HH

NBC PRESS -1- TODAY WITH MRS. ROOSEVELT

FOUR DEMOCRATIC SENATORS TODAY DEFENDED THE ADMINISTRATION AGAINST REPUBLICAN CHARGES OF "HANDOUT STATISM" AND WASTE AND SEVERELY CRITICIZED "RECKLESS ATTACKS" ON MEMBERS OF THE STATE DEPARTMENT.

THE SPOKESMEN WERE SENATORS CLINTON P. ANDERSON OF NEW MEXICO, WILLIAM BENTON OF CONNECTICUT, PAUL H. DOUGLAS OF ILLINOIS, AND THEODORE F. GREEN OF RHODE ISLAND. THEY EXPRESSED THEIR VIEWS ON MRS. FRANKLIN D. ROOSEVELT'S "TODAY WITH MRS. ROOSEVELT" TELECAST ON NBC IN ANSWER TO THREE REPUBLICAN SENATORS WHO ATTACKED ADMINISTRATION POLICIES ON THE PROGRAM LAST WEEK. THE DISCUSSION SUBJECT WAS "THE DEMOCRATS UPHOLD THE ADMINISTRATION."

OTHER PARTICIPANTS ON THE TELECAST WERE CAPT. JACK ADAMS AND FIRST OFFICER G.W. ANDERSON, BOTH OF CHICAGO AND SOUTHERN AIR LINES, WHO LAST WEEK REPORTED SEEING A "FLYING SAUCER" OVER STUTTGART, ARK.

FOLLOWING IS THE COMPLETE TEXT OF THE TELECAST DISCUSSION:

MRS. ROOSEVELT: LAST TUESDAY WHEN I TOOK UP MY PAPER, I SAW THAT WE HAD AGAIN SIGHTED IN THE AIR STRANGE OBJECTS FLYING VERY FAST, OR AN OBJECT. BUT THIS TIME TWO PEOPLE WHO HAD SIGHTED IT WERE REALLY QUALIFIED PEOPLE TO KNOW WHAT THEY WERE LOOKING AT. ONE WAS CAPT. JACK ADAMS, THE OTHER WAS FIRST OFFICER ANDERSON. AND THEY WERE FLYING THEIR USUAL ROUTE, I IMAGINE, FOR THE CHICAGO AND SOUTHERN AIRLINES, AND WERE OVER STUTTGART, ARKANSAS. NOW I'M GOING TO ASK THEM, FIRST CAPT. ADAMS, WHAT DID YOU SEE?

ADAMS: MRS. ROOSEVELT, I'M VERY ELATED THAT SINCE THE PERSON THAT YOU ARE, THAT YOU HAVE AN INTEREST IN THESE OBJECTS. I'LL HAVE TO ADMIT THAT I HAVE BEEN VERY SKEPTICAL UP UNTIL THIS POINT, OR I SHOULD SAY UNTIL LAST MONDAY EVENING WHEN WE SAW THIS. THE FIRST THING THAT ATTRACTED OUR ATTENTION WITH A BRIGHT BLINKING LIGHT THAT WAS APPROACHING US FROM THE SOUTH TRAVELING NORTH. WE WERE AT 2,000 FEET FLYING ON A GENERAL HEADING OF WEST. WHEN I SAW THIS VERY BRIGHT BRILLIANT LIGHT, I KNEW THAT IT WAS A DIFFERENT KIND OF LIGHT, AT LEAST ONE THAT I HAD NEVER SEEN. SO I CALLED ANDY'S ATTENTION TO IT, AND IT WAS IN HIS VIEW AS WELL AS MINE, AND WE WATCHED IT FOR A PERIOD OF APPROXIMATELY 20 OR 30 SECONDS. AS IT DREW NEARER TO US AND CROSSED OUR PATH, I WOULD ESTIMATE NOT OVER A THOUSAND FEET ABOVE US OR 1500 FEET IN FRONT OF US, MAKING A TOTAL OF NOT OVER A HALF MILE, THE UNDERSIDE OF THE OBJECT, IN MY OPINION WHAT WAS THE UNDERSIDE, THERE WAS A CIRCULAR GROUP OF LIGHTS ARRANGED IN A MANNER THAT GAVE IT AN APPEARANCE OF A DEFINITE CIRCLE. OF COURSE, BEING AT NIGHT, WE COULD NOT SEE THE VERY OUTLINE OR THE RIM OF THE THING. IT COULD BE IN A LITTLE DIFFERENT SHAPE THAN A CIRCLE. I DO FEEL IT HAD BODY TO IT DUE TO THE FACT THAT AS IT CROSSED OUR PATH IN FRONT OF US AND ABOVE US, THE LIGHT THAT WAS ON TOP WAS BLOCKED FROM OUR VIEW AND THEN CAME BACK INTO VIEW AS IT FLEW ON PAST AND BEYOND.

