Subject: Almost Instantaneous Travel.
2012.

July 3,

The space people say that when they are allowed to come on our Earth they can give us the gift of almost Instantaneous travel.

SaLuSa 2-July-2012

The really exciting times have arrived as you are getting confirmation of the arrests that have started taking place. Your rights are such that you have the authority to remove those who have committed acts of tr-ason against you. These are clearly very necessary steps to allow important changes to take place that will move you on to the next phase in the plan. There is no way that the actions can be ignored much longer, and our allies are looking for sources that are keen to cover what is happening. Certainly with an announcement that is intended to set peoples minds at rest, we expect the m-dia to pick up on it. There will soon come a point when the news can no longer be hidden or ignored, and we know that there will be a mixed reception to it. However, we expect P-esident O-ama to address the world, to re-assure people that the actions are positive and in everyone's interests to restore world peace. It will go worldwide and beyond any attempts of the dark Ones to gag it.

We of the Galactic Federation of Light will for a time continue to work in the background, but look for the first opportunity to introduce disclosure. It not only covers our history of working for you and with you, but also the general interest shown in your e-olution over a period of thousands of years. However, it will give us the chance to present some of the different civilizations that you are to meet. All will have some link to you if only to have had a hand in your genetic ev-lution. At a s-ul level we are all the from the Source, but have travelled different paths according to our choice of experience. Differences between us do therefore exist but we are all evo-ving like you except that some sou-s are at higher levels than others.

In leaps and bounds you will quickly find yourselves being elevated to the next stage in your upliftment. Many of you have already been primed for a new way of life, and it will set you up for your return to the higher realms that will come with Ascension. A wonderful fulfilling life awaits you which will seem like he-ven after your experiences in duality. You will not only understand how energy comes into your lives, but also how to use it for your needs. The emphasis will be put on the different ways it can be used, and not least of all as a means of space travel.

On Earth you spend huge amounts of time travelling around in what we see as antiquated forms of transport, It will no longer be necessary to waste so much time in that way, and you will be gifted with technology that allows for almost instantaneous travel. All are based on the use of f-ree energy which is clean and non-polluting. The dark Ones have already developed some craft of this type, and the technology known to them for a very long time. You have been denied its use so as not to affect the standing of traditional methods of travel, and to ensure they keep their power over other countries.

Your dreams will come true and the most wonderful changes

will come with freedom being returned to you. You have become so used to being controlled in virtually everything you do that you have forgotten what it is like to be free. You will get a taste of it before Ascension, but remember that with freedom comes responsibility not to indulge in activities that cause danger or harm to others. With the coming of your higher levels of consciousness, will also come a more compassionate and balanced understanding of how to relate to other souls. It is the desire to be at One with all life that will enable you to take your place amongst those you will be joining. We know that the harshness of the Earth's vibrations is not conducive to a peaceful existence, and you are continually challenged to keep calm and in control of your emotions.

You have been tested and tried for millennia of time, often repeating the same lessons many times over. You have proved that you can exist in an advanced civilization, and you are welcomed into the higher realms. You have raised your vibrational levels and it will ensure that you are ready to ascend. Those who are not ready will have no inclination to leave duality, and will by choice continue their experiences at the same level. The paths open to you are clearly defined and you cannot move beyond your station. However, all is continually in a state of change and you will eventually make progress as all souls do.

Let go of your earthly attachments and instead be in readiness to expand your consciousness to take in what will be a new way of life. As you learn more about us and get an opportunity to visit us on our ships, you will see first hand how we live and intermix with other civilizations. All act in service to one another and it is a blessing to be able to do so. The ego's have been tamed and the needs of self are not put ahead of any others. We are a community in harmony and putting our energies into serving the Supreme Creator. We get great satisfaction from doing so, and do not for one moment think that it restricts our freedom in anyway. We love our work and the contribution we make to All That Is helping to uplift all other life forms.

Our lives are full and most satisfying and it is by choice that we serve in our own particular way. It is no more or no less than you would do helping your own brothers and sisters. We are after all one big family who acknowledge the gift of life given us by our Father/Mother God, and have been provided with all that we could possibly need to enjoy our existence. We are also co-creators with God having reached a higher state of being and able to use such powers with complete responsibility. On Earth few really understand the potential powers they have, and do not realize that they are responsible for the way their civilization has evolved. Consequently you also reap what you sow, which is why you have ended up in duality. However, you have found your way out of it and many are now able to take the opportunity to ascend.

I am SaLuSa from Sirius, and wish you the most happy times that release from duality will bring you.

Thank you SaLuSa.

Mike Qui-sey.
