Above noted subject sighted an unidentified object on the above noted date. Same was sighted in the southwest sky by himself and family.

The sighting was at approximately 6:50 p.m. M.D.T.. Sky conditions at the time were clear with few clouds. Sun was very low on the horizon. The location of sighting was one mile west of Drayton Valley, Alberta. Subject described object as being one to two feet in length, six inches deep, gold in color, with a trail of fire out rear. At time of sighting, observer was looking directly into sunset. Object appeared to be approximately 5 miles away.

A neighbour of captionally noted, Lenard MORRILL, Box 1411, Drayton Valley, Alberta also viewed same sighting at approximately same hour. Reliability of both witnesses is good.

Please find both attached statements. This forwarded for your information. File concluded this point as investigation could reveal nothing.

RECLAM

Statement of Leonard MORRILL (DOB:20 JAN 34), Box 141, Drayton Valley,
Alberta, 542-4752

7:45 p.m., 23 OCT 77

On Saturday, 16 October 1977, at about six or six fifteen in the afternoon, I came into the house and sat down at the kitchen table. The kitchen of our mobile home has a window facing to the west and I noticed that the sun was in the process of setting on the horizon. As the sun was going down, I observed an egg shaped object, longer than it was round, with a tail flame, in the sky in the same general direction as the sun was setting. The object appeared to be moving from north to south and appeared to be at a great distance from our trailer and the horizon. I watched it for 15 to 30 minutes. While I was watching the object in the sky, 4 jets came from the east and appeared to be following it. They didn't appear to be able to catch up to it and then the object disappeared in the south east, burning as it went out of sight.

WIT: T.R. SIMPSON, Cst.

SGD: L. MORRILL

Statement of Morley William HAGGERTY (01 MAY 33) of Box 115, Drayton Valley
(phone 542-4535) taken on the 23 OCT 77 at 12 noon.

On the 16 OCT 77 at approximately 6:50 p.m., I was eating supper when my boy, SHAUN came in and said he saw something fly over the house. So I went outside and looked and saw an object approximately 1½ to 2 ft. in length and 6" - 1 ft. thick. It was over in the south west moving the same direction. I watched it for about ½ a minute to one minute. It was sort of a golden color. My son told me it had lazer beam coming out of rear. But by this time, it was too far for me to see. It was going too straight of flight to be meteor, I felt. The sun was in more of west direction and the object was moving in a south westerly direction. After I phoned RCMP, the object was gone. I couldn't see any lights flashing but from the distance away it was, it appeared to be a fairly large object. It wasn't the shape of an airplane. It was oblong in shape. The only thing I didn't see was what my sone said was what appeared to be a lazer beam out back end. Shaun HAGGERTY (BD: 31 AUG 67).

Soviets see spots in sky

MOSCOW (UPI) — The Soviet press reported yesterday a mysterious moving ball of light was seen over Petrozavodsk in Soviet Karelia about the same time a similar spectacle was sighted over neighboring Finland.

The official Soviet news agency Tass said that at approximately 4 a.m. Tuesday "a huge star suddenly flashed out of a dark sky sending shafts of light impulses to earth."

"This star was moving slowly towards Petrozavodsk and spreading over it like a jellyfish," Tass said. "It stopped and hovered over the city, sending out numerous thin light rays like a downpour of rain."

"Sometime later the illumination ended. The jellyfish turned into a bright semicircle and resumed its movement toward Onega Lake, the horizon of which was covered with grey clouds. Then there formed in this shroud a semicircular glow, bright red in the middle and white on the sides. This phenomenon according to witnesses lasted from 10 to 12 minutes," Tass said.

Reports from Helsinki Tuesday said a bright ball of fire was visible for about four minutes over the Finnish capital. There was speculation there that it could have been a Soviet rocket stage burning up on re-entry or exploding.

Tass quoted Yuri Gromov, director of the Petrozavodsk meteorological observatory, as saying there were no technical experiments under way at the time and no unusual weather.

"The meteorological workers of Karelia have never before registered similar phenomena," Gromov told Tass. It remains an enigma.

"The special weather services did not register any sharp deviations in the atmosphere during 24 hours of that period."

"It is impossible to call this phenomenon some kind of mirage because any people witnessed it. Their testimony is identical in many details."

In Leningrad the Pulkova Astronomical Observatory told UPI the only thing they recorded Tuesday morning was a meteorite moving from south to north at 5 a.m.

N77/124

Note the true explanation of this report in Science News F Oct 77

Cosmos flown Drosophila exposed to zero gravity appear normal, but exhibit reduced mating and exploratory behavior.

While the Soviets charged no rent for the premises, they did make other exacting requirements. The experiments had to be self-contained and require no power and they had to fit in a small volume of space. Otherwise, the Soviets "were extremely cooperative in all dealings," and the technicians who processed the U.S. experiments at the north-central ALC recovery site after recovery on Aug. 22 were "top notch," according to Kenneth Souza, manager of the U.S. station who escorted the samples from Moscow back to the West Coast.

The consensus of U.S. researchers that the project was successful is reiterated by Russian scientists who collaborated on four of the seven studies. Next month a U.S. Soviet meeting will convene in California to discuss future joint space efforts. NASA's Harold P. Klein, director of life sciences at Ames, "It is possible they might want to fly off the shuttle."

Soviet UFO due to secret launch

A spectacular, starlike ball of light sighted over Petrozavodsk in the northwestern Soviet Union Sept. 20, "spreading over it like a jellyfish" and showering down shafts of light, was identified last week by American analysts as the launch contrails of the Cosmos-955 spy satellite.

The sighting of the strange phenomenon, also seen over Finland, was widely reported by the Soviet news agency Tass and by news agencies around the world. "A huge star suddenly flashed out of a dark sky, sending shafts of light impulses to earth," Tass reported. "This star was moving slowly toward Petrozavodsk and spreading over it like a jellyfish. It stopped and hovered over the city, sending out numerous thin light rays like a downpour of rain." No explanation was offered in the news reports.

But the phenomenon turns out to have been due to a predawn launch from a top secret military space center north of Moscow. Although the base, the Plesetsk Cosmodrome, has been known to Western observers since shortly after it became operational in 1966, Moscow has

never admitted that it exists, presumably due to sensitivity about its military nature. Soviet officials continue to maintain that all Russian space shots are launched from the Baykonur Cosmodrome near Tyuratam in central Asia, with a few additional small satellites launched from a minor test range on the lower Volga River. But American observers say Plesetsk is the busiest spaceport on earth, accounting for 40 percent of all the world's space launches. Tass placed itself in a potentially embarrassing situation by reporting the UFO: To explain the sighting would be to reveal the existence of the base.

The identification of the Soviet UFO as the Cosmos-955 spy satellite was made by James E. Oberg, a space specialist in Houston who is both a well-known authority on the Russian space program and an investigator of UFO reports. He is also a member of the recently formed UFO subcommittee of the private Committee for the Scientific Investigation of Claims of the Paranormal, which last week issued his report explaining the sighting.

"As soon as I read the newspaper reports, I thought of a rocket launching," Oberg says. "I made a phone call to a friend of mine who keeps records of Russian satellites, and sure enough, I found that two satellites had been launched that morning." Calculations based on orbital predictions issued by NASA's Goddard Space Flight Center in Greenbelt, Md., enabled Oberg to determine that the missile had blasted off a few minutes before 4 a.m. local time. The reports from Petrozavodsk, which is about 200 miles southwest of Plesetsk, began at 4 a.m. The satellite was launched toward the northeast, thus, says Oberg, providing the surprised witnesses with a spectacular view right up the exhaust plumes. "The identification," he adds, "is 100 percent certain."

Nighttime rocket launchings in the United States have often resulted in UFO reports because the expanding vapor trail sometimes glows in the dark and can assume odd shapes.

Oberg says this is only the fourth time that a launch from Plesetsk has had just the right conditions of azimuth, high altitude, booster and darkness to produce an awesome visual display. In one case, the launch of the Meteor 2 weather satellite in October 1969, dozens of eyewitness reports came in from observers in Finland and Sweden. An amateur astronomical society in Helsinki collected the reports and later published drawings of the phenomenon.

The vivid descriptions of this latest sighting are virtually identical to the Finnish reports about the Meteor 2 launch eight years ago. The mysterious tentacles, or "shafts of light," Oberg says, were in fact the separate vapor trails left by the four parallel booster units attached to the core rocket stage. "Films of Soviet rocket launchings show this 'shaft of light' effect clearly."

1. Suite à notre télex envoyé le 3 NOV 77 concernant l'O.V.N.I. vu par Omer DURAND, veuillez prendre note des faits suivants.
2. Le 20 OCT 77 à 22:05, M. DURAND sortait de la maison de son voisin en direction de son domicile. C'est alors qu'à environ 500 à 800 pieds du boul. l'Ormière, lorsqu'il s'apprêtait à entrer dans sa maison, il a remarqué un objet lumineux entre le poteau de téléphone et le déverseur de ciment. Il n'y avait aucun nuage, ni lune lors de la vue de cet objet non identifié. Il était situé juste au-dessus de sa vieille machinerie à une hauteur d'environ 50 pieds. Il n'y avait aucun son ou bruit provenant de cet objet.
3. Il se rappelle avoir vu une lumière brillante très forte mais sans aucune couleur. Celle-ci ressemblait à une lumière de maison. Ça ressemblait à une vitre dont la clarté de la lumière était projetée à l'extérieur mais dont on ne pouvait absolument rien voir à l'intérieur. Ceci s'est produit comme suit: Il rentrait avec son camion dans l'entrée afin de le stationner à côté de sa maison. Aussitôt rentré dans l'entrée, il a observé cette lumière, il a stationné sa voiture et s'est avancé à environ 150 pieds du chemin pour voir ce qui se passait. Ensuite, il a passé devant le bureau afin d'avertir son frère qui n'était pas là et a regardé du côté droit du bureau et la lumière était toujours au même endroit. Quelques secondes plus tard, la lumière s'est éloignée. Le tout aurait duré environ deux minutes. Après que la lumière s'est éteinte, il n'a rien vu d'autre et il n'a entendu aucun bruit.
4. Des photos prises de l'endroit vous seront envoyées aussitôt qu'elles seront développées. Il y avait peut-être une évidence physique que nous avons remarquée dont des herbes desséchées et qui donnaient une circonférence de 15 à 20 pieds.

Demande de Pardon

1. Suite à votre lettre datée du 13 octobre 77, veuillez prendre note qu'une enquête a été effectuée concernant MILLER. Nous nous sommes rendus à plusieurs reprises à son domicile et nous avons laissé une carte à deux occasions afin que ce dernier puisse nous rejoindre mais nos efforts furent vains. Etant donné que MILLER n'a pas de numéro de téléphone dans l'annuaire, il nous a été impossible de le contacter. Donc, je crois que ce dernier ne semble pas intéressé à obtenir son pardon et nous considérons ce dossier comme clos.

W77/127

3 NOV 77

1. On the above date a one Mr. Rajean BOICHAUD came to the office stating that he had observed on the night of 1 NOV 77 a strange light in the sky. He also stated that he had seen it on 2 NOV 77 at approximately 6:00 a.m., a similar object. He observed it for a period of 6 hours,
On 3 NOV 77 around 8:00 a.m. he spotted an identical object in the sky. It apparently dropped to the ground and BOICHAUD lost sight of it.
2. The condition of the sky on all three observations was clear.
3. The observer, at the time, was in his residence at Acadleville, 10 miles east of Rogersville, N.B.
4. The luminosity of this object was bright red with yellow stripes.
5. The first time he saw it, it was round, white in colour, turning red and back to white again. The altitude of the object was approximately 2,000 feet up in the sky.
The second time he stated that it was different from the object he saw the previous night. It was oval and looked like it had a ring around it. The altitude was the same as the previous night. On this night he called Father Edward GALLIAR of Acadleville and GALLIAR went to BOICHAUD's residence accompanied by Jean-Marie BOIRON and both looked into the scope. GALLIAR stated that he saw nothing out of the ordinary and BOIRON stated that he saw an object going up and down. Statements from BOIRON and GALLIAR are attached.
While questioning BOIRON, his father, Henri BOIRON was listening and advised that the previous night he saw a strange object in the sky also. Statement of Mr. Henri BOIRON also is attached.
The third time he saw a round luminous object towards the south but lost sight of it as it dropped on the ground. He stated that it was similar as the one he saw the night before; oval with a ring around it. The altitude of the object was very low.

6. BOICHAUD stated that he observed the U.F.O. on 1 NOV 77 for 2 hours through his telescope that he owns. The second time for 6 hours and the object was rotating and the third time he really didn't have a good look as it dropped on the ground.

7. There was no sound whatsoever coming from these objects in the sky. At approximately 10:40 p.m. this date, radiogram # 63 was sent to National Research Council regarding this.

7 NOV 77

8. Up to this date no other similar objects were seen again. Statements of Henri BOIRON, Father Edward GALLIAR, Jean-Marie BOIRON and Rajean BOICHAUD all of Acadleville, N.B., are attached.

Acadieville, Kent Co., N.B. 3 NOV 77

3 NOV 77

1. On the above date a. one Mr. Rajean BORTICHAUD came to the office stating that he had observed on the night of 1 NOV 77 a strange light in the sky. He also stated that he had seen it on 2 NOV 77 at approximately 6:00 a.m., a similar object. He observed it for a period of 6 hours.
On 3 NOV 77 around 8:00 a.m. he spotted an identical object in the sky. It apparently dropped to the ground and BORTICHAUD lost sight of it.

2. The condition of the sky on all three observations was clear.

3. The observer, at the time, was in his residence at Acadieville, 10 miles east of Rogersville, N.B.

4. The luminosity of this object was bright red with yellow stripes.

5. The first time he saw it, it was round, white in colour turning red and back to white again. The altitude of the object was approximately 2,000 feet up in the sky.

The second time he stated that it was different from the object he saw the previous night. It was oval and looked like it had a ring around it. The altitude was the same as the previous night. On this night he called Father Edward GALLIARY of Acadieville and GALLIARY went to BORTICHAUD's residence accompanied by Jean-Marie DOIRON and both looked into the scope. GALLIARY stated that he saw nothing out of the ordinary and DOIRON stated that he saw an object going up and down. Statements from DOIRON and GALLIARY are attached.

While questioning DOIRON, his father, Henri DOIRON was listening and advised that the previous night he saw a strange object in the sky also. Statement of Mr. Henri DOIRON also is attached.

The third time he saw a round luminous object towards the south but lost sight of it as it dropped on the ground. He stated that it was similar as the one he saw the night before; oval with a ring around it. The altitude of the object was very low.

6. BORTICHAUD stated that he observed the U.F.O. on 1 NOV 77 for 2 hours through his telescope that he owns. The second time for 6 hours and the object was rotating and the third time he really didn't have a good look as it dropped on the ground.

7. There was no sound whatsoever coming from these objects in the sky. At approximately 10:40 p.m. this date, radiogram # 63 was sent to National Research Council regarding this.

7 NOV 77

8. Up to this date no other similar objects were seen again. Statements of Henri DOIRON, Father Edward GALLIARY, Jean-Marie DOIRON and Rajean BORTICHAUD all of Acadieville, N.B., are attached.

Acadieville, N.B.

STATEMENT OF: Jean-Marc DOIRON, DB: 5 MAY 60
Acadieville, Kent Co., N.B.

We were talking at the Vicarige when Réjean called for us to go and see that. We went there and he had his scope set in the bathroom and we each looked in it. It wasn't really a round ball, I can't tell what it really was. I looked at other stars and it didn't look like that at all. It was at the left and you would look again and it was at the right. It was going up and down.

4 NOV 77
4:45 P.M.
Acadieville, N.B.

STATEMENT OF: R4jean ROBICHAUD, DB: 8 JAN 50
Acadieville, Kent Co., N.B.

As of November the 1st I sighted a round luminor object in the sky.

Looking through my scope, I could make out a round ball turning bright red and back to white.

I could make out looking through the scope some sort of figures looking kind of human on otherwise. I observed this object for a period of 2 hours. I also took a few pictures.

On November 2nd around 6:00 p.m., a similar object was hovering at the same area as the previous night. This object seemed to be different from the other.

It was completely oval and seemed to have a ring around it. It also seemed to rotate. I observed it for a period of 6 hours.

