> Any insight that you would have into this sighting would be appreciated.

Given the included information, I am at a loss to explain the event. I can certainly speculate and offer some suggestions, however.

Assuming the witnesses were not prevaricating, there are a limited number of possible misidentifications. Given that various governments fly training missions over Laborador, my first reaction is that it might be related to these in some way. The reported shape is not unlike the appearance of a delta-winged Harrier jump jet, for example, illuminated on one side only facing the Sun. The lack of noise is not necessarily a problem, because there could have been some other ambient noise or the jet might have been using low power. However, I would also assume that such a close approach would be inconceivable to a populated area, and that the witnesses would have been able to identify such a jet at close range.

A weather balloon would not disappear rapidly into the distance. (More information about the weather at the time would be useful, though. Was it windy? Where was the Sun? Clouds? etc.

You are obviously much more familiar with the area than I. Is there anything in that immediate region? Is it near any flight path? Could it have been a kite?

I am not trying to "debunk" this report in any way, incidentally. I would just like to ensure that there are no possible conventional explanations before declaring it an "unknown."

(And just because it might be labelled an "unknown" does NOT mean it was an extraterrestrial spaceship. Until we have further evidence, an "unknown" remains just that - "unknown".)

It would be useful to obtain a narrative of the event in the witnesses' own words. Would this be possible?

It would also be useful to inquire of any other unusual experiences or sightings of odd things in the area. Could you inquire of the Innu whether anyone else has had such experiences or observations, either in the last few weeks or in 1994?

I'm sorry I cannot give you a more definitive answer, but I hope that

this helps in some way. If you have any more details to pass along, or if you need additional information, please do not hesitate to contact me, either by e-mail (preferred) or by telephone at (204) [redacted] (voice mail).

Dear Sir/Madam:

Re: [redacted]
Report of U.F.O. Sighting
Nanoose Bay, B.C. 95-01-05

This report is submitted to your office as per our operational policy guide lines following sightings of unidentified flying objects.

Please be advised that our detachment received a complaint from the above captioned individual. He [redacted] saw an unidentified object in the sky over the Errington, B.C. area on 95-01-05, then again the next night, 95-01-06. Both sightings were consistent as far as position and description are concerned.

The object was seen from the [redacted] home at [redacted], Nanoose Bay, B.C., [redacted]. The object was stationary and remained visible for several minutes.

The object was described by the [redacted] as a blue disc, the colour of blue such as the sky takes on during a hot summer's day. There were several small red discs along the bottom edge of the blue disc. There were lights along the top of the disc. A bright, beam of light was seen moving along an equatorial axis on the main blue body of the object. There was no sound emitted from the object.

The [redacted] drove around the Nanoose area in search of a better description for the position of the object after having believed at first that it was over Craig Bay in the Nanoose Bay area - they then verified that it was over the Errington area. The object could be seen with the naked eye; however, colour could only be determined with the aid of binoculars.

The sky on the two nights was very clear and the air calm and cold, approx. -4 C. The [redacted] appear to be very reasonable and well spoken people, both

are somewhat worried by the nature of the complaint in that they feel that they will not be taken seriously.

Please direct any further correspondence to Cst. R. GRAY of Parksville Detachment. Our file concluded here.

Yours truly,

(K. G. WILLIAMSON) S/Sgt.

:

REPORT OF U.F.O. SIGHTING
NANOOSE BAY, B.C. 95-01-05

:**********

LEASE BE ADVISED THAT OUR DETACHMENT RECEIVED A COMPLAINT
ROM THE ABOVE CAPTIONED INDIVIDUAL. HE AND HIS MOTHER
SAW AN UNIDENTIFIED OBJECT IN THE SKY OVER
HE ERRINGTON B.C. AREA ON 95-01-05, THEN AGAIN THE NEXT NIGHT,
)5-01-06. BOTH SIGHTINGS WERE CONSISTENT AS FAR AS POSITION AND
DESCRIPTION ARE CONCERNED.

THE OBJECT WAS SEEN FROM THE HOME AT
NANOOSE BAY, B.C., TEL. . THE OBJECT WAS STATIONARY
AND LASTED FOR SEVERAL MINUTES IF NOT HOURS.

THE OBJECT WAS DESCRIBED BY THE AS A BLUE DISC, THE COLOUR
OF BLUE SUCH AS THE SKY TAKES ON DURING A HOT SUMMER'S DAY. THERE
WERE SEVERAL SMALL RED DISCS ALONG THE BOTTOM EDGE OF THE BLUE DISC.
THERE WERE LIGHTS ALONG THE TOP OF THE DISC. A BRIGHT, BEAM OF LIGHT
WAS SEEN MOVING ALONG AN EQUATORIAL AXIS ON THE MAIN BLUE BODY OF THE
OBJECT. THERE WAS NO SOUND EMITTED FROM THE OBJECT.

THE DROVE AROUND THE NANOOSE AREA IN SEARCH A BETTER DESCRIPTION
FOR THE POSITION OF THE OBJECT AFTER HAVING BELIEVED AT FIRST THAT IT WAS
OVER CRAIG BAY IN THE NANOOSE BAY AREA - THEY THEN VERIFIED THAT IT WAS
OVER THE ERRINGTON AREA. THE OBJECT COULD BE SEEN WITH THE NAKED EYE,
HOWEVER COLOUR COULD ONLY BE DETERMINED WITH THE AID OF BINOCULARS.

