Re: [redacted] Meteorite Sighting  
R.M. of St. Andrews, Mb 94-01-08

On 94-01-08 at approximately 17:43 hrs. Selkirk Rural R.C.M.P. Detachment received a report of a possible plane crash from [redacted]. It was later determined that [redacted] actually saw a meteorite or fireball of some kind. [redacted] observed an object in flames "falling" towards the ground at approximately 17:30 hrs. [redacted] was driving north on Hwy #8 near the turnoff for Hwy. #230. She looked northwest and the fireball appeared to be dropping straight down.

[redacted] reports being in East Selkirk towing a vehicle from a ditch when a flash made him look up. [redacted] stated that a round, bright, orange and red, flaming ball fell straight down from his position to the northwest. [redacted] heard no noise but noted that some debris appeared to be falling from the main body. It was in sight for approximately five seconds until it went out of sight behind some trees.

[redacted] reports sighting a similar object while at the intersection of Hwy #9 and Hwy #4. [redacted] saw this falling to the northwest as well.
