RE: - OBJET: Vicki BURNS "et al" U.F.O. Sighting Nr. Prince George, B.C. 6 APR 78			

1. On the 10 APR 78, Mrs. BURNS contacted our office and advised that her horses had been struck by a beam of light from a U.F.O. and they were now receiving medical treatment from Dr. MCKEE. The U.F.O. had been sighted on the 6 APR 78, but Mrs. BURNS did not contact our office until the 10 APR 78.

2. A patrol was conducted to the BURNS farm, which is located approx. 10 miles west of Prince George. Mrs. BURNS was interviewed and her horses examined. She advised that at approx. 7:30 p.m. on the 6 APR 78, she had bedded down her horses and was returning to the house when a beam of light flashed by her and into the barn. She heard the horses scream and went directly back to them. The animals were very agitated and had to be calmed down. Mrs. BURNS then called some people to come and assist her with the horses. The following people came to the BURNS residence and assisted her. Ray and Alice MILLER, Otway Rd., 563-9626; Wayne and Lenore LOFTUS, Bergman Road, 562-3923; Jean ANDERSON, Bergman Road, 563-8717. They later viewed an object in the sky with BURNS.

3. On the evening of the sighting, Mrs. BURNS contacted the Radio Station and advised them of the sighting and the beam of light which had struck her horses. The Radio Station put a broadcast over the air and it was heard by Ken STEPHENS. STEPHENS apparently saw an object in the sky along with the following people. George SEVIGNY, Gus STRIEFEL, Cindy STEPHEN, Karen SEVIGNY.

4. On the 12 APR 78, I contacted Dr. MCKEE and questioned him regarding the horses. He stated that the horses were completely exhausted as the result of shock. The shock has affected their body functions. He could not explain what had caused their condition. Two spots on the neck of one of the horses was examined and he stated that it appeared to be ringworm. Dr. MCKEE has prescribed medication for the horses and they appear to be recovering. Two horses are being treated.

24 APR 78

5. As the result of Mrs. BURNS concern that there may be radiation present in the barn, I attended with Chief TRASK from C.F.B. Baldy Hughes, and he tested the barn. No radiation was detected.

6. On the 13 APR 78, C.F.B. Baldy Hughes was contacted and it was discovered that Ken STEPHENS had contacted the Base on the 6 APR 78 at 8:05 p.m. Cpl. DOIRON and Cpl. PERRIN were working at the time. They advised that nothing was detected on radar and they checked the sky and observed an object which appeared to be a star.

7. On the 14 APR 78, I contacted Dr. McNAMARA of the National Research Council and advised him of the circumstances. He was provided with the names of the people involved.

8. Statements have been obtained from all persons involved in the sighting and are attached. They are self-explanatory and elaborate in detail.

CONCLUDED HERE.

RE—OBJET

U.F.O. Sighting
6 APR 78

PAGE 1

Statement of Vicki BURNS (BD: 31 JUL 51), Bergman Road,
taken by Cst. J.N. HOLYK on the 13 APR 78.

"At approx. 7:30 - 7:45 p.m. on the 6 APR 78, I was leaving the barn located on my property, Bergman Rd., 10 miles west of Prince George. I had finished bedding down the animals for the night and was about to go back to the house. It was dark outside but there is a yard light located near our trailer. The sky was clear. I had just left the barn and was standing outside when I saw a beam of light which extended from a group of trees to the barn. It was approx. 2" in diameter. I saw the beam, heard the horses scream, so I immediately returned to the barn. I don't recall if the beam was still there. I attended to the horses.

The horse nearest the window in the barn in which the beam seemed to have gone through was down with front feet through a plywood wall. It was conscious and struggling to get out. He got up on his own power. When I had left the barn both horses had been standing. The horse in the next stall was laying on its side, and was motionless. While I stood there, the horse got up and it appeared frightened. After getting to its feet he immediately darted forwards into the screen surrounding the stall.

I checked the third stall and checked the mare, and attended to her.

I returned to the house and phoned Mrs. ANDERSON, my mother. She came to my house immediately and we looked up into the sky and saw a light which appeared to be round and misty. It was at plane level and appeared to have no set flight pattern and would dart from one spot to another. There were no bursts. It was white in color, no sounds, was travelling from North to South and was approx. $\frac{1}{2}$ the size of the moon, when it was closest to the ground and then smaller

. . . 2 . . .

U.F.O. Sighting
6 APR 78

Continued from c-237.

24 APR 78

It appeared to be at jet plane level at its lowest level and then higher. We phoned Mrs. Lenore LOFTUS, who owns one of the horses, to come over. She arrived with her husband and Mr. and Mrs. MILLER. Everyone, except Lenore, viewed the object at this time. It appeared to be farther away at this time and appeared to be a darting light. We watched the light for approx. one hour and went back into the barn. We were back and forth into the barn during this period of time. When I went into the house the light was still present. I never checked to see if the light was still in the sky after I had gone into the house. I had viewed the light for approx. 3 hours in total.

The following day, I checked the horses and found that they appeared dopy, uncoordinated and out of character. Upon checking the filly, I noted a circle on either side of its neck, which weren't present the previous day. I photographed the horse. The horses were put outside and in the afternoon, I noticed the filly fall down. I called the Vet. and Dr. McKEE came and checked the horses.

He told me that they seemed to be suffering from severe fright which caused a number of unrelated symptoms. He said that the circles were a form of ringworm. He left to consult with Dr. BIXBY. Dr. McKEE kept in touch and the horses didn't improve. On Monday the 10 APR 78, I called the Vet. again, and Dr. BIXBY prescribed some medicine. I then called the police and advised the occurrence. I didn't call them the night of the occurrence. I had called Baldy Hughes. My mother called the Radio Station.

The horses to date seem to be improving."

6 APR 78
Nr. Prince George, B.C.

PAGE

Statement of Ken STEPHENS (BD: 12 FEB 47) taken by Cst. J.N. HOLYK on the 15 APR 78.

"On the 6 APR 78 at approx. 8:00 p.m., I arrived at 4278 Hart Hwy., Prince George, B.C. from the hospital. As I was parking the Van, I noticed an object move across the sky from the East to the Southwest. The object stopped and appeared to descend. It appeared bluish white in color. After descending, the object's light went out for approx. 15 seconds and then flashing colored light appeared. The lights flashing were red on the ends of the object and orange on the bottom. I was viewing the object with my naked eye. It appeared to be approx. twice as high as a small aircraft flies. The sky was clear. There were no bursts and when first sighted the light was bright but then seemed to dim. After moving across the sky, it appeared to stay fairly stationary. The object appeared alot bigger than a star probably because of its elevation. No sound or fireballs were emitted.

I went into the house and told some people what I had seen. I then returned outside and set up a 7 X 50 power telescope. I viewed the object with the telescope. I saw a disc shaped object. It was orange on the bottom with flashing red lights on the side. It was fairly stationary. I viewed it for approx. 1 hour. While I was viewing the object, I phoned Baldy Hughes Radar Base and advised them of what I was observing. I called twice, the second time they stated they could see the object. The object then moved farther west until it disappeared behind the hill.

As the result of a Radio Broadcast, I drove to the Miworth area. The broadcast had stated that some people living in Miworth area had some horses struck with

. . . 2 . . .

6 APR 78
Prince George, B.C.

Continued from page 1 of C-237. 24 APR 78
a beam from a U.F.O. I drove to a residence and inquired.
It was the Ray MILLER residence. They apparently knew the
people that the horses belonged to. I told them what I had
seen so they took me over to the people's residence.

I spoke to the people there and looked at the horses and
left.

Approx. three days later, I attended at the
residence at Miworth with a geiger counter. I had been
given a brief lesson on its operation by Dr. FALKNER.
I checked the barn where the horses were located and got
what I thought was a small reading. I then returned to
Prince George."

RE—OBJET:

PAGE 1

U.F.O. Sighting
6 APR 78
Mr. Prince George, B.C.

Statement of Ray MILLER(BD: 9 MAY 35) taken by Cst. J.N. HOLYK on the 16 APR 78.

"On the 6 APR 78, I was visiting at Wayne and Lenore's residence. At approx. 8:00 p.m., Mrs. BURNS phoned and talked to Lenore. Lenore told us that Vicki BURNS had told her not to say anything about what had happened over there because we would think she was nuts. She did want some help with the horses. Lenore told us a little so we left and went to the BURNS residence.

When I got there, Vicki BURNS, Jean ANDERSON were there.

Vicki told us about a beam of light and this thing that was flying around up there. I went into the barn and found the horses in a highly agitated state.

The young gelding had been moved to a corner stall and was trying to climb over a 6' door. The mare was sweating, pounding around, she wouldn't settle down at all. We took those two horses out of the stalls and walked then around outside.

I went outside the barn and Mrs. ANDERSON said, "Look, there it is."

I looked up and saw, straight up above me and saw what appeared to be a satellite moving at a high rate of speed in a southern direction. It disappeared in about 5-6 seconds. The horses were put back in.

The satellite I saw was the same as a star, just a white light. It was about the same size as the stars in the area. It appeared that it may have been slightly lower but it was hard to tell. No sound was heard. It appeared to rise in elevation until I couldn't see it any more. Sky was clear. It appeared as bright as a star. No fireballs

1

Statement of Wayne LOFTUS(BD: 7 AUG 49) taken by Cst. J.N. HOLYK on the 16 APR 78.

"On the 6 APR 78, I was at my residence on Bergman Road, Miworth. At approx. 8:30 p.m., Vicki BURNS phoned and we went over to assist her with the horses. They were very upset (wild). I went inside the barn and assisted in trying to calm them down. I was in the barn for approx. twenty minutes and then I went outside. I was standing outside looking at the sky when I saw what appeared to be a white light. It was clear and the light was really high in the sky. It moved from the north to the southwest. It would appear and disappear as it was moving from the north to the southwest. I couldn't distinguish any shape, it was just a light. Nothing was emitted from it (fireballs).

I watched it for approx. 45 seconds or a minute. Then it disappeared in the southwest sky. It was about as bright as a star. The only reason I noticed it was because it was moving."

U.F.O. Sighting
Mr. Prince George, B.C. - 6 APR 78

Statement of George SEVIGNY (BD: 18 JUN 27) taken
by Cst. J.H. HOLYK, 14 APR 78

On the 6 APR 78, at approx. 8.00 PM, I was at my residence, 4278 Hart Highway. The following people were at my residence, Ken and Cindy STEPHENS, Gus STRIEBEL, Karen SEVIGNY and Ricky STEPHENS.

Ken was looking out his telescope and told us he saw a U.F.O. Ken had his telescope outside on a small table. I looked through the telescope and then through my rifle scope. The sky was clear, when I saw the object in the south-west. There appeared to be very little movement. I did see some when I looked at it through the telescope. It appeared to be the level of a jet plane. No sound was emitted. It was the same size as a 737 at 30 thousand feet. The shape appeared to be the same as putting two plates together. There were lights on the object. It appeared that red, blue and orange light(s) were on the object. The light flashed on and off fairly quickly and gave the impression they were revolving. I viewed the object for approx. 15 minutes and then went to bed. The body of the object glowed orange all the time and the flashing red and blue and amber lights flashed continuously.

RE—OBJET

PAGE 1

U.F.O. Sighting
Nr. Prince George, B.C. - 6 APR 78

Statement of Jean ANDERSON (BD: 14 FEB 23) taken
by Cst. J.N. HOLYK, 16 APR 78.

On the 6 APR 78, I was at home. At 8.00 PM, I received a phone call from Vicki BURNS. She told me that a light beam came from up in the trees and knocked the horses down.

I went over immediately. When I arrived, I went immediately to the barn (and) assisted in attempting to quiet the horses down. We were there for approx. 3/4 hour. We went into the house and phoned Lenore LOFTUS. We then went outside. We looked up and saw an object in the sky, almost directly above. The sky was clear. The object moved around very erratically in all directions. The object was off-white in colour and would brighten when it stopped moving. To me, it seemed to pulsate. It appeared to be the size of a small plane. It appeared oval in shape and when it stopped, it appeared round. It seemed to move around the sky, around us. We heard the horses raising a fuss so we went to see to them. We were tending to them when Lenore and Wayne LOFTUS, Ray and Alice MILLER came. I told them, "you won't believe this but we saw an object in the sky." I looked up and saw it again. It was moving south to south-east. It looked like a moving star but it was again erratic in it's motions. It was moving in the south-east sky for a minute and the next minute, it was gone. There was no sound or bursts, ie: fireballs, from the object. When I first saw the object, it was low to the ground but was hard to determine. I viewed the object for approx. 1/2 hour total in time. It was approx. 1/3 the size of the moon.

6 APR 78 - Nr. Prince George, B.C.

Statement of Karen SEVIGNY, (BD: 3 OCT 55) taken
by Cst. J.N. HOLYK, 14 APR 78

On 6 APR 78, in the evening, I was at 4278 Hart Highway. I was advised by Ken STEPHENS that there (was) a U.F.O. in the sky. I took my turn looking through a rifle scope at an object in the sky. I could see the object with my naked eye. The object was located South and a little West. It was in one constant position when I saw it. I could see the shape or size but only noticed the lights. There seemed to be flashing, on and off, red and blue light. I observed the object for approx. 10 min.

U.F.O. Sighting
Nr. Prince George, B.C. - 6 APR '78

Statement of Rick STEVENS (BD: 18 FEB 63) taken by
Cst. J.H. HOLYK, 15 APR 78

One night, I was with Ken STEVENS and his wife when we saw an object in the sky. I had gotten out of the vehicle and gone into the house when Ken came in and said he saw something. Everyone went to the window and looked outside. When I looked out, I saw a light in the sky. It looked like a plate upside down. The lights I saw were red and orange. I then went outside with Ken. I went and got my telescope and set it up outside. I looked at the object through the telescope. It was stationary, with red and orange lights. I can't say how high it was. I didn't see any bursts or fireballs come from the object. I watched it for about an hour and then went into the house. Ken came in a little later and said it was gone.

PAGE 1

U.F.O. Sighting
Nr. Prince George, B.C. - 6 APR 78

Statement of Alice MILLER (BD: 13 JUL 38) taken by
Cst. J.N. HOLYK, 16 APR 78.

On the 6 APR 78, I was visiting at the LOFTUS residence.
At approx. 8.00 PM, Lenore received a phone call from Vicki BURNS.

We went over to her residence and assisted in attempting to calm down the horses. While standing outside, Jean ANDERSON pointed into the North-east sky and said, "There is where it came from." I looked up and saw a light. It was not a star. It was moving from the North-east in a southerly direction. The sky was clear, stars very bright. The object was slightly brighter than the stars and it was moving. It was too far away to see any shape. It appeared lower in the sky. To me, it looked redish and bluish, but ^{with} my glasses, they distort colour. I didn't hear any sound or see any fireballs. I observed it for approx. 30 seconds until it disappeared. It seemed to increase it's speed when it disappeared. It disappeared in the South-east sky. We remained outside and then went into the BURNS residence for awhile. We stayed a short time and then went home. We didn't see object any more after it had disappeared.

(Signed) "Mrs. A. MILLER"

Dear Sir,

I write to report a U.F.O. sighting of April 2nd.
of which I have made a check in to and received confirmation.
The sighting was reported to Niagara Regional Police.
The sighting was reported to police, by a Miss Teetsia Blokzyk
and Miss Lorriane Vilkers.

Type of object cigar shape blackish gray in colour.
Object large in size.
Object was seen circling a field about 200ft. of the ground.
Object had two square lights on the bottom of it.
Date of sighting April 2nd. 1978 at or around 8.30 - 9 PM.E.S.T.

Yours truly,

Mr. Donald W. Golding

Dear Mr. GOLDING:

Your request for assistance on behalf of Canadian
U.F.O. Research has been received.

