

Hollywood Cal.

Dear Harold =

June 3/68

This letter is a must in my book.

Ten years ago, I had thru an mutual friend Hayne Meyers, who was then the Pres. of the Solar Cross Foundation, my introduction to the Space people. For the previous two years I had been asked several times to attend meetings by this Foundation but I had refused. In those days I came and went frequently to Los Angeles and always visited the Meyers while in L.A.

Even tho the meetings whereat I gave recorded talks were kab. it was some time before I had enough evidence that satisfied me as to the reality of the matter.