THE SKY ON THE TWO NIGHTS WAS VERY CLEAR AND THE AIR CALM AND COLD, APPROX.
-4 C. THE APPEAR TO BE VERY REASONABLE AND WELL SPOKEN PEOPLE; BOTH
ARE SOMEWHAT WORRIED BY THE NATURE OF THE COMPLAINT IN THAT THEY FEEL THAT
THEY WILL NOT BE TAKEN SERIOUSLY.

PLEASE DIRECT ANY FURTHER CORRESPONDENCE TO CST. R. GRAY OF PARKSVILLE
DETACHMENT. OUR FILE CONCLUDED HERE.

R.A. GRAY, CST.

RE: [redacted]
UNIDENTIFIED FLYING OBJECT SIGHTING

On January 09, 1995, the RCMP received a report from [redacted] that between 01:05 a.m. to 02:00 a.m. on this date she observed an Unidentified Flying Object from her home near Cold Lake, Alberta. She stated that she was awoken from her sleep and observed two shapes in her bedroom near the door. As well she noted a beam of light entering the room through the window which was facing west. Upon looking out this window she observed a round object in the western sky which the light source was emitting from. It stayed for approximately one hour and then disappeared. [redacted] was asked if a member could attend her residence and investigate further this report. She agreed.

On January 11, 1995 Constable LAROCQUE of the GRAND CENTRE Detachment attended the [redacted] residence. [redacted] showed the bedroom where the incident took place. No physical evidence was found by the investigator. [redacted] a drafts person by trade, sketched two diagrams that pertained to her sighting. The first is a plan view of her bedroom and an elevation of the wall that the shapes appeared on near her door. The second is a plan drawing of her perception where the object was in relation to her house and barn. Copies of the two diagrams are enclosed with this report.

[redacted] then afforded a twenty two minute taped statement that detailed her sighting. The statement has been transcribed and again included with this report. The investigator was impressed with [redacted] detail and the clarity thereof.

An inspection of the yard around the house and barn did not reveal any evidence as to a plausible explanation to [redacted] sighting. [redacted] does not consume alcohol or non prescription drugs. The prescription drugs she takes are for high blood pressure and diabetes but has been on them for some time and has not had any adverse affects before.

A check with the weather office on Cold Lake Air Force Base shows that on January 09 at 1:00 A.M., the weather conditions were high thin broken clouds at 25,000 feet, relative humidity of 73% and the temperature was -23 degrees C. The visibility was excellent at approximately 15 miles. January 16, 1995 was the period for the full moon.

...2

C-237 (87/09) 7530-21-903-4801

his detachment has not received any other reports of sightings in he area. No plausible explanations for [redacted] sighting can be ade by this investigator.

The file is now being forwarded to Solar Terrestrial Physics Section in Ottawa.

(B.J. LAROCQUE) Cst.
Grand Centre Detachment

(R.A. WHEADON) S/Sgt
Grand Centre Detachment

his will be the statement of [redacted]. [redacted] lives out on farm near Riverhurst, [redacted] Her phone number is [redacted] She was residence. I am Cst. B.J. LAROCQUE. We are out at The date is January 11, 1995 and the time now is 10:55 a.m.

[redacted] on the 9th of January you called and registered a complaint with me of an unidentified flying object. In your own words can you tell me what you saw and all the circumstances surrounding it.

Ok, I'll start with the time I went to bed which was approximately 11:30 and I am a very light sleeper and I was sleeping on my stomach when something woke me up. I don't remember hearing a noise. I thought something so I laid there and listened and then I heard a noise which sounded like something on paper and I'm thinking to myself what is this? a mouse? whatever right. So I waited a few more minutes for the noise to occur again and when I heard it the second time I turned over in bed and I have a touch lamp and I thought well when I hear this noise again I am going to touch the lamp, right! So, but instead of hearing a noise I seen two shapes at my door and the reason I am saying shapes is I'm an architectural draftsmen by trade and I'm an oil painter artist whatever. The shapes were not consistent with what would come through as the light through the door however, the first thing I thought of was there is somebody in my house with a light and like a flashlight shining through the door. But when I started checking out the shapes, at that time there weren't as bright as they got in the end and I started checking out the shapes they didn't follow the cracks in the door and they didn't come through at the top of the door where there was a crack there was no light there. So then the roof started getting lighter and I watched it get lighter and lighter and I have a clock directly across my room which is about 11 feet and it's one of those cedar or whatever it is with just numbers on it that's not luminated at all and I could read it it was 1:05 and I am thinking to myself now where's this light coming from whose in the house then I thought where did I leave my gun as we have coyotes that are killing the cats and coming right in and we have a young pup and three cats left and I'm thinking where did I leave this gun if it's an intruder it is somewhere where he can get a hold of it easily. I normally keep it at night when the coyotes are close right between the door and the first dresser in my room standing there and I have shot out my bedroom window at the coyotes by the barn and my gun wasn't there and I'm thinking now where did I leave it and it is only a 22 repeater and I wasn't like I wasn't scared ok and then I seen that the light was coming like through my west window sitting up in my bed I have my back to the north and facing south and my door is a little off on the left hand side and almost in the corner of the room. Then I thought well is somebody at the oil building that's on our property and but there was no light on the first mirror on the dresser which normally that's where the light comes on and shines back at me there was no light. So I thought