I regret that I cannot be of anymore assistance to
you than to confirm that we have on file two reported
incidents of sightings of unidentified flying objects that
occurred on Sunday, April 2, 1978 in the City of Welland.
It is not the policy of this Force to release particulars
of reported incidents of this or any other nature in response
to written requests such as yours.

If however you are contemplating visiting our area
and can produce satisfactory credentials I would be most
happy to discuss this matter with you further.

Yours truly,

Albert NELSON, A/Superintendent,
No. 3 Division, WELLAND.

RE: H.T.A. L'HEUREUX, Gisèle.
OBJET: Observation d'un O.V.N.I.
Sherbrooke, P. Q. 03-04-78.
Assistance Conseil National de la Recherche.

1. En date du 3 avril 1978, Mme L'HEUREUX communique avec notre bureau pour nous aviser que sa soeur et elle avaient aperçu, vers 19:00 heures, le 2 avril 1978, une boule de feu dans le ciel qui est demeurée visible pendant environ vingt (20) minutes avant de disparaître.
2. Le 5 avril 1978, je suis allé rencontrer Mme Claire BESSETTE (D.N.: 15-08-1933), demeurant au 375, rue St-Michel, app. 1, Sherbrooke, P. Q. Elle m'a relaté les faits mentionnés au paragraphe -1- et que, lorsqu'elle a aperçu cela, elle a contacté sa soeur, Mme Gisèle L'HEUREUX. Au moment où elle a vu cette chose, Mme BESSETTE me dit qu'il commençait à faire noir et elle se trouvait près d'une fenêtre dans sa cuisine.
3. Elle me dit que le ciel était clair, à ce moment-là. Pour ce qui est de la couleur, elle trouvait que l'objet tournait du blanc au rouge lorsque cela partait. Elle est incapable de me dire à quelle altitude l'objet pouvait se trouver. Elle dit n'avoir aperçu qu'un seul objet et que cet objet avait une forme triangulaire. Elle trouvait que l'objet se déplaçait verticalement et horizontalement.
4. Mme Gisèle L'HEUREUX (D.N.: 22-10-1934), demeurant au 1050, rue Papineau, app. 6, Sherbrooke, P. Q., fût rencontrée en date du 12 avril 1978. Elle m'a indiqué que sa soeur l'avait contactée pour regarder quelque chose de bizarre dans le ciel. Elle me dit que le ciel était clair et qu'elle pouvait apercevoir cette chose de la fenêtre de son salon. Elle dit que cette chose pourrait ressembler à un triangle et que c'était brillant comme une étoile. Elle dit que cela se déplaçait en mouvement saccadé et que ça scintillait rouge avant de disparaître. Il lui est impossible de me donner l'altitude de cette chose.
5. Mme L'HEUREUX m'affirme avoir remarqué le même phénomène le 10 avril 1978 et que cela durait de vingt à trente minutes et toujours vers la même heure. Il nous fût impossible de trouver d'autres gens pouvant corroborer ces dires.
6. Les deux témoins de ce phénomène m'ont semblé très sincères dans leurs déclarations et ont paru surpris de l'intérêt manifesté par notre bureau dans cette enquête. Comme notre enquête n'a pu déceler aucun phénomène naturel, il nous fût impossible de confirmer les faits mentionnés par nos deux témoins.

TERMINE.

18:15 25 Apr.
KILLARNEY RCMP DET REPORTS THE SIGHTING OF 6 UFOS SIMULTANEOUSLY, AT APPROX 12:15 AM 25 APR 78, CENTRAL STANDARD TIME NEAR NINETTE, MAN. THE SKY WAS CLEAR AT THE TIME. THE OBSERVER OF THE UFOS IS WALTER BRENT MURRAY BD 09 JAN 60, SE 13-6-17, NINETTE, MAN. MURRAY STATES THAT HE FIRST OBSERVED THE OBJECTS WHILE TRAVELLING NORTH ON PTH 18 APPROX 1 MILE WEST AND 2 MILES SOUTH OF NINETTE, MAN. THE OBJECTS WERE STATIONARY IN THE SKY, DIRECTLY NORTH OF MURRAY'S POSITION AT THIS TIME. MURRAY AGAIN OBSERVED THE SAME OBJECTS AS HE TRAVELLED NORTH FROM NINETTE ON PTH 18 A FEW MINUTES LATER. THE OBJECTS WERE TRAVELLING EAST AT THIS TIME AND MURRAY ESTIMATED THAT THEY CROSSED OVER PTH 18 APPROX 2 MILES NORTH OF NINETTE. MURRAY DESCRIBED THE OBJECTS AS BEING AN EXTREMELY BRIGHT, GLOWING ORANGE AND CIRCULAR OR EGG-SHAPED. THERE WERE NO PROTUBERANCES OR DIFFERENT COLOURS THAT MURRAY COULD DESCRIBE. DURATION OF OBSERVATION IS ESTIMATED AT FROM 3 - 10 MINUTES. MURRAY STATED THAT HE INITIALLY OBSERVED ONE OF THE OBJECTS AS HE WAS TRAVELLING TOWARD NINETTE AND HE OBSERVED 5 MORE SIMILAR SUDDENLY APPEAR AND ALIGN EASTWARD FROM THE FIRST. THE OBJECTS REMAINED STATIONARY IN THIS FORMATION UNTIL HE LOST SIGHT OF THEM WHEN HE DROVE DOWN INTO A VALLEY AND INTO NINETTE. WHILE TRAVELLING NORTH FROM NINETTE, A FEW MINUTES LATER, HE OBSERVED THE 6 OBJECTS TRAVEL QUITE SLOWLY EASTWARD OVER THE RIM OF THE VALLEY AND THEN DESCEND VERTICALLY UNTIL HE LOST SIGHT OF THEM BEHIND TREES AND BUSH. SECONDS LATER THE OBJECTS ASCENDED VERTICALLY AND SUDDENLY VANISHED. MURRAY ESTIMATED THE HEIGHT OF THE OBJECTS ON INITIAL OBSERVATION AS 1 MILE HOWEVER COULDN'T ESTIMATE THE SIZE OF EACH. TO DATE NO OTHER WITNESSES HAVE BEEN LOCATED HOWEVER INVESTIGATION CONTINUES. REPORT TO FOLLOW.

RE: Walter Brent MURRAY (BD: 60 01 09)
U.F.O. Sighting
Nr. Ninette, Man. 78 04 25

N78/96

78 04 25

1. Further to our telex dated 78 04 26, please be advised as follows. At approx. 0930 hrs., this date, the captionally noted subject contacted this detachment advising that while driving home from his girl friend's residence at approx. 0010 hrs, this date, he had observed 6 bright orange objects in the sky near Ninette, Man.
2. At approx. 1900 hrs., this date, I patrolled to the MURRAY residence which is located approx. 9 km. north of Ninette, Man. on PTH 18, picked up MURRAY and then patrolled to the general location of his sighting of the 6 objects which is approx. 3 km. north of Ninette, Man. A statement was obtained from MURRAY at this time and is attached; the statement is self-explanatory.
3. At approx. 2100 hrs., this date, MURRAY and I attended the residence of Stan VALENTA which is approx. 4 km. north and east of Ninette and in the same area where MURRAY observed the 6 objects descend after passing over the eastern rim of the valley. VALENTA had seen or heard nothing strange the night before.

78 04 26

4. At approx. 2110 hrs., this date, I talked to a Nelson SMITH and his wife who live approx. 2 km. east of the VALENTA residence. The SMITHs had been up until approx. 0200 hrs., 78 04 25 and they had not seen or heard anything peculiar.

78 05 12

5. As of this date, no further information has been gained by either MURRAY or myself. MURRAY seems convinced that he observed something out of the ordinary and I have found no reason to doubt him. In conclusion, I can offer no explanation for what MURRAY may have seen but I feel it should be noted that C.F.B. SHILO is located approx. 25 to 30 km. north of Ninette and I suppose that there is a possibility that the lights may have originated there.

Walter Brent MURRAY
U.F.O. Sighting
Nr. Ninette, Manitoba

25 APR 78

Statement of: Walter Brent MURRAY (BD: 09 JAN 60)
Address: SE 13-6-17, Ninette, Manitoba
Occupation: Student

1955 hrs.,
78 04 25

I left Jack DUNLOP's residence at approx. 12:10 am., this morning and was travelling north on PTH 18 approx. 2 miles south of the Junction of PTH 23 and (PTH) 18, that I noticed one egg-shaped very bright, fluorescent orange object straight north and a tiny bit east of where I was on the highway. I was driving a 1976 Dodge pick up and I could see this object at the very top of the windshield as I sat normally in the seat but I leaned forward to get a better look. It appeared quite high in the sky. I thought it might have been an airplane at first but I couldn't see any of the regular airplane-type lights. The object did not appear to be moving. I rolled down my window to find out if I could hear anything. I was travelling about 45 to 50 mph. at this time. As I got to the Junction of PTH 18 and (PTH) 23, I noticed 5 more objects, the same as the first, join up with the first, forming a line in an east-west direction. The 5 which joined the first did so on the east side of the first, equal distance apart and all of the objects equal size. All of these objects then hovered in that position, until I saw them again a few minutes later.

During the few minutes until I saw these objects again, I drove down into Ninette, and up and down Main Street a couple of times, trying to find a light on in a house or somebody to get ahold of. While in Ninette, I tried to flag down a Thunderbird which was travelling south with my 4-way flashers and headlights, but the Thunderbird kept on moving.

After I gave up on the Thunderbird, I turned around and as I came to the north edge of Ninette, I saw all 6 objects move east and they appeared to cross PTH 18 approx. 1 mile north of Ninette and then they stopped over the escarpment on the east side of the valley. They then went straight down like a helicopter landing. The objects did not travel very fast when they crossed over the highway in front of me and all of the objects moved harmoniously and remained perfectly equal distance apart.

I was about three-quarters of a mile north of Ninette when I saw all 6 lights rise from the exact same place as they had disappeared to and then each light seemed to vanish one at a time. I thought they might have disappeared, moving quickly to the northeast but they might have just vanished.

During the whole time I saw these lights, I cannot recall hearing my radio which had been on CKY 58, Winnipeg. When the lights disappeared, I noticed that the radio seemed quite loud.

- Q. Did you ever see these objects without having to look through glass on your vehicle?
- A. Yes. After I turned east on PTH 23 from (PTH) 18. The lights were still in the north. I had rolled down the window when I was approaching the intersection of PTH 18 and (PTH) 23.

U.F.O. Sighting

Nr. Ninette, Manitoba

25 APR 78

- Q. What were the weather conditions at this time?
- A. Good. It was getting cooler. The sky was clear and there were quite a few stars.
- Q. Did these objects make any noise?
- A. It seemed that when they appeared and when they disappeared, there was a high-pitched, short whistle.
- Q. There were no other colours than the orange?
- A. No, just that real bright fluorescent orange that lit up the sky. I could see a glow behind the trees when they crossed (PTH) 18 highway north of Ninette and sunk out of sight.
- Q. Were you scared?
- A. Yes.
- Q. Had you been drinking or on any type of medication at this time?
- A. No.
- Q. How much sleep did you have the previous night?
- A. Sunday night, a lot. I had about 12 hours. I fell asleep about 5:30 Sunday afternoon and woke up 7:00 Monday morning.
- Q. Were there any other cars or anything around when you saw the lights?
- A. Only that pink Thunderbird that I couldn't get to stop.
- Q. Do you believe in flying saucers and the like?
- A. Yes, I do.

2050 hrs., 78 04 25

Witnessed: P. WHATTAM, Cst.

Mr. Robert Taylor,
Marmora Senior School,
Box 418,
Marmora, Ontario.

Dear Mr. Taylor:

Your letter describing a sighting made by one of your Grade 8 pupils has been forwarded to me from the Canadian Forces Base Trenton.

It is difficult to guess the cause of this phenomenon without more accurate knowledge of the time and directions involved. If you have been studying the sky this spring you will be aware that there have been four bright planets visible, with Venus much the brightest. The time mentioned in your letter is after Venus has set but if the observation was really made roughly an hour earlier, then the description fits reasonably well the sort of image distortion which can occur when a bright object is seen very close to the horizon (especially when the observer was on a hilltop). The effects of refraction and atmospheric unsteadiness can do dramatic things to the image of a bright object such as Venus. It is very normal for bright objects seen after dark to appear much closer to the eye (or really the eye-brain combination) than they are, since there is no means of evaluating the size-distance relationship for an unknown object.

I am enclosing a reprint of an article which I hope may be of interest to you and your students.

Yours sincerely,

Ian Halliday,
Planetary Sciences Section.

MARMORA - ONTARIO

April 25, 1978.

002433

RECEIVED

MAY 1 1978

CFB TRENTON

The Officer in Charge,
Canadian Forces Base,
TRENTON, Ontario.

To Whom It May Concern:

I am an Intermediate Science teacher at the above-mentioned school. I have been doing a unit on astronomy with the Grade 8's. One of my best students (keen and reliable) reported the following incident to me yesterday.

On Saturday, April 22, 1978 at approximately 2200 hours, she was attempting to locate certain constellations we had studied in class from a hilltop on her family farm located approximately 9 km northeast of Marmora. It was a bright, clear, still night and the moon was full. Her attention was drawn from the east to the north when the horse herd began milling up. It was then that she noticed this object, just a little west of the horses, as described in the attached sketch. The object was noiseless and motionless, hovering quite low to the ground approximately 100 m from her. The lights were green and blue and not flashing. She observed it for a few seconds, glanced back to the horse herd, then back again to the spot the object had been. However, it had disappeared.

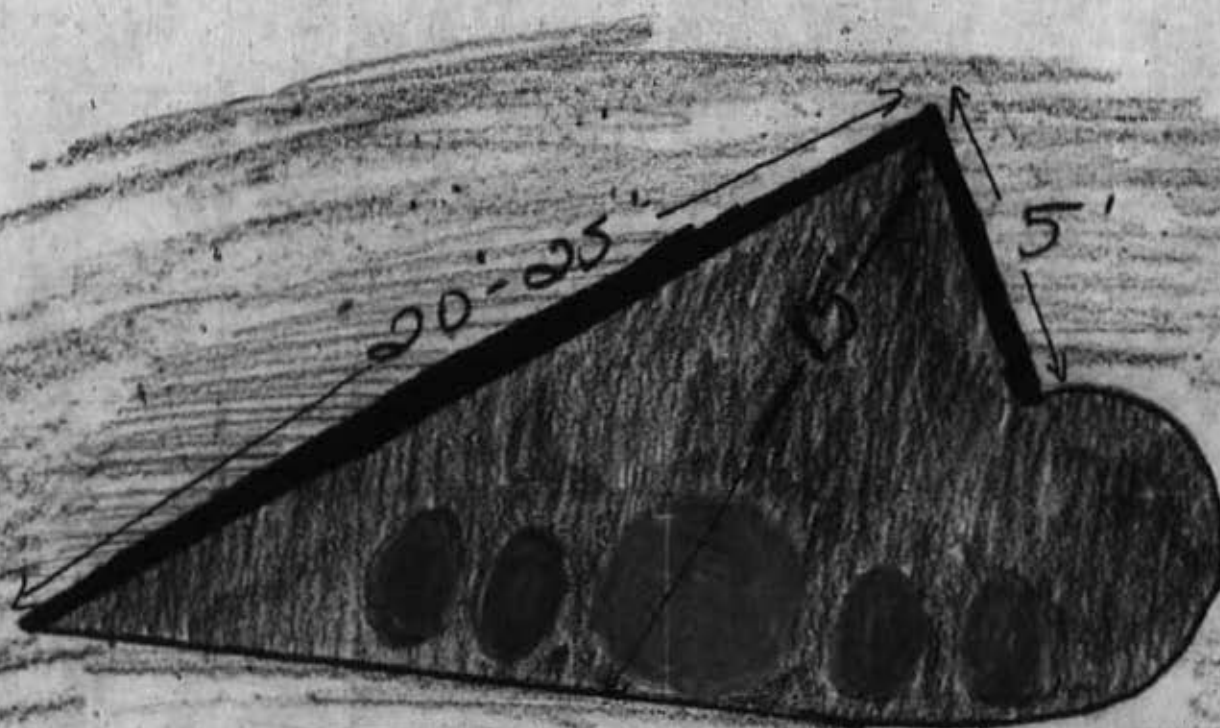

I am writing this letter in the hopes that you can be of assistance to us in identifying this object, either personally or by directing me to a person or agency that could.

