UNIDENTIFIED FLYING OBJECTS (UFO) FILES COPIES FOR RELEASE TO THE PUBLIC

File Number: AIR 1630 / 2 Volume 1

File Title: Reports of UFO's and Ethnology

File Timespan: Opened: 1984 - Closed 1989

File Declassified: December 2010

Location of Original File: Held at Archives New Zealand

Access to Original File: Restricted until 2059

File Contains: Correspondence between the Ministry of Defence, HQ NZDF and the Office of the Ombudsman related to the release of information to a member of the public. Correspondence to / from members of the public requesting UFO information. Numerous letters from a Christchurch based person on the subject of UFO's and ethnology.

NEW ZEALAND DEFENCE FORCE

PUBLIC RELEASE OF UNIDENTIFIED FLYING OBJECTS (UFO) FILES

These copied and redacted files of correspondence on **Unidentified Flying Objects** dating from 1952 to 2009 have been Declassified and released to the public by the New Zealand Defence Force under the Official Information Act.

Access to the original files held by Archives New Zealand is restricted up until the year 2080 for Personal Privacy reasons. These copied files have had the personal details of members of the public making UFO reports removed to preserve their privacy. Personal details of service personnel and civilians employed by the New Zealand Defence Force and other Government Departments and Agencies have not been removed. No other information has been removed or omitted from these files.

GENERAL DESCRIPTION OF FILES

Correspondence on Flying Saucers began in New Zealand Defence Force files in 1952 and continued under different names, Unidentified Flying Objects (UFO) and Unidentified Aerial Sightings (UAS) until the present. The files contain reports of sightings by private individuals and military personnel, investigations by Defence and other Government Departments and agencies into these reports, newspaper clippings on UFOs and letters from individuals who claim to be in touch with alien beings and craft.

While the files are in general date order from 1952 until the present some file periods overlap with one another and the documents within each file are not necessarily in strict date order. There can be duplicate documents within each file and copies of the same documents (particularly media releases and reports) can appear in different files.

ACCESS TO UFO FILES

These redacted files are available in hard copy from the Defence Library c/o Headquarters New Zealand Defence Force Aitken St Wellington. They are not available in electronic format.

Aug 20 - 89

There was a Light in the Cave when "He" was bringing Lazarus Back to Life = THE INNER FORM = THIS FORMULA IS NOT UNLIKE THE SINE DOTS -

"He smiled on the Face of the Waters and said Let there be LIGHT and there was LIGHT -

By the above method He made Mary PREPREGNANT - and exactly the same method He Brought Jesu Back to Life -

OR make you CRY like a BABY = NOT TOUCHING YOU - CONSIDER SUCH AS THIS IS HOW TO FLY a GLOVE OF LIGHT - SUCH ARE FREE OF THE ATOM FORMULA, THE SAME AS JESU -

There is a method by which Jesu could have Done THE Lot Himself -

Consider Jesu/s FORM Complete WITH A DIFFERENT PRINT FROM YOUR - DIFFERENT "FLESH" etc FREE FROM PARASITES -

Consider the Side DOT - with the Right letter -

Repairs = you are subjected to "growing pains" -

Those without a inner ~~from~~ ^{ESAM} start from the letter
of creation - Same as still born children -

It is obvious from animals fishes there are different
prints here and out there - Down here a ton formally
out there free from it like Jesus and the EE/s -

Remember light can be stronger than steel -
ON EARTH as it is in Heaven -
My dear old dad is such a wiz of a bloke -
He has help - the EE/s -

Dear Sir,

Could you please advise the public of the Defence Departments attitude to "UFO" sightings. I have sighted more than one daylight "disc" (craft) in the Auckland area and would want to pass any useful information onto the appropriate department if it were to happen again. It is difficult to know who to turn to: Civil Aviation?, Police?, Air Force?, S.I.S.?

These photocopies are relevant and may be interesting. These craft are real!

Yours sincerely

*Above: Part of RAF Rudloe Manor in Wiltshire where, according to information received by the author, secret research into UFOs has been carried out for many years. This photograph shows the Headquarters, Provost and Security Services.
(Author)*

Below: Admiral of the Fleet The Lord Hill-Norton GCB, Chief of Defence Staff 1971-73.