well it has to be a skidoo, so I got up and I looked out the window and I could hardly believe my eyes. At first I thought it was a full moon but it was to orange it was like fluorescent type of orange but more to the red on the orange side and I'm fairly good on colors because of painting and I watched it for 10 or 15 minutes and these two objects stayed at my door and I'm thinking to myself should I call my husband and wake him up with all this fear many things went through my head ok. But I watched this orange ball and it donned on me that there were two black streaks going like lines straight across them of this ball and it was just north of the hydro pole at the barn and I'm trying to think like what else am I'm seeing here. Then it donned on me that I could see on the other side of the barn and across the field which is over 1/2 a mile. So I thought well, I'm just going to get back in bed and watch this. So I watched and the light in my room got brighter and brighter and real white light. But the object at the door had an ice cream cast to them. So, never even thought of the phone to phone for help nothing. I was just was interested in what was happening to me and I'm thinking to myself now if this is a ghost if I speak to it will it go away, if I move fast what happens, it didn't seem to move when I moved and I watched it I figure about 20 minutes. Then I thought well this light this light is bothering me so I got back out of bed looked backed to the west again and I tried to put things into more perspective and at that time I noticed that the trees to the north were deluminated that it was making a path more to my house. The trees to the south which would be 300 to 400 yards south of the barn were not illuminated it was just seemed like a path and it didn't seem like the path was as bright as the light was in my room. It sounds stupid I know. But when you looked into the path you got a funny feeling like something was watching you or something is touching you or just an odd feeling ok just like there is something there but you don't know what or anything. So I looked at this object the second time I thought about 20 minutes again and I tried to put everything into perspective where the light was everything and I'm thinking to myself if it was an UFO shouldn't it be a different shape? I tried to see if there was a distinct lines and the ball seemed like it had fuzzy edges like a glow it was too red for the moon and then I finally got when I got this feeling in my chest more than anywhere I thought well I'm going to get back in bed and I am just going to watch. So I got back in bed oh I guess I should say that I got off on the right hand side of my bed both times and then I watched this object and the object went in the sky just seemed to stay there. Now in comparison to what my barn is about 52 feet long, this object I would say was a little better than 1/4 of the length of it and if you take pictures of my barn there is a pole for the hydro and north of it is a door that is open for the calves to go in and out and it fit in that space but it looked to me like it had to be a couple of miles away. So after I got into bed the second time and was watching the light in my room then I heard a funny noise and it was like a sucking noise and it seemed to go .... The light disappeared and the object seemed to fade back into the woodwork. That time I turned

my light on and I looked at the clock and it was just before 2:00 maybe a minute maybe two minutes. But when I looked out the window the two times I seen the object there, the horses I have a big team of horses were looking west and I thought they are watching something but I don't know what they are watching and they didn't seem like nervous one of them is going to be 15 years and the other one is coming 6 isn't it? 5 coming 5? and my husband uses them driving and riding and uses them everyday pretty well and they didn't seem to concerned and I didn't remember seeing one calf out of the barn. When I was looking at that object in the sky the first time I thought I remembered seeing like a sliver of the moon like just before first quarter or the last quarter whatever. But and I remember my son telling me Friday night when he was here that there is going to be a full moon not this week but the next week. So first thing I did when I got up in the morning was check when this full moon was and it is on the 16th. So obviously it wasn't a full moon but I made you some drawings and that's about it.

Ok, I'm just going to ask you a couple of questions to to clarify a point or two. Again, this happened on the early morning hours of January 9th and that was Monday morning, ok I got to ask you this and I asked you this before. Where you drinking any alcohol that night?

I don't drink, I don't smoke and I don't take anything but prescription drugs. I can tell you the drugs that I am on. I take Diabeta which is for diabetes and I take Dyazide and Monatat for high blood pressure and I take a garlic capsule everyday and I take a Vitamin C and D capsule everyday and about once or twice a week I have to take a pill for arthritis and that's all I take.

Do you have adverse affects to these drugs?

Nope. I have been on the same drugs for close to 6 years.

And no illegal drugs use nothing like that?

No illegal drugs ever.

There is not a lot I can add to your story. One other thing we mentioned before was about the colt.

Ok, in the afternoon I had went to town in the morning and in the afternoon I came home and during the time that I was gone my husband had been out to the barn and he only speaks with a machine as he has a laryngectomy and he come in and the colts are use to him because there is no noise when he goes out everything is quiet normally. The colts were out their gate was broke and some rails on the fence were broke down like they had tried really hard to get out of that fence.

So, Sunday when your husband checked the colts in the corral everything was fine?

Yes.

And then Monday morning or Monday afternoon was when he found

Yup.

But the horses came back?

The horses just went down to the bush where we feed our cows which is about a 1/4 of a mile. But the big team stayed in the corral.