Thanking you in advance for your co-operation in this matter, I remain,

Yours truly,

Robert Taylor.

Dear Sir:

Re: U.F.O. Sighting
Near Town of Souris,
Souris, Manitoba - 12 APR 78.

N78/109

At 8:40 P.M. Central Standard Time, 12 APR 78, Andrew William WATAMANUK (BD: 13 AUG 40), Farmer, residing three miles west, attended at the R.C.M. POLICE detachment in Souris to report what he thought was a "U.F.O." hovering in the sky west of his farm and south of P.T. Hwy. #2. WATAMANUK stated he sighted a similar object about the same time on Sunday, 9 APR 78. He described the object as being approximately 3,000 ft. off the ground, three dimensional spherical centre coloured bright yellow, changing to bright red in the sphere's extremities. Two "wing-like" extensions opposite each other on the sphere (horizontally) cast a pulsating bright bluish green light with a periodic red flash. He stated the movement of this object was vertical, directly over a neighbour's (Keith Orville KONTZIE, born 11 MAR 50) farm. The object then moved horizontally west, approximately one mile and hovered over the farm of Paul David ADDISON, born 7 FEB 43, where it's vertical movement continued. The object then made a quick circular movement over the ADDISON farm and disappeared, re-appearing approximately five minutes later over the KONTZIE farm. WATAMANUK stated the object then moved very slowly westward without a sound, finally disappearing. He stated the sky was clear at the time and he kept this object in sight for approximately two and one-half hours.

At 9:10 P.M., 12 APR 78, two members attended with WATAMANUK at his farm, later joined by the N.C.O. In Charge. WATAMANUK pointed out the object and with the naked eye we could see a pulsating bright light constantly changing colours from white to green, green to blue with periodic red flashes. The night was cool (below zero degrees celcius, slightly) with a south-west wind causing

..... P. 2.

WIND CAUSING the eyes to tear. The object was clearly seen through field glasses where the pulsating bright light and constant colour changes were made more vivid. WATAMANUK was extremely excited while gazing at this object, repeatedly saying things like, "look at the wings on that thing", "look at it move, look at it move". The members failed to see what WATAMANUK was describing other than the bright pulsating light and colour changes. The members did observe the object moving very slowly westward across the sky, toward the moon. It appeared to be miles from earth, but much closer than the stars. At 9:50 P.M. the object was lost from sight. At 10:00 P.M. it reappeared south-west of the moon at an approximate 45 degree angle. At 10:05 P.M. the object moved slowly away from the moon at the same angle. At 10:15 P.M. the members left the scene as the sky became overcast obscuring further sightings. At 10:25 P.M. WATAMANUK called police to advise the object changed its position to the south-east side of the moon.

At 10:30 P.M. the Brandon office of the Ministry of Transport were asked if any accountable aircraft were flying this area. M.O.T. advised that none had reported in. None of our neighbouring detachments had reports of possible sightings.

At 11:10 P.M. police contacted Dr. J.R. RICE, in charge of the Brandon University telescope. He suggested that Jupiter would be the largest natural light in close proximity and above the moon. Dr. RICE advised that due to the hour and the fact that the moon would set shortly, use of the University telescope would not be possible. Attempts were made to contact the Winnipeg Planetarium and University of Manitoba Planetarium, without success.

At 5:30 P.M., 13 APR 78, police spoke with Keith Orville KONTZIE, born 11 MAR 50, closest neighbour to WATAMANUK. He was away on 12 APR 78 returning home in the early hours of 13 APR 78 and of no assistance in this regard.

At 5:40 P.M., KONTZIE's neighbour to the west, Gail Marie (Mrs. Paul) ADDISON, born 20 APR 47, was spoken with. She received a phone call from WATAMANUK the P.M. 12 APR 78. She was asked by WATAMANUK to look at a strange phenomenon in the sky over KONTZIE's. On her way to the door WATAMANUK called again stating the object was over his farm. She stepped outside but failed to see what he was talking about.

At 7:05 P.M., Robert Wilfred HICKS, born 12 FEB 35, neighbour directly east of WATAMANUK was spoken with. He too received a call from WATAMANUK P.M. 12 APR 78. HICKS took his field glasses and on his way out another call for him prevented his seeing the object.

..... P.3.

Re: U.F.O. Sighting

P. 3.

78-0298

SEEING THE OBJECT.

At 9:20 PM, WATAMANUK reported two similar objects presently in the sky, one being in the same area of the moon as previously described and one north-east of Souris in the Brandon/Shilo area. Police attended and saw these objects, both being similar to the one previously witnesses. WATAMANUK stated that prior to our arrival a red/white "ball of fire" travelled north-west over his farm at great speed disappearing on the horizon. This was not witnessed by police.

At 9:35 PM., 18 APR 78 police were called to the ADDISON farm by hired hand Charles Thomas CHAMBERS, born 2 MAR 43, regarding a possible U.F.O. sighting. Police attended and saw an object as previously described, which travelled west across the sky at accelerated speeds, disappearing from sight.

WATAMANUK, although excitable, is a fairly responsible person and was not trying to lead us astray. Had we not witnessed these phenomenon with him his reports may have been questionable. The above is submitted for your information. No further action is being taken by this office.

Yours truly,

CONCLUDED HERE:

(H.K.) Sgt.

A luminous, top-shaped UFO responded almost playfully to the lights and sirens of patrol cars in a small California town — as police officers and townspeople watched in awe, unable to believe their eyes.

Although police took photographs of the incredible object, those pictures were later mysteriously "misplaced" — and one officer involved in the case suggests the sighting has been officially covered up.

"It was like nothing I had ever seen before," marveled Detective Mel Stewart, 35, of the Simi Valley Police Dept., who first spotted the UFO at 10:41 p.m. the night of Saturday, Aug. 13, 1977.

"I saw what appeared to be an aircraft in distress. It was emitting orange flames and there appeared to be blobs of metal coming out of it."

The object disappeared over rooftops in the direction of the local airport, about 40 miles from Los Angeles. Stewart put out a broadcast that an aircraft was possibly in trouble.

It was not until 11:22 p.m. that police headquarters received the first frightened phone call describing a UFO.

The call came from Rene Helton, who had noticed something very strange in the sky outside her house while walking her boyfriend to his car.

"It was shaped like a child's top hanging in the air," she recalled. "We watched it for a while, as it just hovered there, two blocks away."

Thunderstruck, she phoned the police. Patrolman John Kennedy responded.

"Answering the call, I noted a lighted object coming in my direction at a high rate of speed," Kennedy told THE ENQUIRER.

"I pulled off the road. It

Many Hearing Problems Can Be Helped

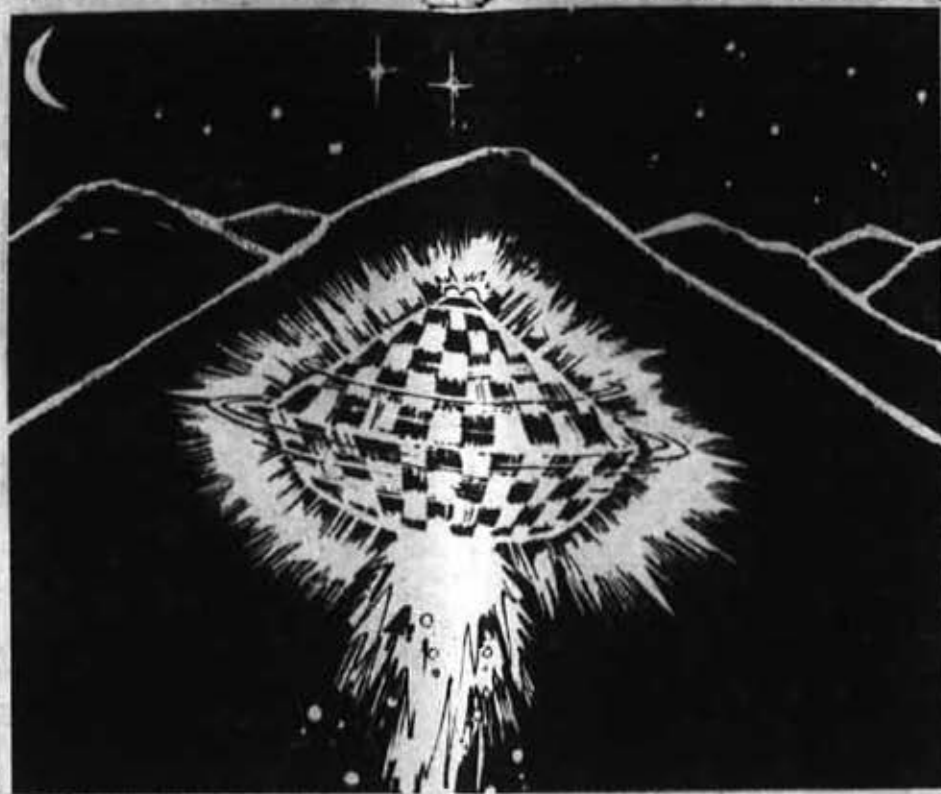

Chicago, Ill.— A free offer of special interest to those who hear but do not understand words has been announced by Beltone. A non-operating model of the smallest Beltone aid of its kind will be given absolutely free to anyone answering this advertisement.

Send for this non-operating model, put it on and wear it in the privacy of your own home. It is not a real hearing aid, but will show you how tiny hearing help can be, and it's yours to keep, free. The actual aid weighs less than a third of an ounce, and it's all at ear level, in one unit.

These models are free, so we suggest you write for yours now. Again, we repeat, there is no cost, and certainly no obligation. Thousands have already been mailed, so write today to Dept. 4714, Beltone Electronics, 4201 W. Victoria St., Chicago, IL 60646.

Page 8

NATIONAL ENQUIRER

ARTIST'S SKETCH shows luminous, top-shaped UFO described by police.

was a saucer, but with a top on it and all lighted up on the inside. It had like a pattern of steel frames with illuminated glass in between. The bottom was a pure white sea of lights."

Kennedy made a U-turn and pursued the UFO at high speed. At the same time, another officer was chasing the object in the same direction on a parallel highway.

"I activated my siren, and that's when the fun started," Kennedy said. "I relayed over the radio, 'It's reacting to my lights and siren.'"

"When I activated the siren it would come toward me, and when I would turn it off it would back away."

And when the other officer turned on his siren, the UFO moved in that direction.

Said Kennedy: "It was almost as if it was playing with us. And the more I played with it, the closer it got and

the thought went through my mind, 'If that thing lands, what in hell am I going to do?' I would probably have left the area."

Kennedy was impressed by the size of the UFO. "It was larger than any American aircraft I have ever seen and even larger than a blimp," he said.

"At one point I even stopped a car and ordered a couple out and told them to look up and tell me what they saw. They said, 'What is it?' And I told them I didn't know."

"You can call it what you like — flying saucer or UFO. But it had speed, maneuverability, and it reacted. When I was chasing it, it pulled away from me as if I were standing still."

Stewart, also responding to Rene's call, witnessed a sight he will never forget.

"I looked at it through binoculars and it appeared to

Police Photos of UFO Mysteriously Disappear

first saw it, it was a white light. Then it began pulsating and then I saw red and green lights. The colored lights would come on when it was reacting to our sirens or the red and blue lights on our vehicles.

"I watched it for 20 minutes and there were numerous citizens who stopped and became aware of it. This caused some excitement."

Added Kennedy: "The last I saw of the UFO, it was heading west toward the ocean."

Police aide Mike Robinson stationed himself about 2 to 3 miles from the object and began taking photographs.

But these pictures later mysteriously disappeared, and a junior officer now suggests that his superiors have turned investigation of the incident, which was recorded in the department's official log, over to Washington.

"I think there was a cover-up," declared Kennedy, who has since joined the Culver City (Calif.) Police Department. "Obviously, if they found something on the film, they are not going to let it out. Uncle Sam has got a hold of it. Suppose they did develop something — you'd panic the American people."

Dorsey Cullen, a Simi Valley Police Department spokesman, told THE ENQUIRER: "The film was forwarded to the Ventura Sheriff's Crime Lab for processing. The film has been mislaid. There may have been a clerical error. There is no investigation."

A Pentagon spokesman said the federal government was not involved in the case.

— JOHN SOUTH

In the span of something like three quarters of a century this country has gone from the little red schoolhouse to the big consolidated schoolhouse in the red.

Aerosol Ban Will Save Consumers \$Millions Yearly

The aerosol industry may lose \$160-\$267 million a year after the aerosol ban goes into effect in 1979, according to the Environmental Protection Agency (EPA).

Consumers, however, may

save \$58-\$240 million a year — because products that do not contain chlorofluorocarbons generally are 8-19 cents cheaper than aerosol products.

Re: Sighting of Unidentified Flying Object
Athabasca, Alberta, 78-5-15

1. Trudy BURRELL (D.O.B. 59-June-17) of 4404 - 53rd Street, Athabasca, Alberta, came into the office and reported that she had seen a strange object hovering over her home.
2. BURRELL was interviewed and statement obtained. See attached Appendix "A".
3. Various people of the community have been questioned with regards to this matter. To date, no other person has reported seeing this object.
4. I questioned BURRELL as to why she had gotten up at this time to have a glass of milk. BURRELL stated that she had just woke up from a nightmare and had come downstairs to settle down. BURRELL seemed to be reluctant to report this matter and only did because her mother urged her to do so.

APPENDIX "A"

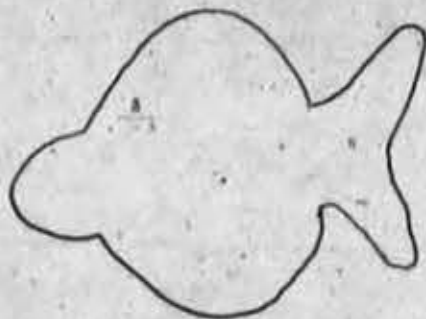

STATEMENT OF TRUDY BURRELL

Address: 4404 - 53rd Street (South Hill), Athabasca, Alberta.
Telephone: 675-9296
D.O.B.: 59-6-17
Date: 78 May, 15
Place: R.C.M.P. Det., Athabasca
Taken by: Cst. C.E. LOWES
Time: 1640 hrs.

On Monday, 78 May 15, @ approximately 0310 hours, I woke up and decided to go downstairs for a glass of milk.

I was standing in the kitchen and was going to pour myself a glass of milk when I heard a very loud high pitched sound. It was similar in sound to a noise consistent to that of a jet aircraft.

The sky at this time was clear. I then walked over to the living room window to take a look outside to determine where the noise was coming from. I noticed an object in the sky towards the West. It was approximately 100 feet in the air. The object was flat and shaped somewhat like a fish, and was approximately 150' long. The object rotated onto its side and stayed there for a period of time. When the object became stationary the high pitched sound ceased. I held observation on it for approximately 1½ to 2 minutes. The object then departed at a high rate of speed and quickly disappeared. The underneath portion of the object looked similar to this diagram and was black in colour.

When the object rotated onto its side it took the shape similar to the diagram below.

When the object left the area, it did not make any noise.