(MORE)

1950

MAR. 20

ARK.

NBC PRESS -2- 1ST ADD MRS. ROOSEVELT XXX AND BEYOND.

MRS. ROOSEVELT: THAT'S A VERY GOOD DESCRIPTION OF WHAT YOU SAW, CAPT. ADAMS. I'D LIKE TO ASK YOU, MR. ANDERSON, WHETHER YOU HAVE ANYTHING WHICH YOU COULD SHOW US THAT WOULD GIVE AN IDEA OF WHAT THIS WAS LIKE?

ANDERSON: THIS DISPLAYED HERE APPROXIMATES WHAT WE DID SEE, WITH A FEW EXCEPTIONS. WE OF COURSE HAVE TO ASSUME THAT THE OBJECT WAS ROUND. HOWEVER, THIS LIGHT ON TOP WAS THE FAST BRILLIANT BLINKING LIGHT THAT WE SAW APPROACHING US. AND THEN ON THE BOTTOM WE HAVE CIRCULAR LIGHTS THAT WERE SORT OF BLUISH OR FLUORESCENT IN NATURE. THEY WERE IN CIRCULAR PATTERN AND APPROXIMATELY 100 FEET IN DIAMETER.

MRS. ROOSEVELT: YOU FLEW OVERSEAS AND HAVE SEEN MANY KINDS OF AIRPLANES AND YOU HAVE DONE A GREAT DEAL OF FLYING, CAPT. ADAMS, SO THAT FOR TWO PEOPLE QUALIFIED, AS YOU ARE, TO HAVE SEEN THIS, YOU MUST BE PRETTY SURE NOW THAT YOU HAVE ACTUALLY SEEN SOMETHING QUITE DIFFERENT AND NEW.

ANDERSON: NEITHER JACK OR I HAVE EVER SEEN ANYTHING THAT APPROACHED THIS. I MEAN IT'S NOTHING LIKE JET OR ANYTHING LIKE THAT WE'VE EVER HEAR OR SEEN OTHER THAN THE FLYING SAUCER ITSELF.

MRS. ROOSEVELT: WELL THAT OF COURSE IS SUCH AS WE HAVE -- AT LEAST I NEVER REMEMBER HEARING BEFORE, AND I WILL SAY I'VE BEEN A LITTLE SKEPTICAL BEFORE; I THOUGHT PEOPLE WERE SEEING THINGS. BUT YOU HONESTLY FEEL CAPT. ADAMS, THAT THIS HAD BODY AND WAS SOMETHING FLOWN. YOU DON'T KNOW WHETHER ANYONE WAS IN IT?

ADAMS: WELL, OF COURSE, ABOUT ANYONE BEING IN IT, NATURALLY I DON'T KNOW THAT, BUT THE WAY IT WAS FLYING, I'M POSITIVE THAT IT WAS A DEFINITE CONTROLLED FLIGHT. IT MAINTAINED A CONSTANT ALTITUDE AND CONSTANT COURSE AND TRAVELED AT A TERRIFIC RATE OF SPEED.

MRS. ROOSEVELT: THAT WAS CERTAINLY VERY INTERESTING AND I THANK YOU FOR COMING HERE TODAY. THANK YOU.

SEE YOU, LORD!

THE WHITE HOUSE

WASHINGTON

September 23, 1935

Reverend and dear Sir:

Your high calling brings you into intimate daily contact not only with your own parishioners, but with people generally in your community. I am sure you see the problems of your people with wise and sympathetic understanding.

Because of the grave responsibilities of my office, I am turning to representative Clergymen for counsel and advice,- feeling confident that no group can give more accurate or unbiased views.

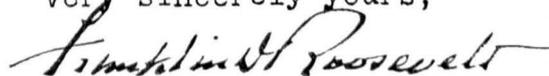

I am particularly anxious that the new Social Security Legislation just enacted, for which we have worked so long, providing for old age pensions, aid for crippled children and unemployment insurance, shall be carried out in keeping with the high purposes with which this law was enacted. It is also vitally important that the Works Program shall be administered to provide employment at useful work, and that our unemployed as well as the nation as a whole may derive the greatest possible benefits.

I shall deem it a favor if you will write me about conditions in your community. Tell me where you feel our government can better serve our people.

