When I stepped in to the classroom 300 more avid eager students were crowded in this lecture room - the story I told was on the air with every news caster for 10 days. Lasting for the mystery scientist - My reasons for withholding my name is a matter of record so no comment now - Scully's Book "Behind the Flying Saucers" came out in 1950 and the man from America was a marked man!

This Rebaner, was associated with a Swedish and Russakitch named Flader - a man easily worth 2 or more million dollars - I, stupid as I am, have always had a grudge for helping people. After losing a 50 million dollar business because the Wall Street friends saw me at a