Wit: C.E. LOWES, CST.

ATTN: Ms. A. Claude

Dear Dr. Halliday:

This letter is to confirm my telephone call to you this morning regarding the sighting of a U.F.O. over Toronto. As I mentioned, the object in question consists of six dull white lights moving in a formation in a North-Easterly direction taking less than fifteen seconds to travel across the part of the sky we could see. There were two other witnesses to this event. The formation was as follows:

↑ North East.

I would appreciate your thoughts regarding some logical explanation for this sighting. Thank you.

Yours truly

J. D. Walker, M.D.
Sr. Medical Officer

May 31, 1978.

Dr. J.D. Walker,
Canadian National/Air Canada,
Medical,
151 Front Street West,
Toronto, Ontario.
MSJ 1G1

Dear Dr. Walker:

Thank you for your letter of 26 May concerning the sighting over Toronto. I have discussed the report with Miss A. Claude who spoke with you on the telephone.

It is impossible to be specific on the identification without much more detailed data on the observations. A fragmenting meteor or re-entering satellite is one possibility and in the case of the meteor the apparent motion can be slowed any amount by the geometrical projection effects which may be involved. It would be more usual for the fragments to follow each other in essentially one path than to be spread out transverse to the direction of flight.

Reports of this nature have sometimes been traced to migrating birds illuminated from below by city lights. This may not fit very well for the velocity unless they were unusually low, but it is the season when birds are a real possibility.

We can probably expect increased confusion from man-made toys launched for this purpose. They are currently available in at least one catalogue whose distribution is in the Toronto area.

There are undoubtedly many other possibilities but these are some that have given use to similar reports in the past.

Yours sincerely,

Ian Halliday,
Planetary Sciences Section.

Kathy DOBIE, U.F.O. Sighting
COQUITLAM Detachment Case, 08 JUN 78

1. At approximately 0100 hrs, on the 8th day of June 1978, DOBIE informed this office that her husband and her have just seen an unknown flying object in the sky in front of her residence.
2. Details relevant to the sighting which lasted about 45 seconds are included in the statement of Mrs. DOBIE on page 2.
3. No other report of U.F.O.'s were made that night in the Coquitlam area.
4. Cst. BLANCHET, of this office attended and spoke with Mr. and Mrs. DOBIE who appeared being normal and reliable witnesses. Mr. and Mrs. DOBIE had not been drinking that night, nor were they excessively tired. The statement was written in a calm and relaxed state of mind. Cst. BLANCHET doesn't have any reasons not to believe the story given.
5. D.O.T. contacted and denied having any knowledge of U.F.O. sighting being reported the same night.

Report submitted as per O.P.S. Manual.

Kathy DOBIE, U.F.O. Sighting
COQUITLAM Detachment Case, 08 JUN 78PAGE
2

This is the statement of Kathy DOBIE taken at her residence at 535 Blue Mountain Road, Coquitlam, B.C.

On the day Thursday May 8, 1978 at 1:00 a.m., my boyfriend and I went out to the balcony to get some fresh air and waited for our five week old baby girl to fall asleep. Well we were outside we sat on a chair watching the stars. I was sitting on my boyfriend lap at the time I saw the red ball in the sky. Brent was listening to a noise at the time I saw the red ball. I told Brent to look in the sky, he saw the red ball. It was a clear sky out with stars all around. We watched the red ball object till it came closer to the apartment block. then quickly dissappeared behind the apartment building which we could not see the object anymore. When it came closer we looked very close and could see three oval shape on the object. When we saw this object in the sky we didn't hear any noise as a jet or plane noise. My boyfriend and I got scared and try to phone the Vancouver airport but they were closed. We didn't know who to call so we phoned the police after we had seen the object, few minutes later the police arrived. Brent and I told the officers what we had seen. We have drawn a sketch how the object went about moving in the sky.

NIP78/6 UNEXPLAINED LIGHT IN THE SKY NORTHWEST OF RED ROCK
ONTARIO OBSERVED 78-06-11 FROM 2300 TO 2335 BY CST KEN
RICHARDSON OF THE RED ROCK POLICE DEPT., MRS CEARNES HIGH SCHOOL
LIBRARIAN, FROM THEIR YARDS. OBJECT APPEARED AS A BRIGHT STAR
AND MOVED FURTHER NORTHWEST DOWN TO THE HORIZON COVERING ABOUT
50 DEGREES OF THE TOTAL 180 DEGREES OF THE SKYLINE. CLOUDY
CONDITIONS, NO OTHER STARS VISIBLE. AT ABOUT 2330, THE OBJECT
DISAPPEARED BEHIND SOME TREES SO THE VIEWER WENT TO AN OPEN
FIELD WHERE HE SAW A RED AND GREEN FLASHING LIGHT WHERE THE
OBJECT HAD BEEN AND SHORTLY THEREAFTER JUST THE WHITE LIGHT
UNTIL IT DISAPPEARED BELOW THE HORIZON. THE LIGHT APPEARED TO
BE VERY DISTANT AND ABOUT THE SIZE OF A BRIGHT STAR. REPORT TO
FOLLOW.

RE: - OBJET: U.F.O. Sighting
Red Rock, Ont. 78-06-12

Further to our telex Nipigon 78/6, statements of RICHARDSON and CEARNES are attached. Both subjects are considered very reliable. Their spouses saw the same object but due to their similar stories, no statements were obtained.

Statement of Cst. Kenneth Walter RICHARDSON,
77 Brompton Road, Red Rock, Ont.
Taken 78-06-13

This is the statement of Kenneth Walter Richardson, Police Officer, Red Rock Police Department, P.O. Box 446, Red Rock, Ont., POT 2JO, as given on June 13, 1978.

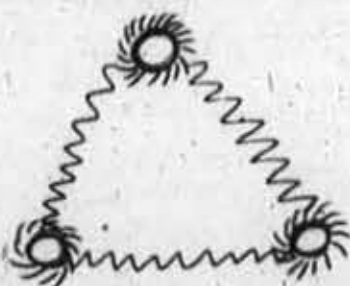

On June 11, 1978, at approximately 11:00 P.M., I left my residence for a breath of air. I observed an extremely bright light in the sky to the North-West. I was quite surprised as there was no other light anywhere in the sky, and this bright object gave the appearance of an extremely bright star. I observed the light with the naked eye for about 5 minutes and I then got a set of seven power binoculars and looked at the object. I then noticed that the light was being emitted from what appeared to be three lights forming the points of an equilateral triangle. I told my wife what was taking place and she looked briefly at the bright light without the aid of binoculars. She was also surprised at such a bright light in the sky. I then went next door to the John and Olga Cearnnes Res., 75 Brompton Road, and told them of the object. My objective at this point was to discover if Mrs. Cearnnes, the high school Librarian, had any knowledge of any man-made space phenomena that was taking place on that date. Both Mr. and Mrs. Cearnnes came into the yard and watched the bright light for about 20 minutes, expressing some surprise. While watching this light I could not make out any shape that would indicate some type of vehicle. Most of the time, I could only make out an extremely bright light in the sky which was travelling almost directly away from me in a North-Westerly direction. At one point I went into my house to phone Chief O'Connor of the Red Rock Police Department. I remained inside for a few minutes and at 11:20 P.M. I went outside and could see red and green flashing lights in the same area as I had earlier seen the bright white light, which was now gone. Once again I was unable to make out any object shape-I was able to see that the red and green lights were alternate over a fairly large - elongated space. There were three green and three red lights which appeared to be blinking. Mrs. Cearnnes advised me that she had seen three white lights coming across the sky travelling toward the area where we had seen the bright light. I was inside at the time she had made this observation, however. It was becoming difficult to see the lights from the area of my residence due to trees interfering with my line of sight. I walked to a clearer area where I could once again see only a bright white light which appeared much more distant.

-2

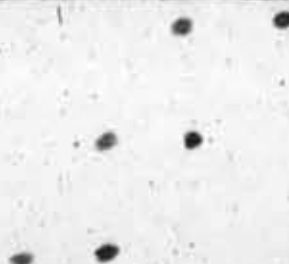

U.F.O. Sighting
Red Rock, Ont. 78-06-12

It was becoming difficult to keep the light in constant view due to the cloud cover. The light finally disappeared from my sight at 11:35 P.M. At this point the light had been obliterated by cloud cover as it appeared to near the horizon. If we were to assume that the surface of the earth was flat, running from 0 degrees to 180 degrees, the bright light was observed by me at approximately the 60 degree point and disappeared at approximately the 20 degree point. Bear in mind that the light was travelling almost directly away from me in a straight line which may have veered slightly to the North. I can give no estimation of distance or size of any lights, having nothing to relate to in the sky. It was only at my first observation that I noted a triangular positioning of the bright lights-after that I could only see a bright white light. The following is a diagram of the two different light systems I observed:

White Light System

Coloured Light System

Signed by: Ken Richardson

Statement of Mrs. O. Cearnas, 75 Brompton Road,
Red Rock, Ont. Taken: 78-06-13

On Sunday June 11, 1978, at 11:05 P.M. Ken Richardson, (next door neighbour) asked me to go out to look at a bright object in the sky he had previously noticed. The sky at this time was completely overcast, with wisps of dark clouds streaking it. This made us realize that what we were seeing, could not have been a star.

The object was north-west, about a quarter circle above the horizon.

I looked at it through my binoculars (7X35). At first it was shaped as a crescent, with an extremely radiant ray coming out of the inner circle to the left. The ray was so bright, one wondered if it could only be a reflection.

It seemed to stay more or less in the same spot for at least 10 minutes, but the shape kept changing from crescent to diamond. When it was diamond shaped, the rays were flashing from each point, and when it was a half circle (standing on end) the rays were from the top, bottom and centre of the cut-off circle to the left.

After about ten minutes, it slowly started to move further down the horizon, as well as further away. In fifteen more minutes it had

3

gone behind a tree in our yard. I went upstairs to view it, and it was now quickly moving down and away. I then saw three very small dim lights well above the object, but coming towards it, but they soon disappeared.

Concluded here.

I was getting out of "Motel du Village" at 1:30 on 26 June 78. I saw something which I thought was the moon. It was red. I headed for Caraquet. As I was driving, it became rounder and rounder and it got closer and closer to me. When I left the Motel, it was sort of beside me and at some distance. Later, it was facing me. It wasn't ever stable. It could go up and down. When I arrived home, I turned in the driveway and the object was at the neighbour's, in the trees. When I got out of the car, the object left rapidly towards the bay. I arrived home at 1:45.

Can you describe the object? Its shape?

(Drawing of the object in original text.)

The right-hand side was very round, the left-hand side was more elongated. It was a reddish orange. It was luminous in itself.

A, 29 JUN 78 0412Z

B, 5000 FT SCATTERED VISIBILITY 15 MILES

C, MR SEAN KELLY 179 DUKE STREET CHATHAM NB TELEPHONE 773-4073

D, AT ABOVE ADDRESS

E, CAPT EL HAZLETT, LT JM AUSTIN, MCPL RS WELLS SEE PARA H

F, WHITE FLAT SHAPED DISC, SIMILAR SHAPE TO UPSIDE DOWN SAUCER

SITED OVER DOUGLASTOWN AREA. ALTITUDE APPROXIMATELY 2000 FT.

THE OBJECT TRAILED TWO FLAMES 3 TO 4 SECONDS ONE ON TOP OF THE

OTHER. HEADED NORTHWEST TOWARDS NEWCASTLE NB

G, SEE PARA H

H, CHATHAM HAD NO A/C AIRBORNE AT THAT TIME. PICTURE TAKEN BY

PAGE 2 RECDL 0001 UNCLAS

POLAROID AND KEPT BY MR KELLY. AT APPROXIMATELY 0200Z 29 JUN 78

A VERY BRIGHT LIGHT WAS SIGHTED IN THE DIRECTION OF DOUGLASTOWN

FROM THE CFB CHATHAM RATCON SITE. THE BRILLIANT INTENSITY OF THE

LIGHT WAS THE PREDOMINATE ATTENTION GETTER. OBSERVED BY CAPT

HAZLETT FOR ABOUT A MINUTE AND THEN HE CALLED LT AUSTIN AND MCPL

WELLS TO OBSERVE SAME. AT THIS TIME LIGHT WAS REDUCING IN

INTENSITY AND IT COULD VISUALLY BE SEEN REDUCING UNTIL NOTHING

(A SPAN OF APPROX 15-30 SECONDS). IT APPEARED TO THE THREE

OBSERVERS THAT IT HAD BEEN OBLITERATED BY A CLOUD. AT APPROX

0220Z CAPT HAZLETT OBSERVED FROM HIS DRIVEWAY AT 1 MURRAY ST.

CHATHAM THE SAME BRILLIANT LIGHT AND IT STILL DID NOT MOVE.

AFTER OBSERVING FOR APPROXIMATELY 2 MINUTES, SHRUGGED IT OFF

AND WENT TO BED. THE TWO PREDOMINATE FACTORS WERE THE EXTREME

INTENSITY OF THE WHITE LIGHT AND THAT IT APPEARED NEVER TO MOVE

HIS ONLY THOUGHT ON WHAT IT MIGHT BE, WAS AN AIRCRAFT LANDING

LIGHT POINTING DIRECTLY AT HIM AND THUS GIVING THE IMPRESSION

OF NOT MOVING BUT OF EXTREME BRILLIANCE

N.R.C.

On a mid-November morning in 1970, my wife and I, DROVE to Pembroke. The sky was overcast and althouhh there was no snow, it rained most of the forenoon.. At 11.45 we started for home, and on reaching the top of the hill where John Lackie formerly lived, we noticed a light at the entrance to the East Range Road. Along this road were a number of Maple trees with dead and froz leaves still attached thereto, and these leaves glistered in the unusual light.

As we watched the light became intense and spread over Arnold Gribbon's LARGE field, as well as his house and metal roofed barn. No object was visible. Just an unexplainable brilliance coming from an overcast sky. I spoke to a number of people,

but found no one else who saw it. That night Gillies Waltham Mill burned.

Dear Dr. Halliday:

After having spoken with you last March, I have become interested in the files that you told me were kept of UFO sightings reported to your office. I was wondering if you could tell me how long these have been kept, who keeps them, and from whom these are generally received. I would also very much appreciate it if you could tell me about how large this collection of reports is, where in Ottawa it is kept, and how I could go about seeing these files, or having copies made.

I was wondering exactly what the function of your department is regarding UFO reports, and if there are any plans in Ottawa for setting up an organization to investigate the UFO phenomenon.

I am also enclosing several of our reports collected from the Sarnia area during March. We are working with UFO Investigation, based in Windsor, R.G. Little president.

I hope that these reports will be of use to you and that it will be possible to answer my questions regarding your work in this area.

Yours truly,

Colin Graf
Colin Graf.

Annie:

In my answer I told him we would put these reports on the file.

L. A.

UFO Investigation Post #

Please describe your sighting in general terms. You may use the back of this sheet if necessary.

THE SIGHTING TOOK PLACE ON WED MAR 8/78 AT APPROXIMATELY 2030 HRS. THE OBJECT WAS A PULSATING LIGHT IN THE EASTERN SKY. WITH THE AID OF BINOCULARS - 3 COLORS COULD BE DEFINED - RED, WHITE & GREEN. THE OBJECT MOVED VERTICALLY & HORIZONTALLY AT RANDOM & STAYED STATIONARY FOR PERIODS OF TIME (10 SEC TO 1 MINUTE). WITHOUT BINOCULARS THE OBJECT APPEARED AS A PULSATING LIGHT - CHANGING COLORS FROM RED TO WHITE TO GREEN. OBJECT REMAINED IN SIGHT FOR 45-60 MINUTES. I CAME IN THE HOUSE & WHEN I RETURNED IN 10-15 MINUTES IT WAS GONE.