On November 3rd I spotted a round luminous object toward the south. It apparently dropped to the ground and I lost sight of it.

It was identical to the one as the previous night

Acadieville, N.B.

STATEMENT OF: Father Edmond GALLANT, DB: 5 DEC 26
Acadieville, Kent Co., N.B.

On Wednesday, 2 NOV 77, he called me around 5:00 a.m. for me to look in the sky with my binoculars to see that moving object. He told me to look toward the north but being unable because of the location of the church I looked eastward and saw nothing. About 10 minutes later he called me again this time to look eastward and I saw nothing and I went back to bed. That night he again called me to see in his scope, I went there, I brought a friend, I looked in the scope and saw a star rather round in shape, reddish in colour which flickered a bit and that's all I saw. He told me on this date when I asked him why he had got up so early, he told me that he was like in a dream where certain strange power were taking hold of him, he even added that it would be such too long to explain the whole process, so I was left with that. He then went to the window and looked out where he said he was kind of scoped like object with colour of fire and he added he could see the inside of the object where the form of people appeared.

ERNIE TIERNEY
17 REDWIN ST.
MERIVALE GARDENS
OTTAWA
K2G 0J9

U77/129

77 Oct 23 / 5⁴ P.M. EDT. (SUNDAY)

Weather clear. Was in back yard of residence.
- white/silver sphere/disk travelled from
overhead, west to east direction. Approached
horizon; made right- & left gyrations;
went straight up and disappeared. No sounds.
Estimated 20 seconds for entire sighting.
Seen also by his son

taken by telephone by Btk
25/10/77

On Sunday afternoon I noticed many
cases of short "con-trails" following jets.
These give the appearance of a ^{silver} disk edge on.
Timing does not agree, since a jet would
take ~ 20 minutes to pass.

Btk

Ph. 2625215 - THUR. ^{now} ~~Oct~~ 10, 77
Ray Pustie
1031-5 ave SW
Calgary Alta.
Can.

Dear Sir 1.

I have mentioned
this observance to some-
one at the planetarium
here in Calgary on the
8 of ~~Oct~~ ^{now}, 2 days after
I have seen this U.F.O.
I never received any
answer back. I also
spoke to someone at
the alberton news &
paper on the 9 of
Oct 77 and on the
following day the 10
of ~~Oct~~ ^{now} today he
phoned me and gave me
your add. and name
and asked if I wish
to I would send what
I have to your dept.

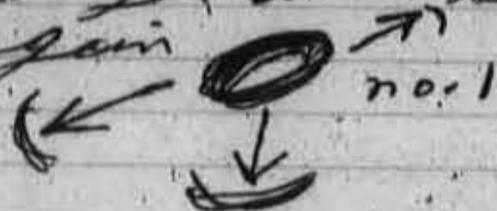

I have read up
on U.F.O. in the past
I highly paid much
attention to it of
course.

02
It made interesting
reading and that's about
all.

But on the 6 of
Oct, 77 at about 2 or 3
am my boy had a
fever and I was laying
damp cool towels on
him to bring down the
temperature before going
to bed myself. Lying
while he was lying
on the couch feeling
a bit better I sat at
the back window and
gazed into the blue.
There was a few clouds
in the sky but the
moon was clear
and the stars became
quite visible. I sat
at the window for about
an hour or so drinking
tea. The light was out
in the house, or I
gazed into the sky I
saw a long cloud.

crossing the sky
moving slowly, then
as I watched it a
little round cloud
appeared, it did not
seem to behave like
the other clouds, it
appeared to be stationary
while the other clouds
keep moving on. Suddenly
the cloud became
larger than stationary
again

Then it darted ~~from~~
from left to right
than down. The cloud
was brown to grayish
steel blue black.

Then it got larger
~~suddenly~~ suddenly 2. Then
larger 3. Then it was
right in front of me
~~retreating~~ it

H.
over the alley way
alley is 200 feet from
the Back window the
cloud like U.F.O. was
about 200 yds. over
the alley. The bottom
part gave out a dark
orange like stringy like
beams of gray dim white
light there was no
reflection from the
beams just streamers of
light scattered
like so.

1st. Observation 40 FT.
Diameter

Suddenly it ~~gave~~
grew smaller A. than
B. and was gone,
as I strained my ~~eyes~~
~~to~~ eyes to see where
it went. The corner
of my eye caught something

5.

to the right. I
turned to see the
some cloud object
almost in the same
place that I seen
it the first time
only larger and
stationary. Then in
the wink of the eye
it was twice the
size, then as big
as life about 150 to
200 yds above the
alley way. I jumped
off the chair and
~~looked~~ looked away
from the window
as I seen F. object
and M. object move
and prepared myself
as if they were going
to be some kind of
slam or noise, or
something to happen.
I had a blue steel
Purple fluid like
appearance, or yellow
blue steel Purple appearance

6.

seconds or at the
time I saw this
It appeared to have
driven the fog or
cloud inside itself.
or I watched from
the centre of the
floor vapor like
ice fog covered it
in ~~part~~ part.
Vains of white appeared
to be faultless strings
seem to be coming from
the bottom and F. M.
area. The strings
seem to have been
reaching down on
the roof top and
area above. I felt
nothing or heard
nothing the U.F.O.
made a ~~circular~~
circular motion
slowly spinning, there
was a refraction of
light against the

7.

Upper Port that seem to ~~have~~ have come from the Long Posts and not from the U.F.O.

There was no flashing of lights. There was no lights at all coming from the U.F.O. Except the beams or strings of white gray blueish ~~the~~ streams. It vanished out of sight. I come back to the window to see it in cloud form. Then ~~it~~ smaller than gone.

8.

I have drawn a
sketch of what I
have seen. ~~The~~ I'm
not a very good
sketch drawer. The
first observation lasted
4 min. 2nd observation
lasted about 3 min.
in all from the first
time till the 2nd time
lasted in all 7 min.

as the U.F.O. turned
I seen something like
this E. There was dim
lighting in background
figures behind what appeared
to be visor.

RE UNIDENTIFIED FLYING OBJECTS AS PER OPS MANUAL I 3 E22 A.
ON THE 22 NOV 77, A MRS COLLEEN WENSCHLAG, OF 43 ARBOR CRES
ST ALBERT ALBERTA, OBSERVED AN UNIDENTIFIED FLYING OBJECT AT
ABOUT 12:25AM. SHE DESCRIBED THE OBJECT AS BEING AN IRREGULARLY
PULSATING BALL OF VERY BRIGHT RED LIGHT, THIS OBJECT WAS STATIONARY
WHEN FIRST OBSERVED AND THEN BEGAN MOVING IN A SOUTHERLY DIRECTION
AT ABOUT SATELLITE SPEED AND HEIGHT, THE OBJECT THEN STOPPED AND
APPEARED TO RELEASE SOMETHING THAT RESEMBLED A FIREBALL, THE
OBJECT THEN CONTINUED ON IN A ZIG ZAG MOTION- FIRST EASTERLY
THEN SOUTH, THEN EAST AGAIN WHERE IT FINALLY DISSAPEARED.
TIME ZONE WAS MST, AND THE OBSERVER WAS IN HER BEDROOM AT THE
TIME. THE SKY WAS VERY CLEAR AND COLD AT THE TIME. DURATION
OF OBSERVATION WAS FOR A FULL 25 MINUTES. OBSERVER APPEARED
VERY RELIABLE AND RATIONAL. SHE WAS ONCE ENGAGED WITH THE CIVIAL
AIR PATROL IN USA AND IS VERY CONFIDENT THE INCIDENT WAS AN
UNNATURAL PHENOMENA

Dear Sir:

28 Nov. 77

Re: Mrs. Doreen HAWES - Sighting of U.F.O.
27 NOV 77 - Yellowknife, N.W.T.

At approximately 8:15 PM, Mountain Standard Time, our office was contacted by Aeradio at the Yellowknife Airport. They advised that Mrs. Doreen HAWES, 23 Hillside Drive, Yellowknife, N.W.T. phoned their office asking if any aircraft were presently flying. When they advised that they had no record of an airborne aircraft, she stated she had seen a light in the sky to the S.E. of Yellowknife.

She was contacted by our office and she described the light as looking like a star at first and then emitting a flashing red light. It was stationary for approximately one minute and then moved off in a south westerly direction at an undetermined speed. It was visible for a total time of approximately two minutes.

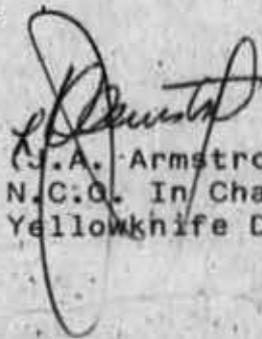

Present with Mrs. HAWES, at the time of the sighting, was her 13 year old son, Ross HAWES.

Since Hay River is south of Yellowknife, the Hay River Airport was contacted to see if they had any aircraft flying in their area and as far as they knew there were no airborne craft.

.../2

I spoke with Aeradio and they stated that it is quite possible for an aircraft to be flying locally and for them not to know about it, especially if it is not landing at the airport. In view of this, it is felt that what Mrs. HAWES saw was a private aircraft flying without having notified any of the local Aeradio authorities.

Yours truly

J.A. Armstrong/S/Sgt.
N.C.O. In Charge

persons: Clayton White.

feelings at time of sight?

ⓐ shocked.

how long did you have these feelings?

ⓐ 2 hr. at least.

What did you think it was?

ⓐ - light mod of any shape or form.

what did you talk about when you sighted the
u.f.o. or after.

ⓐ how far away it was from us.

ⓐ brief description of u.f.o. how close.

ⓐ bright know definite shape. at first 2-3 miles
and in 1.2 minutes it was over head about 80 yards.

how did it arrive and leave at space direction?

ⓐ arrived south east. direction, are approximate.
departed north west.

what did you think about it. do at scene

ⓐ not noticed ran.

what do you think about it.

ⓐ surprised.

date 1973 August approximate 1/3 on of month

1st Sight at Hill Crest football field.
Person Claton White, Gregory Modelb

Feelings at time of sight?

① Scared.

② certainly felt eagerness at time of sight.

how long did you feel these feelings?

① till talk down at home.

② for a short while after sight.

What did you think it was?

① a light not of any shape or form.

② U.F.O. on sight.

What did you talk about after you sighted the U.F.O. or after?

① to lots of people to see the truth.

② about it.

brief description of U.F.O. and distance from?

① no approximate shape just about 16 feet long.
about ~~80 yards~~ 100 yards away.

② ~~look like a cigar~~

about 80 yards. Looked like a cigar bright white
raw flesh even two to three second.

how did it arrive and leave same, direction

① same as Gregory.

② arrived at ball field ^{people standing} south west. south east.
departed ball field ^{object} west north west. ^{west.}
direction approximate.

what did it do at the scene?

① ~~was~~ didn't look same as Gregory.

② hovered about 100 seconds or enough to take
a very good look at it.
swishy grainy sound.

what did you think about it?

① at the time you don't know it is a U.F.O.

② it's a weird thing to do.

date August 1975 $\frac{1}{3}$ of the month

2nd Sight at Bedford AVE. and Greenbelt Path

Two persons "Brian LaFrance & Patrick Reading."

feelings at time of sight.

questions

① much fear, didn't even want a confrontation with unknown object like psychic beings

② falling of dusk.

• how long did you feel these feelings.

① 10 seconds at the most.

②

• what did you think it was.

① I thought it was a flying saucer.

②

• what did you talk about when you sight the U.F.O. or after

① immediate feeling of hostility toward object.

②

brief description of U.F.O.

- ① 20-30 feet in diameter, blue white brilliance, move effectively and quickly.

②

how did it arrive and leave at scene (direction)

- ① It came from the west-north, and it was going in a easterly direction. It seemed to slow down and tick a small power line cable, four lengths to be exact. Following contour, after the four lengths it sped up so fast you couldn't see it.

what did it do at scene

- ① Nothing, simple show past us at about 200 yards directly in front of us.

②

what do you think about it (how close to object) (direction)

I though is was; I still think it is, the most spectacular or thing I have seen in my life.

date August 1977 $\frac{1}{3}$ of the month.

3rd Sight at Russell Rd. and Coronation Ave.

two persons @ Brian LaFrance @ N/A.

question:

Feelings at time of sight

① I was still startled from the earlier sighting.

② $\frac{1}{2}$ - 1 hour after dusk.

how long did you feel these feelings.

① I felt and talked about it for at least 2 or 3 weeks.

what did you think it was.

① I thought it was a space ship but not the same ship as my earlier sighting.

what did you talk when you sight the UFO, or after

① simply, I told my parents.

brief description of U.F.O.

- ① small, triangle moving in intervals across the sky

how did it arrive and leave at scene (direction)

- ① It was ^{blinking} in the north east sky.
At the same ~~direction~~, from the north east to the south west, a craft fitting my previous description
② appeared.

what did it do at scene

- ① ① I moved in small and long intervals up down and sideways.

- ② ② It moved in a wavy line for approximately 3 seconds. It ^{and} speed up ^{consistently} fast. (couldn't see the machine accelerate)

What do you think about it (how close to object) (direction)

- I was about 3 miles from craft or I should say object
① and about $\frac{3}{4}$ of a mile from object or craft ②.

I was facing north east. I was compelled to stay and

watch the object fly around but it felt unsafe. There is simply too much to risk for ^{long confusion} ~~dangerous~~ ~~hazards~~ what will could happen with the unknown.

Date: August 1975/20
2100 a.m. approximately
Balerna Park.

Feelings at time of sight?
shocked.

How long did you feel these feelings?
2 hours.

What did you think it was?
was it was a flying saucer.

What did you talk about when you sighted a.f.o.?
description.

Brief description?

silver bright metal.

How did it arrive and leave at scene? ^{SCENE?}

Floating along in the air 60-70 mph.
arrived west left west.

What did it do at the scene? ^{SCENE. scene?}
sent out a bright flash such as a camera.
hovered over head.

What do you think about it?
40 feet.
not to much.

date. October 10 1953

11:00 pm.

Russell RD. at green belt.

Feelings at time of sight?

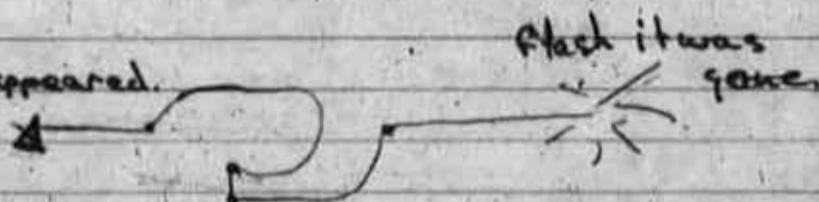

no comment.

how long did you feel these feelings?
that night.

what did you think it was?
a plane at first but realized it wasn't.

What did you talk about when you sighted u.f.o.?
no comment.

brief description of appeared.

how did it arrive and leave scene?
~~was~~ south east, sky jet high.

what did it do
no comment.

what did you think about it.
Smiles approximately.

no comment.

PRDET77/89 AT APPROXIMATELY 12:45 AM, 18 DEC 77, SANDOR SZELL, 40 YRS OLD, AND HIS SON SANDOR SZELL JR, 14 YRS OLD, SIGHTED AN UNIDENTIFIED FLYING OBJECT 5 1/2 MILES NORTH ON SECONDARY HWY 743 AND ONE MILE WEST OF PEACE RIVER, ALTA. SIGHTING OCCURRED ON MOUNTAIN STANDARD TIME SKY CONDITIONS CLEAR. SZELL AND HIS SON WERE TRAVELLING IN THEIR VEHICLE WHEN THE OBJECT WAS SPOTTED. HE STOPPED HIS VEHICLE AND THE OBJECT WAS AT 10 O'CLOCK. HE DROVE HIS VEHICLE WEST THIRTY METERS AND THE OBJECT WAS AT 11 O'CLOCK AND STATIONARY. SZELL THEN GOT OUT OF HIS VEHICLE AND OBSERVED THE OBJECT FOR 30 SECONDS. THE OBJECT REMAINED STATIONARY FOR 30 SEC AND THEN MOVED STRAIGHT WEST AT A TREMENDOUS SPEED AND DISAPPEARED. SZELL DESCRIBED THE OBJECT AS OVAL SHAPED, BRIGHT YELLOW IN COLOR AND BRIGHTER IN THE CENTRE WITH BLUE/GREEN HAZE AROUND THE EDGES. IT APPEARED TO BE 4 FEET IN DIAMETER AND APPROX 1000 FEET ABOVE THE GROUND. THERE WAS NO SOUND EMITTED FROM THE OBJECT AND NO TRAIL FROM IT WHEN IN MOTION. SZELL STATED THAT IT WAS NOT A COMET, FALLING STAR OR LIGHTS FROM AN AIRPLANE. HE APPEARS TO BE A RESPONSIBLE MATURE INDIVIDUAL. HE REPORTED THE INCIDENT AT 8:45 PM, 18 DEC 77 ADVISING HE FELT FOOLISH REPORTING IT BUT WAS TALKED INTO IT BY HIS FAMILY. THE SIGHTING OCCURRED WHILE HE AND HIS SON WERE GETTING WATER FOR THE FARM. SZELL HAD NOT BEEN DRINKING. CST MAHON

18 DEC 77

1. At approximately 12:45 AM, 18 DEC 77, Sandor SZELL, 40 years old, and his son Sandor SZELL Jr., 14 years old, sighted an unidentified flying object 5½ miles north on secondary highway 743 and one mile west of Peace River, Alta. The sighting occurred on Mountain Standard time and the sky conditions were clear.