The object that you saw in the sky to the best of your recollection did it move at all or was it stationary the whole time?

No, it was stationary but I jumped right out bed when I heard that sucking noise and watched the thing fade and looked like it was black like really, really black.

You mean the night was black?

The night was black and there was nothing left in the sky. You could see some stars but like.

You couldn't see those trees?

I could hardly well I don't think I could see the barn and make out like if I didn't know the barn was there I wouldn't have known what that shape was.

So what ever lit up the sky lit it up quite bright?

Very bright.

The two shapes that you say were on your door in your bedroom, kind of just describe those again.

Ok, I would say they were 3 to 3 1/2 feet long. The one on the left hand side of the door was smaller and narrower than the one on the right hand side of the door. When the right hand side of the door again like I am saying referring to the light, the light should of went toward the dresser and instead the shape seemed to be like just under 1/3 of the door which is 30 inches in from the right hand side of the door and about 30 inches to the left hand side and 6 inches to the right hand side because I am looking south and the door is on the south side. My room has almost a 10 foot ceiling and so the door is far down and my light in the hallway is to the right and right up at the ceiling and the kitchen light which there is a hallway directly into my bedroom the kitchen lights again are on both sides except for that light

that is right over the door and it's got an orange glow so it wouldn't make a yellow or um or it wouldn't make a green light it would make a yellowly shape but this was definitely like almost white with a greeny tack to it.

Again, I have to ask you do you believe you could have imagined this?

Nope, not at all. If I had imagined it I wouldn't have got out of bed three times.

Ok, no dream?

No, I just heard something or something woke me up. I have been in the house when people have walked in the house and because my bedroom is almost directly in from our south door and the guys walked in the house one time and my husband was away looking for a job they walked in and I felt the cold air and the cold air woke me up. So it doesn't take hardly anything to wake me up. I didn't feel no cold air nothing just like there is something there or you know when somebody turns the light on and wakes you up something like that. But I sleep most on my stomach and so when I turned over and prepared to turn the thing on was when I noticed this object.

Again [redacted] I can't discredit your story or do anything to it other than what you have told me that pretty well covers what I want to get from you. Is there anything else you would like to tell me?

Ok, when I phoned the air base because in the morning the helicopters where going over here like steady. I went to town I think it was close to 11:00 that morning and the helicopters had been flying and flying and flying and I would say before 8:00 they were flying and they were still flying when I came home at 2:00 and they seemed to be concentrating in this area and so I talked to my son and I said to him have you read anything about this. And he said mom phone the base phone somebody because he said remember a couple of weeks ago when we were talking about the UFO's that were sighted over at Glendon to Ashmont he said there was something on the news or on television and there was something in the paper that if you see anything you should report it and he said phone the base. So I phoned the base first I talked to my daughter-in-law [redacted] and she told me to phone the control tower well the control tower is an emergency number and so I phoned the base operator and she patched me to a Goshawk and oh lights and something while you report if you have seen anything like a bomb or part of an airplane or whatever right? Something unusual and he just laughed at me so I talked to my son again about I think about 20 minutes to five and he told me while phone the RCMP so I phoned and that's when I talked to you Mr. LaRocque. So it was approximately 1 hour that this thing took place.

gain, that pretty well covers that I want. I am going to take our drawings that you drew for me if you don't mind, I'm going o take a few pictures around the yard and just your bedroom just o have and I'll do my best to try and give you a plausible explanation if there is one or if not I will like I showed you before I will send it off to Ottawa to the people that require this information and see if we can give you some sort of an answer.

Ok, like I've went to the different museums where they have the shows on UFO's and everything and I have never seen a totally round object in an UFO picture. I am not a shutter bug, I never even thought of my camera and that's what the base asked me did you get a photo of it? and I said no and I believe they and yourself both asked me if I had what do you call those cameras? video machines and I said no I don't have and I only have a cheap camera and I don't think it would of turned out anyway.

The thought didn't even enter into your mind?

Didn't enter my mind like I was just curious about these objects and like what are they doing here? I heard people say that like they disappear for an hour or two hours or day or whatever and it has been recorded and all and this and I think to myself am I going to disappear or what are they doing whatever, like but I wasn't scared. I just had like a funny sensation like when the light was directly on me I just had that funny sensation like I should be out of the light.

Again, I thank you for coming forward. Most people wouldn't and it's very commendable that if you did see something like this you did come forward.

Well, I can't say that I believe 100% in UFO's. I know there has been sightings of everything but I am kind of a person that until you really see something you don't believe it. Like I believe I've seen all of this but I can't explain it and if anything and if anyone else has ever seen a round one I would be interested in knowing. I would be interested in knowing what scientists would think of this type of thing. Like I'm curious that way I've never seen this kind of a light like I've never seen a light with that kind of a glow that these two objects in my room had, I've never seen anything like that.

This will conclude the statement then of [redacted] and her relation to a UFO sighting that she had. The date today is January 11, 1995 and the time now is 11:17 a.m.