THE SECOND SIGHTING TOOK PLACE THE FOLLOWING NIGHT, THURSDAY MAR 9/78 AT 2000 HRS. THE OBJECT WAS IN THE EASTERN SKY BUT LOWER THAN THE PREVIOUS NIGHT. THE OBJECT WAS THE SAME COLOR AS WEDNESDAY NIGHT'S OBJECT & BEHAVED IN THE SAME MANNER - MOVED VERTICALLY & HORIZONTALLY & REMAINED STATIONARY FOR "PERIODS" AT A TIME. OBJECT WAS VIEWED UNTIL APPROXIMATELY 2200 HRS. I CAME IN THE HOUSE & WHEN I WENT OUTSIDE THE OBJECT WAS GONE.

UFO Investigation Post #

- 1) At what time of day did you make your sighting? (dawn, morning, dusk, night, etc.)

NIGHT

- 2) What was the day and date of your sighting?

WED - MAR 8/78 & THURSDAY MAR 9/78

- 3) At what time (specifically) did you see the object?

8:30 PM

- 4) For what length of time did you see the object?

$\frac{3}{4}$ HOUR

- 5) Where were you located when you saw the object?

282 MOORE ST
CORONA

- 6) In which area of the sky was the object located? (north, south, east, or west)

EAST

- 7) Was the object located over any prominent landmarks?

NO

- 8) Did the object move vertically? (If yes, answer questions 8a, b, and c)

YES

- a) Did it move quickly or slowly in a vertical direction?

- b) Did it ever return to its original vertical position?

NO

- c) In what manner did the object move vertically?

- 9) Did the object move horizontally? (If yes, answer questions 9a, b, and c)

YES

- a) In what direction did it move? (north, south, east, or west)

- b) Did it move quickly or slowly?

- c) Did it move continuously, or in separate movements?

- 10) Did the object stay still for any length of time greater than a few seconds?

YES

- 11) Did the object appear to be swaying or "wobbling" at any time?

- 12) Could you distinguish the general shape of the object? If so, please describe it below, using a diagram if possible. (Use next sheet)

CIRCULAR OR OVAL SHAPE

(for question 12)

As Seen Through
Binoculars

☒ Red
☐ White
☐ Green

WITHOUT BINOCULARS THE OBJECT
 APPEARED TO BE A SOLID
 PULSATING COLOR, THE COLOR
 CHANGED THROUGHOUT THE SIGHTING -
 BEING WHITE MOST OF THE TIME.

- 13) Did you have any idea of the size of the object? (If so, please state)
NO
- 14) Was the object coloured in any way?
RED, WHITE & GREEN COLORS
- 15) Was there any change in colour during your sighting? WITH THE NAKED
EYE THE OBJECT CHANGED FROM RED TO WHITE TO GREEN
- 16) Were any lights seen on the object? (If yes, please answer questions
16a, and b.)
YES
- a) In what position were the lights, and what colour and size were they?
 RED ON TOP
 WHITE IN MIDDLE } AS SEEN THROUGH
 GREEN ON BOTTOM } BINOCULARS
- b) Did the lights change position, colour, or size during your sighting?
NO
- 17) Was any noise heard from the object? If so, please describe it.
NO

Mrs. S. Charlton.

~~PLEASE RETURN~~UFO Investigation Post #

● Please describe your sighting in general terms. You may use the back of this sheet if necessary.

Last year around Oct of 1977 my neighbours + I sighted an object in the East that appeared to be over Hydro wires in Coeurna along Hill Street.

After approx. 25-30 min. the object appeared to shine a light beam down from it to the Hydro wires.

We continued to watch the object but it stayed stationary and did not move other than the red, green, yellow flashing lights - we could not make out what it was.

It was suggested that it could have been a Hydro helicopter checking Hydro lines this could be true.

UFO Investigation Post N

- 1) At what time of day did you make your sighting? (dawn, morning, dusk, night, etc.)
- 2) What was the day and date of your sighting? *Oct 1977*

~~PLEASE RETURN~~

UFO Investigation Post #

Please describe your sighting in general terms. You may use the back of this sheet if necessary.

My neighbours and I noticed a light in the East. It appeared to be over Petrosar. It was or could have been over Reeves' Corners - it was quite far away and high in the sky.

The object was too high to discern any shape to it. While looking through field glasses the object showed green, red & yellow flashing lights, they appeared to be blinking off and on.

The object moved slightly upward and to the left just slightly in the 45-50 min. we watched it.

The night was clear.

UFO Investigation Post N

- 1) At what time of day did you make your sighting? (dawn, morning, dusk, night, etc.)
- 2) What was the day and date of your sighting? *Cannot remember date but was wed.*
- 3) At what time (specifically) did you see the object? *approx. 8:30pm.*
- 4) For what length of time did you see the object? *45-50 min.*
- 5) Where were you located when you saw the object? *in our front yard in Coburn Ont*
- 6) In which area of the sky was the object located? (north, south, east, or west) *East.*
- 7) Was the object located over any prominent landmarks? *Petrosar, but was so far up, it could have been miles away.*
- 8) Did the object move vertically? (If yes, answer questions 8a, b, and c) *Vertical.*
- a) Did it move quickly or slowly in a vertical direction? *slowly*
- b) Did it ever return to its original vertical position? *yes*
- c) In what manner did the object move vertically? *up & down*
- 9) Did the object move horizontally? (If yes, answer questions 9a, b, and c)
- a) In what direction did it move? (north, south, east, or west)
- b) Did it move quickly or slowly?
- c) Did it move continuously, or in separate movements?
- 10) Did the object stay still for any length of time greater than a few seconds? *yes*
- 11) Did the object appear to be gyrating or "wobbling" at any time? *no*
- 12) Could you distinguish the general shape of the object? If so, please describe it below, using a diagram if possible. (Use next sheet)
- no shape could be seen.*

(for question 12)

13) Did you have any idea of the size of the object?(If so, please state)

no

14) Was the object coloured in any way? *no*

15) Was there any change in colour during your sighting? *no*

16) Were any lights seen on the object? (If yes, please answer questions 16a, and b.)

yellow, red, green

a) In what position were the lights, and what colour and size were they?

*could not tell, shape could not be seen to
the object*

b) Did the lights change position, colour, or size during your sighting?

no

17) Was any noise heard from the object? If so, please describe it.

no

NIP118 FLWG REPORT FROM R C M POLICE NIPAWIN SASKATCHEWAN:

1. AT APPROXIMATELY 0215 HRS 78AUG02 A STRANGE SIGHTING OBSERVED IN FARMYARD 10 MILES EAST OF CODETTE, SASKATCHEWAN
2. SKY WAS CLOUDY
3. OBSERVERS WERE STEVE AND MARY RUDY
4. OBJECT SEEN FROM HOUSE THROUGH PICTURE WINDOW APPEARED TO BE APPROXIMATELY 200 YARDS FROM HOUSE BOUNCING ON TOP OF RAPE FIELD
5. NO OTHER PERSONS BESIDES THOSE MENTIONED IN NBR 3 OBSERVED THIS
6. APPEARED TO BE A ROUND LIGHT, 4 - 5 FEET IN DIAMETER, A BRIGHT CAR LIGHT-LIKE OBJECT WHICH BOUNCED IN ONE SPOT JUST ABOVE RAPE CROP AND THEN BOUNCED AWAY SOUTHWARD ONE OBJECT ONLY.
7. OBJECT OBSERVED FOR APPROXIMATELY TWO MINUTES
8. NO GROUND SIGNS FOUND THE NEXT MORNING OBSERVERS SAY IT COULD NOT HAVE BEEN A SET OF CAR LIGHTS AS BECAUSE OF THE SLOPE OF THEIR LAND, CAR LIGHTS COULD NOT POSSIBLY BE SEEN FROM THE HOUSE IN THIS AREA MRS RUDY STATES THAT IT LOOKED LIKE A BIG FLASHLIGHT VERY BRIGHT, HOWEVER, AS STATED ABOVE, NO SIGN OF ANY TRACKS, ETC COULD BE FOUND IN THIS AREA THE NEXT MORNING

MR AND MRS RUDY ARE GOING TO BE AWAY IN SASKATOON UNTIL PM OF 78AUG05. THEIR TELEPHONE NUMBER IS 862-5720 (AREA CODE 306) IN CODETTE DISTRICT

Re: Sighting of U.F.O. - Codette District - 78 AUG 03

1. The following information was obtained from Mr. and Mrs. Steve RUDY of the Codette District, Saskatchewan.

NEW INFORMATION:

- (1) DATE AND TIME OF SIGHTING; 78 AUG 02 at 2:15 AM
- (2) CONDITION OF SKY; Cloudy
- (3) LOCATION OF OBSERVER; First sighting from master bedroom (Mrs. RUDY). Second sighting from diningroom (Mr. & Mrs. RUDY).
- (4) OCCURRENCE OBSERVED; Mrs. RUDY described it as something moving in the Easterly to Westerly direction within a distance of approximately three feet, moving up and down slightly (10 inches). During the second observation from the diningroom, subject described the object as moving South in an up and down movement. She compared it to something having trouble staying in one spot. Mrs. RUDY's first sighting was from the bedroom when she observed this object for approximately ten to fifteen seconds. Mr. RUDY was awoken by his wife and they both went to the diningroom where they saw this object going Southbound to the horizon.
- (5) LUMINOSITY; Described as much brighter than a planet. It was like a set of good car lights only yellowish. Subject also compared it to the color of a bulb inside a flashlight turned on, only much brighter.

(cont'd ... /2)

Re: Sighting of U.F.O. - Codette District - 78 AUG 03

- (6) COLOUR; Fireball, subject stated that nothing was visible as a trail of any kind.
- (7) SIZE IN RELATION TO MOON AND SHAPE; Size, four to five feet in diameter. Shape, round like an orange.
- (8) DURATION; First sighting by Mrs. RUDY from the master bedroom was for ten to fifteen seconds. Second sighting, both Mr. & Mrs. RUDY observed the object from the dining-room travelling South for Thirty to forty-five seconds until it disappeared in the distance.
- (9) SOUND; No sound whatsoever was heard, nor was anything such as an appliance or otherwise turned on inside the house.
POSITION IN THE SKY; Described as horizontal to the ground and close, approximately one foot off the crop.
- (10) OTHER; There is no physical evidence in the crop or in the immediate area that any object had touched the ground. Mr. and Mrs. RUDY are mature and respected citizens of the area. Mr. RUDY is the Vice-Principal of the Carrot River School. Inquiries in the area failed to reveal any other sightings.

2. Photos were taken and are numbered one through six inclusive with the following explanations.

- (1) PHOTO #1 - picture was taken from the diningroom window and shows the area in which the object was observed. It was seen going back and forth from the treeline to the gas tank. This is described in the Question #4 noted above.
- (2) PHOTO #2 - Picture taken standing by gas tank in a South direction.
- (3) PHOTO #2 - Picture taken in a South-easterly direction.
- (4) PHOTO #4 - Picture taken in a South direction.
- (5) PHOTO #5 - Shows the house and the location of the occupants during the sighting
- (6) PHOTO #6 - Same as PHOTO #5

(cont'd ... /3)

INFORMATION RECEIVED FROM MRS. DOREEN LANG

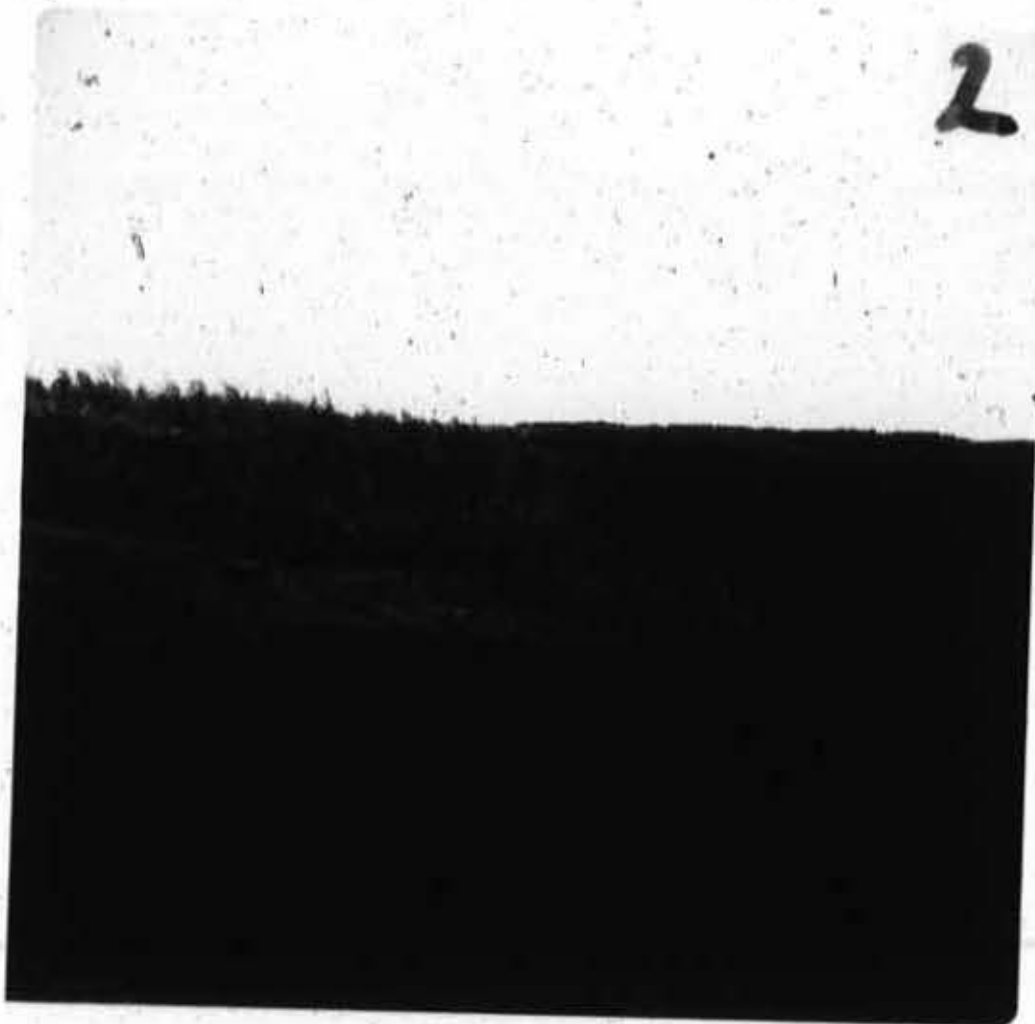

- (1) DATE AND TIME OF SIGHTING; 78 AUG 01 at 11:30 PM
- (2) CONDITION OF SKY; Cloudy
- (3) LOCATION OF OBSERVER; residence, master bedroom (Land Description - Southwest of the 27,49, 13, of the 2nd)
- (4) OCCURRENCE OBSERVED; Mrs. LANG observed a bright yellow light moving from a South to Northeasterly direction which appeared to be in a great distance.
- (5) LUMINOSITY; Described as much brighter than the planets.
- (6) COLOUR; Fireball, subject stated that nothing was visible until it was in position Northeasterly in the sky at which time she noted a trail of sparks behind this object.
- (7) SIZE IN RELATION TO MOON AND SHAPE; Size, half the size of the moon and in the shape compared to an orange.
- (8) DURATION; Approximately ten to fifteen seconds.
- (9) SOUND; No sound whatsoever was heard.
- (10) OTHER; No other occupants of the house witnessed this sighting.

REPORT OF U.F.O.

N78/159

A/N advised that he and his wife had been swimming at a friend's place in Silverton and had occasion to observe a shiny object near the moon. A/N describes the object as minute and shining, possibly metallic in composition. At 1400 hrs., the object was at the top corner of the moon and at 1900 hrs., it's position had changed to the bottom corner of the moon. A/N stated that only part of the moon was visible and the positions of the object would be in relation to the part of the moon that was visible. Complainant seems to feel that the object could be a satellite.