Derek Mansell, Director of Data Research for Contact UK, served in the Royal Air Force from 1950 to 1955 before spending five years in the Royal New Zealand Air Force as a Ground Crew Airman. Sometime in June of 1956 or 1957 (regrettably he can't recall the exact date), Derek told me that a Bristol 170 Mk 31M Freighter in which he was flying on a weekly flight run from Dunedin to Auckland encountered a UFO over Wellington, although no one on board actually saw the object.

Suddenly the aircraft seemed to have flown into a violent squall with the usual accompanying turbulence. 'We were enveloped in a shadow, like a cloud,' Derek told me, 'the engines started to run badly and the dials didn't function correctly. The compass spun like mad, and all communications to ground and other aircraft failed.' After about twenty-five minutes everything returned to normal.

When the Freighter landed at Ohakea the pilot of a Douglas C-47 Dakota, which had also just landed and had been following the Freighter, asked if the latter had seen a huge, metallic disc, about 250 feet in diameter, with a blue light on top and a red one on the bottom, which had apparently been just above the Freighter. They replied in the negative, but mentioned the sudden turbulence and interference with instruments and communications. The Dakota pilot reported that he was unable to contact the Freighter at this time, and said that the UFO had shadowed the other plane for twenty-five minutes. According to Derek, photographs were taken of the object by the Dakota crew which have never been released.

The Air Movements Officer asked the Commanding Officer of Ohakea Air Force Base to attend the subsequent debriefing, which lasted two hours. The crews of both the Freighter and Dakota were forbidden to leave the room while the CO asked the adjutant to bring in forms which they were obliged to sign, warning them not to discuss the matter with anyone, and reminding them of their obligations under the Official Secrets Act.

There seem to me to be at least five possible explanations for a cover-up in the first rank, though there may well be others. The first possibility is that the UFOs are man-made, by one or both of the super powers, and that their evident potential as weapons demands a degree of secrecy which makes Top Secret look like *Beano*. I must say that I simply do not believe this. If it were so, then I am sure that during my time as Chief of the Defence Staff I could not have failed to be let in on the secret, but I was not, and if I had been I should not be writing these words. Moreover, the enormous and very consistent weight of evidence from sightings, and even optical and radar measurements, make it clear enough to me that the technology of construction and propulsion of these devices is far in advance of even that of our space probes, never mind our manned space flights. I am certain that were such technology in actual use anywhere on earth it would have surfaced, either in war or, perhaps more likely, in industry. My final reason for rejecting this hypothesis is that I see no possible reason why, should these devices be man-made, the super-powers should not just say so. The man in the street could hardly be more frightened than he is already of nuclear weapons.

Second, it has been put about that all the major powers are seeking to capture a UFO, to learn its secrets, and that if they admit or disclose the results of their investigations the general public will get into the act and muddle up their plans. Third, is a variant of that notion which holds that one or more powers actually have captured a UFO (as [REDACTED] asserts plainly in Chapter 16 that this has been done in the USA) and fear that public interest will force them to disclose the fact before they have got their answers. Certainly if either of these unlikely explanations were true, and the results of the undoubted investigations were to be made public, it might just be possible for informed students of the subject to discover more than was thought to be good for them. For my part I reject out of hand either of these explanations, partly because, as with the first possibility, I think I should have known (and not be allowed to say so) but more practically because I just cannot believe that the secret would not have got out. Practically every other secret, of a physical rather than a conceptual nature, is already widely known – though Governments hate to admit it.

The two further possibilities on my list are both based on fear: fear by Governments of public reaction. The first possibility is that official

investigations have disclosed or revealed quite a lot about UFOs, even including their origin, method of construction and propulsion, and just possibly their purpose. If this is so, and if the enormous literature is to be believed, plainly there exists no human defence against them, should they be hostile. It is suggested that Governments believe this would cause some public 'alarm and despondency' (as we used to say in the Second World War) as to have even farther reaching social and political effects than the current opposition to nuclear weapons. This, I must concede, is just possible, though I do not myself believe it. On the contrary I think that were it true, the public would be relatively unmoved. Either they would not believe it or, through apathy or fatalism, they would instead shrug their shoulders and get on with what in 1987 is the difficult business of just living, winning the pools, planning holidays or going on strike – or all four.