This is the statement of [redacted]
Address: [redacted]
Phone #
Work #
DOB:
Employer:

On 95-01-29 at approximately 7 p.m. I was heading east on my grid near my farm. As we were driving home I noticed a flying object just to the south of the grid. It was travelling in a north by northeast direction. It was travelling very slowly for a flying object. The object then proceeded in the direction at approximately at approximately 50 mph. This is very slow for a plane to be travelling and it was only about 300 to 400 feet above the ground. The object was flying over my uncle's cattle. The object was followed by us and then it made a quick northwest direction turn. The object continued to fly in that direction, but the turn was similar to a 45° angle. This object flew off in this direction. I figure we got to within about one mile away from it before it took off in the opposite direction. I've never seen a plane do that sort of turn before and I don't believe it could unless it flared up and this object didn't flare up and turn. It is possible it could be a gyrocopter or a helicopter, but the turn it made was too sharp for a copter, I feel.

Q. When/where exactly did you see this object?
A. One mile southeast of my farm on 95-01-29 at 7 p.m. We followed it east on my grid one mile and we stopped and watched it. The object would have crossed the grid I was on, right where I was sitting when I decided to watch the object. The object then continued northeast for about one mile and then it made it's sharp turn and continued northwest.

Q. How long did you see this object?
A. About five minutes.

Q. Can you give me a description of the object?
A. No, not really. It had red lights, blue lights and white lights.

Q. How many lights would it have had?
A. Six for sure, two of each. The blue lights were flashing irregularly.

Q. How bright was the light?
A. Just like regular aircraft lights.

Q. Any shape of the object?
A. No, that's the bad part.

Q. How many objects?
A. One.

Q. Altitude of the object was?
A. About 200 metres.

Q. What color was the object?
A. I couldn't make it out.

Q. Did it make any sound?
A. I never opened a window and it was too windy.

Q. What was the condition of the sky?
A. It was clear, but it was at dusk so we couldn't see stars yet.

Q. Who all saw the object?
A. My wife [redacted] my children. Also of course, myself.

Q. Anything else that stuck out about this object?
A. We don't get many planes that low at that time of day in this area. Also, the unusual turn that this object made. It was like a 45° angle from northeast to northwest.

[redacted]-C/O UFO SIGHTING
ISKE DISTRICT, SK 95-01-30 OUR FILE # 95-0074
##
N 95-01-29 AT APPROX 1900HRS A FARMER IN THE FISKE DISTRICT,SK. SPOTTED A UFO
OVERING OVER A FIELD S.W. OF HIS FARM, LOCATED 1 MILE SOUTH AND 1 1/2 MILES
AST OF FISKE, SK. THE FARMER WITH HIS FAMILY IN THEIR VEHICLE FOLLOWED THE
OBJECT AS IT HOVERED APPROX. 300 TO 400 FT ABOVE THE FIELD AND HEADED IN A
NORTH BY NORTH EAST DIRECTION AND TRAVELLING AT APPROX. 50 MPH. THE OBJECT
CONTINUED IN A NORTHEAST DIRECTION FOR APPROX. 1 1/2 MILES AND THEN SUDDENLY
TURNED LEFT AT A 45 DEGREE ANGLE AND BEGAN TRAVELLING NORTHWEST. THE FARM FAMI
FOLLOWED THE OBJECT UNTIL IT MADE THE SHARP TURN AND HEADED OFF IN THE N.W.
DIRECTION. THE FAMILY THOUGHT IT MIGHT BE A GYROCOPTER OR A HELICOPTER , BUT
THEY THOUGHT THAT IT WOULD BE NEAR IMPOSSIBLE FOR EITHER TO MAKE A LEFT TURN L
E THAT. THE FAMILY WATCHED IT FOR A PERIOD OF ABOUT 5 MINUTES UNTIL IT WAS OUT
OF SIGHT. THE FIELDS THAT THE OBJECT WAS FLYING OVER CONTAINED CATTLE AND THEY
HAVE NOT MANY PLANES IN THE AREA.

AS FAR AS A DESCRIPTION IS CONCERNED: THE ONLY THING THE FARMER COULD SEE WERE
6 LIGHTS, 2 OF THEM BLUE, 2 OF THEM WHITE, AND 2 OF THEM RED IN COLOR. HE COUL
MAKE OUT NO SHAPE OF THE OBJECT . BUT HE DID SAY THAT THE BLUE LIGHTS FLASHED
OUT OF SEQUENCE. HE COULD HEAR NO SOUND DUE TO WIND, NO WINDOWS BEING OPEN AND
NOT BEING CLOSE ENOUGH TO THE OBJECT. THERE WAS ONLY ONE OBJECT IN THE SKY AND
THE SKY WAS CLEAR. THE LIGHTS WERE ONLY AS BRIGHT AS NORMAL AIRPLANE LIGHTS.

IDENTITY OF PEOPLE SEEING: [redacted] AND [redacted] THIS IS THE WIFE, HUSBAND AND THE[redacted] CHILDREN.

THIS IS THE STATEMENT OF [redacted]
TAKEN BY CST P.C. GUILLEY. ON 19 FEB 1995 AT 8:16 PM.

RE: UFO SIGHTING.