2. SZELL, and his son were travelling in their vehicle when the object was spotted. He stopped his vehicle and the object was at 10 oclock. He drove his vehicle west thirty meters and the object was at 11 oclock indicating to him that the object was stationary and not more that a thousand feet in the air. SZELL and his son then got out of the vehicle and observed the object for 30 seconds. The object remained stationary for that period of time and then moved straight west at a tremendous speed and then disappeared. Szell described the object as oval shaped, bright yellow in color and brighter in the centre with blue/green haze around the edges. It appeared to be 4 feet in diameter and made no sound. There was no trail from it when motion. SZELL stated that it was not a comet, falling star or lights from an airplane.

3. In interviewing SZELL it was evident that he is an intelegent and credible individual. There is no doubt in this members mind that SZELL and his son did in fact see the object as described.

4. No other sightings were reported in this area. The Peace River airport was contacted and they advise that there were no aircraft in that area at that time. No explanation can be found at this point for the objects presence and it is not felt that any further investigation by this office will offer any useful conclusions.

'M*A*S*H' Chaplain: It's Just as Hilarious Behind the Scenes

William Christopher — who plays Father Mulcahy on TV's hilarious hit series "M*A*S*H" — is neither a Catholic nor very religious.

"But I have a great respect for the idea of religion and certainly for the Catholic Church," said Christopher.

"Father Mulcahy is the only chaplain in this MASH unit, and I think he feels his responsibility very strongly. I can relate to that."

"M*A*S*H," set in a tension-filled field hospital during the Korean War, has an underlying dramatic theme... but the show is consistently funny. And behind the scenes, the actors love to carry on the comedy.

McLean Stevenson, who played the role of Lieut. Col. Blake until he left the series about two years ago, "used to clown a lot," recalled Christopher.

"We have a lot of guests

GIANT PLAYHOUSE ONLY \$395 EACH BIG ENOUGH FOR 2 KIDS! 2 FOR \$5.95

A child's dream come true! Size approx. 3 ft. high - 7 ft. square - 23 cubic ft. inside. Big enough for 2 kids to "live" in this playhouse of their very own. Constructed of safe, durable Polyethylene. Water proof, use year round indoors and outdoors! Sets up in a jiffy... Nothing to assemble. No tools needed. Folds compactly for easy storage. Imprinted green and white brick walls with smiling daisies. English wrought-iron style door; sloping roof; easily fits any card table and in youngster's imagination it quickly becomes a LIFE-SIZE DOLL HOUSE for Girls... FARMHOUSE... RANCH HOUSE... PLAYHOUSE, etc.
 This KING-SIZE PLAYHOUSE is our greatest bargain in years! Only \$3.95 each. They make wonderful gifts! Buy several!
 SPECIAL OFFER: SAVE \$2.00. Buy 2 for only \$5.95. (Your Choice) Add \$1.00 for shipping and handling for each house. No C.O.D.'s.
 Send cash, check or money order to: **GIANT CABIN CO.**
 Dept. HI-24, 163 Sulfon Ave., Box 143, Oxford, Mass. 01540

dropping in on our set, and McLean would always single out a pretty girl from the guests, come over to me and say, 'Father, I met this girl. Will you marry us?'

"Or he'd do his confessions. McLean would throw himself in front of me on his knees and begin to tell all the terrible things he'd done."

Although silliness does occur during filming, Christopher revealed that actor Alan Alda, who plays the zany, quick-witted Hawkeye Pierce, is not really like Hawkeye in real life.

"Alan's a funny guy, and he says a lot of funny things — but it's not his interest to sit around the 'M*A*S*H' set and get laughs."

"He's the most generous star — and he really is a star. He's got a lot of clout on the show because he is recognized as being exceptional, brilliant and gifted as an actor, writer and director."

"Alan is relaxed in his star-

CONFESSION: M*A*S*H chaplain William Christopher in scene with Gary (Radar) Burghoff (left). Burghoff's love for animals once stopped filming, says Christopher.

dom, secure in his stardom." Christopher recalled a special moment on "M*A*S*H" when actor Gary "Radar" Burghoff's love for animals stopped the filming.

"A horse was supposed to be

tranquilized so he would lie down. Gary became very upset," recalled Christopher. He said it wasn't good for the horse.

"Burghoff really put his foot down. He even got on the

phone and called our producer. We had to cancel shooting that day because Gary refused to work until they got a horse that was trained to lie down."

Between takes on the set, "M*A*S*H" stars read and talk. "And there's always a traveling Scrabble game, maintained by Alan and Mike 'B.J. Hunnicutt' Farrell," said Christopher who — true to his character — always carries a book of Greek to study.

Recently, Christopher came down with hepatitis — and "M*A*S*H" writers centered the show around his illness.

"They had written a show called 'Hepatitis,' but decided they'd drop it," he said. "When I got hepatitis, they revived it and rewrote it so I'd be the one on the show who had hepatitis."

"They sent me the script when I was sick. It arrived all typed on yellow paper and bound in a yellow cover. Then when I got back to work, they had painted my chair... a beautiful yellow!"

— BARBARA STERNIG

Housewife Turns Homemade Salads Into a \$12-Million-a-Year Business

By DENNIS D'ANTONIO

The first time Grace Kinser sold a batch of her homemade salads she made \$30. Last year she made \$12 million.

It's been 30 years since she launched her business venture and, in that time, her "kitchen" has expanded into an empire.

The 67-year-old Atlanta, Ga., housewife and mother is chairman of the board of Mrs. Kinser's Home Style Foods — a well-known prepared-food company in the southeastern U.S.

"In my wildest imagination I never dreamed that the Lord had this in mind for me," said the energetic, devout Baptist who sold her first batch of ham salad, chicken salad and pimento cheese salad in 1948.

"At that time," she recalled, "salad was only sold in open trays, and I'd had an idea to sell it in airtight transparent

WOMEN AT THE TOP

HOUSEWIFE Grace Kinser never gave up "even when the cards have been stacked against me."

cup." After contacting several container companies, Mrs. Kinser found one that was able to supply her with the cups. "The night I did my first batch of homemade salad, everyone in the family pitched in. My two daughters and my husband rolled up their sleeves

and got to work."

They made 90 cups of salad, which Mrs. Kinser sold to independent grocers in her neighborhood. Her enterprise grew so quickly, she soon had to hire outside help.

"In 1950, I left the kitchen and expanded into my garage. In 1951, I left the garage and rented a building," she said.

Then came a big contract to supply her prepared salads to a national food chain — and business really soared.

Today, Mrs. Kinser operates three plants and employs 175 people, who make 15 different types of prepared salads.

Summing up her philosophy of climbing to the top, she says: "My father taught me very early in life never to give up. He told me the story of two frogs. Each one hopped into a gallon of milk.

"One floundered around, gave up and died. The other kept on kicking, and next day he was floating on a pound of butter, alive and well."

"That's the kind of philosophy I've stuck by. Even when the cards have been stacked against me, I've never given up."

Tune Your Guitar

Like a professional! This new invention is ideal for every guitarist — beginner or accomplished musician. Six precision-tuned reeds make exact tuning a snap. Just clamp this gadget onto your guitar, then play and adjust the strings. When the right pitch is reached, the corresponding reed vibrates. Just as simple as that!

UFOs Linked to Blasts That Rocked East Coast

The mysterious atmospheric blasts that have rocked much of the East Coast have been linked to a series of amazing UFO sightings that occurred about the same time.

"The link between these mystery explosions and UFOs is the most exciting new development in this field," declared noted UFO researcher Robert Creegan, a professor of philosophy at the State University of New York at Albany and a former member of The ENQUIRER's Blue Ribbon Panel of UFO investigators.

And Dr. James Harder, professor of engineering at the University of California at Berkeley, commented: "I think it's entirely possible that UFOs are connected to the blasts."

By BOB PRATT

The high-altitude explosions — which were heard or felt in parts of Connecticut, New York, New Jersey, Pennsylvania, Delaware, Maryland, Virginia, North Carolina and South Carolina — have baffled defense officials and scientists.

But The ENQUIRER has learned that during the same period the explosions were occurring at least the following five UFOs appeared directly over or near the blast sites:

- A giant "arrowhead"-shaped object which hovered above a village in New York state and startled residents.
- A large silvery sphere seen suspended in midair above a high tension tower in Charleston, S.C. — at the exact moment of one of the blasts.
- A slow-moving UFO that flew above a northeastern Pennsylvania town, glowed with bright white and blue lights — then, amazingly, split in half and zoomed off in different directions.

• A mind-boggling UFO — sighted above the same Pennsylvania town — that had "two flashing red lights in front" and a cabin with 3 windows.

• A series of spectacular reddish-orange lights that whisked along the New Jersey coast and appeared to be shooting flames.

At least seven mysterious high-altitude blasts occurred in December and were picked up by the super-sensitive microphones and recording devices at Columbia University's Lamont-Doherty Geological Observatory in Palisades, N.Y.

Dr. William Donn, head of the atmospheric sciences program at the observatory, said the noises were not from nuclear blasts or from the supersonic Concorde jet.

"They're explosions of some kind, but not meteorites, I don't know the cause of them yet," said Dr. Donn, adding that the blasts were the loudest ever recorded by his instruments.

As early as November 23, a mystery bang shook the upstate New York town of Plymouth — and several residents watched in stunned amazement as a UFO flew overhead during the tremendous din.

Tom Colledge, a farmer, had

just gone to bed about 12:45 a.m. when he was jolted by the noise and ran to the window. Near his barn, only 150 feet above the ground, he saw a startling UFO. "I never saw anything like it before," he said. "You could actually hear the atmosphere around it crackling from the tremendous noise. It wasn't like a jet noise, but more like a rocket.

"It looked like an arrowhead design. And it looked like it had four engines in the back because you could see the orange fire that was in them."

He said the craft measured about 75 feet across and 75 to 80 feet long. "And it had these oscillating lights, like the lights on a police car, about four or six red ones turning around . . . and these tremendously bright white lights that were shining down."

Colledge and his wife watched as the incredible craft moved across a valley that runs flat for about 200 yards from their house. Then it disappeared beyond a hill that rises out of the valley.

Just a few minutes later, about 1 a.m., and about three miles away, Bob Travers, his wife Margaret and son Tom, 16, also heard a thunderous noise.

Travers ran to a window — and saw an amazing UFO about 500 feet off the ground. "I'd say it was darned near as big as a house. The shape was more or less like an arrowhead," said Travers, an oil burner repairman. "It had probably two or three rows of square windows on it."

Mrs. Travers — who opened the patio door to look at the UFO — added: "It had red and green lights on it and bright white lights that lit up the whole ground."

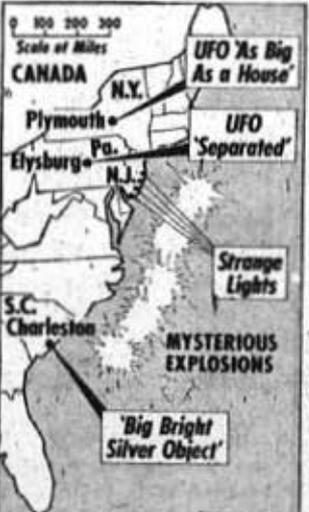

No military or commercial aircraft were in the Plymouth area at the time of those sightings, according to a spokesman for Hancock Air Force Base, which is 50 miles to the north-west of Plymouth.

The Plymouth blast was not detected by the Lamont-Doherty Geological Observatory, but Dr. Donn said his instruments pick up explosions only when the sound is carried on winds blowing in the general direction of the Observatory.

However, during the time of

'BIG AS A HOUSE': That's how Margaret and Bob Travers described the UFO they saw after hearing a thunderous noise outside their Plymouth, N.Y., home.

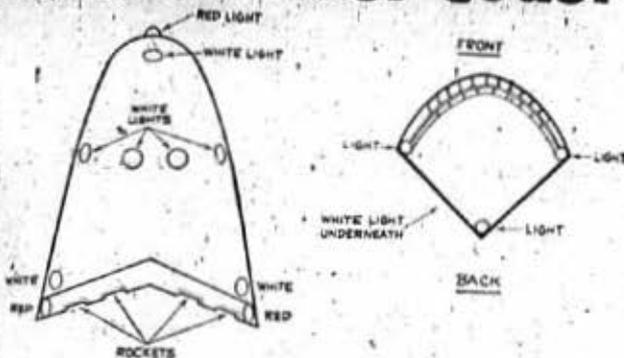

MAP of East Coast shows where the series of UFO sightings occurred, about the very same time that the mysterious explosions were heard.

the Plymouth UFO sightings, many residents reported being disturbed by the loud, rumbling noise, and their descriptions were identical to those of the later recorded blasts.

On December 2 — the day blasts were felt in Charleston, and along the New Jersey coast — mechanic William James Herrmann, 25, was jolted out of a sound sleep in his Charleston trailer home about 9:30 a.m.

"I saw a big, bright roundish silver object," he told The ENQUIRER. "It looked like it was hovering above an electrical power tower about 500 feet away. It was shimmering and looked like it was sitting in midair right above the tower."

And only 8 hours after Herrmann saw a UFO — and just 90 minutes after another mystery blast rocked New Jersey — a housewife in Elysburg, Pa., Mrs. Phyllis Crowl, and

MYSTERIOUS OBJECTS: Artist's conception of the UFOs that were spotted by Tom Colledge (drawing on left) and by Mr. and Mrs. Travers (drawing on right).

her daughter had a close encounter with an eerie UFO moving slowly across the highway in front of her car about 200 feet above the ground.

"It had bright white lights in front and a bright blue light in the back," said Mrs. Crowl, 34. Then suddenly, she recalled, "It separated! It separated!" The blue light zoomed off in one direction, and the white one in another.

Just two nights later on December 4, near the same location, a farmer and his wife also saw something strange. "It was about 5:30 p.m.," said George W. Richard, 59. "I saw a real bright light above the tree tops across the valley. It just looked like three windows in a cabin, with a separation between each one. The windows were rather square and were one on top of another. There were two flashing red lights in the front, one above the other." Soon it disappeared beyond a hill.

On the evening of December 13, just two nights before another series of blasts thundered along the East Coast, two teenagers called Harvey Cedars patrolman John Scott and reported seeing unusual lights near the New Jersey coast.

And both Scott and police Sgt. Robert Snyder of Long Beach, N.J., say they themselves spotted strange lights in the sky that night.

"I saw them off and on for at least three quarters of an hour while I was patrolling," Scott said. "I had a pilot's license at one time, and I wouldn't describe it as a plane, definitely not."

Sgt. Snyder saw lights in the

sky that were a bright yellowish color and would appear then vanish in a few seconds. "During that night, there were a lot of what seemed like shooting stars," he said. "I don't know what they were. They lasted 4 or 5 seconds."

William Hayes, Civil Defense coordinator for Ocean County, N.J., told The ENQUIRER that a total of nine blasts were felt along the New Jersey coast between December 2 and December 21 — and during that time many people called his office to report UFO sightings.

"People were reporting these things at the same time as the blasts," said Hayes.

A Pentagon spokesman told The ENQUIRER that the Defense Dept. does not know what caused any of the mysterious atmospheric blasts and that the military had nothing to do with them.

