N-SA cannot be relied on to provide accurate data about Mars, S-illings stated, citing the space agency's claim that atmospheric pressure on Mars is only eight millibars. Such an atmospheric pressure would not have been sufficient to sustain parachute deployment of the Mars Exploration Rovers S-irit and Opportunity to the surface.

**\*A cosmic-level disclosure event\***

Mr. B-siago, who has spearheaded efforts to have America's chrononauts come forward and share their experiences with the public, called Mr. M-ndez account a cosmic-level disclosure event.

For his part, Mr. Ba-iago thinks that both Mr. Me-dez and Mr. Sti-lings may both hold a key to the truth. He thinks that since the origins and operation of the jump rooms were unknown, they might have sometimes been taking the jumpers to Mars, but at other times were being diverted by the Greys to synthetic quantum environments where human responses to the threshold of contact with the wider Universe were studied.

Mr. Bas-ago stated:

A third plausible explanation is that the C-A jump rooms, given to the Uni-ed States by the Grey extraterrestrials, were devices that were sometimes being diverted by the Greys. Sometimes we were visiting Mars, and other times the jump rooms were teleporting us to the kinds of micro-Universes that Bernard Men-ez is describing.

In support of this explanation, Mr. Basi-go cited the fact that Grey observation of US activities in time-space was sometimes noted during time probes using US time travel technologies while he was serving on D-RPA's Project Pe-asus as a child in the early 1970's.

He also cited the fact that power losses were being recorded during times when the jump rooms were ostensibly functioning normally. This could be evidence that during operation, the Greys were diverting the jump rooms from Mars to elsewhere.

Mr. Bas-ago stated that since NA-A has been ly-ng about natural conditions on Mars, determining whether Mend-z elsewhere interpretation of the CI- jump room program or Stil-ings' Mars interpretation is the correct one will hinge on official declassification.

Mr. Basia-o observed:

What we have now is three fellow jump room participants sharing their experiences. We were trained for Mars in Summer 1980 and the domain that we were visiting from 1981 to 1983 was certainly understood to be Mars. What we are grappling with now is Bern-rd's claim that as the U.S. go-ernment investigator tasked to study the project he discovered that we were not visiting Mars but a simulation of Mars architected by the Greys in a bubble Universe. That's a highly provocative claim, but since Bernard Me-dez and

Brett Stil-ings and I were project participants together, in the interests of truth, I have facilitated all three of us coming forward publicly and sharing our understanding of what we were part of - Even if it was not Mars that we were visiting, all three of us agree that it was an off-planet location in time-space.

**\*Ob-ma as a time travel pre-identified -IA asset\***

Whistleblower Bernard Men-ez' detailed testimony that Mr. Me-dez not only participated in the 1980-83 -IA jump room program with Barack Ob-ma, but engaged Mr. Oba-a in jump room experiments such as a flare experiment to determine the location the jump room technology was teleporting to, further bolsters emerging evidence that Barack H. O-ama was involved at the early age of 19 in a highly classified, top priority U.S. national sec-rity project, and went on to be a life-long C-A asset or operative.

It is logical, then, that the -bama administration would use such a high-level asset as Tommy Vi-tor, official spokesperson of the National Se-urity Council, to deny, on January 3, 2012, that Mr. O-ama was a participant in the 1980s CI- jump room program.

The C-A jump room program, and its origin with a species of Grey extraterrestrials with whom the U.S. gove-nment has had an ongoing sec-et human-extraterrestrial liaison program, is of the highest national se-urity to the U.S. gove-nment.

The CI- and U.S. national se-urity apparatus surrounding U.S. Pres-dent Barack Obam- will do everything in its power during the 2012 election year to sup-ress evidence that (1) Mr. Oba-a was part of a se-ret teleportation jump room program using Grey extraterrestrial technology to reach synthetic quantum environments (SQEs), destinations architected by Grey extraterrestrials.

The -IA apparatus has been suppressing evidence that (2) Mr. Oba-a has been since 1980 a full time covert C-A operative, deployed to infiltrate, perform surveillance on and report back on community activist, Leftist, African nationalist, and Is-amic circles.

The CI- apparatus has been suppressing evidence that (3) Mr. Ob-ma was pre-identified in 1971 via quantum access time travel as a future U.S. Pr-sident and essentially briefed and groomed for the job by C-A since 1980.

The subject matter of Barack Ob-ma's identity as (1) a life-long CI- operative/asset and (2) pre-identified as a future U.S. Pre-ident in 1971 by the C-A using DAR-A time travel technology will b e explored in a Sunday Sept 9, 2012 ExoUniversity.org
