God is God in His creation is good, and so, mankind, being of His creation is good and full of grace. God gives man the power to choose between good and evil ways, and with even greater grace gives man the awareness that is, choice. Man is perfectible. His perfect stage, the Messianic era, is coming. It will always be coming, never at a moment in time to arrive, but it is inviting us to progress to newer and higher goals personally and as a unit each new mountaintop of human progress toward that nobler future we opens our eyes to visions of even greater and more God-like future