Professor Creegan, who lectures extensively on UFOs, declared:

"Here we have the possibility of the breakthrough in UFO research that we've been looking for and expecting. So far UFOs have given us only sightings with a minimum of information about them."

And Dr. George Agogino, chairman of the department of anthropology at Eastern New Mexico University and a member of the scientific advisory board for the Society for the Investigation of the Unexplained, told The ENQUIRER:

"If these strange noises are associated with UFO sightings, it makes them all the more fascinating. The possibility exists there may be a correlation here."

White House Orders Investigation

Last December 29 the White House ordered top governmental agencies to investigate and report on the mysterious blasts that have rocked the East Coast.

So far they've been unable to explain the explosions.

The ENQUIRER checked with these agencies and was told:

Defense Dept.: "We have no knowledge or explanation for any of the reported explosions off the East Coast."

Coast Guard: "We know nothing about them. We have

no explanation whatsoever. We are at a loss to explain what it might be."

NASA: "We don't have any ideas."

National Oceanic and Atmospheric Administration: "We don't know anything about them and don't have any explanation for them at this time."

Interior Dept.: "The Interior Dept. isn't doing anything other than what the Geological Survey did."

Geological Survey: "They can't be explained."

UFO RESEARCHER Robert Creegan

EYEWITNESS William Herrmann

NASA is suppose to have turned down UFO.

	DETACHMENT - DETACHEMENT AIRDRIE		
RE - OBJET: Robert Daniel COADY (B712 JUN 52) U.F.O. SIGHTING - Unfounded Near Calgary, Alberta 1 JAN 78 <u>AIRDRIE DETACHMENT CASE</u>			

N 78/001

1. In reference to Telex No. 78/1 sent to the National Research Council on the 2nd of January, 1978, and in compliance with Operational Manual Sect. I.3.E.22.3.. Note the following which is an itemization of the U.F.O. sighting investigated by the Airdrie Detachment of the R.C.M.P.
2. At 9:00 p.m. Mountain Standard Time the 1st day of January, 1978 an Unidentified Flying Object was reported to have been seen two miles North of the Calgary City Limits and west of Highway #2, in the Province of Alberta.
3. The weather conditions were clear, the sky was dark, no clouds, and many stars could be seen. The sighting was within two miles of the city and therefore city lights were also in view.
4. The identity of the observers are Mr. and Mrs. Robert Daniel COADY (B. 12 JUN 52) of #704 314-14st. N.W. Calgary, Alta., Ph. # 283-0897.
5. Observers state they were travelling south on Highway #2 towards the City of Calgary, and sighted the U.F.O. about one mile or two before the City Limits, the U.F.O. was described as being approximately 1 mile west of highway #2.
6. No other persons reported seeing this U.F.O. to date.
7. Sighting is described to be a bright red light about 20 feet over top of a car, and every few seconds it would flash or get brighter, then die down and flash again. The shape was just that of a light, no real shape. The altitude is described as being 10 or 20 feet above the ground. Only one object spotted which seemed to be over top of a vehicle like a car or truck. The movement of the object was toward the south.
8. Duration of observation - approximately ten minutes.

cont.....

RE.
OBJET.

PAGE

2.

U.F.O. SIGHTING - Unfounded Cont.....

9. A check with Air Traffic Control at Calgary International Airport found that no other sightings had been reported and they had nothing to report. Patrols of the area revealed nothing of significance. It was noted that the North South Canadian Pacific Rail Line runs parallel to highway #2 North of the City of Calgary for several miles, and is approximately 1 mile West of highway #2. No roads are to be found in this vicinity.

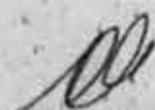

A check with the Yard Master for C.P. Rail revealed that shortly before 9:00p.m. 1 JAN 78 a Rail Diesel Car travelled south along that section of tracks travelling from Edmonton to Calgary. This single car diesel engine has two headlights mounted in front and two red marker lights which are about 14 or 15 feet off the railway tracks. Also about 7 feet off the tracks and situated in front of the engine is a 10 or 12 inch white headlight which is a type of revolving strobe and has a field of view of approximately 60 feet. This unit is capable of speeds up to 100 m.p.h. and travelled through the designated area at the time of the sighting.

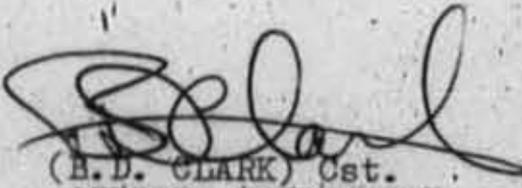

10. On the 7th FEB 78 Cst. CLARK the investigator observed a similar occurrence, and found it to be the Rail Diesel Car travelling to Calgary with strobes on. The Strobes are to warn traffic at uncontrolled intersections. It is the conclusion of the Investigator that the U.F.O. sighting was actually the Rail Diesel Car described above. And this U.F.O. is found to be unfounded.

11. Robert Daniel COADY was advised of our finding and agreed that it could have been the Rail Car mentioned.

No further Action Taken.

AIR1 IN ACCORDANCE WITH RCMP OPERATIONAL MANUAL
I.3.E.22.A.1 PLEASE BE ADVISED OF THE FOLLOWING.

AT 9 PM MOUNTAIN STANDARD TIME, THE 1ST OF JAN 78 AN UNIDENTIFIED FLYING OBJECT WAS REPORTED TO HAVE BEEN SEEN 2 MILES NORTH OF CALGARY CITY LIMITS AND WEST OF HWY 2 IN THE PROVINCE OF ALBERTA.

WEATHER CONDITIONS WERE CLEAR, SKY WAS DARK, NO CLOUDS, MANY STARS COULD BE SEEN. THE SIGHTING WAS WITHIN 2 MILES OF CITY OF CALGARY THEREFORE CITY LIGHTS WERE ALSO IN VIEW.

THE OBSERVERS ARE MR AND MRS ROBERT DANIAL COADY DOB:12JUN52 OF 704 314 14 ST NW CALGARY, PHONE 283-0897.

OBSERVERS STATE THEY WERE TRAVELING SOUTH ON HWY 2 TOWARDS CITY OF CALGARY AND SITED THE UFO ABOUT 1 OR 2 MILES BEFORE THE CITY LIMITS. THE UFO WAS DESCRIBED AS BEING APPROXIMATELY 1 MILE WEST OF THE HIGHWAY.

NO OTHER PERSONS REPORTED SEEING THIS UFO TODATE.

SIGHTING DESCRIBED TO BE A BRIGHT RED LIGHT ABOUT 20 FEET OVER TOP OF A CAR AND EVERY FEW SECONDS IT WOULD FLASH OR GET BRIGHTER THEN DIE DOWN AND FLASH AGAIN. THE SHAPE WAS JUST THAT OF A LIGHT, NO REAL SHAPE. THE ALTITUDE WAS DESCRIBED AS BEING 10 TO 20 FEET ABOVE THE GROUND. ONLY 1 OBJECT SPOTTED WHICH WOULD SEEM TO BE OVER TOP OF VEHICLE LIKE A CAR OR TRUCK. THE MOVEMENT OF OBJECT WAS TOWARD THE SOUTH.

DURATION OF OBSERVATION APPROXIMATELY 10 MIN.

A CHECK WITH AIR TRAFFIC CONTROL AT CALGARY AIRPORT FOUND NO OTHER SIGHTING HAVING BEEN REPORTED AND THEY HAVE NOTHING TO REPORT. PATROLS OF THE AREA REVEAL NOTHING OF SIGNIFICANCE. IT WAS NOTED THAT THE NORTH SOUTH CP RAIL LINE RUNS PARALLEL TO HWY 2 NORTH OF THE CITY OF CALGARY FOR SEVERAL MILES AND IS APPROXIMATELY 1 MILE WEST OF HWY 2. NO ROADS ARE TO BE FOUND IN THIS VACINITY.

A CHECK WITH THE YARD MASTER FOR CP RAIL REVEALED THAT SHORTLY BEFORE 9 PM THE 1ST OF JAN 78 A RAIL DIESEL CAR TRAVELLED SOUTH ALONG THAT STRETCH OF TRACKS BETWEEN EDMONTON AND CALGARY. THIS SINGLE CAR DIESEL ENGINE HAS 2 HEADLIGHTS MOUNTED IN FRONT AND 2 RED MARKER LIGHTS WHICH ARE ABOUT 14 OR 15 FEET OFF THE RAILROAD TRACK. ALSO ABOUT 7 FEET OFF THE TRACK AND SITUATED INFRONT OF THE ENGINE IS THE 10-12 INCH WHITE HEADLIGHT WHICH IS A TYPE OF REVOLVING STROBE AND HAS A FIELD OF VIEW OF APPROX. 60 FEET. THIS UNIT IS CAPABLE OF SPEEDS UP TO 100 MPH AND TRAVELED THROUGHT THE DESIGNATED AREA AT TIME OF SIGHTING.

IT IS THE CONCLUSION OF THE INVESTIGATOR THAT THE UFO SIGHTING WAS THE RAIL DIESEL CAR DESCRIBED ABOVE. REPORT TO FOLLOW AS PER INSTRUCTIONS.

U.F.O. SIGHTING

1. 506 was advised by Estevan City P.D. that one Greg BRYSON of Outram, Sask. phone number - 634-7567, had seen a U.F.O. at the above noted location at approx. 5:30 PM this date.

2. I phoned City Police, but the BRYSON boy had left. I contacted the BRYSON residence, however Greg was not at home. No further action taken this date.

17 JAN 78

3. This date I contacted BRYSON at his residence and he advised that he would come to the office in the evening. *15 Jan 11:25*

4. BRYSON, as well as one Allan SOVDI attended at this office. BRYSON (B: 28NOV61) stated that on 15 JAN 78 at approx. 5:25 PM, he observed a bright oval shaped object, silver in colour, resembling a welding light, flying at approx. 1/2 mile altitude. The object came from the South-East, stopped, flew South, stopped and then proceeded West, stopped again and then disappeared. He stated the object was approx. 1 to 2 miles South of Hwy. #18, 4 miles West of Estevan. BRYSON stated that there were no flashing lights on the object. The observation lasted for approx. 10 mins. He was accompanied at the time by a Raphael YONER of Outram, Sask. YONER's DOB is (08SEP62).

5. Allan SOVDI also reported a sighting of U.F.O. SOVDI (B: 28APR48) and his wife, Ann SOVDI, observed the object for approx. 30 Secs. He stated it was a bright object. It was sighted South of Torquay, SASK.

6. National Research Centre in Ottawa was advised of the above via CPIC. *COPY OF 338 FWD TO N.R.C. ALSO*

STATEMENT OF ELIZABETH ALDERTON

(BD 13 APR 56)

% GEN DEL

CANMORE ALBERTA

Phone: 678-4618

It was between 8:00 PM and 8:30 PM on highway #1 going east approx. 15 miles west of Calgary. I was watching a light in the north west sky and it was flickering, I then saw it change red, blue and white. It was stationary. I watched then what I thought was a star for about 15 minutes and it constantly changed color. Then I noticed in the southwest sky a bright white light that was stationary, then the light got brighter and began to move north, it stopped and moved quickly towards the car, it stopped and then just disappeared. I then saw it reappear and there was a red light and a blue light and it darted away to the north, it then stopped and then very rapidly rose straight up into the sky. I'm sure it wasn't a plane.

Q. How far away from the car you were driving was this bright light?

A. Land distance I would say about 20 miles, straight up, I wouldn't know how far.

Q. How bright was the light, same brightness as

a star; or brighter?

A. It was the brightest and closest light I've ever seen in the sky if it was a star.

Q. were the lights flashing?

A. yes

Q. where in relation to the white light were the red and blue lights?

A. They were the same distance ~~off~~ apart from me, I was in the middle, the red and blue light were to my right and the white light was to my left.

Q. What distance apart were the lights from each other?

A. I don't know for sure but I would say the distance of the city limits north to south when you're nearing the hill to Paskapoo.

Q. Did these lights have any shape?

A. They seemed to ~~not~~ revolve around whatever they were, they had a definite ~~pattern~~ ~~pattern~~ pattern. First was red, then blue, and white.

Q. Were there any aircraft flying in the area?

A. Yes, 3 aircraft

Q. Did these lights have the same markings as the flashing lights on aircraft?

A. The lights I saw on the aircraft were constant, they were the red ones I saw.

Q. Were the flashing white lights you saw flashing ~~the same~~ the same as if someone were flashing a strobe light in your direction?

A. No.

Q. Is there anything further you can add?

A. I couldn't see any shape, however the lights seemed to revolve around it, also when it moved it moved so quickly, much faster than a plane.

M. Tymchyshyn
Calgary, Alt.

How to Develop a Strong Personality

Strong and attractive . . . someone to be admired. That's how most of us would like to be regarded by others — and achieving that enviable goal can be easier than you think, according to psychiatrist Dr. Leonard Cammer, author of "Freedom from Compulsion."

By **JOSEPH CASSIDY**

In an exclusive ENQUIRER interview, Dr. Cammer — founder of New York City's Gracie Square Hospital and former associate clinical professor of psychiatry at New York Medical College — explained how it can be done:

1. Voice your expectations in a friendly manner. "A friendly attitude when you're making your desires known is a key step," said Dr. Cammer, who suggests, for example, that instead of ordering your child to "Clean up — or else!" try stating firmly but pleasantly: "I expect you to have your room cleaned by 5 o'clock."

2. Take a stand on issues, but be willing to consider other points of view. "The person with a strong and attractive personality can never be accused of being wishy-washy," Dr. Cammer noted. "But he does not assume his to be the last word on every issue."

3. Be ready to compromise.

By adopting a "meet you half way" approach, you show a respect for others as well as for yourself.

4. Don't be too quick to defend your "rights." "The individual with a strong and attractive personality is not

easily offended," Dr. Cammer pointed out.

5. Maintain a relaxed attitude. "Body language can help you develop a strong and attractive personality — and it can often say more about you than words," Dr. Cammer concluded. "An individual with a relaxed air about him doesn't hang his head, bite his nails or glue his eyes to the ground. Nor does he hold himself so rigid it appears he has a chip on his shoulder."

An egotist is someone who is always letting off esteem.
— Farmer's Dilemma

"I can't understand it. A beautiful highway like this and not another car on it."

NATIONAL ENQUIRER

Three exciting Harlequin romance novels are yours FREE!

Set among the wild lochs and mountains of Scotland, "A Wife for Andrew" is a touching account of a young governess, her dour yet compassionate employer and the children in his care who succumb at the hands of a jealous woman.

In Betty Neid's "Fate is Remarkable", lonely Sarah Ann Dunn's marriage of "convenience" to Hugo is dramatically altered. Just as Sarah was getting ready to tell Hugo that she'd fallen in love with him, a lovely woman from Hugo's past shows up . . .

In "Bitter Masquerade" by Marjory Hixon, mistaken identity is the basis of Virginia Dalton's marriage. When Brent mistook her for her twin sister Anna, she wondered if her love was strong enough to make up for the deceit . . .

Fascinating Facts on U.S. Immigration

Legal immigrants to the U.S. numbered only 152,000 in the decade 1820-1830, but the flow increased rapidly, reaching a peak in the period 1901-1910 with 8.7 million coming to our shores, according to the Population Reference Bureau. In 1971-1976 the number was 2.3 million:

Period	Number
1820-1830	152,000
1831-1840	599,000
1841-1850	1,715,000
1851-1860	2,398,000
1861-1870	3,315,000
1871-1880	2,512,000
1881-1890	4,247,000
1891-1900	5,685,000
1901-1910	8,725,000
1911-1920	7,146,000
1921-1930	4,107,000
1931-1940	528,000
1941-1950	1,035,000
1951-1960	2,515,000
1961-1970	3,322,000
1971-1976	2,335,000
Total 1820-1976	47,497,000

Finally. The picture for your bath or powder room. Charming black-and-white print of my great-grandmother's favorite antique figurine. Sepia-tone 8" x 10" print ready for framing. \$3 each, postpaid.

