The White House
Washington, D. C. 20500

ATTENTION: The President of the United States

Dear Mrs. Roberts:

We sincerely believe the President and Mrs. Johnson will be interested in this follow-up to the case of Steve Michalak of Canada, who was burned when he touched a UFO in May, 1967.

Mark-Age and some of our associates around the world in the health and scientific fields are researching this problem; and we hope to come up with some reports of vital concern to governments and scientists in the very near future.

Our prayers for the President, his family and his entire staff continue.

Love in action,

Mark Age

MAIN News Release
Miami, Florida

January 17, 1968 - Words=1040
FOR IMMEDIATE RELEASE

STEVE MICHALAK'S UFO ENCOUNTER EXPLAINED THROUGH MARK-AGE

Since touching an interplanetary spacecraft on May 20, 1967, Steve Michalak of Winnipeg, Canada twice has suffered recurrences of the burns and other symptoms resulting from the initial exposure. The first recurrence was September 15th, when he required hospitalization for less than a day. The second was in mid-January, 1968.

On both occasions, Mark-Age in Miami was asked for assistance. Yolanda, Mark-Age interplanetary and interdimensional communications channel, succeeded each time in establishing mental telepathic contact with, and evoking healing aid by, the occupants of these spacecraft in our atmosphere.

On January 14th, Tukari, commander in chief of the fleets of physical spacecraft in the western hemisphere, gave Yolanda the first explanations and suggestions concerning Michalak's experience. This was in reply to her urgent call for such assistance. Tukari's communication follows.

An hour earlier, Ron Wickers, Mark-Age representative in Winnipeg who has figured prominently in varied media coverage of Michalak's story, telephoned headquarters in Miami to request help during the second recurrence of Steve's ailment.

Steve Michalak's story had received international attention via radio, television, newspaper and magazine coverage. Included in this exposure was the tape-recorded interview Steve gave Ron Wickers for Mark-Age, which was the basis for a syndicated

(MORE)

2 COPY LBJ LIBRARY

radio program and a feature article reaching many in the U.S. and Canada.

Additional information about and contacts from Tukari and numerous others are to be found in the enlarged version of the Mark-Age publication, "Visitors From Other Planets", now ready for release in a book and a syndicated series. The following communication is included in these presentations.

TUKARI'S MENTAL COMMUNICATIONS THROUGH YOLANDA

Tukari, answering Yolanda in reply to her emergency request for aid for Steve Michalak, gave the following information.

"He came in contact with one of the scout ships, remotely controlled, for Operation Show Man project. It was not the intention for him to be burned. It was not purposely exposed for his sighting. We were in the process of distilling some minerals in that area for future works in healing and contact work on the physical apparatus of mankind. Valuable minerals in that area for future works in healing and contact work on the physical apparatus of mankind. Valuable minerals of your land must be used in healing and helping mankind in a physical way.

"It is true we can use many kinds of laser-type beams, ultrahigh frequency sound and light, but these primarily affect the higher bodies of man, the invisible parts of his being. When in contact with the physical apparatus, elements of the physical man must be used. You are properties, in the physical, of the physical elements of your own planet. We cannot use our elements on you but must use your own. This is part of the law of the universe, fundamentally, anyway.

"Tell Steve Michalak that he is in the right area for finding ore of value. Uranium, also, is not far from the spot, although that is not what we were after at that time.

(MORE)

29 COPY LBJ LIBRARY

The other substance is of more value to us in our experiments in making crystals from which we can manufacture clothing and jewels with healing qualities and resistance to heat and ultramagnetic waves of the sun, when it comes time for the transmutation of the planet Earth.

"In other words, when the period of transfer is closer to higher, fourth dimensional frequency, many on your Earth will not be able to sustain themselves in the present physical vibratory level. They will have to have assistance, either in the form of covering, through special clothing, or through the assistance of jewels, with healing properties, made of crystallized substances from these metals. Steve may be able to tune in and work with this later.

"Now he must get assistance, himself, to counteract the radiation exposure. First of all, he should burn or bury all clothing and metal objects which he had when in contact with the ship, and within a radius of four kilometers then. These retain the vibrational force emitted from the ship at the time of departure; which was an emergency plan, and not our usual exhaust.