We can solve our many problems, but no one man or single group can do it,- we shall have to work together for the common end of better spiritual and material conditions for the American people.

May I have your counsel and your help? I am leaving on a short vacation but will be back in Washington in a few weeks, and I will deeply appreciate your writing to me.

Very sincerely yours,

Reverend Turner Holt,
Greenwich, Ohio.

Possony, Dr. Stephen T.

Steve **Possony** was the acting chief of the Directorate of Intelligence Special Study Group and he had a direct channel to Samford. Steve was pretty much sold on the whole thing. He did a lot of investigating on his own book and he had Father Hayden, the astronomer, as his special consultant. Steve and his crew used to cruise all over the U.S. and Europe and during these travels they picked up a lot of UFO data. Steve was behind Fournet 100% and tended to push him. He was smart enough to know that the UFO situation was hot so he used Fournet, who was a reserve and didn't plan to stay in the Air Force any longer than he had to, to try out his ideas. **Possony** didn't much care what he said, however, and he used to go to battle with any or all of the more vocal skeptics. He really got teed off at Menzell and went to all ends to find out everything about the man. It turned out to be very interesting. **Possony** had a good reputation in the Air Force. Besides being a fairly sharp intelligence man, he is a professor at Georgetown University and he has written quite a bit on the strategy and concepts of airpower. He is considered one of the world's experts on this subject.

Hi Grant,

Gosh, I haven't thought of that article for years! Some of the information I took from Stefan Possony's private papers, which I received years ago from an FOIA request and some came from Georgetown University. Also, there was I believe, some information gleaned from the old "Saucer News."

I dug into Possony while working on the history of Project SIGN. My papers are not stored here in my home any longer. I sent them to storage out of state over a year ago and only kept the audio recordings to work on since my health is deteriorating. I'm pretty sure I sent Jan Aldrich copies of my Possony material. It would probably be faster to contact him for a copy, since it would be difficult for me to travel to look through my archive materials.

By the way, I sent you a research cd containing the W. B. Smith recordings and a few Canadian cases from the 1960s. You should get it by next week. It's a data disc containing mp3 files and a printable guide to recordings.

You may not be aware that I have returned to private research and no longer participate publicly in Ufology. About the only public appearances I make is my regular gig on "Strange Days...Indeed!" and a rare posting to UFO Updates to update everyone on what recording compilations will be available as I complete them.

Best Always,
 Wendy

Wendy

I am doing an article on FDR and UFOs. Lou Farish of Ozark Convention fame said he had read a story about FDR Mars and Venus. He could not remember where he had read it. After much searching I suddenly came across your article

<http://www.refugee.net/ufo/connors/refugee.asp?roosevelt+mars+venus&>

My first question and dying wish is where did you get this from? It is a fascinating little tale.

Your article also shocked me in that you mention Possony who has interested me for years. Where were his papers stored? I would certainly love to visit the place in one of my many travels down south. Is any of this tale mentioned in his writings?

Hi William!

Thank you for your quick reply.

Yes, I have read this very well written and researched article
 'Pre-World War II "Creature" Retrieval?' that you and
 co-author,
 Eloise Watson (who is related to both witnesses, Secretary of
 State Cordell Hull and Rev. Turner Hamilton Holt) published in
 the Winter 2001-2002 issue of 'IUR'.

It was also Grant Cameron that brought it to my attention again
 when he included a short summary in his excellent presidentialufo
 web site. If the popular and hardworking Cordell Hull did accept
 President Roosevelt's offer of the vice-presidency and did get
 elected President himself, I wonder if there would still be a
 mystery surrounding the UFOs.

> My co-author of the article, and a family member of Rev. Holt's,

 > communities. She didn't find anything.

As Stanton Friedman likes to say, "Absence of evidence is not
 evidence of absence.", so there could very well be several such
 announcements in local papers.

Since Stanton is a physicist and Hamilton's daughter Lucile
 Andrew's son has a doctorate in physics and is has a responsible
 position in industry, maybe Stanton and others with similar
 backgrounds can make new inquiries about this potentially major
 discovery that was stored in a public building and likely long

since forgotten.

 > why didn't they go public? Wow! This could be a historians dream
 > project.

Author Grant Jeffrey told me about how the Ark of the Covenant, which contained the 10 Commandments and where God spoke from the gold winged twin angel mercy seat above, was moved back to Israel by Jewish priests after centuries of safekeeping in Ethiopia. Maybe the Americans are/were temporary custodians of similar artifacts of great religious or historical importance for all of humanity.

 > something, let me know.