ON 30 JAN 1995 AT ABOUT 11:30 PM WE WERE ~~AT~~ NEAR THE [redacted] FARM ON [redacted]. WE WERE DRIVING GOING EAST. WE NOTICE LARGE WHT OBJECT ABOUT 100 YRDS. NORTH OF CAR. WE TRAVELLED EAST TO WILD'S FARM THEN WE WENT NORTH TOWARD THE RESERVE THE OBJECT FOLLOWED BESIDE US. ON THE WEST SIDE OF THE CAR. IT WAS AT ABOUT TREE TOP LEVEL. IT WAS LARGER IN SIZE THAN OUR HOUSE. WE DID NOT HEAR ANY SOUNDS. THE OBJECT WAS WHT WITH TWO BRIGHT ORANGE LIGHTS NEAR THE BOTTOM (SEE DRAWING NEXT PAGE). THE OBJECT DID NOT PASSED US. WE WENT HOME AND IT CONTINUED ON TO THE NORTH. THE SKY WAS CLEAR AND THE NORTHERN LIGHTS WERE OUT. WE SAW A SIMILAR OBJECT TWO WEEKS PRIOR IN THE SAME GENERAL AREA THAT TIME IT WAS A LITTLE AHEAD OF US.

COMMUNICATION INSTRUCTIONS REPORTING VITAL INTELLIGENCE SIGHTINGS (CIRVIS) REPORTS - UFO/METEORITE SIGHTINGS

Ref: AIRCOM DCO SP OPS 016, 151915Z Mar 95

1. IAW req at ref, fol for your info, to date UFO reports/sightings received by this unit are relayed/reported verbally to 21 ACW Sqn North Bay SD for their action. Fol are transcripts from 4 Wg COC log book:

a. (1) Log entry - 06/2245Z Feb 94; Caller ID - (1). Reporting UFO sighted early this morning, approx 0015L. Description - She saw a huge sun like shape, blue with a red top. It came straight down. This lasted approx 5 sec. She sighted it from her home and said if it landed it would have probably landed just south of Iron Lake. Passed to SD. 4 Wg WCOC tech - Cpl Folsom.

b. Log entry - 19/1515Z Dec 94; Caller ID - (1), DTG of Sighting 19/1504Z. Condition of sky - clear. Location of sighting - same as above. Sighted by - observer, wife and children. Description - one object, round, bright light in the sky that resembles a light bulb, white in colour, low in the sky, no movement, and bright luminosity. Duration - noticed 30 mins prior to call and still there. SD advised. 4 Wg WCOC tech - Cpl Lamothe.

c. Log entry - 31/1700Z Jan 95, Caller ID - (1), (1). Reporting 3 objects 12 miles north east of Pearce Land, Sask. Description - 3 objects with orange and yellow lights (bright) which moved swift, then slow, then swift. Duration - 2 hrs. She also mentioned all hydro electricity was out during this time. Passed to SD. 4 Wg WCOC tech - Cpl Wyatt.

2. 4 WCOC has updated local checklist to reflect ref msg actions and reflects North Bay SD checklist for particulars.

OUR FILE 95-087GL
==========

N95/20

1. UNIDENTIFIED FLYING OBJECT 01:08Z

2. 95-02-06. REPORTED AT 01:08 A.M.
OBJECT LOCATED DIRECTLY ABOVE ST. THERESA POINT, MB.
LAST OBSERVED AT 08:00, ON 95-02-06

3. CIRCULAR OBJECT ABOUT 1000-2000 FT. REFLECTED LIGHT OFF IT WHEN SPOTLIGHT SHONE ON IT. NO LIGHTING OBSERVED, NOR ANY SOUNDS HEARD.

4. THE SKY WAS HAZY AND IT WAS SNOWING.

5. APPARENTLY, UPWARDS OF 300 PEOPLE WERE AT SCENE, UPON RCMP ARRIVAL, ONLY ABOUT 100 PERSONS REMAINED.

6. RECEIVED A REPORT THE SAME DAY FROM ISLAND LAKE WEATHER STATION. WE WERE ADVISED THAT A WHITE BALLOON WAS RELEASED ON 95-02-05 AT 11:12 A.M. THE BALLOON WAS LAST OBSERVED GOING IN A SOUTHERLY DIRECTION, MAKING IT A VERY STRONG POSSIBILITY OF WHAT WAS OBSERVED AT ST. THERESA POINT. BELIEVED BY RCMP TO HAVE INDEED BEEN A WEATHER BALLOON.

RE: R/O U.F.O. Sighting
St. Theresa Point, Manitoba
95-02-06

1. Unidentified Flying Object

2. 95-02-06. Reported at 01:08 a.m.
Object located directly above St. Theresa Point, MB.
Last observed at 08:00, on 95-02-06.

3. Circular object about 1000-2000 ft. Reflected light off it when spotlight shone on it. No lighting observed, nor any sounds heard.

4. The sky was hazy and it was snowing.

5. Apparently, upwards of 300 people were at scene, upon RCMP arrival, only about 100 persons remained.

6. Received a report the same day from Island Lake Weather Station. We were advised that a white balloon was released on 95-02-05 at 11:12 a.m. The balloon was last observed going in a southerly direction, making it a very strong possibility of what was observed at St. Theresa Point. Believed by RCMP to have indeed been a weather balloon.

