Sounds like they are ready, willing and able to do the job at hand.

.....  
.....

We will honor each and every choice that each and every individual of your world makes in the days ahead. We will not force or try to persuade anyone to work with us and use the arks that we will provide to transport them and their families to safer grounds. Each and every choice you make is s-cred, and as such is to be respected and honored. Each and every one of you is free to remain wherever it is you wish to experience the days ahead as you close out your year of 2012 and this chapter of your history. We will keep you fully notified and updated on each and every stage of operation to supply you our large mother crafts to escort those of you who wish to participate in the temporary relocation programs to areas that we feel will be far safer for you.

Where these areas are located we will not at this time disclose for several important reasons. One of the reasons has to do again with your crim-nal c-bal and the plans of a dwindling number of them to persist in their efforts to stall the advancements that will bring to your world new systems of gov-rnment, finance and operation. This is a matter that is being dealt with at this time, and we will see to it that this matter of your cab-l is taking care of once and for all in one way or another. We at this time do not feel it is prudent to elaborate on what we feel now is needed to be done in this area. What we will say is these arrests must be completed and completed satisfactorily now. There is no further time to waste away as much needs to be done and the days are running so very short.

Our patience has been great waiting to see movement by our Earth allies on the front lines. We have not at this time seen any movement that we would consider assuring or significant, and we say again that it is the time you, our Earth allies, are being called to action. What will transpire once significant numbers of those of your crim-nal car-els are rounded up and removed from their positions of power and your society is the launch of projects and programs that will see to a complete overhaul of your systems and your society. This is something that we consider an absolute necessity to allow as many of your people as possible to safely proceed through the great changes that are now just up ahead. We hope you see it our way and understand that the time to move ahead with these arrests has already passed, and each and every day further aggravates and complicates our shared mission with you, the people of Earth. We will continue to monitor these events and again remind you that we are here with you, we are protecting you, and we will continue to assist you make these arrests a reality and free your people and your planet for once and forever from the imprisonment of these dark ma-ters. Good luck and G-dspeed.

We are the Galactic Federation of Light, and we are here with you in love, in service and in protection in the name of our Creator.

As ch-nneled through Greg Gi-es