I agree with you that this story could not have been made up but the details of what was told to these two sisters by their father may have later been interpreted in light of our current beliefs and understanding about our world, including UFOs.

I will certainly keep you informed of anything new I come across regarding this amazing and potentially very important UFO story.

[Back To \[INBOX\]](#)

Dear Mr. Cameron:

This is in response to your e-mail requesting if this Library has any correspondence or record of meetings between President Roosevelt and Nicola Tesla.

We located a file titled, "Tesla, Dr. Nicola, 1943" in the President's Official File. It contains a small note with a one-page excerpt from Who's Who in America, 1940-41 attached; a telegram from Charles F. Scott and Louis Adamic of Yale University to President Roosevelt about the death of Dr. Tesla and his "enormous contributions to science and industry;" and 4 one-page inter-office White House memoranda. We did not find any record of President Roosevelt meeting with Dr. Tesla.

If you would like copies of the documents, the Library charges 50 cents per page for photocopies with a \$10.00 minimum per order. This order would be \$10.00. Prepayment is required. A check or money order should be payable to the Franklin D. Roosevelt Library. You may also use a credit card. Please provide the card name, number, expiration date, and a daytime telephone number. Do not send credit card information by e-mail, as our site is not secure. Call us at (845) 486-7770, fax us at (845) 486-1147, or mail the information to us at 4079 Albany Post Road, Hyde Park, NY 12538. Be sure to include your mailing address.

If we can be of any further assistance, please feel free to contact us again.

Sincerely,

Raymond Teichman

efforts to begin to surface and become known by the Fourth Estate.

Why Academic Types are Generally Known as Egg Heads

Field's group presented the main question to President **Roosevelt**.

Roosevelt thought for a couple of seconds and stated that this question was as much a "military problem" as it was a "humanitarian concern...For the discontented can and will cause trouble, serious trouble."

Many avenues were discussed and plan's outlined. Among the least controversial was the possibility of shifting the refugees to Africa and having them forge ahead with turning the Dark Continent into productive farmland. The report didn't say what they would do with the 5 million elephants, not to mention the hippos, but I suspect a massive plan for a new fertilizer plant would come about once the refugees got there and saw the barren and sun parched land. However, house breaking an elephant isn't easy and where on earth would you get 6 billion copies of the New York Sunday Times every day? But, I digress...

Malcontents and Trouble Making WW II Refugees. A Subversive Lot if ever there was one.

Scientific / Academics Types Consider Ufologists Bonkers...Go Figure

A certain Dr. Stefan T. Possony (Po-So-Knee) came forth with a scathingly stupid suggestion for refugee placement. He postulated (I think he did more than that, but I don't want to get into trouble) that the Moon, **Venus** or **Mars** might be the best place to send the malcontents and that they wouldn't be able to pose problems for the Elite Class here on Terra Firma. Although there were massive logistical problems to Dr. Possony's plans, they were actually seriously considered as viable and given in-depth consideration.

Seems that **Roosevelt** liked the idea of this, but lost interest when he was told that it would take 129,000 years to ship a load of war torn refuges to arrive at Alpha Centauri. He liked the idea of the rocket ships though and the building of bunkers on the moon or **Mars**. However, by this time President **Roosevelt** was succumbing to the stress of being President for almost 12 years. Guess they didn't have White House Interns to take up the slack back then...

Possony was a right-winged anti-communist in his day. He worked for the Office of Naval Intelligence and finally ended up at George Town University (where the movie the "Exorcist" was filmed ..hummm). However, he had connections to the Air Force

USAF intelligence

Office of Intelligence and even Project Blue Book.

In the early 1950's, after the scientific Robertson Panel neglected to do anything scientific, but released their scientific suggestions, Possony rambled around near the Soviet Union in an attempt to discover if flying saucers came from behind the Iron Curtain. He finally decided they didn't and became an avid flying saucer believer. He died in California in 1998. I have some of Possony's personal letters and stuff in my files here at the Project SIGN Research Center Archives. He definitely was a well-liked fellow (OK, only among other egghead-type academics).

The "M" in the "M" Project Must Stand for the MORONIC PROJECT

So, what does all this mean? The next time you watch an episode of the "Honeymooners" with Jackie Gleason (he believed in flying saucers too, so you're not alone) and Jane Meadows and hear Gleason's famous line, "To the Moon, Alice," you should remember that your earlier relatives came very close to doing just that. Also, use a lot of soap and deodorant, least you be pegged as a member of the great "unwashed," or the current economically elite class may just jettison your tushy to the Cydonia region on **Mars** the first chance they get!