"If he insists, he can bury or secure them in a metal container which should be buried at least six feet deep. As long as he is in physical reinforcement — locked in the radius of the vibration from the equipment — he will be seething from continual exposure.

"This does not affect others, who were not in close contact with the ship. Know and understand this: once an individual has been exposed to the force field, physically, he is charged. This may or may not affect his liver and other functions. But as long as he has other objects continually emitting similar vibratory rates en rapport with

(MORE)

the one he carries with him, the one with which he is charged, it accelerates the effect.

"Later we will explain what he heard on the ship. For the time being, let it be sufficient to know that we were experimenting with vocal commands to the equipment via long distance relay from the monitor ship. Every sound at that time reacted on certain experimental equipment concerning our project of Operation Landing Light, to become effective after June 21, 1967. His interference with the experiment triggered off a mechanism that closed down the project there and caused the sudden departure.

"From this you are right to assume that there is much to be gained in the understanding of vocal or sound remote-control appliances. These already are used frequently in your own computer activities on Earth, but not nearly as much as they could be; and perhaps will be in time, as we get to exchange further equipment and knowledge with you later on in the program.

"You are right to be cautious. We must be, at all costs, for human life. We cannot land without adequate preparations of land, people, animal life, and the vegetable kingdoms that sustain your higher forms of living now.

"You should value our caution and our interest in your highest welfare for now. And we respect you for your intunements with us and whatever cooperation you can give in this soon-to-be -effected landing plan. Love in action, Tukari. Over and out."

THE END

You better get this in the
right hands so that when
he finds this thing-a-majig,
the right people can be
notified.

Lorene

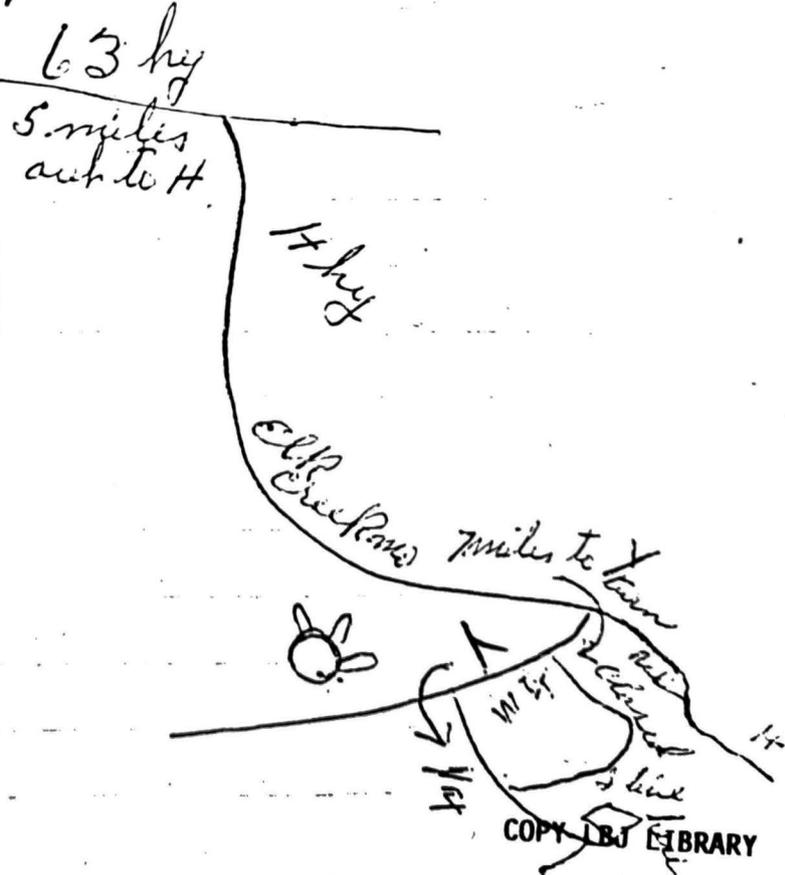

Dear Sir

On Jan 17, around 7:30 I went out side. I seen this thing about 74 mi off from me. I got my field glasses & took a good look at it. It look like it was getting ready to land. It was collared & I came back in to get a jacket & when I went out it was gone. I still think it landed over here in the hills about a mile from our house. In timber & hills. And I got a good idea where it landed.

