THE R-VELATIONS OF DR MICHAEL WOLF ON THE
UFO COVER UP AND ET REALITY

During Dr Wolf's final years he spent time talking to various journalists about the UFO and ET cover up. His bosses at the National Se-urity Council (NSC) gave him permission to 'generate a controlled leakage of se-ret information'. As Dr Wolf commented, "I look forward to the day when the sec-ecy surrounding extraterrestrial contact ends so that our r-ce can move forward to the next phase of its history - now cosmic in scale."

As is standard practise these superiors have erased almost all his records such as the universities he attended; degrees gained; and his involvement with the C-A, N-A and N-C. Such measures are common for people working in unacknowledged 'special access programs' as their bosses must maintain plausible deniability in case a sensitive unauthorised disclosure occurs. Dr Wolf said he worked in laboratories at Area 51, S4, Wright-Patterson A-rforce base (Foreign Technology Division), Indian Springs and Dulce. Where for five years, "I met with extraterrestrial beings every day in my work and shared living quarters with them."

He served as a scientific consultant for the American Pr-sident and NS- on ET related matters. He was a member of M-12 special studies group and appointed head of its leading agency - the A-phacom Team - which specialises in gathering information on the different ET rac-s.

Dr Wolf said he had an MD in neurology; a Ph.D in theoretical physics; a BS in biogenetics; a JD in international law; and a D.Sc. in computer sciences. The UFO community were first alerted to Dr Wolf by the publication of his highly original and unique book 'Catchers of He-ven' in July 1996. A book primarily about his experiences while working for the satellite gove-nment. Prominent researchers like James C-urant, Michael H-semann, Dr Steven G-eer, Art B-ll and Bruce B-rgeess went knocking on his door. It took '15 years of persuasion' before his bosses finally allowed him to publish. But their conditions stated that this book must be fictionalised and to have three different denials at the beginning concerning its authenticity.

They also reviewed Catchers of He-ven before publication. He laughed, "I would like on my gravestone the words, 'He died of red tape'." While some of Dr Wolf's claims may sound pure science fiction, if genuine, then he is probably the highest ranking member of the satellite -overnment to come forward so far - offering us an extraordinary insight - a tantalising glimpse - into the UFO cover up and ET reality.

DR MICHAEL WOLF CLAIMED THAT:

: The first US crash/retrieval of an ET craft occurred during 1941 in the ocean west of San Diego. Retrieved by the n-vy, dead Zeta Reticulans, alias the 'Greys',

were found inside. Craft and bodies were taken to the Foreign Technology Section at Wright-Patterson Air Force base in Dayton, Ohio, and studied by the R-4 Special Studies Group. After dismantling the craft parts were sent to S4 and Indian Springs in Nevada. This craft crashed due to the recently invented pulse radar being tested on the nearby Tinian island, located three miles south/south west of Saipan. The US navy has held a leadership position in UFO matters since.

: The Roswell Crash during July 1947 did happen and that the account in Colonel Corso's book 'The Day after Roswell' is accurate. Dr Wolf had, in his possession, the official satellite government ET crash/retrieval list and while others occurred between 1941 and '47 he was not willing to offer examples.

: Two craft crashed at Roswell after colliding with each other during an electrical storm. One contained 'Greys' the other 'Orange' ETs - both named due to the color of their skin. The 'Orange' types come from the Andromeda star system. The Santilli autopsy film is genuine - Dr Wolf had seen other similar footage - and is an autopsy of an 'Orange' ET. There were two different autopsies being carried out on two different ET beings during the same period - hence the confusion.

: The autopsy on the 'Orange' ET revealed that it had a very large head; big dark eyes with no irises or whites; six digits on hands and feet; the brain has four lobes; is more developed and connected with no corpus callosum; different optic orbs and nerves; and a sponge like digestive system. Dr Wolf said he'd met one alive.

: There are different types of 'Greys'. He worked alongside highly evolved ones which had, contrary to present opinion, personalities and even a sense of humour. Dr Wolf never met a 'Grey' whom he disliked. To him they were family. These 'Greys' enjoyed hugging and kissing humans. This upset some of his colleagues. One nicknamed them 'kissfacey'. Their smooth and soft bodies feel like dolphin skin to touch. He communicated with these ETs through telepathy. Dr Wolf became especially friendly with one called Kolta. A picture of this 'Grey' is on the front cover of his book - an actual photograph taken by an admirer friend.