Mary Lewellyn's

P.O. Box T-3771; Mansfield, Oh 44907

In the pages of your FREE GIFT Romance Treasury Novels you'll get to know warm, true-to-life people. You'll share their strengths, their weaknesses, and most of all you'll discover the special kind of miracle that love can be. You'll be swept to distant lands you've dreamed of visiting . . . You'll come to know them so well, you'll feel like you've lived there! Intrigue, adventure and the destiny of many lives will thrill you as love finds its way from the magic of a starlit night in Bangkok, to a raging storm on the wild coast of Northern Scotland. And all three full-length novels are exquisitely bound together in a single hardcover volume that's yours to keep forever as a FREE GIFT, to introduce you to Harlequin Romance Treasury!

The most beautiful books you've ever seen!

Cover and backbone of all Romance Treasury volumes are superbly decorated with gilt designs in a style borrowed from an age when bookbinding was a fine art. An elegant ribbon bookmark is bound right into the volume for ease of stop-and-start reading and to add a distinctive feminine touch. And the convenient octavo size makes it easy to carry in your purse wherever you go. No detail has been overlooked to make Romance Treasury books as beautiful and as lasting as the stories they contain . . . Because you'll want to reread each novel again and again!

A whole world of romantic adventures!

As well as your FREE GIFT volume, you'll also receive a second volume of Romance Treasury novels, three more stories as meaningful and as moving as love itself. If you decide to keep this second volume, you will then be entitled to examine each new volume of Romance Treasury novels as it is published. If however, you decide not to keep the second volume, simply return it and you will hear no more. And remember, whatever you decide, the beautiful FREE GIFT VOLUME is yours to keep forever!

No obligation to buy anything ever! Fill out the coupon today to get your FREE GIFT VOLUME.

Romance Treasury

FREE GIFT! Mail to: Ellen Windsor, Harlequin Romance Treasury, 901 Fuhrmann Blvd. Buffalo, N.Y. 14203

Dear Ellen Windsor: Yes, please send my FREE GIFT VOLUME, together with the second volume of Romance Treasury novels, which I can examine for 10 days without cost or obligation. If I decide to keep the second volume, I will pay only \$4.97 plus a small charge for shipping and handling. I will then be entitled to examine other volumes at the rate of one volume (3 novels) every five weeks or so, as they are published. Each volume is at the low price of \$4.97 plus shipping and handling and comes to me on a 10-day free examination basis. There is no minimum number of books I must buy. I can stop receiving books at any time simply by notifying you. If I do not wish to keep the second volume, I will return it within 10 days and will not receive any other volumes and will not be under any further obligation. The FREE GIFT VOLUME is mine to keep forever, no matter what I decide. Please print clearly.

Will 1978 Be the Year the UFO Mystery Is Solved?

This is the year of the UFO, experts declare.

"We expect 1978 to be the year that mankind takes its biggest step forward in solving the mystery of the UFO," said Dr. E. Leo Sprinkle.

A flood of new, documented evidence of UFOs is expected this year because:

- Starting public interest in the phenomenon — created by the hit movie "Close Encounters of the Third Kind" — will encourage more responsible people to report their UFO experiences.
- A 10-month computerized sky-watch program will be launched this year to track the paths of UFOs.
- A growing change in attitude among scientists will spark a flurry of probing research of UFOs.

Because of new interest in UFOs among the public and scientific community, "skeptical" citizens, scientists and professionals who would have been reluctant and embarrassed before to admit UFO encounters will finally step forward and report their experiences," said astronomer Tom Galia.

"The prestige of such people means the go-ahead — including agencies and the scientific community — will have to follow.

"There is no doubt that the wave of new sightings, evidence of hard signs and actual encounters will take us further than ever before toward solving the mystery of the UFOs."

Physicist Dr. ... Bartholomew, a UFO researcher and a member of the advisory board of the Center for UFO Studies, expects

GEOLOGY STUDENT took this picture of a UFO while photographing hard formations in New Mexico in 1967. He said the object made no noise as he looked down to change plates in the camera.

MASSIVE UFO was documented on this photograph after a field technician shot a roll of film at the weather station on Crook Mountain, Colo., in 1967.

people more courage to report sightings and encounters, said Dr. J. Allen Hynek, technical adviser on the movie and director of the Center for UFO Studies.

"I think attitudes toward UFOs will open up which will allow us to get much more data — and that means more research will be done in 1978."

"This amazing interest in UFOs isn't confined solely to America. A 30-country international, sky-watch program will be launched this year, enabling scientists for the first time to track the paths of UFOs across most of the five worlds.

The program will record computer data systems of private UFO organizations in the U.S., Canada, England, France, Belgium, West Germany, Denmark, Norway, Finland and Sweden, said Bertil Kahlmann, vice chairman of Sweden's Project UFO (UFO Report Data System), adding: "It is marvelous that after all these years, scientists these countries will be able to virtually track UFOs across half the world."

One of the world's largest radio telescopes has already tracked the movements of a UFO, according to Charles Challa-Smith, one of Britain's top aviation historians and now a professor at the Southampton Institute.

"An expert in aerodynamics revealed to me that the radio telescope at Jodrell Bank (in England) had indeed tracked a UFO," said Challa-Smith. "I am certain UFOs exist. One or two encounters, such as Fraser, will come out and of fairly acknowledge UFOs."

Added noted UFO researcher, Dr. ...

These kinds of things don't exist. Edwin Davenport, an astrophysics expert at NASA's Langley Research Center in Virginia, believes that UFOs are caused by extraterrestrial life.

"I think people from other planets and galaxies are attempting to contact us," he said, adding: "The government knows more about UFOs than they are admitting."

And Davenport, who has watched on the U.S. space shuttle, predicted: "In time, this thing is going to break wide open and the world will begin to know. It might happen any month — it might break any day."

was photographed in New Canaan, Conn., in 1967 by a father taking pictures of his son. He said the object was about 60 feet long and 10 feet wide.

third kind (contact with intelligent life from outer space) is the most important scientific problem facing the world today.

Most of this new explosion of UFO interest is triggered by the search for "Close Encounters of the Third Kind," which grossed an amazing \$6 million in its first 17 days in movie theaters.

The subject of the film is giving

By STEVE ROTHMAN

A surprising number of American aerospace scientists, engineers and researchers believe in UFOs.

And they also believe that the government is suppressing evidence about the sightings.

"That's what THE ENQUIRER learned when we talked to numerous aerospace reports across the country and asked them about UFOs."

"I have seen saucers myself, not done but with other people," he said. "I saw one near the Air Force and Space Administration's (NASA) Johnson Space Flight Center in Houston, Tex. said."

"The Defense Department is afraid of some military gain. Making contact with UFOs, in fact, some are unexplainably missing on a mission of these contacts. In at least one case, the whole sequence was observed on radar."

Physicist George J. Danks of NASA's Marshall Space Flight Center in Huntsville, Ala., said UFOs have been spotted by NASA astronauts ever since they came into space.

"This information has been kept a 'secret source,'" he said, adding that he was a member of a skybolt orbital mission ground control team during one such sighting.

William J. Gould Jr., NASA spacecraft manager for the \$1.6 billion Mission G. Observatory, a weather satellite that will be launched in August, admitted that he has actually tracked UFOs on radar.

"I don't like to describe my ex-

STRANGE LIGHTS in the sky were filmed by a U.S. Coast Guard photographer of the Salem, Mass., Air Station in 1952.

per were filmed by a U.S. Coast Guard photographer of the Salem, Mass., Air Station in 1952.

Bin Westman, assistant professor of sociology at Eastern Michigan University in Ypsilanti, Mich., said:

"There is no reason why a UFO could not land on earth in 1978."

— ALLAN A. ZELLS

They had wanted to, they couldn't be satisfied so long ago.

Miss psychic Mike Dahan says beings from space who've been living on earth for a long time will reveal themselves this year.

"They will have many messages for us," she said. "The ground will be very important to us, we will be very curious."

"It will be the most exciting and startling revelation in the history of mankind."

They had wanted to, they couldn't be satisfied so long ago.

"It will be the most exciting and startling revelation in the history of mankind."

Psychics Predict Space Beings Will Communicate With World This Year

By RUD GORDON

People on earth will be contacted by space beings before the end of 1978, say three of the country's most famous psychics.

"The world will have its first contact with a UFO in 1978," said Shawn Robbins, the New York psychic who accurately predicted the crash of two Boeing 747 jets in the Canary Islands last March.

"It will happen while people are watching the movie 'Close Encounters of the Third Kind.' There will be a spectacular interruption during the movie — it will look almost as if the screen will go blank and the audience will receive a message from a UFO."

Miss Robbins said the earthbound being incident will take place in a California theater in May.

"The message will contain three important parts. First, it will be the first definitive confirmation they've been from outer space. Second, that their presence on earth is in the interest of peace. Third, that there will be mass landings in the U.S., Middle East and Russia."

"I predict the UFO landing will be accepted in the matter that they'll come to us — in peace."

"Though her prediction was last October, Los Angeles psychic Katherine Kniskade also forecasts UFO contact with earth during 1978.

"I predict that we will have actual communication in 1978 from planets like Pluto and Saturn" and the war who accurately predicted King Crowley's death.

"I believe there have already been attempts by UFOs to communicate with us, but I predict there will be much in 1978 than ever before."

Miss Kniskade said she believes UFOs have been coming down and observing earth for years.

"They're coming down and keeping an eye on us."

"I don't think they're here to do anything other than help. They are technological advanced. That, if

they had wanted to, they couldn't be satisfied so long ago.

Miss psychic Mike Dahan says beings from space who've been living on earth for a long time will reveal themselves this year.

"They will have many messages for us," she said. "The ground will be very important to us, we will be very curious."

"It will be the most exciting and startling revelation in the history of mankind."

INCREDIBLE PHOTO of a UFO hovering over a house in Lawrenceville, Ohio, was taken in 1967 by a local teacher.

They had wanted to, they couldn't be satisfied so long ago.

Miss psychic Mike Dahan says beings from space who've been living on earth for a long time will reveal themselves this year.

"They will have many messages for us," she said. "The ground will be very important to us, we will be very curious."

"It will be the most exciting and startling revelation in the history of mankind."

RE: - OBJET:

PAGE

STATEMENT OF: Rita Eleanor TOUPIN, (B: 5 AUG 38)
St Leon, ManitobaSt. Leon, Man.
8 FEB 78,
2:01 P.M.

It was close to 4:00 A.M. when I got up. I was worried because Alain wasn't home yet. It was the 5 FEB 78. I walked over to the patio windows and looked out and the patio doors face west. It was a very clear night, there were lots of stars and I noticed a very bright pulsating star. I just stood there and in comparison to the other stars it seemed to go up in an arrow head angle and come down but not in it's original position. I observed it for a good five minutes. Then I went to the kitchen and put the light on and I started to read the paper. About five minutes elapsed from when I walked away from the patio to when Alain drove up. I quickly put off the lights and ran back to the patio doors. Looking up at the object again in relation to the other stars it had definitely moved. I mentioned this to Alain the minute he walked in. He sounded exasperated with me and I guess he thought I was making a mountain out of a mole hill. He said, "Oh Mom" and I said, "Come and look at this, it doesn't look like a star." He looked and said, "It sure doesn't look like a star." I went for the binoculars. I looked through the binoculars and it sure didn't look like a star. Alain went for the telescope. It was beautiful, the red light was so intense. It was a regular pulsing red pulsing and there was some other colours. It looked like whitish or creamish or yellowish white, and there was some pale aqua green. I didn't get a chance to look through the telescope. I was standing looking west and it was definitely above eye level. Alain looked through the telescope. He said, "Mom, you're not going to believe this, it's not a star." I asked him if it was a U.F.O. and he said that "if it's what I'm seeing it's definitely not a star." Then he moved it to the table but we couldn't get it in the telescope so we watched it with the binoculars and the naked eye till it went out of sight.

Q: In what direction was the object moving?

A: Westerly.

Q: Was there any exhaust?

A: I wasn't outside, and didn't hear any noise.

Witness: B.T. BURNETT, Cst.

2:30 P.M., 8 FEB 78.

(Sgd.) Mrs. Rita TOUPIN

STATEMENT OF: Alain Bruce TOUPIN (BD: 22 OCT 57)
St. Leon, Manitoba

St. Leon, Man.,
8 FEB 78,
1:10 P.M.

I came in from outside at 4:10 A.M. 5 FEB 78, and I hadn't looked in the sky and I hadn't heard any sound. My mother was in the dining room watching something in the sky. She wasn't using any visual aid of any kind, so we went to get the binoculars to observe the bright light. The binoculars are 7 x 50 376 ft at 1000 yards. Through the binoculars the object was still undistinguishable so I immediately went down stairs to get a telescope. I set it up temporarily on a chair and attempted to catch a fast glimpse of the object before it went too far. It only took a few seconds to get the object in focus and upon doing so I observed a craft. The craft appeared to be two saucer plates with a wafer in between with clearly distinguishable partitions running vertically in the wafer. The predominate flashing red light through the telescope was revolving clockwise around the object. When the revolving light was on the blind side the object appeared to be whitish, yellowish, greenish colour. It was hard to distinguish, it was all these colours at the same time. Observing it for a matter of four to five seconds through the telescope, I wanted to steady myself by steadying myself on a nearby table thereby letting my mother observe the object also. When I put the telescope on the table I couldn't find it again but you could still see it. I would attribute this to being anxious to get it back into viewing. After that I couldn't get it in the telescope so we just observed it with the binoculars but by this time the object was clearly moving to the west getting weaker in it's intensity. After a span of 20 minutes the object was out of view. I don't know why I couldn't get it back in the binoculars. I guess that's about it.

Q: Where in the sky was the object when you saw it ?

A: It was in the western sky and it was moving west.

Q: What were the weather conditions ?

A: Clear, cold and clear. No northern lights that I saw.

Q: Was it moving fast ?

A: No, It didn't appear to.

Q: How long did you observe it for ?

A: A good forty minutes. My mother had been observing it for awhile before me. I really can't be sure of the time, I can only approximate.

CONTINUED . . .

RE: - OBJET:

STATEMENT OF: Alain Bruce TOUPIN (BD: 22 OCT 57)
St. Leon, Manitoba

PAGE

2.

Continued from page 1....

Q: Was there any trail like an exhaust?

A: No.

Q: Can you estimate how high up the object¹ was or how far away it was?

A: No.

Q: What setting was the telescope on when you observed the object?

A: The telescope is a Marksman with Achromatic coated lens
20 x 30 x 40 x 60 x D=60 mm and the setting was on 20 x .

Q: Were you tired at the time, or had anything to drink?

A: I might have been tired at that but I hadn't had anything to drink.

Q: How long after the sighting did you phone Winnipeg?

A: About seven minutes. I went to bed and thought about it first.

Q: Do you have anything else to add?

A: Not that I can think of. I wonder if they could let me know if they can explain what it was I saw.

(Sgd.) Alain TOUPIN

Witness: B.T. BURNETT, Cst.

