Mr. George Clark
Central Intelligence Agency

Dear George:

All right. I have tried. The SI's have tried. Still the U.S. Government is not convinced.

So, George, the SI's will demonstrate catastrophe-wise, in a tremendous way, against the U.S. in the next few days, next few weeks.

I will ask them, also, to appear and be seen, as they were in New Jersey, as a sort of signature to their catastrophe-demonstration.

File

Dear George:

Here is the story on the Blizzard of '66. Note that I called a disastrous storm...but picked the wrong half of the country. Ha ha.

I knew definitely that the Si's were up to something on their own...because they were over-riding our "bubble" PK we'd slapped on this area. Up to storm-time, they'd blocked precipitation perfectly.

Note one other thing: A mysterious fire-ball landed in Pennsylvania...before the tremendous New York City power blackout. A UFO put on a regular exhibition all night, for thousands of people, in the Wanaque, New Jersey, area...just before the Blizzard of '66 struck. You have to notice these things, George.

Anyway, as you can see here, on January 18 I told you the Si's would demonstrate, catastrophe-wise, in a tremendous way, against the U.S., in the next few days, next few weeks.

Even Mr. Dunn could not ask for anything more specific than that. And you got the killer Blizzard of '66.

UFO's

February 7, 1966

Mr. P. K. Owens
1114 Spruce Street, #33
Philadelphia, Pennsylvania

Dear Mr. Owens:

Thank you for your letter on so-called "unidentified flying objects".

Many reputable scientists agree that there must be other beings in the universe. Dr. Harlow Shapley, for one, has stated that there is a high probability that there is other life in the universe.

To believe that there is other life in the universe is not, however, to believe that "UFO's" are manned vehicles. One explanation of this phenomenon connects the lights that are seen with the gaseous tails of comets. A careful analysis of sighting to date has not given us any indication that "UFO's" are manned.

I appreciate hearing from you on this matter, and hope you will write again on matters of mutual interest.

Sincerely,

Robert F. Kennedy
