Read the text below for the update;

Through the years, top members of the C-bal have created
many protective defence mechanisms around them in case
anything happens to them.

Those mechanisms include, but are not limited to the use of
biochemical wea-ons.

There are certain devices that constantly monitor all main
bodily functions of the top members of the Ca-al, and if
anything strange happens, they send alerts to their advanced
weapo-s systems.

Then a special computer program decides if an of those
we-pons is to be used.

Those mechanisms would be triggered automatically if

Stardust 2 was to be used or if any of the key members
of the Caba- would be arrested.

This is the reason why they seem to be untouchable and
always able to get away with everything that they do.

First these mechanisms need to be removed and then
positive action can be taken.
End of update.

There is a s-ul group that keeps r-incarnating with the
sole purpose of fighting against the Ca-al and setting
the planet free.

In the middle ages, they were fighting against the
Inquisition. -----and 18 centuries they were
fighting against the Jes-its.

Now, they are mostly against the Ro-kefellers and
Ro-hschilds.

This group is the cavalry that is coming.

You can find them now inside the Positive Mil-tary,
inside Temp-ar groups, inside Faction 2, among
members of the Wh-te Dragons Society, infiltrated
inside various networks of the C-bal and among
many freedom fighters inside the general human
population.

If you feel a burning desire for freedom of this
planet and you are actually doing something about it,
you may well be part of this group!

Each one of us is unique and irreplaceable.
There is a higher di-ine plan which strategically

positions each of the Light warriors in a mandala that only the Source has a complete overview of.

This mandala is functioning with its full power only if each one of us does his mission. So do your part! If you do not know what your part is, keep searching for it, keep asking for it and you will find it.

You do not need to fight with a gun. You can also fight for the Light with a clear vision, with a brilliant mind, with the power of the written word and by many other means.

Attacking and criticizing messengers such as Benjamin Ford, Cobra, David W-lcock or Drake is not a wise strategy to help the Light forces.

What the messengers do is they only relay info.

They are NOT responsible for delays or missed deadlines.

After the Caba- was lately cut off from nuclear weapons, they began frantically developing new biological and chemical weapons.

The Rothschild faction threatened to use one of these weapons (the so-called Flipper virus) and decimate the Earth's population if the mass arrests would take place on July 4th. All those exotic biochemical weapons are currently being dealt with.

The plan for the planetary liberation is real and mass arrests play a vital part of this plan.

Be aware that Disclosure, First Contact and Golden Age can not happen before the Cabal is removed.

That may happen days, weeks or even months from now, but at a certain point it will happen.

No action will be taken by the Positive Military that could potentially endanger human masses, therefore they will move only when everything is ready.