Re: - Objet:

Alain TOUPIN Report of U.F.O. Sighting

Date & Time Date & heure	Details - Détails
8 Feb 78	<p>On this date, I made a patrol to the TOUPIN residence where I contacted Alain Bruce TOUPIN B: 22 Oct 57 and his mother Rita Eleanor TOUPIN B: 5 Aug 38. Alain said that on the morning of the 5 Feb 78 he had returned home from visiting his girlfriend at approximately 4.10 AM. His mother was in the dining room watching something in the western sky which she drew his attention to. It was a bright light in the sky which was flashing red and appeared to be moving. To TOUPIN it seemed much closer than the other stars in the sky. He got his binoculars but was unable to see much better so he got his telescope which is a Marksman with an Achromatic coated Lens 20x30x4.0x60x D=60 mm which he set at 20x. His binoculars are 7x50 376 ft at 1000yards. Through TOUPIN says he saw a craft which appeared to be two saucer plates with a wafer in between with clearly distinguishable particians running vertically in the wafer. The predominate flashing red light was revolving in sequence around the saucer. The remaining part of the UFO was white, yellow and green intermixed in colour. TOUPIN had the telescope on a chair and he moved it to a table to steady it better however he was unable to get the UFO in the the telescope again although he was able to see it. The UFO continued west until it was out of sight. The TOUPINS feel that they watched the UFO for 15 to 20 minutes. Mrs. TOUPIN stated that she had seen the UFO for 10 minutes prior to her son's return</p>
12.30 PM	<p>She had been asleep and had woken up</p>
	<p>Mrs. TOUPIN had realized that her</p>

Alain TOUPIN Report of U.F.O. Sighting

Date & Time Date & heure	Details - Détails		
	<p>son was not home yet and became worried. She went to her patio door to look out and had seen a flashing red light in the sky. When her son came home, she told him. Mrs. TOUPIN said that the UFO was going west in what she called an arrow head angle by which she meant that it was rising and falling as it moved along. She said that when the red light was not flashing the UFO was a white, cream or yellow colour. Mrs. TOUPIN did not look through the telescope.</p> <p>It should be noted that the TOUPINS said that the sky was clear and that they did not see any Northern Lights however I was on patrol until 2.00 AM that morning and the Northern Lights were very strong in the Northern sky. While in the TOUPIN house, I observed that the living room portion of the house extended out from the rest of the house so that when you stand at the patio windows you have a clear view to the west but your view to the north is blocked by the living room extension.</p> <p>I took statements from the TOUPINS which will be forwarded to the NRC Meteor Centre Ottawa along with a rough drawing of the UFO made by Alain TOUPIN. Message 78/6 sent to the Meteor CENTRE.</p> <p>CONCLUDED HERE</p>

Re: U.F.O. SIGHTING - Near Drayton Valley,
Alberta. 17 FEB 78

At 12:25 a.m., this date, word was received that one Grant Edward LAW (29 APR 54) had reported a UFO sighting to CFB Nameo. The sighting was reported as approximately 2 miles east of Drayton Valley and 1/4 mile south (on Buck Creek road) and also advised that LAW [REDACTED]. A patrol was made to the area a short time later but nothing could be observed; noted to be a clear night with little or no cloud cover. Attempts were made to locate LAW and same came to our office on the 21 FEB 78, and gave the attached statement. LAW stated that he was standing outside his home, which is 1 mile east of the reported sighting location and that he saw a "bright flash" from the southeast and about 1 mile away. He then phoned in the sighting to CFB Nameo and went back outside; however; it was gone. Subject did not investigate nor attempt to contact our office.

[REDACTED]

It should be noted that in the direction LAW stated he saw the sighting, is located a North Western Utilities Pumping Station with a flare stack and also AMOCO Petroleums of Canada has a large Natural Gas Plant with a flare stack immediately south of the Utilities Station. It is my opinion that the flash observed was an excess amount of gasses flaring at the plant and observed by LAW.

(PJT)Sgt., I/C
Drayton Valley Det.

(E.S. SMILLIE)Cst.
Drayton Valley Detachment

21 FEB 78
11:08 A.M.

STATEMENT OF GRANT EDWARD LAW OF DRAYTON VALLEY (DOB: 29 APR 54), HOME PHONE # 542-5393

On 17 FEB 78 at approx. 12:25 a.m., I was standing outside home, feeding dogs, when I saw a big bright flash. I looked upward, saw two more flashes coming from the south east of house. Flash appeared above trees, approx. 1 mile away. The flash looked like a large bulb of orange and white light. I then went into house and phoned the Air Force base to report it. I went back outside, it was gone. I then sat down to think about what I had saw.

Judith Ann COMERFORD (B: 16 JUN 44) et al
Suspected Sighting of UFO
Pine Point Area, N.W.T. - 25 FEB 78

FILE	(4712-5)
ENCL.	#130
DIR. TO	A. Claude
INDEXED BY	OR
MAIN FILE CHARGED TO -	

25 FEB 78

- At 11:00 PM this date, Cst. D.A. McLEOD was contacted by Ernie COMERFORD of Pine Point, N.W.T. Subject stated that his wife, Judith Ann COMERFORD and daughter, Diana Gail COMERFORD (B: 29 SEP 64) and a friend, Elizabeth Ann PARKER (B: 14 SEP 64), all of Pine Point, N.W.T. had been returning from Hay River at approximately 9:30 - 9:45 PM this date and felt they had seen a UFO between approximately mile 10 to mile 34 on NWT highway #5.
 - Writer then spoke with Judy COMERFORD and Diana COMERFORD with regards to this incident. They stated the object had followed them for approximately 30 - 45 minutes. They stated the object was glowing reddish orange in colour and that it seemed to be hovering in the trees at some-times and at other times it would be quite high. Subjects stated that the object was always on one side of them or in front of them, never behind them. The COMERFORDS were advised that writer would attempt to ascertain whether or not any planes or helicopters were in the area at the time.
 - At 11:05 PM writer contacted Aeradio in Hay River and they advised they had no reports of any aircraft in the area between 9:30 PM and 10:45 PM this date. They advised they would have the duty NCO from DND, Yellowknife contact Member with regards to whether or not military aircraft had been in the area.
 - At 11:15 PM Captain D. WATKINS of DND, Yellowknife contacted writer and advised that all Armed Forces planes had been on the ground by 9:00 PM this date. He stated that he had no reports from anything out of the ordinary around Pine Point.
 - At 11:30 PM writer contacted Aeradio from Fort Smith and they also advised there were no aircraft in the area at the time of the sighting.
 - Writer then contacted Judy COMERFORD and requested that she attend with her daughter and friend in order that statements may be obtained with regards to the incident. They attended at 11:35 PM and copies of their statements are attached.
- 26 FEB 78
- At 1:05 AM a telex was completed to National Research Council and forwarded with a copy to Yellowknife sub/division. Cst. PRITCHARD of Hay River detachment advised of this incident and their Members were going to make a patrol of the area of the sighting.
 - At 10:00 PM this date, writer made a patrol in the area of the sighting, however, nothing out of the ordinary could be found.

RE - OBJET
Judith Ann COMERFORD (B: 16 JUN 44) et al

PAGE 2

9. Writer suspects that possibly these persons had seen a colour phase of the moon as it was rising. If in fact it was the moon, it would explain the object always being in front of them and to one side and the fact that it would seem to be hovering in the trees at one time and up in the air at other times. During this patrol, the moon was seen rising at approximately 10:30 - 10:45 PM and appeared quite yellowish. Writer then returned to the COMERFORD residence and asked that Mrs. COMERFORD examine this and advise whether or not there was a possibility this is what she had seen. COMERFORD stated that it was definitely not the moon she had seen. Writer questioned her again to some length about the statements she and the girls had given and she stated that possibly the reason the girls had said that the object 'became the moon' is the fact that they kept trying to convince themselves that it was the moon that they were seeing when they were returning from Hay River. She further stated that the colour of reddish orange is the colour like she had never seen before and that this object is better described as a light than some kind of space ship.

10. No other reports of this nature were received, however, these witnesses whom we feel are quite reliable are sure that they have seen an object that defies explanation.

18 MAR 78

11. Report forwarded to N.R.C., Ottawa with copy to "G" Division on this date.

 (SJB)
Cpl.
Det.

D.A. McLeod Cst.
(D.A. McLEOD) #29375.
Pine Point Detachment.

Statement of Diana Gail COMERFORD (DB 29587 CU),
House # 269, Pine Point, N.W.T. Phone # 393 7218. Acc. Stud.

We turned the junction leading from
Hay River to Pine Point. I was sitting in the
back behind my mother. I had her turn on the
radio but it was really staticky and after
we crossed the Hay River Bridge the radio got worse
and we turned it off. Before we got to the place
where the railroad tracks cross the highway mom
noticed the object to our left and then Elizabeth
and I noticed it. When we first saw it appeared
to be a top sided oval shape - flat at one end. It
was half ~~in~~ below and half above the trees. The
colour was sort of the colour of the taillight of your
car a red. bright reddish orange colour. Then it
disappeared behind the trees but you could still see the
glow. This was on our left side. Then it rose and
moved to the other (right) side. It would stay there
for a while and seemed to be waiting or following
us. Then it lifted up and went over to the left
side and was right in the air and then rose up
again and seemed to set right in the middle of
the road and then we slowed down and then the
object ~~seemed~~ ^{seemingly moved} up and went into the trees ^{on}
our right. The glow was always around it.
Then it had hovered around everything in front
of us. It ended up on the left side hovering in the
trees. Then it moved over to the right and changed

to a pale yellow and seemed to keep on
changing colour until it became the moon. When
we got to the junction we looked outside and
there was only the moon. We never saw the object
after that.

H.M. Wood post
26.2.76 1.05 AM

Diana Cameron

Statement of Judy Ann Comerford
DOB: 16 Jun 44, House #269, Caribou Dr. Pine
Point, NW Phone 393 7218 - Occupation - Housewife

I left Hwy 5 with my daughter
Sandra and Elizabeth Parker at approx 9:30 PM
on 25-2-78. We were driving our 1975 Chev
Impala. When we crossed the railroad track
on Hwy #5 there was ^{dual shaped} an object on our left
hand side that seemed to be hovering close
to the ground in a clearing that was dotted
with trees. The object was glowing reddish/orange
in colour. It was very bright - one of the brightest
things I've seen. As we had a real good look at
it there. As we kept driving we could still
see it most of the time either slightly in front
of us and to one side or right beside us. Sometimes
we would slow right down and the object would seem
to get ahead of us but we seemed to catch up to
it quite quickly. It would change from one side
of the car to the other. It never seemed to get
behind us but it would disappear behind trees and
then we would get near a clearing and it would
be there again. This kept on until we approached
the junction of Hwy #5 & Hwy #6. At the junction I
stopped but the object had disappeared.

Pg. 2

Judy CORNERFORD.

We watched the object for approx 30 miles and around 40 minutes - Mountain Time.

This would have been from 9:45 PM to 10:30 PM.

Sky condition at this time - It seemed to be clear with Northern lights, however we kept driving through ^{a few} hazy patches.

There ~~seemed to be~~ ^{was} only one object. It was oval shaped and emitting an reddish glow at first but changed to a whitish colour. It seemed to go from both above and below the tree line.

Movement was intermittent. It could move full fast and/or hover.

Judith Cornerford.

Also just before we came up to the object the radio faded out. I turned it up real loud but still couldn't hear anything so I turned it off. I could not hear any sound from the object above the noise from the car.

1/2 AM. Road east
26-2-78. 12:40 AM

Statement of Elizabeth Ann PARKER, (DB: 14 SEP 64), House
#221, Pine Point, N.W.T. Phone 593-2917. Occ: Student

I was sitting in the right rear back seat
of Mrs. Cornford's car returning from Hay River. We
were approaching the railroad tracks where they
cross Hwy #5 when the radio faded out. We
turned the radio up and it went sort of fuzzy and
then we turned it off. Just after we crossed the
railroad tracks I saw a reddish/orange coloured
^{oval shaped} object on my left hand side. It was in the
trees at this time and at other times it was above the
trees; but it seemed quite close to the ground. This
was at 9:45 PM and it changed side of the
road quite a few times and one time it seemed right
in the middle of the road. At about 10:10 PM I
changed colour to pale yellow. It stayed this colour
the rest of the way to Pine Point. When it was
reddish orange it seemed to have a ring around
it of the same colour as the object. It was sort of
glowing. I saw it until we got home. I never saw
the moon and the object at the same time. We got home
close to 11 PM 25-2-78. The sky was clear with
lots of Northern lights.

RE: OBJET:	Timothy KENNEY - Compl. of Dr. I. Halliday Wiltondale, Nfld. 3 FEB 78 H.I.A.	FILE 4712-71
		ENCL. #116
		DIR TO
		INDEXED BY OR
		MAIN FILE CHARGED TO -

3 FEB 78

1. At approx. 11:00PM on this date a call was received from Mrs. KENNEY of Wiltondale, Nfld. She advised that her son had seen a large white light in the sky in the Wiltondale area and a large explosion had followed.

2. An immediate patrol was made to the area by Cst. K.W. PAYNE and he spoke to Timothy KENNEY and Daniel CRITCH. Both boys were in Wiltondale and saw the sky light up. CRITCH was seated facing north and only saw the light from the object. KENNEY was looking toward the south-west and noted that the sky lit up and he saw a large object as big as "a volkswagon". It was white and trailing bluish flame. He felt that it was falling straight down and it disappeared behind the hills south of his position. According to KENNEY a large explosion followed about two minutes later. CRITCH states there were, he felt two explosions. The boys were accompanied by a very young child who could offer nothing. Statements were obtained from the boys and are attached.

3. A further call was received stating that two boys from Birchy Head had seen the fireball.

4 FEB 78

4. The two boys at Birchy Head were contacted by Cst. PAYNE and statements were obtained. The statements are attached. One of the boys Randy MOORES (who was accompanied by Larry PARSONS) stated that he was by Pike's Garage in Birchy Head and was looking south when he noticed that the whole sky was light. He noted a fireball trailing blue fire behind it. The other boy saw the same thing.

5. A message containing the above information was forwarded to the National Research Council. I also contacted the local representative of the N.R.C., Prof. R.H. MacNEILL of Wolfville, N.S. and advised him of the foregoing.

6. On the suggestion of Prof. MacNEILL, I contacted the local radio stations with a request that if anyone had any information on or had sighted the fireball they should contact this office. No calls were received.

7. The staff of the Gros Morne National Park at Rocky Harbour were notified and they advised that they had a helicopter doing some wild-life work in that area and would keep this matter in mind as they patrolled.

7. Cont'd.

This information was also passed along to S-Cst. SMITH, Pilot of the R.C.M.P. Helicopter at Corner Brook. He stated that during any trips over this area he would bear the sighting in mind and would advise us if anything was learned.

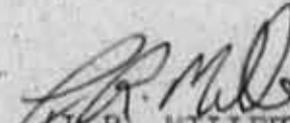

20 FEB 78

8. I have again contacted the Park People and they advised that their Wild-life patrols have failed to locate any evidence of the fire-ball. A Mr. ANDERSON, Pilot with SEALAND Helicopters stated that he had been doing Mineral Surveys in the area and was aware of the sighting but saw nothing to indicate it had reached the earth. S-Cst. SMITH also had nothing to offer although he had been over the area a number of times since.

INVESTIGATOR'S COMMENTS:

9. From the investigation carried out and from the statements of witnesses, it appears that the fire-ball was travelling in a southerly direction. The witnesses who were East-West from each other state the ball disappeared behind the hills south of them and appeared to be falling straight down. No one could give an exact size but they felt that it may be as big as a car or truck. It lit up the surrounding area. A large explosion followed. A search of the area by helicopter failed to locate any evidence that the fireball had reached earth. This will be kept in mind during the coming spring and if any evidence is located, a further report will be submitted. Members of the R.C.M.P. stationed at Deer Lake and Corner Brook state they noted that the sky lit up about 10:00PM in the area toward Rocky Harbour, but they saw nothing specific. Copies of this report are being directed to Prof. MacNEILL and The N.R.C. in Ottawa. Prof. MacNEILL may note that copies of his form on sightings were forwarded to the witnesses with a request that they be completed and returned direct to him. No further witnesses have been located and nothing of value on the incident has been learned since and we are considering this file as hereunder noted.

CONCLUDED HERE

4 FEB 78

STATEMENT OF Randy Frederick MOORES (B: 12 MAY 62)
Shoal Brook, Nfld.

Last night around 10:00PM, I was standing in the Parking lot of Pike's Garage in Birchy Head. It was a clear night with stars in the sky and I don't think there was a moon. All I saw was a flash of light and it lit up the whole community just like a big light come on. It lasted for a split second. I seen what looked like a big ball of fire about the size of a car, anyway it was bigger than a full moon and it was fire color, red, orange or whatever color fire is. It shot across the sky and went down over what seemed like the table mountains. It disappeared and after about a minute, I heard what sounded like a clap of thunder. I never saw anything after that.

WIT: K.W. PAYNE, Cst.

STATEMENT OF Timothy KENNEY (B: 23 NOV 63)
Wiltondale, Nfld

Wiltondale, Nfld
4 FEB 78.

At exactly 10:30PM on 3 FEB 78, I was on a small hill across the road from where I live in Wiltondale, Nfld. Danny CRITCH and Louise WILTON were with me. All of a sudden the sky above Wiltondale came bright so I looked up and saw a big white light with blue flames behind it. I don't know how big it was but it was really big. It just shot across the sky for only two or three seconds. Well it never shot across the sky, it just looked like it fell straight down around Woody Point, that way. The bright light just disappeared over the hills and about two minutes after that, I heard a big boom. I looked toward the sound but never saw anything. When I saw the light it wasn't snowing out doors at all. The sky was full of stars and it was a clear night. When the light started to come down it looked about the size of a volkswagon. There was no moon out because it looked like there was clouds covering the moon. The light lit up all the hills toward Woody Point and even lit up Wiltondale right bright."