If you have any questions or concerns, don't hesitate to contact:

From: daveb.edwards@canrem.com (Daveb Edwards)
Date: Sat, 10 Jun 95 18:17:00 -0500
Newsgroup: alt.ufo.reports/1978
Subject: Green UFOs over Toronto Airport?

Green UFOS over Toronto Airport?

Here's a sound byte I picked up from Toronto Canada radio station
680 June 10 at 5:00 pm.

Date: June 09 1995
Time: Evening (time not given)
Place: Pearson International Airport

Description:

Multiple UFOs (green colored lights) were reported at Pearson International Airport. The lights were seen to move vertically as well as traversing the sky. Multiple witnesses observed lights performing unusual maneuvers, non-conventional near an airport. Radio report said this material was to appear in the Toronto Sun daily newspaper.

Followup:

Called the SUN and editorial department said the item was on page 16 in the SUN Flashes column. Purchased said paper, did not find it. (Perhaps the wrong edition?)

Called Pearson International Airport. They would neither confirm or deny the report. I was given a number in Ottawa that turned out to be Department of National Defence. I called that number and was told that no reports of the incident had been reported to them.

Will report back if I can find out more.

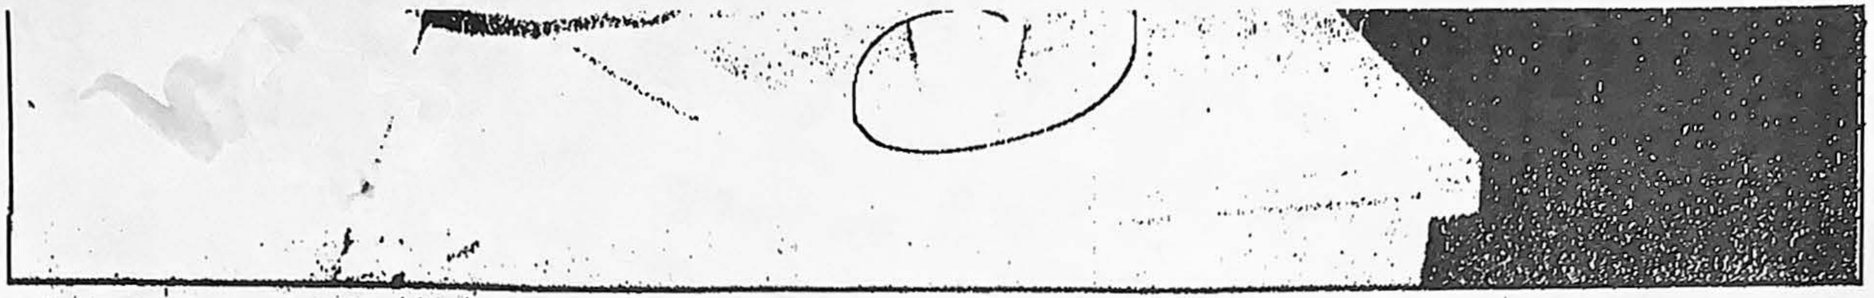
MELVILLE ADVANCE

306 728 4004

10/03/95 14:20



OUTGOING CHAIRPERSON: Lorraine Tochor of Esterhazy replies to a question during the biannual public meeting of the health district Thursday. About 90 people attended the meeting and raised their concerns during a two-and-a-half hour question period with the board. Tochor, along with board members Ken Lorat, Gordon Matthews and Leslie Leontowich have said they will not seek reelection in the first-ever health district elections Oct. 25.

UFO spotted near Crooked Lake

By STAN BARTLETT
Advance Reporter

An Unidentified Flying Object (UFO) viewed by about 20 people south of Melville Sept. 3 remains unexplained.

Most sightings of UFOs are obviously erroneous and turn out to be weather balloons, airplanes or spacecraft flying during particular atmospheric conditions. But many experts believe a number of reliable observations — and this may be one of them — remain unexplained.

"It kind of makes you wonder," says Wayne Skotheim, the owner-manager of Cedar Cove Resort on Crooked Lake. "There must have been 20 of us watching it in the parking lot using binoculars."

A spherical-shaped red, blue, yellow and white light was seen hovering in the northwest sky. The UFO hovered above the hills but at what distance Skotheim wasn't able to tell.

It's not the first time there have been strange lights in east central Saskatchewan or the Crooked Lake area. In 1983-84 Skotheim's friend took photos of an UFO above the Qu'Appelle Valley hills — a mystery to this day — and five years ago Skotheim spotted a strange sphere hovering over Crooked Lake.

On this occasion the mysterious light appeared during a very clear evening, he says. It was predominantly red appearing between 10:15-11:15 p.m. The light then moved off in a northwesterly direction at about the time Melville RCMP Cst. Renee Shank arrived at the scene.

Shank confirms he saw the unexplained light move off in a northwesterly direction and has no idea what it was. He says he was called to the scene through the Yorkton dispatch office and quips about the investigation, "What am I suppose to do, arrest it, and say, take me to your leader?"

No formal RCMP investigation has been started, says Shank.

Acoose denied parole

A man found guilty of killing William Dove will be spending at least another year behind bars.

David Myles Acoose was denied full parole, day parole and unescorted temporary absence last week by the National Parole Board.

