
INTERVIEW OF:

[REDACTED]

RESPECTING: UFO Sighting
CONDUCTED BY: Cst. MARZINZIK, Edmonton GIS
Edmonton, Alberta
TAKEN AT: Gis Interview Room
DATE & TIME: 94 OCT 07, 1104 hours

4 Q: [REDACTED] you reported on the 8th of SEPTEMBER sighting of
something that you observed in the sky. On the morning of the
7th of SEPTEMBER 1994. Could you just relate to me exactly
8 explaining the day, the date, the time, where you were, what
you saw, everything that you can think of just as
chronological order as you can and if I have any questions,
then after you've told me what you observed, I'll ask you the
specific questions.

A: Okay. Start talking.

12 Q: Just start talking.

12 A: Okay, I was working on something around 12:30. I was at my
kitchen table and I went out on the veranda to get some fresh
air and I was, I observed that the sky was very clear and I
16 was looking at stars, you know star gazing and I was looking
to the south and it came from behind me and above me and I was
looking like this and I looked up and it was right there and
I seen an object or more than one object, couldn't really tell
20 but for sure if it was more than one or just one complete
object, it looked like a triangle or "V". It had 9 lights, uh
in unison you know and they were kind of uh, rusty color, like
golden yellow.

24 Q: Uhm hmm.

28 A: And it appeared that the object was in a type of mist or an
aura cause I noticed that it was seemed to be somewhat
separated from the rest of the atmosphere, you know the sky.
It was just, seemed to be different. The middle of it was
very dark, very black and the middle of it was very black, I
observed that and the lights weren't blinking. What else can
I say - and it just suddenly disappeared and I couldn't, I
32 was, I thought about it later and I couldn't tell if I was
shocked,

Q: Uhm hmm.