WIT: Cst. K.W. PAYNE

3 FEB 78

STATEMENT OF Daniel CRITCH (B: 6 ARP 58)
Wiltondale, Nfld.

"At about 10:30PM or a few minutes to eleven tonite, I was across the road in Wiltondale, with Timothy KENNY and Louise WILTON. I was sitting on my ski-doo and Tim was standing in sort of front of me looking toward Woody Point, that way. All of a sudden the sky got right white and bright and then all of a sudden everything got right light for a few seconds, like someone was standing over me with a big light. This lasted for a few seconds and then the brightness was just gone. About 4. or 5 minutes later, I heard a couple of explosions, there was two anyway. There was one and then a couple of seconds later there was another explosion. The sound was something like thunder, it wasn't a rumble, it was an explosion. I never saw what it was, I was sitting back on to it. The explosion came from over the hills toward Woody Point, Lomond area. I don't think it was snowing at the time, if it was it was very light fine snow. The stars were out in the sky, I never saw no moon. I never seen everything get so bright so quick before."

STATEMENT OF Larry George PARSONS (B: 15 DEC 62)
Curzon Village, Woody Point, Nfld.

"Last night about 10:00PM, I was standing in the Parking Lot of Pike's Garage at Birchy Head with Randy MOORES. I happened to look up in the sky and I seen a big ball of fire light and bluish color and behind was blue streaks of fire and a nice long streak it was. The whole sky lit up for about 10 seconds and then it disappeared behind Crow Cliff and out around Table Mountains. It, the white ball appeared to be about the size of two Tandem trucks put together. It just came down straight. After it disappeared I heard a loud bang like a clap of thunder, a couple seconds later. It was round in shape. I never saw anything like it before. It was a clear nice night. I didn't notice if the stars were out, there was no moon. It was snowing a bit sometimes."

Brian David PEVERIL
U.F.O. Sighting.
Mt. Uniacke, Hants Co., N.S. - 2 FEB 78

4712-5
a. Claude
N78/64

- At approximately 11:15 P.M., A.S.T., on February 2, 1978, Brian David PEVERIL, (BD: 2 FEB 52), of Falmouth, Hants Co., N.S., claims to have seen an Unidentified Flying Object. The sky was clear at the time as the captionally noted was driving along the #101 Highway, approximately two miles west of Mt. Uniacke. No other persons can be located who may have seen this, but PEVERIL advises that there was another vehicle driving in front of him, the driver of which must have seen the same thing. He describes it as being a three-part object, connected with small wing-like attachments. It had a bright yellow or white light to the front of each section and a small red flashing light on the bottom. It was not moving and did not emit a sound. He drove under it as it hovered over the highway and as he continued to drive on, lost sight of the object. He saw the object for approximately five minutes from beginning until end. He contacted the control tower at the Halifax International Airport later and found that nothing unusual showed up to them.
- It might be noted that the area where this was seen is the flight path for several flights into Halifax International Airport, and it is hard to say what he saw.
- PEVERIL is a good living person who is never known to drink, and it is not thought that he would fabricate a story such as this. He does not know what he saw, but feels it was unusual and extraordinary.

CONCLUDED HERE.

He describes it as being a three-part object, connected with small wing-like attachments. It had a bright yellow or white light to the front of each section and a small red flashing light on the bottom. It was not moving and did not emit a sound. He drove under it as it hovered over the highway and as he continued to drive on, lost sight of the object. He saw the object for approximately five minutes from beginning until end. He contacted the control tower at the Halifax International Airport later and found that nothing unusual showed up to them.

2. It might be noted that the area where this was seen is the flight path for several flights into Halifax International Airport, and it is hard to say what he saw.

3. PEVERIL is a good living person who is never known to drink, and it is not thought that he would fabricate a story such as this. He does not know what he saw, but feels it was unusual and extraordinary.

CONCLUDED HERE.

RE: - OBJET:

Brian David PEVERIL
U.F.O. Sighting
Mt. Uniacke, Hants Co., N.S. - 2 FEB 78

1. At approximately 11:15 P.M., A.S.T., on February 2, 1978, Brian David PEVERIL, (BD: 2 FEB 52), of Falmouth, Hants Co., N.S., claims to have seen an Unidentified Flying Object. The sky was clear at the time as the captionally noted was driving along the #101 Highway, approximately two miles west of Mt. Uniacke. No other persons can be located who may have seen this, but PEVERIL advises that there was another vehicle driving in front of him, the driver of which must have seen the same thing. He describes it as being a three-part object, connected with small wing-like attachments. It had a bright yellow or white light to the front of each section and a small red flashing light on the bottom. It was not moving and did not emit a sound. He drove under it as it hovered over the highway and as he continued to drive on, lost sight of the object. He saw the object for approximately five minutes from beginning until end. He contacted the control tower at the Halifax International Airport later and found that nothing unusual showed up to them.

2. It might be noted that the area where this was seen is the flight path for several flights into Halifax International Airport, and it is hard to say what he saw.

3. PEVERIL is a good living person who is never known to drink, and it is not thought that he would fabricate a story such as this. He does not know what he saw, but feels it was unusual and extraordinary.

CONCLUDED HERE.

Ottawa, Ontario
March 10, 1978

Dear Sir/Madam:

This account is being mailed to you for your interest as well as in hope that you will reply to Mrs. Butler at your convenience.

Upon further conversation by phone, my aunt informed me that she had inquired at the Saint John Airport and that no planes other than regular scheduled ones had landed. She jokingly adds that most Saint Johners never look at the sky as they are usually too busy watching their feet, pot holes, icy patches, etc. Please reply to her at the address on the attached account.

Thank you,

Shaun Bona

The following is factual account of what I saw through my windows (sliding glass door) on Wednesday, February 22, 1978 at seven-forty a.m. (7:40 a.m.) with even the thoughts that entered my head at the time.

The sun was shining and there was not a cloud in the sky.

Was sitting in my chair at the end of the table (you know Shaun where I always sit) I had just turned my radio off about 7:20 - had been listening to station C.B.D. in Fredericton from 5:30 a.m. and decide it was nearly time to turn on T.V. at 8:00 a.m. to watch Canada A.M. program on Ch. 9, when my attention was drawn to bright flickering lights (like huge diamonds) in the sky advancing from the west. (my window faces directly north)

I was spell bound by the lights and remember "telling myself" to take my eyes from the lights and focus on what was ahead of them. I saw a huge, rather sharp-nosed plane, non reflective and steel grey in color. It reminded me somewhat of the pictures of the missiles launched into orbit (excessively long-compared to rear section). My eyes returned to the lights which continued across my line of vision in an easterly direction (this side of St. Pius X Church and in front of the two Hydro power poles - my own points of reference) By this time I was getting only a rear view of the lights and moved to the window to watch them out of sight when all of a sudden it was like a huge brilliant search light had been turned on in the centre and from which a huge streamers of light went in all directions - reaching back almost to the Church. When I first saw this huge oval of light and the ever increasing brilliant rays the thought went through my mind (they are using revolving mirrors - or glass reflectors)!

By this time the light was so intense that I had to close my eyes for fear of being blinded.

There were no other colored lights visible to me at any time just the pure had white.

This "super" structure followed the same path as other planes towards the Saint John Airport.

The entry and passage of this plane was a completely silent one.

Only had the one brief look at the plane (watching the lights plane not visible, as when I was eyeing plane not conscious of being aware of lights)

.../2

One other peculiar thing about the "sighting" when I first noticed the bright sparkling lights they seemed quite near and low down but when I shifted my eyes to the plane itself it seemed far away and quite high up. I haven't an iota of relative speed or height but I should imagine it was travelling pretty fast and the whole weird experience only lasted a couple of minutes.

My own conclusions:-

- 1) Definitely a man made plane - launched somewhere on the earth (or outer space) from platform but under complete control by earthlings.
- 2) A reconnaissance plane (hopefully designed in Canada or the United States)
- 3) Under grey skies or at night would probably be invisible
- 4) Still "dying" of curiosity to know the identity of this giant.

Mrs. Teresa Butler

RE: U.F.O. SIGHTING

- (1) DATE AND TIME OF SIGHTING - 10:30 P.M. 16 MAR 78.
- (2) CONDITION OF SKY - CLEAR: 17 MAY 02:30
- (3) IDENTITY OF OBSERVERS (1) GREGORY ANDREW SLAUNWHITE
DOB: 21 JUN 59. TERRANCE BAY, HALIFAX CO N.S. PH: 852-2837
(2) ANNE SLAUNWHITE, DOB: 28 FEB 62 TERRANCE BAY, HALIFAX CO, N.S.
PH: 852-3752 (3) SHERRI WESTLAKE, DOB: 15 DEC 62, WHITES LAKE, HALIFA
CO. N.S. PH: 852-3116
- (4) LOCATION OF OBSERVERS AT TIME OF SIGHTING - THE OBSERVERS
WERE STANDING ON THE MAIN ROAD IN TERRANCE BAY. THE U.F.O.S WERE
ABOVE THE WATER (OCEAN INLET) AT ALL TIMES DURING THE SIGHTING AND
THE DISTANCE THE SIGHTERS WERE FROM THE OBJECTS IS UNKNOWN
- (5) DESCRIPTION OF SIGHTING: TWO OBJECTS CIRCULAR IN SHAPE, ONE
OBJECT APPROX 30 FEET IN DIAMETER, THE OTHER SLIGHTLY SMALLER.
BOTH WERE BRIGHT ORANGE IN COLOR, APPROX 150 FEET ABOVE THE WATER
AND MOVED AT TREMENDOUS SPEED. ALL THREE OBSERVERS STATED THAT
WHEN THEY FIRST SAW THE OBJECTS THEY APPEARED TO BE SMALL DOTS
ON THE HORIZON AND IN THE MATTER OF 10 SECONDS THEY WERE VERY
CLOSE, AND DISAPPEARED AT THE SAME PACE.
- (6) DURATION OF OBSERVATION: APPROX ONE MINUTE.
- (7) OTHER INFORMATION: BOTH OBJECTS MOVED AT THE SAME PACE,
STOPPED AT THE SAME TIME, AND DISAPPEARED AT THE SAME PACE. THERE
WAS NO NOISE REPORTED.
- (8) ALL THREE SIGHTERS ARE OF UNKNOWN RELIABILITY. A JOINT
STATEMENT WAS TAKEN FROM THEM AND THEY APPEAR TO BE LEVEL HEADED
SINCERE PERSONS.

	DETACHMENT - DÉTACHEMENT	NEWCASTLE	

RE - OBJET:

Lieutenant AUSTIN - Canadian Forces Base, Chatham, N.B.
- Sighting of U.F.O.

28 MAR 78

1. At approximately 11:05 P.M. this date, a call was received from XJD-82 asking a Member to call the complainant. I was advised by AUSTIN that he had received two complaints around 8:00 P.M. regarding the sighting of Unidentified Flying Objects.

1. Mrs. Mary DANCE of R.R. 2 Douglastown, N.B. was travelling East on Highway 11 around Bartibog Bridge area when she noticed in the sky two balls of fire, which crashed not too far from the road.
2. Mrs. Bernard SAVAGE of Russellville Road, N.B. noticed a similar incident with her husband from their house.

2. An immediate patrol was made to the areas for possible tracks of the object but they couldn't be seen from the road. I patrolled to the Base, contacted Lieutenant AUSTIN and was advised that he was in bed and that someone would contact me in the morning for possible helicopter trip over this area.

03 APR 78

3. After receiving no news from anyone from the Air Force Base, I patrolled over to see the witnesses and took statements from them.

4. Mrs. SAVAGE of Russellville Road stated that the object she saw was about the size of an Airplane cockpit, was on fire and had a tail on it. Apparently the unknown object was seen for approximately a minute and fell not too far away in the woods near a field. Mrs. SAVAGE advised that a Mrs. Vitaline SAVOIE from Russellville Road had seen the U.F.O. as well. Mrs. SAVOIE didn't report same because she thought that people would laugh at her.

5. Mrs. SAVOIE advised that on 26 MAR 78 around 8:00 P.M.

- CONTINUED ON PAGE TWO -

RE - OBJET

PAGE

"2"

Lieutenant AUSTIN -

CONTINUED FROM PAGE ONE

..... AROUND 8:00 P.M. she saw a bright light in the sky which appeared to be like a red light on fire.

6. A statement was also taken from Mrs. Mary DANCE and I was advised by her that while travelling on Highway 11, on 26 MAR 78, with her son, they noticed a ball of fire falling down from the sky. A few seconds after, a second object was seen and appeared to be a little bit bigger. The two objects fell near the road but no light or flames could be seen from the road. Mrs. DANCE waited at the scene for a few moments but no signs of other objects were noticed.

04 APR 78

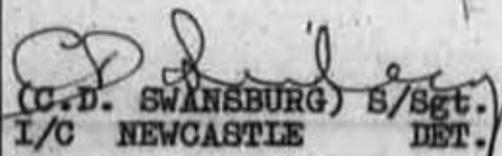

7. On this date, I patrolled to the areas in question with Jim McKINNON of the Forestry Department and conducted a ski-doo patrol for over five (5) hours to look over the area but couldn't locate the point of impact.

8. While talking with the people in both areas, it was noticed that more than 15 people had seen the objects but on different dates.

9. The above has been reported in compliance with existing instructions and for information purposes. No further action will be taken from this point at this time. Statements attached.

CONCLUDED HERE:

(J. HARRISON) 32260. Cst.
Newcastle Det.

(C.D. SWANSBURG) S/Sgt.
I/C NEWCASTLE DET.

Thurston, NB

10.05 PM 3 April 78

Statement of Mrs Mary Dence of RR 2 Douglaston
taken on Thurston.

On Tuesday evening March 28th 1978 at 8 P.M. we were on hwy 11 going towards Miramichi when out of the blue between Cyster Run & Dactelope we saw a ball of fire coming from North to South which started out about the size of a baseball & the closer it came the bigger it got & it crossed the road. I thought it was a helicopter on fire we stopped the car to listen for sound but heard nothing. We got in the car & started again when another ball of fire bigger than the first one came in the same direction & followed out the same way in almost the same place these balls of fire seemed to be travelling at a great speed. The last ball of fire seemed to have a fungus around it similar to a vapour chum.

Q: What was the size of the first object you saw?

A: A size of a helicopter on fire.

Q: How far this first object fell from the road?

A: Twenty feet and disappeared behind the trees.

Mary Dence

Lee Turner

Q: What was the size of that second object?

A: Bigger than the first one, with flames around

Q: Where did the second fall compare to the first one?

A: About five cars long up the road at approx the same distance off the road

Q: What do you think those objects were?

A: Meteors but that was a big one. The old folks in Niagara called that 'Fall Air'

Q: Did you see anything after the object fell?

A: The last motion we took off the sky behind us seemed to be bright. One big strip of light in the sky.

Q: How far from the object fell from the Quater River?

A: About 1 mile or two miles

Mary Dancer

Tom Dancer

Ostau River
3 April 75 12.55 PM

Declaration de Mme. Emile Bernard de Ostau River NB
773-4758 (P)

Demanche le 26 Mars 75. vers 9.00 du soir. mon mari
m'a parlé un peu devant que le champ étoit tout éclairé
moi j'ai pensé que la couverture de la maison étoit en feu
lui a été son bras pas à terre pas en sa. J'ai vu
de feu de chambre de la chambre à coucher j'ai vu
une grosse boule de feu comme un arbrun qui s'échappait
mais à l'instant pas ça. C'étoit peut-être une louve
en amère à mesure que l'objet s'éloignait. Mon mari
est sorti et à vu que c'étoit de la grosseur d'une étoile

Q. Combien de temps avez-vous vu l'objet?

A. A peu près 3 à 4 minutes.

Q. A quel altitude, a passé l'objet?

A. C'étoit pas haut.

Q. Quel grosseur aviez-vous l'objet?

A. Plus gros que la lune. presque le grosseur d'un ballon
de plage

Q. De quel direction est allé l'objet?

A. Direction Nord-Ouest

Emile Bernard

Q: Où est-ce que l'objet se trouve ?

A: Mère, mon père et les deux enfants, André, Pauline
ma mère.

Q: Où est-ce que vous pensez que c'est ?