I don't know anymore about
 this thing. But I am going
 to slip around & see if I can
 find out where it landed. I won't
 be seen if I do find it, I can
 get around in this timber without
 being seen. If I find where it landed
 I'll let you know. I live at
 Elk Creek, Mo It is in Texas County Mo.
 I'll draw a map where I live
 & where I seen it. getting ready to land
 Yours Truly
 Mr. Dale F Washia

Subject: **Invasion by extra-terrestrial beings**

By direction of the President:

Joseph A. Califano, Jr.
Special Assistant to the President

Joseph A. Califano Jr.
White House
Washington DC
Dear Sirs;

We are under invasion by extra-terrestrial beings. As I watched a fireball hovering at the top of a ridge a mile from my home, I marvelled at the absence of fear, at my almost commonplace acceptance of that phenomenon. Such is the attitude of the American people; except that they are more apathetic than me.

Our leaders have a responsibility to an America greedily grazing like sheep in the shadow of the abattoir, indifferent to the sights and sounds presaging their fate. The question is, are the leaders bell-wether goats leading the flock to slaughter or are we to sound the alarm and steen at least a sizeable portion to safety?

I have been reading about some of the goats: H. Allen Hyatt's discrediting of detailed descriptions by reputable observers with a wave of his hand, declaring the Michigan UFOs to be "swamp gas"; David Moody and Hector Quintanilla's echoing "amen"; the work of D.H. Menzel and L.G. Boyd in discrediting bona fide observations... Goats! Deliberately misusing their reputations as men of science to lull a people who want to be told "all is well" so that they can complacently graze on.

But after the recent articles in "Look" and "Life", and some other publications, the people are dimly aware that something is going on - only, no one has stepped forward to tell them what to do about it.

The space ship that swooped upon the harbor at Perth, Australia (Life, April 1) may have deposited an atomic mine which can be detonated at will. The flying objects hovering over our swamps and lakes may have cached

all sorts of deadly instruments and agents of CDPX LBJ LIBRARY
health The slime and mud. One large space COPX LBJ LIBRARY

Golden, Me. 68658

payload of 100 tons of some mind-distorting chemical of such potency as LSD (one ounce could affect 300,000 people) could send the whole population on a "trip" into madness for several months if that chemical were distributed and released in controlled amounts in our sources of drinking water. (I believe that we are already under some sort of chemical attack; that is why crime and obscenity are increasing so much and why we are so apathetic concerning alarming happenings.)

This is to suggest that the government officially acknowledge the presence of extra-terrestrial flying objects and candidly assess the menace of invaders who have not deigned to establish diplomatic relations or to communicate in any way with us.

I expect that they intend to issue an ultimatum with the threat of destroying our cities unless we comply; when they do officially reveal their presence. Perhaps they will negotiate with the government secretly, threatening destruction if the people are informed. In that case I would pray and ask God for a stay of execution; then inform the people anyhow — they have the right to decide whether to resist or capitulate.

These invaders are probably of the Nazi type, and it would be better to die fighting than to be tortured and exterminated eventually in pogroms.

They may pretend to ally with any or all of the major powers. Their true affinity will probably prove to be for the Chinese Reds. Pacification is out of the question.

Personally I don't think America has a ghost of a chance unless we truly repent of all the wickedness we have done and can prevail upon God to save us.

The government could at least reorganize Project Blue Book, removing the old goats; and could have our harbors and swamps searched and scanned by electronic metal-detecting gear to remove any mines or Trojan horses.

