Lt. Col. Robert L. Oakley
P.O. Box 113
Apache Junction, AZ.
85217-0113

Dear Mr. Oakley,

I appreciate your taking the time to address my letter concerning the rumor of the "bodies at WPAFB". An attempt was made to communicate with Francis J. Beaupre but with no success.

I have enclosed a couple of items which illustrate where researchers obtain these items. These items are for your personal interest.

- (a) The first, a Presidential Briefing document which surfaced three years back. This document has neither been officially confirmed or denied.
- (b) A letter from now deceased Dr. Robert Sarbacher, and an interview with Dr. Eric A. Walker who was identified by Dr. Sarbacher as being at the Wright Field meeting. Dr. Walker was executive secretary of the Research & Development Board 1950-57, and later president of Penn State University from 1956-1970.

Once again, my thanks for your assistance and advice.

Sincerely,

Grant Cameron

P.S. There is a major documentary on the Washington DC involvement Oct 14 9-11 EDT. I am not too sure which network will carry this.

17 May '81

Dear Bonnie,

As a reader of odds and ends articles on UFO's, no less than five (5) articles indicted the US Government, the Air Force, the CIA for withholding the information that "alien space being bodies are in a deep freeze at Wright-Patterson Field, Dayton, Ohio." Writers of these articles conveniently used the weasel ploys, "a witness who asked to remain anonymous"... "witness now dead" (sic)... "a former guard whose whereabouts is now unknown"... in other words, the standard baffle-gab to hype a story of little content. Evidently editors of four of those internationally distributed magazines are so hard up to maintain readership interest, they shrug off their usual standards of requiring reporters to verify & identify sources (The Washington Post heroin addict story comes to mind).

So it comes as fresh air in smog: this disclaimer of alien space bodies in Wright-Pat deep freeze & I'll shortly qualify the following quote,

"I was at Wright Field from 1946 to 1952, then again from 1956 to 1959 and had many occasions to USE THE COLD CHAMBERS in tests. I say that they never had and DO NOT NOW have, any UFO items there at all. No bodies. No vehicles. I'm positive. Up until I retired in '62, my boss was there at Wright all the time, and I had weekly contact with him. I'd certainly have heard of anything like this from him."

Quoted from a personal letter to me on 30 April '81 in response to my specific questions to retired Lt. Col. Robert Oakley, parachutist for 26½ years, holder of five patents, including his invention of the US Army T-10 parachute. I jumped with him during WWII.

cordially,

Russ Reardon
Isle of Palms SC 29451

Monrovia, California 91016

Dear Mr. Graham:

First, let me tell you that I have long ago given up acquiring access to the so-called blue room at Wright-Patterson, as I have had one long string of denials from chief after chief, so I have given up.

In answer to your questions, one is essentially correct. I don't know of anyone who has access to the blue room, nor am I aware of its contents and I am not aware of anything having been relocated. I can't answer your question six, in fact, I can't find anyone who would answer it.

To tell you the truth, Mr. Graham, this thing has gotten so highly classified, even though I will admit there is a lot of it that has been released, it is just impossible to get anything on it.

I am returning your papers because I know they are of value to you.

Sincerely,

Barry Goldwater

1. The following information was obtained by a Special Agent of this District Office and is submitted for your information:

2. A/IC CLYDE E. WHEELER, AF 21288827, 6501st Support Squadron, Wright-Patterson Air Force Base, Ohio, was interviewed 31 July 1952, and advised that M Sgt LOYAL R. BUNCE, AF 6832919, 575th Field Maintenance Squadron, Box 19, Selfridge Air Force Base, Mt. Clemans, Michigan, told him approximately 10 June 1952, that he (BUNCE) knew about the Flying Saucers at Wright-Patterson Air Force Base. At this time (approximately 10 June 1952), BUNCE explained in detail that he knew the people at Wright-Patterson AFB had found some Flying Saucers and also some bodies inside the Saucers. The Saucers and the bodies were taken to Wright-Patterson AFB, Ohio, date unknown. At Wright-Patterson AFB, BUNCE explained officials at the Radiation Laboratory dissesambled the Flying Saucers, which supposidly came from Venus and the bodies inside the Saucers were taken to the Aero-Medical Laboratory, Wright-Patterson Air Force Base, for further study. The discussion of saucers came about as a result of BUNCE's interest in a project that A/IC WHEELER was working on and also as a result of BUNCE's knowledge of WHEELER having been at Wright Air Development Center, Wright-Patterson AFB, Ohio, sometime in January 1952.

3. A mutual friend of BUNCE, identified as mr. _____, Sugar Bush Road, North Baltimore, Michigan, verified this story to WHEELER as related above by BUCE, concerning the Flying Saucers. advised WHEELER that a friend of his, who works at Wright-Patterson AFB, Ohio, at the present time, is _____, West Springfield, Ohio, and his friend had related this information to him (_____) concerning the Flying Saucers and bodies now at Wright-Patterson AFB.

