Subject: My Friend Ellie Miser.
26, 2012.

June

My internet friend is Ellie Miser and she says she is from the Pleiades. It may have been there in a previous life I was living also but it's hard for me to prove.

/*CELEBRATING THE LIFE OF ELLIE MISER */

Ellie's Story (In Her Own Words): BRIEF SUMMARY OF MY LIFE:

I will try to summarize, briefly, my life up to this time - if I can squeeze 68 years into a few paragraphs. LOL! First, my ET name is Amppa; I am a Pleiadian s-ul i-carnated into an Earthling body to be of service to G-d and humanity during these exciting times - I feel the grand reunion with our space family and friends will soon be upon us! Celebration time!

I was born on September 29th, which it turns out is the feast day in Britain of St. Michael. September 29, I have read, is when the Sun is in Libra, the sign of Justice, when the hours of darkness and light are evenly balanced, a day when pilgrims of previous times would gather at St. Michael's shrines and fairs were held in his honor. What a great day I chose to come into this in-arnation! I suppose that is where I get my drive to have balance and harmony around me.

I have memories of many past lives through which I traveled during my lessons in this 3D illusion of reality. This lifetime I have had lessons of patience (a VERY difficult lesson - still working on that one daily!), independence (exercising my free will) and non-judgment - I may still be working on non-judgment when I leave this planet as even choices are based on judgment, are they not? I am very careful not to let ego interfere in my choices as that can be the downfall of the best laid plans! :)

I have five children, 2 of whom are also Pleiadian souls who came to Earth with me - my Earth mother was my Pleiadian mother and she volunteered (or requested) to be with me in this Earth life as well. She will rejoin my father, Haiton, when our time on Earth is finished. She is 92 and even though there is a 90% chance she MAY have breast c-ncer, she is in suprisingly good health - in no pain - and I cannot remember when she had so much as a head cold! EVER!

Amazing woman! [I have recently had the very strong impression that 2 more of my 5 children are from the Pleiades - possibly from my personal family but not fathered by Planinitar as the two younger Earthling children were. 4 of my 5 children and I have a very deep, special, s-iritual bond that surpasses mere friendship so I feel they may have been part of my Pleiadian family as well - maybe siblings.]

My Pleiadian mate, Planinitar, who is also my Twin Flame - the other half of my Sp-rit - and my father, Haiton, of the big ship /*ISIS of the PLEIADES */, will be among the first extraterrestrial landings. I look forward to rejoining them! I have been an observer

all my life - watching those around me, learning from their experiences while I learned from mine.

I was b-essed with a mother who was trusting and open minded, who gave no advice unless asked, who allowed me total freedom to develop into the being I am today. She has the bearing of a true queen even though she lived a life of poverty in this inca-nation - with no complaints! We were to keep a low profile so as to have no interference with our mission which is to encourage harmony, peace and unconditional love, and to be available to assist at the time of official landing and contact with our space people.

/*MY BACKGROUND */

As a child, I was fascinated by the stars, space, science fiction movies and stories. I preferred being alone to being with a group. I have had 2 husbands - 18-1/2 years with the first (biological father of my children) and 15 years with the second. Both ex- husbands are cherished friends to this day!

I have been aware of ETs since age 9. My first contact with my ET Pleiadian mate was when I was 16 and he suddenly appeared in front of me in physical form on a lonely stretch of road when I was on a walk in the country. He was very tall - 7 ft. 6 - and startled me so that I blocked my p-ychic sight and hearing from that day forward. It was meant to be so that I would develop and depend on my sense of feeling and knowing.

At the time my 4th child, a boy, was conceived, in 1957, my mate appeared again for 3 nights of vivid visual manifestation! He had silver-blond hair, piercing blue eyes, golden skin, dressed in a one-piece, silver/blue spacesuit (the same color as our ship) with an emblem on his left shoulder. I felt such overwhelming love, I was on a "love high" for several weeks following those visions.

I have thoroughly enjoyed my lifetimes here as far as enjoying the beauty of this planet and the "classmates" I have encountered and loved. I am now ready to go home! Our ship has been over my house since 1993, waiting for Go-'s right di-ine time for first contact with this planet to be given.

It should not be much longer.

We give -od the praise and glory - my father, mate and I - for His perfect plan! In love and peace,

.....