The second of these last two possibilities is that investigations have disclosed that UFOs are not physical phenomena but paranormal, and they defy explanation. The reason for not disclosing these findings could then be reluctance to admit publicly that something very odd is going on, and that Governments do not know what it is. If so, the same line of argument about public fear applies, and I would use the same counter-arguments as before.

However these five possibilities may strike you, what seems to be common ground is that there have been thousands, perhaps tens of thousands, of sightings and encounters, physical results and of the latter, by people all over the world whose evidence on any other subject would be accepted without question. There have been major investigations lasting thirty or forty years by the Governments of the USA, Russia and France, for certain, and probably Britain and other countries. At the end of it all – today – we have no hard official information to weigh against some hundreds of books on the subject by private individuals or groups of individuals. I claim that the charge that there is a cover-up is thereby proved. What I admit defeats me is a plausible reason for it.

This excellent book adds a great deal of evidence to the whole dossier, and I warmly commend it to all who are interested in what, to me at any rate, remains a fascinating enigma.

Dear Sir/s

I have not shifted yet/ there is something special later on this year we will wait for it. Before making any moves.

As I have told you the EE/s have changed the evolution process.

I looks like my dear old dad is going to have a go at you let one of these days

Then just as there is a evolution change you will get another change which will bring the end to aggression/you will as decile as little lambs.

Dear old DAD can do anything /you better believe it.

Remember I am with you always/work it out. The EE of Galilee form -Clue A SKIN FULL. I sent you a photo years ago /actually 2 One with the Donna the one with the Big ears Form on the vertical and the rest on the horiz, ONE with the Man form on the vertical and the direction on the horiz. that one apply to me /see if you can work it out If you can work it out you will know what I am. They said of Jesu he was meek and mild you will be like that eventually.

IF man had done the right thing and taking the positive side of your bible writings there are many signs in it to show you the way. BY DAD and Jesu. there would be no DEATH.

THE EE/s can create / it would take you hundreds and hundreds to be able to do what they do.

There is a whole new field associated with with the form of man you havent touched on. WE knew what made every bone in your body.

AS dear old dad said / if you bones are strewn to the four corners of the earth when called would all fly together/that includes particles. There is no sign of the practical.

Dear Sir/s,

Every thing is on Scheduling, it is said that this is our LAST year before we are off to Heden etc. This is the Count down old chaps. You could see a craft parked on our house, it is not the ~~Flying~~ flying saucer you all talk about, it is a star craft, DAD might let you see it. It is all coming to pass now. You may never believe it, but its 150 MILLION light years to Ideligyon. I am looking forward to it all now, i have been here long enough.

.....

Jehovah that some talk about was a personality that came from another place and talked to Solomon was NOT dear old Dad.

.....

Dear old Dad is known to some Dimensions as ABA To others it is BNOZ.

.....

This Universe is known as the ETHER.

.....

It takes about half an hour to change to LIGHT. The thing is to get Alice off the Ground, to get the EEL out of her which you see in the Breath of life in transition, which keeps you on the ground. I do not have one but you all have. We will have her in B light any way, but we will try to get her in One piece NOT transition of the normal kind. Now if DAD takes a hand it will be all over in no time. There is that possibility.

.....

I have written a thing for the news paper which i sent up last week, i had sent them something a long time ago this is the conclusion. I dont expect them to publish till they find me gone. there is nothing about my origin.

.....

You have 30 years to do something about your selves.

.....

