terms that nuclear weapons would not be allowed to be taken into Space. Even so they ignored our warning, and suffered the consequences when their craft were destroyed or removed.

Dear Ones, if you really knew the truth about the dark operations that have been carried out, you would be so shocked and upset. People that you have looked up to have often been behind such happenings, and have wielded such power that those who are honest and good willed have not dared come out with the truth, for fear of their lives and often their families. However, we are pleased to note that in very recent times more people than ever are prepared to openly come out with the truth. It is revealing the covert operations of the Illuminati, that are mainly directed and supported by the powerful banking families. Fortunately, the same whistleblowers are able to inform you of how those who work for the Light are putting the pressure on the dark Ones, to the point that many of them are marked for arrest and will answer for their crimes.

What we have revealed has not exactly been kept secret, and if you know where to look you can find much more information on your Internet. One of the most atrocious acts of the Illuminati was 9/11 and since it occurred it has been privately investigated by many professional bodies, and reams of information is there on your Internet. Your mind will not perhaps allow you to believe that the whole attack was a false flag operation, and that it was rigged even to the extent that the enquiry into it was also set up to support the Illuminati version of events. There are others and 7/7 in England was a similar scenario, with people being set up to falsely take the blame. However, all responsible and involved are known and will stand trial for their crimes.

I am SaLuSa from Sirius, and assure you that peaceful times lay ahead.

Thank you SaLuSa.

Mike Qu-nsey.
