

House Spell

Take an empty quart-sized milk carton and cut it down to about 4 - 5 inches. Then fill it with about one half pound of melted paraffin wax. Let it cool and harden, then remove the carton. Take a needle, nail file, toothpick, etc. and carve the doors and windows into this piece of wax. Let it cool and it actually looks like a house. Shape and form the wax so that you can do this by tying a heavy cord around a pencil and suspending the pencil over the carton while the wax is still hot, causing the cord to fall straight into the wax.

Dress your candle with pine oil and place it on some virgin parchment, or brown paper which has been soaked in pine oil. Light the candle at seven o'clock each evening and burn it for 21 minutes. Do this until the entire candle is burned away.

Dear marcell
and follow the directions
at the need to be amazed
love -

Dear Marcello -

Florida was wonderful as always. Thank you for the letter. I got the car with no problem -

Thank you also for a great trip to Boston - Akwii Goldin from WBZ-TV ~~and~~ said you recommended me - Since I had never been to Boston I stayed an extra day for sight seeing, sea food eating, etc.

I met a good many very interesting people on that trip - Have you heard of "Dr Buzyard"? No? Well let me tell you about him - He is a black Voo Doo man, 52 years old - He is called "Buzyard" because he once turned himself into a buy yard in order to fly out between the bars and escape from jail - He can get you off death