In a high profile case Acoose, his cousin Hubert Corey Acoose, and a young offender pleaded guilty to manslaughter in connection with the death of Dove, 73, in August 1992.

Continued on Page A-2

Craftsman revs up retirement years

By WADE S. WALZ
Advance Reporter

If you walk by 66 Halifax Street late at night and hear a noise — it's probably Melville's only automaker at work.

Ernie Franks is a retired school superintendent who builds model wooden cars and trucks, toys and furniture.

"I starting building toys for my grandchildren — doll houses, rockers, and cribs. After my retirement I needed something to do and I've

superintendent and the assistant regional director, based in Yorkton. He spent five years in Melville as a superintendent and then spent time in other surrounding communities. He finished off in 1984 in Melville.

The 72-year-old says he's been building toys for about 15 years. He's made the switch to building cars, trucks and boats.

There's a lot of detail on the Cadillac but he doesn't use a wood chisel to carve the car.

"I don't use chisels very much, I have a band saw, sander and drills. I do use some chisels but mostly power tools."

Franks used several kinds of wood to make the Fleetwood, including oak, mahogany and maple. The only part on the car he didn't make are the wheels, and he

SPOTLIGHT

Parkland Regional Library in Melville during June. He has also sells some of them through Second Wind, a collectibles shop at the Waverley Hotel.

But the Cadillac isn't for sale and neither is the Model A or Model T. If the Fleetwood was for sale, Franks says it would command about $100.

"I would never get the true value for it but I would have to, at least, get what it cost me to build."

It takes time and money to build the cars but he's not in any hurry to switch hobbies.

enon that cuts across poli lines, replied Melville board r ber Gordon Matthews.

"They're (various jurisdict all having the same problem we don't know if our governi has chosen the right method o but we're sure struggling. \ hoping we can pull it toge because if we don't we'll be a lowed up by Yorkton without question."

He says the population of N Valley is too small to get spec services.

Continues Matthews, "We haven't reached the target th set for us in acute care. We know if the people — the powe be — have set the right targe not. We're a little suspicious maybe they haven't. We blame any political setup a what's happened."

By early November it wi known if the government will preliminary approval to a pro for a 50-bed facility adjacent t Paul Lutheran Home, says b member Albert Selb. He says ernment and hospital offi have agreed for years the a facility needs replacing.

Hi!

My name is . I'm a meteorologist at Environment Canada's weather centre in Winnipeg. We've received a number of calls today regarding a very bright "burning ball" in the sky.
Many locations were overcast with snow, yet a bright flash was noted.

The reports indicate that the incident was just after 07:00 AM CST (1300 UTC) - about 07:10 AM seems to be the most consistent figure.
, at Miami (49N 22'/98W 14'), reported the "fireball" and that it was moving northwestward. We got another report from Minnedosa, MB (50N 15'/99W 50'). Bright flashes to the west were reported from Winnipeg. There was a lot of cloud around and it's possible that the fireball was below cloud cover - highest reported ceiling was around 10,000'. Unfortunately, I was only able to get second-hand info. Mr. was not available this afternoon.

If I get any further information, I'll pass it along.

SIRVIS
RECEIVED CALL AT 2AM (0800Z) FROM CONSTABLE BLIGHT OF SHELLBROOK RCMP ( ). HE WAS CALLED OUT TO THE SANDY BAY RESERVE WNW OF CANWOOD (APRX 40-50 MILES NW YPA) BY RESIDENTS TO REPORT A SAUCER SHAPED OBJECT IN THE SKY. IT WAS FIRST SEEN AT 11PM (0500Z) AND WAS LOW IN THE SKY DUE EAST, APPROXIMATELY THE SIZE OF 5-6 HOUSES. A RING OF PORTHOLES COULD BE SEEN AROUND IT WITH THE BRIGHTEST PORTHOLE IN THE CENTER. MIDDLE AREA WAS BLUE/GREEN, AND YELLOW WHERE THE PORTHOLES WERE. IT APPEARED TO BE SPINNING. BY 2AM IT MOVED SLOWLY TO THE SOUTH, DISAPPEARING FOR APRX 1/2 HOUR, IS FARTHER AWAY, HIGHER IN THE SKY AND NOW APPEARS STATIONARY. CONSTABLE BLIGHT SAYS NOW WITH THE NAKED EYE IT APPEARS AS A BRIGHT LIGHT, BUT THROUGH 10 POWER BINOCULARS HE CAN SEE THE COLORS IN IT.

=================

My assessment:

Given the duration of the sighting, it's likely it was something astronomical. I thought it might have even been the Moon, but it's too late for that. The fact that the UFO rose in the east and moved south really makes it seem like a star or planet. Using a basic planetarium program available on the net, I found that for the coords, Procyon is just about right (there were no planets in the area). Now, Procyon isn't one of the brightest stars around, but it's decent at +0.4, so that low on the horizon, it would be flashing pretty good.

But given that a number of people reported portholes and a spinning motion, the scintillation must have been incredible that night.

If it *wasn't* Procyon, I'm not sure what it might have been.

This is the releasable portion of a record requested under the Canadian Access to Information Act. Not withstanding any security markings appearing on this record, the information contained herein is no longer classified.