Perhaps you fear a panic. It is almost impossible

Billie Almy

"O the people from their lethargy and apathy. Beware!
 does. the captain refrain from informing the passengers
 and crew when the ship is sinking?
 Do not lightly discard these words. I am placing a
 copy in hands unlikely to. And whether or not my words
 find acceptance here on earth, they are on record with
 God; this administration will be held accountable.
 What will His findings be? Pray, not goats; not
 slaughter house goats in the employ of the butchers
 of the abattoir!

u

Dear Mrs. Conger:

The President has asked that I reply to your recent letter regarding unidentified flying objects (UFOs), and that I express his gratitude for your support.

I understand that a study of the recent UFO reports from Kansas indicates that these observations were a misinterpretation of natural or conventional objects such as satellites, aircraft, meteors, and astronomical bodies.

The Air Force does not withhold or censor any information on unidentified flying objects. The results of all Air Force investigations have always been made available to bona fide news representatives and scientific researchers. In view of your interest, a copy of a recent report on this subject is attached.

I am told too that in 18 years of investigating over 9,000 reports of UFOs, the evidence has proved almost conclusively that reported aerial phenomena have been objects either created and sent aloft by man, generated by atmospheric conditions, or caused by celestial bodies or the residue of meteoric activity.

Thank you for your interest in writing.

Sincerely,

Paul M. Popple *PMP*

The Honorable Lyndon Johnson
President of the United States
Washington, D. C.

Dear Mr. President:

This week there have been many observations of unidentified flying objects in this region, by responsible persons, all giving similar descriptions. In view of the tremendous significance of this phenomena, it is long past time that the Air Force regulations of secrecy be lifted -- and this whole subject be given proper scientific investigation.

The performance of your administration continues to be brilliant. I am very proud that I had the opportunity to work for your election.

Respectfully Yours,

Mary Conger

Mr. Grant Cameron
649 Silverstone Avenue
Winnipeg Manitoba
CANADA R3T2V8

Dear Mr. Cameron:

In response to your inquiry, we have searched the White House Central File Name File for correspondence between Lyndon Johnson and Jackie Gleason. There were no letters exchanged. After the death of Nat King Cole, Mr. Gleason called the White House and asked to speak to President Johnson to gain a statement for his tribute to Mr. Cole. There is no evidence that any further contact took place. There are no records of White House visits or telephone conversations between the two. The only other item in the Name File is from a third party who sent a copy of a letter he wrote to Jackie Gleason in response to a derogatory statement made on Mr. Gleason's television program.

I hope this information is helpful to you. If you have further questions, please let us know.

Sincerely,

A handwritten signature in cursive script that reads "Linda M. Seelke".

my Home
TEL 721-5497

Dear Mr Cameron

I thank you for your letter of the 6th. I first started to correspond with G.A. when I was a member of the British Flying Saucer Bureau in Bristol England that I joined in 1952. I had read THE ORIGINAL EDITION OF F/S HAVE LANDED for about a year without thinking of the Portholes reference to this item in an American Publication. Prompted me to study it, so that you will understand my view on this point I shall explain something. Before the war I was in the St Johns Ambulance for 10 years where some knowledge of Anatomy and Physiology is taught. During the war I served as a Nursing Orderly for over 15 years. In the R.A.F. 3½ years overseas, I have one certificate as a Messenger, played various sports, Rugby, soccer, Boxing and Physical culture for the past 43 years so that I am not unaware of the Physical Aspects of the Human species. In the First British Edition of F/S Have Landed written by George Adamski and Desmond Leslie the photographic reproduction was excellent. In the first Photo in two Portholes the faces of a very real Human crew can be seen, naturally after so many years I can see them without the aid of a glass, also in another Photo between pages 112-113 another Human face can be seen looking out through a Porthole. There are very real Human faces and not anything else

as to the Metal found near Ottawa which a few other people from this area who went to Ottawa to meet fellow ufologists in Ottawa the metal was in front of Mrs Smiths home, its size is roughly or was about

54 inches in diameter, at the center about 24-28 inches in depth, the form ~~memory~~ memory is may be approximately, the outer edges about $\frac{1}{4}$ " it is porous very irregular, very rough and ragged very very dense, very heavy, overall about 3000 pounds in it's original state.

