

and of what they are made, there was little of value. . . . papers indicated that the Canadian (A Mr. Smith) had exploited this scientific angle.

I. The Swan record indicated that there was an organization OEEU which means the Universal Association of Planets, and that the organization has a project EU or Eileya (earth) which is being conducted. What the project was to accomplish was not mentioned. The record indicated that the population of γ was 787,730,016 and that the day was 7 times longer than an earth day (!) and that a day on δ was 12x longer.

J. In discussion with Capt. Frankel, he indicated there was no evidence which he felt was concrete enough for him to make a case on this case.