NOTE *****

Nelson radio advises that similar sightings were made in Castlegar, B.C. and the sources are reputable.

RE: - OBJET:

Bonnie McCALLUM
 Complaint of Unidentified Flying Object
 Laybolt Rd., Col.Co., N.S. 12 JUL 78

FILE	(4912-5)
ENCL.	#23
DIR. TO	A. Claude
INDEXED BY	or
MAIN FILE CHANGED TO	-

1. At approximately 2240 hrs. D.S.T. on the 78 JUL 12, I received a complaint from an anonymous female who stated she saw a U.F.O. in the sky. Patrol was made in the area of the Laybolt Road, Onslow by myself and Auxiliary Member Robert Murray. Upon arrival, no trace of a U.F.O. could be found. We found several people standing alongside the roadway. One lady is identified as being the complainant, Bonnie McCALLUM of the Laybolt Road area. She stated that herself along with her son, Robert Wade McCALLUM, age 10, and a Brenda FISHER, age 17, had seen this U.F.O. Bonnie McCALLUM is thirty years old. They all stated that they had seen this big light hovering over the trees to the west. They described it as having one big light in the center and colored lights strung across the bottom of this object. It was described as being half-moon shaped, approximately fifteen feet in diameter, with one large white light in the center, and smaller colored lights on each side. FISHER stated that it had a yellow and orange light on the left side and a red and blue light on the right side. They stated that while they watched this object, it hovered over the trees on the horizon, approximately one mile off to the west of Laybolt Road. They stated that after hovering for approximately one-half hour, it sunk down out of sight behind the trees for a couple of minutes then just took off towards the easterly direction. They said they were at their home on the Laybolt Road when this sighting occurred, and that the sighting lasted approximately three quarters of an hour. McCALLUM stated that she watched it for about half an hour before she finally called in the complaint. They all stated that this object didn't make any noise and just hovered over the trees.

2. McCALLUM stated that her sister, Violet STONE, who lived next door, also saw this object. Upon questioning STONE, I was advised by her that this object was an airplane, or so she thought. She stated also that it was of the same description and didn't make any noise.

3. The last person to see this object was Douglas Churchill ROY (B:17 MAY 37) who lives in the area where the sighting occurred. He stated he only saw this object as it took off and it was from quite a distance. He stated that he thought it was an airplane, but it wasn't making any noise.

....2

Bonnie McCALLUM
Complaint of Unidentified Flying Object

4. I was advised by Cst. Terry WISHART of this Detachment that on the same night at approximately Midnight, he saw an object that matched the same description, but stated that it was a plane with its landing lights on. He saw it from his home in the Trailer Court in Onslow.

5. On the night of this sighting, we had a clear sky and it was quite calm. It is my opinion that the object seen in the Laybolt Road area may be the same object seen by Cst. WISHART a short time later from his home in Onslow. These people who saw this object, however, feel quite sure that it was not an airplane. I leave it at your discretion on the action to be taken. I have taken statements from all involved on what they saw if this is of any assistance to you.

Bonnie McCALLUM
Complaint of Unidentified Flying Object
Laybolt Rd., Col.Co., N.S. 12 JUL 78

1. At approximately 2240 hrs. D.S.T. on the 78 JUL 12, I received a complaint from an anonymous female who stated she saw a U.F.O. in the sky. Patrol was made in the area of the Laybolt Road, Onslow by myself and Auxiliary Member Robert Murray. Upon arrival, no trace of a U.F.O. could be found. We found several people standing alongside the roadway. One lady is identified as being the complainant, Bonnie McCALLUM of the Laybolt Road area. She stated that herself along with her son, Robert Wade McCALLUM, age 10, and a Brenda FISHER, age 17, had seen this U.F.O. Bonnie McCALLUM is thirty years old. They all stated that they had seen this big light hovering over the trees to the west. They described it as having one big light in the center and colored lights strung across the bottom of this object. It was described as being half-moon shaped, approximately fifteen feet in diameter, with one large white light in the center, and smaller colored lights on each side. FISHER stated that it had a yellow and orange light on the left side and a red and blue light on the right side. They stated that while they watched this object, it hovered over the trees on the horizon, approximately one mile off to the west of Laybolt Road. They stated that after hovering for approximately one-half hour, it sunk down out of sight behind the trees for a couple of minutes then just took off towards the easterly direction. They said they were at their home on the Laybolt Road when this sighting occurred, and that the sighting lasted approximately three quarters of an hour. McCALLUM stated that she watched it for about half an hour before she finally called in the complaint. They all stated that this object didn't make any noise and just hovered over the trees.

2. McCALLUM stated that her sister, Violet STONE, who lived next door, also saw this object. Upon questioning STONE, I was advised by her that this object was an airplane, or so she thought. She stated also that it was of the same description and didn't make any noise.

3. The last person to see this object was Douglas Churchill NOY (B:17 MAY 37) who lives in the area where the sighting occurred. He stated he only saw this object as it took off and it was from quite a distance. He stated that he thought it was an airplane, but it wasn't making any noise.

.....2

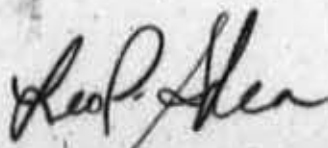

RE - OBJET

PAGE 2.

Bonnie McCALLUM
Complaint of Unidentified Flying Object

4. I was advised by Cst. Terry WISHART of this Detachment that on the same night at approximately Midnight, he saw an object that matched the same description, but stated that it was a plane with its landing lights on. He saw it from his home in the Trailer Court in Onslow.

5. On the night of this sighting, we had a clear sky and it was quite calm. It is my opinion that the object seen in the Laybolt Road area may be the same object seen by Cst. WISHART a short time later from his home in Onslow. These people who saw this object, however, feel quite sure that it was not an airplane. I leave it at your discretion on the action to be taken. I have taken statements from all involved on what they saw if this is of any assistance to you.

RE - OBJET:

Kim DRAPER (DOB: 01 DEC '62)
U.F.O. Sighting
Richmond, B.C. 78 AUG 03
(RICHMOND TOWNSHIP DETACHMENT CASE) (ORG)

1. On 78 AUG 03 at approx. 2355 Hrs., Cst. MEYER attended at 5840 Reeves Rd., Richmond B.C., and spoke to Kim DRAPER regarding a U.F.O. sighting she witnessed. DRAPER stated that she was in the company of the following three (3) subjects who also witnessed the U.F.O. sighting.

Nancy HAYNES (DOB: 62 JUL 10)
5880 Gibbons Drive
Richmond, B.C.
Phone: 278-4351

N78/169

Karen McKAY (DOB: 62 MAY 13)
6191 Azure Rd.
Richmond, B.C.
Phone: 277-1618

Robin ZEIDLER (DOB: 62 DEC 13)
7120 Marrington Rd.
Richmond, B.C.
Phone: 274-3889

2. Cst. MEYER then questioned the above four (4) subjects and obtained written statements from each one. Diagrams of what each person saw were drawn on the rear of each statement. The girls were divided up into separate rooms as they could not then influence each other in the giving of their statements.
3. In checking over each statement once completed, they were found to be somewhat similar. The A/N subjects saw what appeared to be an oval shaped object with rows of pulsating white lights. The object was considered to be approx. 30' in diameter and hovering $\frac{1}{4}$ of a mile up in the sky in a stationary position.
4. The U.F.O. made no noise throughout the entire sighting. The object then proceeded in a southerly direction and then vanished. Refer to the attached statements for further details.
5. Cst. MEYER attended at the Vancouver International Airport Tower and spoke to the shift supervisor, Moriss BRAGER, regarding the above incident. BRAGER, in checking the flight log book, stated that they had not seen any UFO's on radar nor did they receive any phone calls re the above.

....con't

CONTINUATION - 2

Kim DRAPER (DOB: 01 DEC '62)
U.F.O. Sighting
Richmond, B.C.

(RICHMOND TOWNSHIP DETACHMENT CASE) (ORG)

..con't

BRAGER also stated that several planes landed and lifted off between 2230 Hrs., and 2300 Hrs., on 78 AUG 03, and he feels that they perhaps either saw that or a Sky-Add plane flying by. The location of the observers at the time of sighting was on Westminister Hwy near Gibbons Rd., Richmond, B.C. The Vancouver International Airport is located approx. two (2) miles north of where the sighting was made.

6. In conversation with the A/N subjects it was obvious that they were telling the truth as they were very concerned and serious about what had happened. Due to their ages the possibility of human error cannot be overlooked.
7. In Cst. MEYER'S opinion it is believed that the four (4) girls in question actually saw something, but what they saw remains to be identified.
8. Unclassified Telex Message sent to National Research Council Meteor Centre, Ottawa, Ontario on 78 AUG 19 re the above incident.

STATEMENT OF WITNESS

Place: 5840 REEVES ROAD

Date: AUGUST 4, 1978

Time: 9:30 P.M.

STATEMENT OF KAREN L. MCKAY (B.D. 5/13/52) TEL NO 277-1618

Address: 6191 AZURE ROAD RICHMOND B.C.

ON Thursday night, August 3, myself and three of my friends, KIM DRAPER, NANCY HANES, ALISON ZEIDLER, saw an object in the south, which we believe it must of been a U.F.O as the object was in such a position that it could not have been a plane, as the object was in such a position that it was definately not moving at all, as a plane would of, and there was no noise at all from where myself, and three of my friends were standing, as we spotted the object on Westminster Highway, close to GIBBONS DRIVE, as we were walking to Nancy Hanes house, at 10:30 P.M Thursday night. We saw it approximately $\frac{1}{2}$ a mile up in the sky as it was just at the top of some trees across from where we were standing. The object was an oval shape with a strip of lights (squares) approximately five lights with a very sharp bright

I have read this statement and it is true and correct to the best of my knowledge and belief.

STATEMENT OF WITNESS

Place: 5840 Reeves

Date: August 4, 1978

Time: 9:30 pm

STATEMENT OF Robin Alison Zeidlse (B.D. 12/13/62) TEL NO 274-3389

Address: 7120 Maddington Rd., Richmond, B.C.

On August 3, approximately 10:40 pm for myself and three
friends Nancy Haynes, Kim Draper and Karen McKay were
walking on Westminster Highway westbound. Between
Dinnerdale Rd and Gibbons Drive, Nancy Haynes spotted
an object in the sky between a cluster of trees. It was
slightly oval or circular shaped. I was the second one
to spot this object then Karen McKay and lastly Kim
Draper. I saw eight lights which were white in color.
These lights looked like they were on the side of this object and
all around it. I could only see one side, but I saw the
beginnings of ^{more} lights bending around the object. These
lights which were rectangular in shape (convex at
the sides) twinkled slightly. They seemed to fade ^{a little} and
then would appear to come back in focus better. I saw
a double row of ^{these} lights, four separate lights altogether.
This object was not very far away and it appeared ^{just} over
the tops of the trees on the other side of the road. This
object was stationary between this gap of trees ~~from~~
for about six seconds. Then we moved on to the next.

I have read this statement and it is true and correct to the best
of my knowledge and belief.

Witnessed:

R.C.M. Police.

Rh

Sky was clear, darkness at the time.

gap of trees. It was still there. I did not notice any change in location, size or brightness. We kept walking until just before Gibbons Drive. I looked for it and I did not see it. The size of this object was about 35 feet along the side I said. There seemed to be something on the top, ~~but~~ but I could not see a light on top.

STATEMENT OF WITNESS

Place: RR 5240 P. 1000 (ol.)

Date: August 4

Time: 9:30 P.M.

STATEMENT OF George C. Harper (B.D. July 22, 1922) TEL NO 278-4351

Address: 2340 Gibbons Dr.

Walking between Riverside and Hillman roads on
W. 100th St. I looked up and saw a series
of bright lights. I told my friend. He was
about 300 ft off the ground. I saw a small
it had a row of four rectangular lights with a
few above the row. It would be about the length
of the wing span of a 747 jet. I moved slowly to the
right but it seemed to stay still and move and stay
still and move. When we got around the next bunch
of trees it had moved quite a ways. Then around
the next bunch of trees it would be it came
at least it would. Quite close. I saw some
more. The lights were white and quite bright.
When I looked like the way a star looks. We
saw it about 10:15 - 10:30 P.M., August 3rd 1978 -

I have read this statement and it is true and correct to the best
of my knowledge and belief.

STATEMENT OF WITNESS

Place: 5840 REEVES RD

Date: August 4 1978

Time: 9:30

STATEMENT OF Kim Dwyer (B.D. Dec 1 1942) TEL NO 278-6903

Address: 5840 Reeves Rd. Richmond B.C. Canada

On August 3rd, 1978 about 10:40 P.M.

NANCY H. ALISON Z. ~~AND~~ KAREN Mc and I were driving
my house and going to Nancy's house we took the Westminster
Highway route approximately half way between Riverdale
Rd. and Gibbons drive Nancy looked up in the air and
showed us all something with big lights we all
looked up. In the air approximately a 1/2 of a mile
up we saw an object about ^{the} size of 2 big planes (747's).
I ^{saw} approx. 12 big light at size of 6' by 10'
Not flashing, nothing blinked at anytime. Then I saw
dimmer lights surround the big ones approx 3' by 5' and some
1' by 2' all the lights were ~~bright~~ white, it was in the
south direction and not moving and no noise could be heard.
I saw something on top but is hard to define and draw
because we all got scared and ran, we then saw it
again in an opening through the trees it looked
like it was going down (sunset style) moving slowly and
disappearing behind something) towards the south we
continued running and reached Nancy's house really shaken
we then phoned the police at 10:45 approx.

I have read this statement and it is true and correct to the best
of my knowledge and belief.

Witnessed:

RE: DANIEL TAYLOR - REPORT OF UNIDENTIFIED FLYING OBJECT
BARRIERE, B.C. 75 AUG 25

AT 1120 HRS 75 AUG 25 PST UFO SITED AT BARRIERE B.C. THE REPORT WAS MADE BY DANIEL PIERRE TAYLOR, DOB 54 JUN 10 OF BOX 480 BARRIERE, B.C. PH NO. 672-5602, OBSERVED THE UFO FROM HIS RESIDENCE ON ORIOLE WAY. THE UFO WAS ALSO WITNESSED BY MRS DANIEL TAYLOR AND MRS V.D. LEDDING. THERE WERE SEVERAL CLOUDS IN THE SKY AT TIME OF SITING. THE OBJECT WAS DESCRIBED AS CIGAR SHAPE, WIDER AT EACH END THAN IN THE MIDDLE, SHINING SILVER REFLECTING THE SUN. ONLY ONE OBJECT WAS NOTED. MR TAYLOR OBSERVED THE UFO IN THE SKY NORTH OF BARRIERE FROM A TWO O'CLOCK POSITION IN THE EASTERLY SKY TO A TEN O'CLOCK POSITION IN THE WESTERLY SKY WHERE IT DISAPPEARED BEHIND THE CLOUDS. MR TAYLOR STATES HE OBSERVED THE OBJECT FOR APPROXIMATELY 7 MINUTES. MRS TAYLOR AND MRS LEDDING DID NOT OBSERVE THE OBJECT FOR THE COMPLETE 7 MINUTES. THE UFO DID NOT MAKE ANY NOISE AND SEEMED TO BE FLOATING OR DRIFTING AT CLOUD LEVEL AT ESTIMATED SPEED OF 30 M.P.H. TAYLOR COULD NOT ESTIMATE THE ALTITUDE OR SIZE OF THE OBJECT. MR TAYLOR WENT NEXT DOOR AND POINTED OUT THE OBJECT TO MRS LEDDING.