SECURITY INFORMATION

CONFIDENTIAL

CONFIDENTIAL

SUBJ " Flying Saucers" et al

4. Prior to his (WHEELER'S) transfer to Wright-Patterson AFB, Ohio (11 July 1952), BUNCE approached him and wrote out eleven (11) questions for him (WHEELER) to find the answers. A photostatic copy of the questions is attached to this correspondence as inclosure 1. Also, BUNCE suggested to WHEELER that they correspond in code concerning this matter and WHEELER admits helping BUNCE write a code system, of which a photostatic copy was made and is attached to this letter as inclosure #2.

5. According to WHEELER, a civilian employee at Wright Air Development Center, at the Radiation Laboratory, identified only as _____, is a good friend of _____ and is supposed to have supplied the information to _____ concerning the Flying Saucers being disassembled at the Radiation Laboratory and the information concerning the bodies that were taken to the Aero-Med Laboratory. On 13 July 1952, WHEELER typed a statement, a photostatic copy of which is attached to this letter as Inclosure #3.

6. Approximately 20 June 1952, WHEELER claims he wrote a complete report concerning the above captioned matter and gave this report to 2nd Lt GEORGE H. JANCZEWSKI, who is Intelligence Officer at Headquarters Squadron, 10th Air Force Selfridge, Air Force Base, Michigan. At the time WHEELER gave the report to the Intelligence Officer, he was instructed by the Intelligence Officer to listen to BUNCE, _____, or anyone else, who had knowledge of Flying Saucers and report back to him (Intelligence Officer) any information he might obtain concerning this subject.

7. During the month of June, WHEELER claims he went to the Base Library (Selfridge AFB) and drew a book entitled "Behind The Flying Saucer," by FRANK SCULLY. This was first suggested by Sgt BUNCE, WHEELER claims, and after reading the book, he found it contained the same information as related to him by Sgt BUNCE concerning the flying saucers with this exception: IN the book there was no mention of the Flying Saucers being disassembled at Wright-Patterson AFB at the Radiation Laboratory and no mention made about the bodies inside the saucers being taken to Aero-Med Laboratory, Wright-Patterson for further study.

8. A review of File No. 24-21 at Headquarters, 5th OSI District, reflected a photostatic copy of the statement to the Intelligence Office, Selfridge AFB, mentioned above, and also reflected a letter of transmittal from the Air Provost Marshal, Selfridge AFB, Michigan, wherein the Provost Marshal stated it is his belief A/IC WHEELER may be attempting to draw attention to himself to further his invention or a possible security leak may exist in the Flying Saucer Program. The letter of transmittal with inclosure (Special File of WHEELER) is attached hereto as Inclosure #4.

Assignment

A/1c Clyde E. Wheeler
AF 21288827
6F01 + Support Squadron
Wright-Patterson AFB
Dayton, Ohio
13 Jul 52

Ler
C/c
P.C.
Brockton, Mass.

Report of the 8th of Jul 52.

On the night of 8 Jul 52, I Clyde E. Wheeler AF 21288827 A/1c USAF, did visit M/SGT Loyal Bunce, who resided at the Selfridge AFB Trailer Court, accompanied by _____ Breech, which was a business partner of mine. Mr. Breech and I arrived at approximately 1900 hrs.

My visit was to say goodbye to the Bunce family and that was the reason for bringing my friend along. Sgt. Bunce was finished with his supper and was seated at the far end of the table and he asked me to sit next to him. He motioned to my friend to sit at the other end of the table. Mr. Breech engaged in conversation with Mr. Bunce's wife about children when the Sgt. asked me if I had worked out a code to be used in communication back and forth. I told him that I had forgot about it to which he replied "How could you forget about it". He asked his wife to bring him a pencil and a pad of paper he then proceeded to make out his own questions which were about eleven in all. All this time he continued to talk to Mr. Breech about other things while making up the code questions. The Sgt. still did not let on to Mr. Breech as to what he was doing until Mr. Breech started staring at the pad upon which the Sgt. was writing. The Sgt. then noticed this and said, "Of course you know what Clyde and I are doing", to which Breech just smiled and went on to something else. I copied the questions and answer sheet for Sgt. Bunce as he seemed to be a poor speller and writer. He said that I should be sure to date the good letter the first of the month or the fifteenth of the month and to use exactly the code answers to the questions. Breech and the Sgt. talked over the last war and we left.

The next day 9 Jul 52, I started to clear the field and during my clearing I talked to the Provost Marshal about the code and he then advised me on the usual security measures and to make up this report. This is the end of my report. Clyde E. Wheeler, AF 21288827.

I have in my possession the introduction letter to _____ Breech and have listed his address _____

West Springfield, Ohio Tel. Wright Field

I will report in as soon as I arrive at Wright for further instructions.

COMMENT

I told Sgt Buntz when I saw him that same day and that evening started the flying saucer deal.