: There is active trading between the 'Greys' and 'Oranges'. Dr Wolf said, "Trading has a different meaning for ETs. They share knowledge like technology and philosophy and send their people to each other's planet to learn the culture."

: He had conversed with human looking ETs from the Pleiades and Altair star systems - nicknamed the Nordics and Semitics. Dr Wolf explained they are very spiritual people and act more as galactic counsellors. A photograph of a Pleiadian friend called Sa Ra adorns the back cover of his book.

: On May 1st, 1975, a 'little misunderstanding' occurred between the 'Greys' and humans at S4. During a demonstration of a small antimatter reactor the head ET asked the guards, Blue Beret soldiers, to remove their rifles and bullets from the room. A safety precaution so these weapons wouldn't accidentally discharge during the energy emissions. The guards refused and in the ensuing commotion a Blue Beret opened fire and killed a 'Grey'. Two scientists and 41 military personnel were then terminated. One guard was allowed to live - testifying that the 'Greys' used a form of directed mental energy at them in self defense.

: A number of the scientists presently working for the satellite government were abducted when children by the 'Greys' so their intelligence and general brain capacity could be increased in preparation for the work ahead. They are hybrids.

: His first major assignment was working alongside Carl Sagan and other top scientists - their job to understand

the intricacies of a huge ET beacon dubbed The Monolith - first discovered floating out in space by Russian cosmonaut Yuri Gagarin and American Alan Shepard during 1961. It was eventually brought back for investigation in 1972. Dr Wolf described it as 'postcards from the rim'. The Monolith emits both light and tone signals along with a mathematical language. On closing your eyes, while tuned into these signals, "You see in your mind's eye a 3D film of the Galaxy. But you are actually there as if part of this film. The images being seen today by the Hubble telescope are the same ones I saw 25 years ago." Dr Wolf said there are many Monoliths out in space and were devised by a group of ET races.

: Carl Sagan consistently denied the ET reality because his superiors, "Threatened to cut off the funding to his department at Cornell University if he said otherwise."

: He was involved in various genetic experiments - one being the Sentinel Project. After perfecting cloning techniques on animals Dr Wolf and his associates successfully created an artificially-intelligent human named 'J-Type Omega' - their superiors wanted a superbright, superpowerful soldier who would follow orders without fear or question. But Dr Wolf surreptitiously programmed ethics into its intelligence after realising that 'J Type' had a soul. When the being refused to kill a harmless dog his superiors ordered its termination. Instead, Dr Wolf set 'J Type Omega' free. This 'intelligence' is presently living somewhere in America.

: MJ1- does exist and now has 36 members. He was reluctant to divulge names although confirmed that former American Secretary of State, Henry Kissinger and father of the hydrogen bomb, Edward Teller, are present members. MJ-2 regularly meet at various secret locations including the Batelle Memorial Institute at Columbus, Ohio.

: The Sentinel Project involved a close association with the 'Greys'. The ETs vast knowledge on genetics being essential for its success. 'J Omega' was grown in a water tank from an embryo. Part of the DNA used came from Dr Wolf. It took exactly one year before he was ready to be 'awoken'. Dr Wolf said, "When taken from the tank he looked around 20 years old.

: When 'J' awoke, "He was like a puppy dog - his mind a vacuum. He asked question after question. He wanted to know everything." Dr Wolf showed him film reels about Earth's past wars and conflicts. "He cried when he saw these horrific images. In hindsight I showed him too much." He learnt several different languages and could use 50% of his brain - unlike the mere 10% harnessed by humans. "When his mental abilities were tested his IQ shot off the map." Their relationship was like father and son.

: Harvesting of animal tissue, through the so-called 'Cattle Mutilations', is to produce organelles - specialised parts of a cell that resemble and function like an organ - which can be placed into humans for filtering out pollutants from the air, water, food etc.. Present experimentation is being carried out on the hybrids - part Zeta/part human - or 'In-Betweens' as Dr Wolf called them.