Report of Unidentified Flying Object

TAYLOR reports seeing a U.F.O. at 1120 hrs, 78 AUG 25 Pacific Standard Time. The report was made by Daniel Pierre TAYLOR (DOB: 54 JUN 10) of Box 480 Barriere, B.C. 672-5602, who observed the U.F.O. from his residence on Oriole Way. The U.F.O. was also witnessed by Mrs. Daniel TAYLOR and Mrs. W.D. LEDDING.. There were several clouds in the sky at the time of the sighting. The object was described as cigar shaped (wider at each end than in the middle), shining silver reflecting the sun. Only one object was noted. Mr. TAYLOR observed the U.F.O. in the sky north of Barriere from a 2 oclock position in the Easterly sky to a 10 oclock position in the Westerly sky where it disappeared behind the clouds. Mr. TAYLOR states he observed the object for approx. seven minutes. Mrs. TAYLOR and Mrs. LEDDING did not observe the object for the complete seven minutes. The U.F.O. did not make any noise and seemed to be floating (drifting) at cloud level at an estimated speed of 30 M.P.H. TAYLOR could not estimate the altitude or the size of the object. Mr. TAYLOR went next door and pointed out the object to Mrs. LEDDING.

78 AUG 25

Mr. & Mrs. Dan TAYLOR appear to be reliable witnesses.

Because Mrs. W.D. LEDDING is the investigating members wife,
it has to be concluded that this is an authentic U.F.O.
sighting.

This member talked to Mr. Brian Murray and his family- Elaine Murray-wife-age 29 yrs., Michelle Murray-daughter-age 9 yrs., Daryl Murray-son-7 yrs. at their residence (152 Muir Cres. N.W. Medicine Hat, Alberta) and the following was related to myself:

On the night of the 27th of August 1978 at 9:45 P.M. apprx. 36 km. west of Bassano, Alberta, while travelling in a eastly direction on the Trans Canada Hwy. Mr. Murray observed a dark solid object, which appeared to be long and flat in shape, through the front windshield of his van. He mentioned the object to his wife and children and all four of them watched the object for approx 1/2 an hour. The object seemed to pace the vehicle and did not vary in size. Approx. 10 minutes after first sighting the object, the daughter of Mr. Murray, spotted a second object a little further behind the first object and it seemed to be farther away than the first object. Both objects were to the north of the van and both could be seen quite clearly because of the display of Northern lights that were in effect that night. Shortly after sighting the second object, the first object moved closer and in front of the van. The object started to move from one side of the hwy. to the other side of the hwy.. At the time the object started to move from side to side it was observed through the open windows (side) of the van by both Mr. Murray and Mrs. Murray. Also at this time the vehicular traffic was moderate in both lanes of the hwy.. The first object started

cont. from page 1

to move closer to the van and both Mr. and Mrs. Murray noticed that the hwy. traffic had dwindled to nothing. As the object moved closer to the van Mrs. Murray received a better view of the object and described it as follows: It looked like a long round disk and the edges were curved upwards and went into a small rounded hump that was in the middle on the top side of the object.

Mr. Murray had slowed to approx. 15-20 M.P.H. and observed a vehicle approaching from the rear of the van and about this time the object rose slowly into the air and moved in close to the second object and then both objects moved off to the south. Mr. Murray stopped the van and got out looking for the objects but both had disappeared.

The conditions that night were as follows: There was no moon and the sky was clear except for a few high hazy clouds. The only other sky condition was the display of Northern Lights.

It is the opinion of this member that the Murray family did see something that night and while they were relaying the incident to myself the family did not exaggerate or fantasize but presented a clear and concise account of what happened that night.

RE: - OBJET: Woodrow ELLSWORTH Report of Unidentified Flying Object Piccadilly, Nfld. - 78 AUG 31		FILE (4712-5) ENCL DIR TO A. Claude INDEXED BY MAIN FILE CHARGED TO -	
This is further to telex message forwarded on 78 AUG 31. 1. On 78 AUG 31, Woodrow ELLSWORTH (B: 52 FEB 04) of 1 Stanley Place, Stephenville, Nfld., came to the R.C.M. Police Detachment at Stephenville, Nfld. and reported that at 2145 hrs on the above date, he was travelling east on Highway 463 in Piccadilly, Nfld. when he and a passenger in his car noticed a large bright object in the sky moving from west to east. ELLSWORTH was a taxi driver for a local taxi company in Stephenville, Nfld. and was in the Piccadilly area when he picked up Clancy WHITE hitch hiking on the road. 2. ELLSWORTH reports that at the time of the sighting the sky was clear and star lit, with the northern lights slightly visible. 3. When the object was sighted, ELLSWORTH was approximately one mile east of Piccadilly Beach. 4. There were no reported bursts of speed. The object moved slowly and steadily. 5. The object glowed brightly. It appeared dull as compared to the moon and the brightness of the object hurt the eyes when ELLSWORTH looked directly at it. He compared the brightness of the object to the brightness of an arc welding flash. 6. The object did not look like a shooting star. One witness reported the object as very bright red on the inside and bright blue on the outside, with no tail at the rear. 7. The object was described as somewhat tubular in shape and streamlined like a commercial aircraft. 8. The object was observed for approximately five to six minutes. 9. Both witnesses report no sound coming from the object. 10. ELLSWORTH reports the object as being approximately 100 ft. above the ground, while WHITE states the object was very distant in the sky, so far away in fact that he could not comment on its size. 11. ELLSWORTH states that two or three red lights were flashing on the inside of the object and that the object had windows similar to that found in commercial aircraft.			
<u>CONTINUED ON PAGE "2"</u>			

Woodrow ELLSWORTH
 Report of Unidentified Flying Object
 Piccadilly, Nfld. - 78 AUG 31
 (78/2164)

"2"

CONTINUED FROM PAGE "1"

REMARKS:

The sighting of this object was related to the writer by Woodrow ELLSWORTH in the first instance, with WHITE being unconcerned whether or not the matter was reported. Since the time of the sighting, efforts were made to locate WHITE, however, during the summer he had no fixed address and at the time ELLSWORTH did not know the name of the person he had picked up.

WHITE's account of what happened is very different from that of ELLSWORTH. WHITE claims he recalls the incident vividly and that he could not give an adequate description of the object.

This report forwarded direct to the National Research Council, Planetary Sciences Section, 100 Sussex Drive, Ottawa, Ontario.

Dear Sir:

1. On 78 Sept 11 at approximately 12:00 midnight, Mr. Fred WESOLOWSKI, his mother Tina WESOLOWSKI and sister Laverna WESOLOWSKI were proceeding south-east on highway #41 near Aberdeen, Sask. WESOLOWSKI reports that he observed the following:

Four pulsating silver/blue lights in a vertical column at approximately 1 mile distance. The lights then separated and formed various patterns at times and at other times were at random. Lights continued to pulsate rapidly and change color from silver/blue to yellow to pink several times in no sequence. Lights travelled very fast horizontally. WESOLOWSKI feels there was a solid object at the source of each light but could not make out any discernable shape.

2. WESOLOWSKI watched the lights for approximately 1 minute. It is not known in what direction or manner the lights left. WESOLOWSKI was visibly shaken by the sighting but in my opinion, as well as two other members of this Detachment; he is a reliable witness and is mentally competent.

3. Saskatoon Airport control reports no unusual sightings or trackings during time in question.

(R.H.L.) S/Sgt.
i/c Det.

M. J. Shaw

RE: - OBJET: Chester LETHBRIDGE
Report of U.F.O. Sighting
Clareville, Nfld. - 78-10-12

AT 03 00, 78-10-12, Mr. & Mrs. Chester LETHBRIDGE, Marine Drive, Clareville, Nfld. observed the following described object for approximately two hours. Mr. LETHBRIDGE observed it with the aid of binoculars from outside his residence. The sky was clear at this time and the object was observed over Random Island, Trinity Bay, Nfld. Object described as circular, 35 - 40 feet in diameter, flashing red, blue and yellow lights. It was approximately 500 feet above sea level and there was no movement. Mrs. LETHBRIDGE reported this to the Department of National Defence, Gander, Nfld. at the time.

2. These witnesses are of unknown reliability.
3. A telex has been forwarded to the National Research Council, Ottawa.

Report of U F.O. Sighting
Clareville, Nfld. - 78-10-12**

AT 03 00, 78-10-12, Mr. & Mrs. Chester LETHBRIDGE, Marine Drive, Clareville, Nfld. observed the following described object for approximately two hours. Mr. LETHBRIDGE observed it with the aid of binoculars from outside his residence. The sky was clear at this time and the object was observed over Random Island, Trinity Bay, Nfld. Object described as circular, 35 - 40 feet in diameter, flashing red, blue and yellow lights. It was approximately 500 feet above sea level and there was no movement. Mrs. LETHBRIDGE reported this to the Department of National Defence, Gander, Nfld. at the time.

2. These witnesses are of unknown reliability.
3. A telex has been forwarded to the National Research Council, Ottawa.

RE:
OBJET:

Mel VANSTONE - U.F.O. Sighting,
Near Olds, Alberta - 78 OCT 14

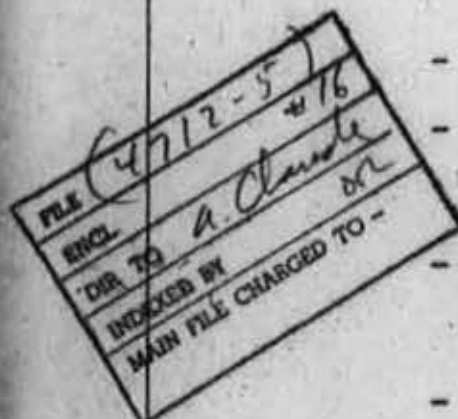

N78/194

DR A G McNamee

1. In reference to our Telex #OLD 100, forwarded to your point on 78 OCT 15. The following is a complete report of the sighting.

- Date and time of the sighting was 78 OCT 14 at 1855 hours.
- Condition of the sky was clear.
- Location of the observer was on the west side of Highway #2 (in park lane) at the junction with Highway #27, near Olds, Alberta
- There were no occurrences of bursts.
- The brightness could be compared to that of a shining star at night. If there were any shadows cast, it could not be seen.
- The colour of the object was that of a white light. No trail could be seen either in front or behind the object.
- Size of the object was similar to a large plane. Shape of the object was thin, almost pancake shape.
- Duration of the sighting, from the time of the actual complaint, lasted for approximately five (5) minutes. Again, there was no persistent trail in the sky.
- No sounds could be heard at all.
- Position of the object in the sky, from where sighting occurred, was to the south-west of the Town of Olds, Alberta, and around 30,000 - 35,000 feet in the sky, well above the Rocky Mountain range, with the object being parallel to the ground.
- No other unusual observations occurred.

.../2

Mel VANSTONE - U.F.O. Sighting

- The complainant, Mel VANSTONE of #117 Penhold Trailer Court, Penhold, Alberta (phone: 886-4992) was travelling home from Calgary, Alberta, driving north on #2 Highway.
- It was during this time that VANSTONE noticed the object and had been observing it for a few miles. VANSTONE came across a member of this Force parked at the junction of #2 Highway and #27 Highway.
- VANSTONE reported the incident to this member. The object was viewed by both the writer and VANSTONE. At this point, it was felt that the object being viewed was the reflection from a jet, as the sun was just setting.
- VANSTONE is with the Canadian Air Force and is stationed at Penhold. He shall be reporting this incident to the Air Force. This would suggest the reliability of the complainant, along with the fact that the object or reflection was also viewed by a member of the RCMP.
- No other sightings or complaints of U.F.O. sightings were reported during the date in question.

Clareville, Nfld. - 78-10-26

At 01 45 hours, Mr. Chester LETHBRIDGE, Marine Drive, Clareville, Nfld., reported a UFO sighting in the area of Random Island, Trinity Bay, Nfld. The following described object was also witnessed by Mrs. Chester LETHBRIDGE and Cst. James BLACKWOOD of this Detachment. This object was observed with the aid of binoculars and a telescope from outside the LETHBRIDGE residence. The sky was clear at this time and the object was observed at an altitude of approximately three to four thousand feet. Object was described as oval shaped with a large triangular shaped fin on top, completely white with red, white and blue flashing lights and very bright. The object was stationary for approximately one hour at which time it moved straight up at a slow rate of speed. This has been reported to the Department of National Defence, Gander, Nfld.

RCMP spots UFO

CLARENVILLE, Nfld. (CP) — An officer assigned to the RCMP detachment here sat and watched an unidentified flying object for more than an hour earlier this week, an RCMP officer here confirmed Friday.

The sighting came after an officer answered a call at 1:45 a.m. Oct. 26. The officer then observed an oval shaped object hovering at about 1,000 metres for more than an hour above Random Island, east of here, the police spokesman said.

The name of the officer who saw the object has not been released.

However, RCMP here do say that the officer watched the object through a telescope and provided a detailed description of it.

It had a pyramid-shaped fin on the top of an oval shaped white body and it flashed red, blue, and white lights for more than an hour before "it went straight up and disappeared."

A report on the incident has been filed with the National Research Council in Ottawa.

RCMP officers here have refused to provide the names of those who saw the object and reported it.

Meanwhile, a spokesman at the Air Traffic Control centre at the Gander International Airport said nothing had been logged to indicate that a UFO had been in the area.

NOTE TO UFO FILE. REPORTS: N78/192,198,199.

RE: Reports from Chesterville, NFLD

1/ N78/192 03:00 am the Oct 12, 1978. Duration 2 hours, east.
04:30 to 06:30 ast, Oct 12, 1978.

2/ N78/198 01:45 am 26 Oct 78. Duration 1 hour, east.

3/ N78/199 23:30 std NFLD time, 1 Nov 78 Gander

The first two reports, 13 days apart, are by the same people and describe very similar objects.

These objects were most likely the planet Jupiter, which is quite brilliant. It rises about midnight in mid-October, and is near the meridian at sunrise.

Saturn and several bright stars are also in the eastern sky at this time.

RE: Report from North River, Nova Scotia.

N78/193 18:30 ast (6:30 pm) 11 Oct 78.

No azimuth or elevation data are given in this report so that it is impossible to say what part of the sky it was located in.

However, it may be noted that Venus is very bright, low in the western sky after sunset!

RE: - OBJET:

Daniel SCHRIVER -
UFO Sighting
Maugerville, York Co. N.B.

78.07.01

1. Sighted on the above date by the captionally noted person at approximately 1230 hours.
2. Skies conditions' at the time of his sighting was one of very high broken cloud cover.
3. Position of observer was approximately 8 kilometers east of the Princess Margret Bridge on the Trans-Canada Highway, #2 highway, located at Maugerville, York County, New Brunswick.
4. Luminosity of object compared to other objects was a bit greater than surrounding stars.
5. It was reported by the complainant the object observed changed colors from blue, red, green, and yellow. Two smaller objects were reported leaving the larger object leaving a blue luminous trail. These two objects returned to a larger object ten minutes later. The larger object was a triangular shape.
6. The larger object appeared to be a bit larger than surrounding stars.
7. Duration of sighting lasted approximately two hours after which the observer gave up the watch.
8. No sounds were given off by these objects.
9. Position of these objects were approximately 38,000 feet in the eastern sky and the two smaller objects travelled to a level of approximately 20,000 feet before returning to larger object.
10. The larger object was observed by the investigating member and it is the opinion of this member that the larger one was a star. The change in colors may have resulted from the high broken cloud cover. This report appears to be an exaggeration on the part of the complainant, although he believes he seen the things he described as noted in Par.#5. It is felt there is no intent on behalf of the complainant to mislead the investigating member.

Concluded Here.

Sir:

Re: Compl. C78-5715 - Reported
Sighting of Unidentified Flying
Object. St. Albert, Alta. 78 SEP 03
2200 hours.