Sgt Buntz told me about Frank Scully and his book "Behind the Flying Saucers", which I had read something about in the newspapers and in an article in "True Magazine". He explained that he knew there were flying saucers and that they had two of them at Wright Field with the sizes of 27' diameter and 99' diameter. He said that one craft had a broken porthole in it and that the reason the three passengers were dead was because of a terrific heat field caused by friction had cracked the porthole and had killed all inside. At Wright Field, he claimed the Air Force had closed Project Saucer because it was true fact and would be alarming to the American public and that the Air Force reopened the project under the name of Project Radiation and that the laboratory was situated on the top of a hill in Wright Field. I listened to him on this subject and when I said I doubted the story in some ways he told me it was fact because they had proof. I asked him what sort of proof could he have. He then said backing his statements that there was a man who came from this field by the name of _____ who was transferred to Wright Field and was put on Project Radiation. He said that they (meaning Mr _____ and someone else I don't know and Sgt Bunts) thought _____ would no doubt be assigned to that project and they arranged for _____ to tell _____ who works in Maintenance Electronics or a building of that name, so that _____ could transmit back to this radio shop so Mr _____ and Sgt Bunts could know if there were really flying saucers and such.

Then M Sgt Bunts told me about the radio they found in one ship. He said they got into only one ship of the two they have and that one was the one with the broken ~~XXXXXXXX~~ porthole. They kept probing through the porthole until they hit something that opened the door of the ship. They found a radio or something similar of which set a signal off at a staggered interval of time somewhat over 15 minutes. They said it evidently set off a signal but which could not be picked up with out modern electrical devices. The case of the radio which was about 5" (inches) could not be pierced by diamond drills and was as light in weight as aluminum.

Then came some theories which he told me was such that the answers to this saucer was that a magnetic field was set up ahead of this craft by a turning, spinning disc in the center which created the magnetic field ahead.

I met Mr _____ yesterday and he confirmed Sgt Bunts's story and said a letter of introduction would be given me introducing me to Mr _____ when I get there who would in turn introduce me to _____.

I realised after meeting Mr _____ that a serious leak in security was present and if the saucer was real as they said it started to scare me at the thought I knew this. I didn't feel well yesterday afternoon as my mind was on saucers and this information I knew. I realised a little when I got home last night and realised the actual seriousness of my position. I decided I would see Mr. _____ and being my best friend would give me some advice as to whether he thought it was a hoax or not.

After supper, I decided I would make up some questions pertaining to the saucer and see what Sgt Bunts would say. I figured my serial number

Lt. Col. Robert L. Oakley, USAF (Ret.)

22 April 1988

Mr. Grant R. Cameron
649 Silverstone Ave.,
Winnipeg, Manitoba

Dear Mr. Cameron:

Your interesting letter with enclosures arrived a couple of days ago and I've been racking my brain to see if I could recall ANYTHING that might give some credence to the tale of stored bodies or equipment from outer space at WPAFB. Nothing has come to mind that might help you.

Let me address your three questions: 1. My security clearance during the period from about 1948 to 1959, when I left WPAFB, was Top Secret. In the event that there was a Project Blue Room (or Project Blue Book as I have read in some articles), or if there was some storage area that was referred to as "Blue Room", it COULD have been classified Top Secret with a "need to know" stipulation. Having been in the largest cold chamber many times over the period of 1949-1958, with some periods being eight hours per day during the tests I was involved in, I feel that at some time I would have become aware of, or have had called to my attention, any "Off Limits" area of the chamber. 2. In my work at WPAFB (I went there in March of 1946) I do not recall ever having met or heard of Dr. Eric Wang. This does not imply that he was not there, of course, as that was one large facility and my area of responsibility most likely was in no way connected with the Dr. Wang. 3. It appears to me, in reading the letter from Barry Goldwater, that he was under the impression that "Blue Room" was just that, a room. In the letter from R. Dean Porter of the HQ ASD Documentation Division, it would appear that "Blue Room" was the title (or code name) of a project. Having written to Sen. Goldwater a number of times on legislative matters of interest to me, I noticed a deterioration in the quality and substance of his replies (when such was received). Most likely age had something to do with this. Personally, I would put little value on this letter.

Suggestion: You might contact one FRANCIS J. BEAUPRE who was in my unit at Wright-Pat during the whole time I was there and for many years later. This man worked very closely with the Photographic Laboratory and with Flight Test Division. Beau got around a lot and could very well have known something of the Blue Room (or Blue Book) project if it existed. Beaupre lives at 5631 Burkhardt Rd., Dayton, OH., 45431. Although not too good a correspondent, Beau just might reply with a letter, however you might be better off to call him. Area Code 513 555-1212 would get you the Dayton area information from which you could get his telephone number.

From the AF origin material you sent to me, I am wondering what sort of a reply you would get from Documentation if you asked about "Blue Book". The indication is that this would have been work done by the Electronics Laboratory. I know no one who was with this unit. Not much help, am I?

Cordially yours,
