**SUBJECT: Request for Agency Review of GAO Draft Report**

Earlier this year, you were contacted by General Accounting Office representatives concerning what government records or information your agency has relating to the crash of an airborne object near Roswell, New Mexico in July 1947. We have completed our work and prepared a draft report summarizing the results of our work.

Before providing the report to the requestor (Congressman Steven H. Schiff) we want to ensure that we have correctly reported on the information obtained from your agency. Attached for your review are excerpts from the draft report summarizing information provided to us by your agency.

Please call me at (202) 512-4603 to confirm that you have received this memorandum and the attached sheet summarizing the information provided by your agency. When you have completed your review, please call me with any comments you might have.

So that we can meet our projected report issue date, I would appreciate receiving your response no later than Tuesday, July 11, 1995. I will see that you receive a copy of the final report when it is issued.

Thank you in advance for your prompt attention to this request.

[Pages 5 and 6]

We sent letters to several federal agencies asking for any information or records they might have concerning the Roswell crash. In this regard, we contacted DOD, the National Security Council, the White House Office of Science and Technology Policy, the CIA, the FBI, and the Department of Energy.

The ... White House Office of Science and Technology Policy responded that they had no records or information relating to the Roswell crash.