Brian CHOBOTAR, age 14 years, #199 Grandin Village, St. Albert, Alberta. Phone 458-0470, reported sighting on two occasions as unusual object in southwest sky and from two different locations between the hours of 2150 and 2215 MDT. At the time of the observation the sky was clear. The observer was situated on the first occasion at the corner of Greenbrier and Gatewood Avenue in St. Albert, and on the second occasion from his bedroom window. Other persons were with him and there were no similar reports on the evening in question. Observer's description of object is not very concise and he tended to emphasize that it contained two white lights and one red but was unable to judge size or shape. On each occasion sightings were about 5 - 7 minutes duration. Supon receipt of the sighting reports, C.A.F. Base Operations Officer, Captain TYMCHUK, was contacted to ascertain if he had any similar reports. He advised he had not.

Captain TYMCHUK of C.A.F. Base Operations Officer reports that he has triangulated the area and only normal flight traffic was reported. A number of persons in the area have been contacted and have not reported anything unusual. A number of people have seen lights however after watching for a while determined they were definitely aircraft.

The only witnesses reliability is felt to be dubious.

This office feels that the reported sighting is unfounded, and this file is to be concluded.

(G.S.) S/Sgt.
i/c Detachment.

Yours truly

RE: **Ronald WATKINS - UFO Sighting, #2 Highway, Near Olds, Alberta - 78 SEP 28**

DLAG Mc Namara N78/201

1. On 78 SEP 09 at 03:50 hrs. Mountain Standard Time, a strange object was reported as being sighted.
2. The sky was clear at the time.
3. The sighting was made by Ronald WATKINS of R.R. #2 Sumerland, B.C. Phone: 494-9619.
4. The sighting was made 20km south of Bowden, Alberta on Hwy. #2.
5. Subject's wife, Cher WATKINS, also saw the object.
6. The object was described as saucer-like. It was a bright, white color with small red lights - one on each side. It was approximately 500 feet above the ground. There was only one of these objects.
7. The object was observed for 10 to 15 minutes.
8. Object was first seen heading south at a high rate of speed. WATKINS was northbound and stopped his vehicle when he noticed the object. At this time, the object also stopped. They were stopped for approximately 10 minutes. When WATKINS moved five feet north, object appeared to move 1/8 mile south. They stopped and the object stopped. This was repeated several time until object was approximately one mile south of them. They left after this, and object appeared to leave at lightning speed. No sound was heard.

Patrols have been made in this area at night and the object has not been seen. WATKINS is presently on holidays and not expected back until March 1979. Both parties were very tired when sighting took place and it is possible that object was a stationary light.

A78/49 UFO SIGHTING

COMPLAINANT-LINDA LOUISE L'HEUREUX BORN 14JUN53 OF HAMLET OF
GOUSSARD ALTA SIGHTED UFO ON 78OCT29 AT 0510 HRS TIL 0520 HRS
MTN STANDARD TIME.

SKIES CLEAR PATCHES OF FOG MOON

L'HEUREUX DRIVING A VEHICLE WAS NORTH BOUND ON MAIN ACCESS
ROAD INTO GOUSSARD WHEN SHE SAW A CURVED LIKE WISP OF LIGHTED
FOG WHICH BEGAN MOVING FWD AT QUITE A SPEED. ASSUMING THAT
STRAIGHT UP IS 90DEG ANGLE THIS OBJECT WAS ABOUT 20 DEG OFF
THE HORIZON. THE WISP OF LIGHT FOG APPEARED TO HAVE BROKEN AWAY
FROM THE LIGHT WHICH WAS STILL FOR TIME BEING REVEALING A
QUARTER MOON-SHAPED OBJECT. THE OBJ GREW INT FULL MOON SHAPE
THEN MOVING OUT FM BEHIND IT CAME RED GLOWING DISC WITH BLUE
GLOWING CENTER. WE NOW HAVE A WISP OF FOG SHAPED LIKE A WEDGE
A MOON-LIKE DISC, DULL YELLOWISH IN COLOUR AND A RED, BLUE-
CENTRED DISC. THEN THE WHOLE ISSUE MOVED FWD VERY RAPIDLY IN A
WESTERLY DIRECTION THEN STOPPED. THEN THE RED DISC SHIFTED FWD
IN A SLOW MOTION TYPE OF WAY BACK INTO THE MOON DISC. THE DISC
HAD CAUGHT UP TO THE DEFINITE SHAPED FOG WISP. THERE ALSO
APPEARED AT THIS TIME TO BE AN EXHAUST TRAIL BEHIND IT. THE
ENTIRE PROCESS WAS PERFORMED OVER AGAIN TWO TIMES. THE DISC
THEN DISAPPEARED LEAVING BEHIND THE WEDGE-LIKE WISP AND
AN EXHAUST TRAIL DURATION OF OBSERVATION 3-5 MINS.
L'HEUREUX DIS NOT REPORT THIS INCIDENT UNTIL SHE HAD SECOND
SIGHTING ALONG WITH HUSBAND.

13DEC78 0550-0900 HRS MTN STAN TIME

SKIES CLR. OBJECT ALSO SIGHTED BY GUY ARTHUR L'HEUREUX
BORN 03FEB47 RELATION-HUSBAND. OBJECT SIGHTED FROM HOUSE
OWNED BY L'HEUREUX IN GOUSSARD ALTA. OBJECT APPEARED OVER
LESSER SLAVE LAKE. OBJECT A LARGE WHITE LIGHT SHINING LIKE A
STAR BUT BIGGER. TRIANGULAR IN SHAPE AND SEEMED TO PULSATE.
THERE WERE RED LIKE SPARKS OR BEAMS EMITTING FROM TOP POINT.
THE TRIANGLE WOULD FLARE UP THEN GO ROUNDISH. APPEARED TO BE
SETTLING DOWN IN A SWINGING TYPE MOTION. L'HEUREUX LOST SIGHT
OF OBJ WHEN SHE WENT TO GET HUSBAND. ON THEIR RETURN OBJ
HAD RISEN AND CHANGED LOCATION APPROX 45 DEGS. RISING IN SKY
GETTING SMALLER FOG OR HAZE AROUND IT. LOOKED THRU BINOCULARS
AT OBJ - IT WAS A DEFINITE OBJECT. OBJECT GLARING LIKE
MOLTEN STEEL OBSERVED BY L'HEUREUX TIL 0845 AND NO LONGER
SEEN AT 0900.

L'HEUREUX S ARE MATURE REASONABLE COMPETENT ADULTS. LINDA
LOUISE IS A TRAINED OBSERVER AS SHE IS A PILOT. WILL FORWARD
RESULTS OF INVESTIGATION WHEN INVESTIGATION COMPLETED.
CORRECT GOUSSARD WHERE APPEARING TO READ JOUSSARD ✓

78 DEC 18 1730 Hrs. Contacted L'HEUREUX and asked her to document both sightings. It was also learned that her husband also sighted the object on 78 OCT 29 at 0520 A.M. Appointment was made for 78 DEC 22.

78 DEC 21 1700 Hrs. Contacted L'HEUREUX and met with her at her residence in Joussard where writer was given two statements concerning three(3) sightings. I found Mrs. L'HEUREUX to be a mature and responsible adult and she doesn't seem prone to fantasy. (Attached find two statements and hand drawn diagrams of objects seen.)

78 DEC 21 2000 Hrs. Telex drafted up and sent to National Research Council, Ottawa at Telex 053-3715. Refer to Telex number 78-49.

79 JAN 07 Writer has made several inquiries around Joussard area (town) and it was learned that Mrs. L'HEUREUX is well thought of in the community and does not seem prone to pranks and or practical jokes. All reports to date have proven her to be a mature responsible & reasonable adult. L'HEUREUX is a License Pilot and is a competent observer. In interviewing L'HEUREUX, the writer must concur with above.

Re: UFO SIGHTING

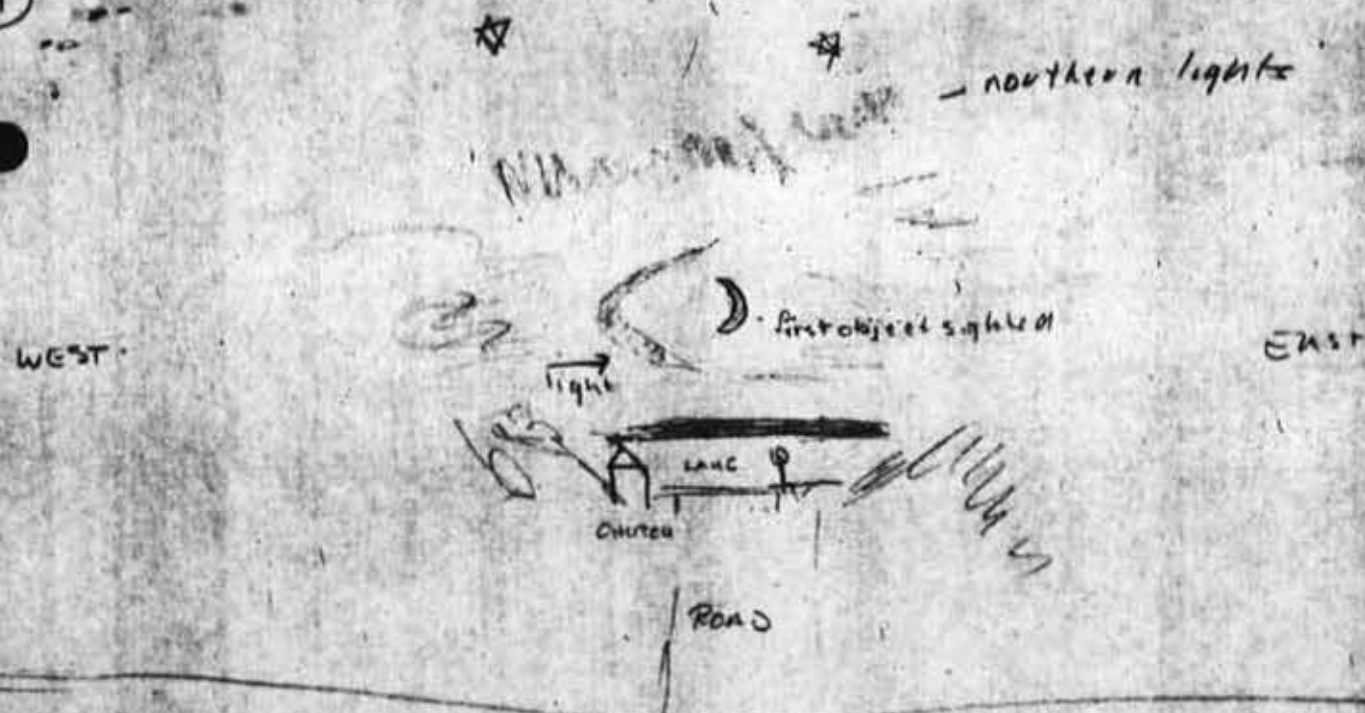

OCT 29, 1978.

Seen between approximately
5.10 - 5.20 am.

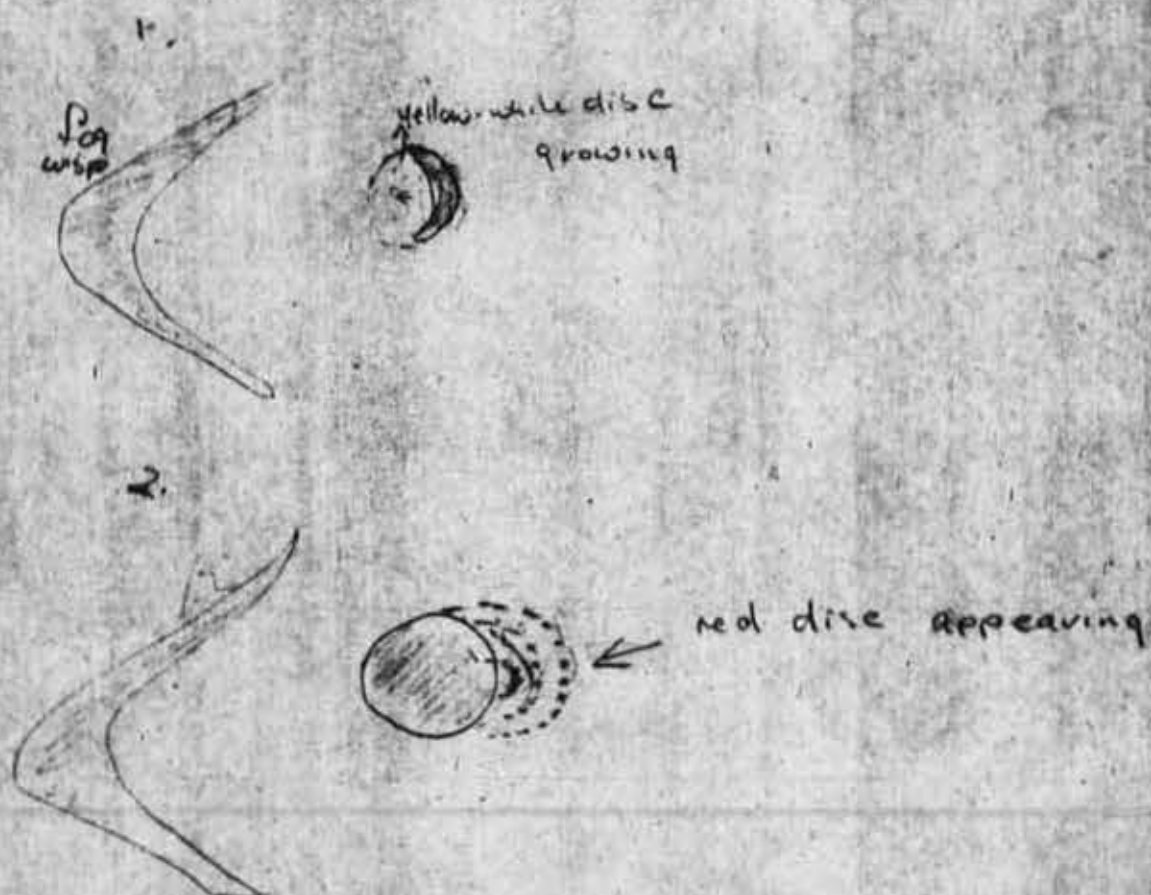

Oct 28. Went to Halloween Dance in High Prairie with husband. Had 2 beer. Went to party afterward & slept until husband & other couple, Doris & Marcel Duchesneau, were ready to come home around 4:30 am. I was driving. It had snowed several inches then cleaned, except for occasional foggy patches, and frozen. Roads were treacherous. Driving slowly, -arrived at Jassard main turnoff, turned down the road - facing lake. Sighted what appeared to be a small waning moon surrounded by fog - shining - like headlights shining on fog. ⁽¹⁾ Seemed too low to be a moon - there a curved-like wisp of lighted fog (on whatever) started moving forward at quite a speed - Faster than what an aircraft would at that distance. I assumed that it was situated over the lake about $\frac{1}{2}$ mile out. when you don't know what size something is, its hard to tell how far away it is. Assuming that straight up is a 90° angle this object was at about a 20° angle above the horizon. The wisp of lighted fog had appeared to have broken away from the light, which was still, for the time being.

①

②

I.

All that was left was the lighted wisp of
● log and an exhaust trail. She saw the log
and said it did look rather strange but must
be caused by the northern lights. I didn't point
out the exhaust trail. I felt rather stupid about
the entire matter, as I had no witnesses and
would convince no-one but myself. The sighting
is still very clear to me and entertains my thoughts
very often. I'm still trying to figure out what it
could be. Anyways, I dropped the Duchesneau's
at their house and arrived home at 5.20 a.m.
There was a moon that night, also, on the other
side of the sky.