It had, by observation experienced several things at once, immediate, very heavy impact, intense heat, and a most violent IMPLOSION

causing various components to be fused into one mass, layers of impacted material, some sections can be drilled, some can not, some is magnetic other is not magnetic. at our first meeting at the smith home I used a 3 foot $1\frac{1}{2}$ inch diameter steel bar, it bounced off the edge like a rubber ball the bar bent and the callouses on my right hand were removed, the metal was later moved to Metcalf were some years ago on a second visit using 2 steel chisels and a 3 pound steel hammer, after 30 minutes hard work I managed to remove a piece. There was some evidence that the material had been bombarded by micrometeorites for a considerable number of years, and according to reports put down as a safety measure as it caused a danger to spatial navigation, It was found during the summer of 1961 in the Ottawa River. 2 Beach combers part the area at low tide a day or two previous, then when they part the area again after this period they found 2 pieces resting on boulders that would have been covered at high tide, the other piece of 800 pounds ended up as scrap to Japan. There were no indentations on the boulder on which it rested.

Through friends, samples were tested at McGill.

They were startled STARTLED. by what they found. I do not recall the exact composition of the metal but it was nothing like anything found on earth, that is the composition. The metals were known some were absent but it was the composition that caused the the raised eyebrows. By phone Professor ~~John~~ SONAH SONAS of McGill suggested that I contact Metallurgist in Ottawa this message I passed on to the Ottawa group who finally managed with some difficulty to get them to look at it. After a few years Ottawa came up with 2 ridiculous answers! It was part of an old bridge that collapsed near Quebec about 1906 and floated down in the ice, in summer? Then it was reported as label waste from a foundry in Sorel during one of Smith's original experiments a small section when I treated to a blow torch grew into a hot bubble and exploded. also a diamond drill was damaged, I have not had any contact with any of the Ottawa group for some years.

The last address of Mrs Smith that I had was
 180 MacLaren Street Apt 1002 Ottawa
 About Mr Smith

Friend Buck Buchanan
 3 Steel Street Ottawa 9.

I don't know if these addresses are still correct. I still have a piece of this metal. if an analysis could be made then between these 2 items - the window in the Portland and the metal. Mr Klass would lose his \$10,000 Dollar Bet

Sincerely
 Ronald W. J. Austen

Nov. 25, 1987

Ronald. W. J. Arstee
6565, 24th Avenue Rosemount
Montreal H1T. 3M6
Quebec Canada.

Grant.

Your letter arrived this morning. When I wrote to Mr Scherson I made one mistake, I did not photo copy his letter to me, A friend of mine in Austria - Dora Bauer, asked to see the letter, she then asked me if she could send it to our friend in Denmark - Major - Ret - Hans Petersen, that was the last time that I saw it, it was lost somewhere in the mail system, or I removed, you ask me if I have corresponded with 'I believe' Mr Millman, I have not had any correspondence with him, I have heard of him of course, Mrs J. Watkins did correspond with him quite a lot, For many years I have been in constant touch with the leading U.F.O Authority in Brazil South America, Dora Bauer in Austria, Hans Petersen in Denmark, Australia, (England rather slow lately), and some in the U. S. A. In 1968 - and 1970, in their Text book the U. S. A. F. Academy in Colorado were telling their students that they could not ignore the possibility that some U.F.O's were craft manned by beings by beings from other Planets, I have confirmation of that, Recently I wrote to the Academy asking them if they could give me their present status on that. When I was in the R. A. F. during World War II, it was not mentioned, it was shortly after that we heard more about it, at that time (war) the fighter did not get the full coverage, came later, I joined the British Flying Saucer Bureau in Bristol, and at the end of 1953, I started writing to George Adams, until shortly before his passing on April 23rd 1953, on coming to Canada. In June 1957, I continued my work here, a group

was formed in Montreal, but after a few years some undesirable craft
 in to the 8 cofounders resigned, there are some French groups
 here but not an organized English group. Recently I received
 my first letter from a gentleman in Belgium, who had received
 some Material from the Library of Congress in Washington so I
 wrote to them on the one aspect that the writer from Belgium
 asked them for, you may know that the U.S. President and
 the Russian leader did discuss U.F.O's. There is some
 belief and written Material indicating that the Star Wars is
 not meant to be used mainly against Russia, but the U.F.O's.

on this write to Major (Ret) Colman VONKEVICZKY member of
 the American Institute of Aeronautics and Astronautics, Headquarter
 35-40 75th Street Suite 4G Jackson Heights NY 11372

WINNIPEG, MANITOBA
R3T 2G8
DEC. 4, 87.

