Many internet sites display a UFO sighting report related to President Carter's 1969 UFO sightings. The NICAP report, however, is only a retyped version of the original report which was filed with the International UFO Bureau in Oklahoma City, Oklahoma.

Below you will find the original handwritten report made by the Georgia Governor Jimmy Carter in 1973, along with the letter written to him by Hayden Hewes, the Director of IUFOB at the time, asking for the report.

This copy was found at the Carter presidential library in Atlanta.