A: U.F.O

Q: Est-ce que l'objet est à la même altitude ou
est-ce qu'il tombe ?

A: Pour moi l'objet est allé s'élever vers le bois.

Q: À quel endroit est l'objet ?

A: Comme d'habitude

Emeline Giguère

Jean Giguère

Russellville Road
3 April 75 11.15 AM

Statement of Mrs Stella Savage of Russellville Rd.

On Tuesday night the 28 March 75 at approx 8.15 PM my husband was on the kitchen and just happened to look out the front window and there was a big light on the sky. My husband called me and I thought that there was the light moon but was too bright for that. We just watch until it disappeared. There was a trail on it, the way of an airplane's path but no noise from it.

Q: For how long did you see that object?

A: About a minute or so.

Q: Where did it fall down?

A: Across from the house in Johnson's old field.

Q: Is that object went up after?

A: No. There was no more after.

Q: Did you see any light from the spot when the object fell?

A: No. It disappeared.

Q: Do you believe that it was a U.F.O or meteorite?

A: It's hard to say.

Stella Savage.

Leon Johnson Est

Russellville Road
3 April 78, 11.45 A.M.

Déclaration de Mme Vitelme Savoir de Russellville Rd.
773-4663

Dimanche le 26 ^{Mars} ~~Avril~~ 78, vers 7.00 du soir, l'homme
de la maison, a vu une lumière rouge dans les nu-
es à son aller vers le bois, la lumière a passé au
dessus de la maison et s'est dirigée vers le sud à grande
vitesse sans bruit.

Cette lumière a éclairé tout le 'cours' et le chemin.

Q: Que étiez-vous à la maison quand vous avez vu la lumière?

A: Le Grand et femme, les 6 enfants, Linda Perrin
et moi.

Q: Qu'est-ce que vous pensez que c'était?

A: une boule rouge en feu.

Q: Combien de temps l'avez-vous vue?

A: 3-4 minutes max.

Jim Harrison

UFO sighting

Mlle Guylaine Raby (+ 5 autres personnes)
Hull, Qué.

N78/79

29 mars 78 à 8⁴⁵ - 8¹⁵ p.m.

Lieu : 3 mi N. Buckingham, Qué.
à la campagne

Déscr. : 4 sphères rouges très lumineuses une au dessus de l'autre
de la grosseur de la lune pleine (?), clignotaient (!!).
des sphères étaient situées au ras du sol dans l'axe
de la queue de la grande ourse -
Aucun bruit.

30 min.

Received by AUC at
home on April 1, 78 (??)

Note: I know personally the observer, she has a certain
knowledge of astronomy as an amateur & interest in
photo of constellation - Near that location, there is a
small airport - Since I know ^{all these} persons, I am sure to
think it is a 1st April joke -

RE: REPORTED UFO SIGHTING - NEAR PRINCE GEORGE, BC
06APR78

N78/083

Apr 7, 03:30

VIKI BURNS OF BERGMAN ROAD APPROXIMATELY FIFTEEN MILES EAST OF PR
GEORGE BC REPORTS UFO SIGHTING AT APPROX 1945HRS ON 06APR78.
BURNS WAS AT RESIDENCE WITH SEVERAL OTHER PERSONS RAYMOND AND ALICE
MILLER, WAYNE AND LENORE LOFTUS, AND JEAN ANDERSON ALL OF PRINCE
GEORGE. SKY WAS CLEAR AT THE TIME. OBJECT WAS QUITE HIGH IN SKY
OVAL IN SHAPE, CHANGED GRADUALLY IN COLOUR FROM RED TO BLUE
THERE WAS NO DEFINITE FLIGHT PATTERN.

-8-

VISIBLE FOR APPROX THREE HOURS. BURNS FURTHER STATES THAT A BEAM
OF WHITE LIGHT PRESUMEABLY FROM UFO PASSED INTO THEIR HORSE STABLE
AND SEVERELY DISRUPTED ANIMALS TO POINT OF EXHAUSTION AND REQUIRING
ATTENTION OF VETERINARIAN

FROM FURTHER ENQUIRIES CONDUCTED IT WAS ASCERTAINED THAT ADDITIONAL
PERSONS KENNETH AND CINDY STEPHENS, GEORGE SEVIGNY, GUS STREIBEL,
AND LEO AND MARLENE SELZER ALSO OBSERVED SAME OR SIMILIAN OBJECT
ABOUT SAME TIME FROM ADDRESS 4278 HART HIGHWAY PRINCE GEORGE
THEY STATE OBJECT WAS DISC-SH03, MOVED FROM EAST TO WEST APPEARED
RED ON SIDES AND ORANGE ON BOTTOM. STEPHENS APPARENTLY REPORTED
INCIDENT TO CFB BALDY HUGHES. BURNS DID NOT CONTACT POLICE UNTIL
THE 10APR78. FURTHER REPORT TO FOLLOW
PRINCE GEORGE DETACHMENT RCMP

DETAILED REPORT MENTIONED REF A PARA H. 6. FOLLOWS IN FORMAT OF REF B
UNABLE TO DETERMINE IF ERROR MADE IN DAY OR IF SEPARATE INCIDENT
FROM REPORT REF A

(A) DATE/TIME THURSDAY APRIL 6 AT 7:30 - 7:45 LOCAL

(B) SKY CONDITION - CLEAR

(C) NAME OF OBSERVER: MRS VICKI BURNS RR6 DEPPELL RD PRINCE GEORGE

B.C. TELEPHONE 562-3797

Apr 7, 08:30

PAGE 2 RCCVC 1504 UNCLAS

(D) LOCATION OF OBSERVER: NEAR BARN OF HER PROPERTY

(E) NAMES OF THE WITNESSES: WAYNE LOFTUS, JEAN ANDERSON, RAE MILLER,
ALICE MILLER

(F) DESCRIPTION: ROUND BEAM OF WHITE LIGHT APPROX 2 INCHES IN
DIAMETER WITH NO SIDE REFRACTION-(LIKE A SOLID BAR OF WHITE MATTER)
APPEARED TO COME DOWN FROM TREES AND BEND INWARDS THROUGH BARN DOOR
OVER WITNESSES SHOULDER. (MRS BURNS WAS ALONG WHEN THE BEAM OF
LIGHT WAS SEEN)

(G) DURATION: APPROX: 5 SECONDS

(H) OTHER RELEVANT INFORMATION: AFTER LIGHT BEAM WAS SEEN TO ENTER
THROUGH THE BARN SHE (MRS BURNS) WAS STARTLED BY THE LONG SCREAMING
OF HER HORSES WHICH WERE INSIDE. SHE NEVER IN ALL HER LIFE HAD HEARD
ANY HORSE LET OUT SUCH TYPE OF NOISE. IT WAS VERY FRIGHTENING
-SHE ENTERED THE BARN AND FOUND THE FOLLOWING: ONE OF THE YOUNGER
HORSES WAS DOWN ON THE STALL FLOOR IN A KNEELING POSITION WITH BOTH
HIND LEGS ENTRAPPED THROUGH THE PLYWOOD SIDING OF THE STALL. IN THE
NEXT STALL ANOTHER HORSE WAS DOWN AND WAS FOUND TO BE UNCONSCIOUS.
ON EXAMINATION SHE DISCOVERED 2 UNEXPLAINED BARE PATCHES LIKE ALL THE
HAIR HAD BEEN TORN OUT OR BURNED OFF. A THIRD HORSE WAS ATTEMPTING
TO GET AWAY FROM ITS STALL AND FINALLY LITERALLY TORE LOOSE AND WENT

PAGE 3 RCCVC 1504 UNCLAS

CHARGING AROUND THE BARN AS THOUGH SCARED TO DEATH. FINALLY
SUBDUED ITBUT IT WOULD NOT SETTLE DOWN ENTIRELY. VETS CALLED. DR
LAYNE BIXBY, DR JOE MCKEE. THEIR COMMENTS TO MRS BURNS -
QUOTE COULDN'T BELIEVE THEIR CONDITION UNQUOTE THEY APPEARED STUNNED.
IN SHOCK. ONE LISTLESS - NOT AT ALL SPIRITED (AS THEY NORMALLY WERE).
THE ONE THAT WAS GONE UNCONSCIOUS WOULD NOT ENTER ITS STALL AGAIN.
TODAY (TUES 11TH APRIL) THEY APPEAR TO BE STILL NOT FULLY RECOVERED
LATER SAME EVENING MRS BURNS WITH WITNESSES OBSERVED A ROUND
MISTY YELLOW LIGHT IN THE SKY COMING IN FROM THE NORTH AT WHAT
APPEARED TO BE A NORMAL AIRPLANE ALTITUDE. IT HOVERED, TURNED LIGHTS
OFF AND ON, WENT UP AND DOWN, BACKWARDS AND SIDEWARDS. NO SOUND
AT ALL WAS HEARD. TIME APPROX 9 PM. DURATION OF SIGHTING APPROX 3
HRS (IE 9 - 11 30/1145 PM)

IT FINALLY DISAPPEARED TO THE SOUTH. ALL THE WITNESSES THAT WERE
PRESENT SEEN THIS OBJECT

A MRS KEN STEVENS EQUIPPED WITH A GEIGER COUNTER (BORROWED FROM
COLLEGE) ARRIVED AND A READING OF .05 WAS TAKEN IN THE STALL WHERE
THE UNCONSCIOUS HORSE WAS STALLED

NOTE : 3 OTHER HORSES IN THE BARN (OPPOSITE SIDE) WERE NOT
AFFECTED OR FRIGHTENED AT ALL

RE - OBJET: U.F.O. Sighting - Castleman Road
Chilliwack, B.C. 6 APR. 78
CHILLIWACK TOWNSHIP DETACHMENT CASE (ORG.)

6 APR. 78

- At approx. 2150 hrs., Eddy SMITH of 49750 Castleman Road, Chilliwack, B.C. called this office stating that a large object with lights and two smaller objects are hovering above his house.
- Cst. NITNIKOWSKI was dispatched to the SMITH residence with Cst. D. HARRISON and A/Cst. HALLIDAY arriving soon after.
- Once at the residence, Mr. SMITH came running frantically to the roadway where Cst. NITNIKOWSKI was. He informed that an object with the colors green and red (colors flashing) was seen just west of his home. The object would stand still and then dart side to side and move up and down. Mr. SMITH apparently had been watching this object for approx. two hours. When Mr. SMITH pointed the object out to Cst. NITNIKOWSKI it was in a north west direction and extremely far away. The object did move as it had to be viewed in a different location after approximately fifteen minutes.

7 APR. 78

- At approx. 1600 hrs. Cst. NITNIKOWSKI attended at the SMITH residence where Beverly SMITH (B. 1 JAN. 41) was interviewed.
- Through interviewing her, it was learned that approx. 2030 hrs. she seen an object west of her residence. This object was stationary and had red and green lights. Because of these lights, she felt it was an airplane. Approx. half hour later she noticed the object moving further away in a north west direction. She stated that when the object was first seen it was above three evergreen trees approx. 1/4 mile west of her house. Because it was stationary, she noticed it wasn't an airplane. When the object was still above the three trees, the family went outside. No noise was heard. Only three lights were seen being red, green, orange-yellow. Mrs. SMITH also informed that her neighbour was watching the object with a pair of binoculars.
- Persons who noticed the object at the SMITH residence were:
 - Bonnie SMITH, age 12
 - Nancy SMITH, age 13
 - Bobby SMITH, age 10
 - Cindy SMITH, age 14
 - Peter SMITH, age 8
 - Eddy SMITH, age 16
 - Edward William SMITH (B. 25-9-27) father & husband.
 - Beverly SMITH - mother & wife.
- At approx. 1615 hrs. Cst. NITNIKOWSKI attended at 49709 Castleman Road where Peter VAN SAARS (B. 13 JAN. 60) was interviewed.

cont. on page two.....

RE - OBJET:

PAGE

U.F.O. Sighting - Castleman Road

Two

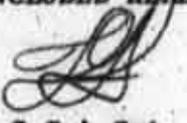

CONTINUED FROM PAGE ONE

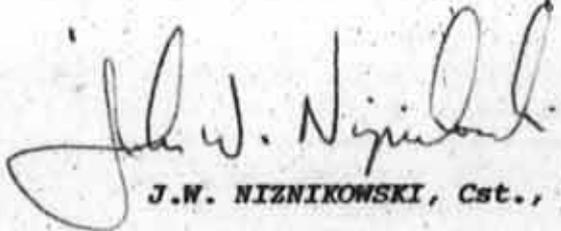

8. Being interviewed he stated that approx. 2130 hrs., 6 APR. 78 he noticed an object above the same three trees that Mrs. SMITH had mentioned. When the object was seen by VAN SAANE he noticed the colors red, green, orange and blue changing on the object. He looked through a pair of binoculars, but only seen what he had seen with the naked eye. No 'frame' was seen around these lights. Peter watched this object for approx. half hour noticing the object didn't move. He also heard no noise.

9. Our office has no explanation for this object to date.

10. No further investigation will be done through this office.

CONCLUDED HERE:

(F.G.S.) Sgt.,
for i/c Detachment AOL

J.W. NIZNIKOWSKI, Cst., #32988

RE - OBJET:

PAGE

16 APR. 78
9:35 am.

This is the statement of Edward William SMITH (B. 25 SEPT. 27) of 49750 Castleman Road, Rosedale, B.C.

On the evening of April the 6th around the hour of eight thirty, while getting ready for bed my wife, myself noticed the tremendous odor of burning wax throughout the house. When going outside I noticed the same. Just prior to going to bed I looked out my kitchen window noticed two flashing lights red and green passing directly overtop my house travelling in a westerly direction blinking on and off very rapidly. Much faster than a normal airplane. At the time I thought it was an airplane but it suddenly dawned on me that I didn't hear no engine. It continued travelling in a north westerly direction and suddenly made a stop at which my wife and I watched it for an hour and a half prior to calling the police. While it was in a stopped position it had the same appearance as a star. Then it had the same effect as someone using an electric welder which gave off a red, green, orange and varying colors. Now when this occurred the object would either move up or to the right or to the left, for a very short distance. It wouldn't move very far at this particular time. My wife told me it was appearing to move in a north, north west direction. At this time I took a bearing of a tree and over a period of five minutes it had moved a quite a distance, being about thirty-five degrees to the north. Then my boy went outside to the neighbours where I later followed and where we were standing in my neighbours yard watching it flashing. It was at this time I noticed which appeared to be like a shooting star leaving a long white tracer behind it going through the sky right above our house, which we classified as a meteorite. Minutes later we noticed another bright object in the sky travelling very very slow up amongs the stars moving in the same direction. We also noticed three round circles which appeared to be like stars sitting side by side to each other. Now by this time the police arrived. At this time the glowing object had moved quite a distance to the north and was observed by the investigating police officer. After the police officers had left the glowing object disappeared in a northerly direction. At this time the three glowing objects sitting side by side also disappeared as if someone had turned off three lights bulbs. It was a very clear night and no clouds were in the sky. In the area in which the glowing object was there were stars surrounding it or around it, except for the three that sat beside it. Later we had noticed which could've been a helicopter, that was up flying around in the same vicinity. This took place when the objects were no longer noticable in the sky. Which also had a flashing red light, but being a very different bright red and flashing like a light on a airplane. It was travelling much faster, circling in the same area these objects were located.

Witnessed: Cst. J. W. NIZNIKOWSKI, sgd.
Chilliwhack Township Detachment RCMP
9:58 a.m.

sgd. E. SMITH

RE - OBJET

PAGE

This is the statement of Peter VAN SAANE (B. 13 JAN. 60) of 49709 Castleman Road, Chilliwack, B.C.

Me and me sister Elizabeth and Jack were watching the sky when we seen this thing up in the sky. I went to get my binoculars and I saw a dot in the sky which changed colours from blue, green, orange, red. It looked like airplane lights flickering but it stayed in same place.

sgd. Peter SAANE

Q: Roughly what time was this?

A: Nine thirty o'clock.

Q: When you looked through the binoculars what did you see?

A: Just a dot that was changing colors. That's all I seen. It was the same as looking with bare eyes.

Q: What do you think it was?

A: Don't ask me. I wouldn't know. At first we thought it was an airplane, but it stayed still.

Witness: Cst. John W. NIZNIKOWSKI, sgd.
Chilliwack Township Det., R.C.M.P..

sgd. P. Van Saane.