Dear Powell,

Once again thanks for a quick and informative reply. The material related to the President & the Russian leader are appreciated. If I find anything on this line I will send it along.

As to the Rose - Bush connection. A group known as Just Cause (the group that sued the CIA & NSA for documents) plans to file a Freedom of Information request on this subject. Could you provide information that would enable Just Cause or myself to locate the document in the Johnson library. Things that would help.

- copy of Dona Bauer's letter asking for Johnson's letter
- possibly your letter to Johnson if you made a copy. A copy of the letter to Bush.
- the date and your return address - I would assume you were in Britain at the time.

Do you have any letters written to you from Adomaki? I would be interested to see these?

Have enclosed a letter from the former Brazilian authority of on UFOs. Don't know if you have seen this.

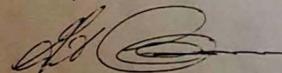

Couple items of interest.

- related to the article dealing with UFOs. I have been informed by a researcher in the US that he has two

apocryphal accounts of Gorman on Apollo 8. Filming of UFO's landing on the moon. The latest book from T. Good in Britain "Above Top Secret" apparently also has such stories.

- the assistant Sec + of Defense in the US will be on talk show "Long Long Live" next week. This is a late night talk show which doesn't screen calls. I think it is on in Montreal as well. Pam going to try to get in and ask about the crashed saucer and bodies.

Keep in touch

December 14, 1987.

Dear Grant.

Your letter of the 4th arrived this morning. The few letters from Adamski were more personal and would not be of greater use than other material that has been published, as I explained in my last letter my letter from Mr Johnson was lost? somewhere in Europe. The following 2

addresses may help you, as they saw the letter, tell them that I gave you their addresses - 1. DORA BAUER - LAMMER

THALIASTRASSE 157/117 A-1160 Vienna Austria Europe, and
MAJOR (RET) HANS PETERSEN CARE OF "BLADET UFO KONTAKT
SVINGET 9 - SKANDERUP - 6640 LUNDERSKOV DENMARK EUROPE.

I have been in contact for many years with the top researcher in Brazil, that is not the former Dr who died but another Dr - surgeon a friend of the former, and I still am in contact with my friend in Brazil. I enclose something of interest that you ^{can} help to clear up with any good Astronomer in your area. I have written to New Planetarium in Montreal and Astronomy Magazine - and am going to do so again today. You will read the Biblical sighting report on the bottom right. Every year, the Astronomer's (come) tell us then an Artificial object can come into our atmosphere, Move Parallel to the Earth's surface for a considerable distance and time, then, stop, and hover about above and pin-point one exact location, as a Christian I believe that there was a man known as Jesus Christ who taught the Christian values. But that some myths attached to his birth etc are not as people are being taught, this is an important case where ~~at~~ some Astronomers have made statements about a sighting. WITHOUT HAVING STUDIED the reported facts, this one case is VERY IMPORTANT. Please ^{to} get Astronomers to - first read the verse quoted, then act on it.

Kind regards
for Christmas and New Year.

Mr Grant Cameron
649 Silverstone Ave.,
Winnipeg, Manitoba,
Canada R3T 2U8

20th jan. 1988.

Dear mr Cameron.

Thank you for your letter dated 20th dec. 1987. Unfortunately mr Anstee has given you the wrong address since your letter was directet to our distribution section and from there I have just received it.

No I just cant help you. I have actually never heard about this letter, so I acnt even tell you who could possibly have seen it here in Europe.

The best thing I can recommend you is to write Flying Saucer Review in England and ask them to make a short note about it and at the same time ask people to contact you, if they know anything about it.

I wish you good luck.

Sincerely

H.C.Petersen.