From what i can gather JESU is only going to get the Disciples kind folk up, may be those with a celestial background. Then it up to dear old Dad to do his thing.. After all you are only little personalities, compared to the tremendous size of ABA, BNOZ. He gave you Jesu, that was his last gift, the EMPT on i am the way the light, to which you havent even started WE can only make a few suggestions. A few thing about this and that,

EFERVA
206A
[Handwritten signature]

The Bible you got is the best guide to the Celestial, but it has a lot of mistakes, like Adam and Eve who are not ~~xxx/xxx/~~ Exactly human form, and the serpent, the devil you call satan who made it up we dont know, the fellow you call satan is out there but that is not his name, nothing like what you present in picture or word evil and so on, he is the BE of another Universe. Such things dont help your case for celestial membership. Jesu denounced your religion, he only gave you one poem. He never expected you to go on with this bible exercise. Seek and you will find, the practical.

.....

The Antrins of VEGA may be able to help you to some extent they are only little oo/s although there is a reasonable size one.

.....

These are the SIGNS before the end as Prephissdd, keep watching. WE are your Unidentified Flying Objects, You have some distorted ideas of a leins etc. one or two are far out close to the Dino period, the rest not to far off your form. MY kin are the ones mentioned long ago, the right hand not know what the left hand doeth, in short we are double dimensions Different feelings in one hand to the ether, just like shaking hands with some one else, this situation is needed to fly our craft. Apart from being in light we are very close to you and to enter this form is a breeze, this one is a special occasion = the Signs I dont think there is much more i can help you with. you have the answer to your U F O up above and on the ground. Thats It.

Dear Sir/s ,

You will recall the Post Card From ENOZ dear old dad where he said these from afar these near wish you Good cheer.
 Now these from afar / you cannot imagine how far ,
 There are 16 Universe/s out there all told.
 There are about 8 that are the coldest but they are so far away you would need several life times to get there.
 even travelling faster than light it would take 150 years.
 and there is a question of feed / plus IF you could could find your way / you could not imagine how far the other 8 are away / thats why he said many lands beyond this MAN.
 With your present forms you have no show of going far Some of the ones that come here are from far off places. Do not be dissapeinted with your new forms in your in your after life as there will come a day when you have nice forms , and be able to see wonders out there. You see a few from Vega , deneb and so on / which is really nothing to what is out there.
 They are dear souls really / they have been a great help to me really.
 My dear old dads home is far far away, you would never find your way there/ in these long journeys therevis no stars to guide you/ you have to know what you are doing.
 I dont think i can impress on you how far away these places are.
 350 times the speed of light is nothing to some space craft/ thats about the average crusing speed.
 By the way the Vine is the Serpent.
 Its the same in other Galaxy's.
 As for the Deludge at the time of ENOAH ank dear old dad just created molcules of water with the diving rod / he has no trouble makeing it pour like mad / and how./ frem what we know it would not take much with what he has got .
 As for Eneah holding back the sea /opening it etc we knew what it was that did it / as we knew what the vine is .
 There is not much we have to find out down here.
 Thats it.....

Dear Sir/s,

The STAR of ~~BETHLEHAM~~ will come from the South East
and appear in the East 30 years from now.

The south east is where it came from before / that is where
the vine is / the G string / its where you all go to when
you die off.

Living you are 2 dimensional / one in your after life.
Your letter is in the After life situation.

The Cross in the southern cross will light up one day
and will come down to the spot where HE was Crucified .
It will be the DO bit this time.

The Creek of the Pharaohs the G string in one hand
the Stick rep = the I which is the Sun God in the other.

It would be interesting to know which way the Sphinx
is facing / the Sun god or the origin of the Universe
where you all go.

I have to get a line on Barcelona a man / and Considered
Supposed king of ~~Babylon~~ / Babylon
They are both out there.

The Dimension in cygnus laserta / the bear is known
as the DONNA A.

Thats all from me just now as i have to do some seeking.
Merry Xmas.

Dear Sir/s,

Another facet has fallen in to place as far as JESU is concerned/ a word was involved/ he was a dimension. It was the immaculate conception / what a form / fantastic. With a form like he had no wonder he could do the deeds he did. A lot of damage was done to his dimension when the sword was thrust in his side, that is something you lot will be reminded of one day. He had command of words and letters of creation.

I am the vine /the G string his form of another time. From what i can hear he was not dying thats why the sword was thrust in his right hand side.

I am with it now i know what he was/ time and place for you to know.

The Holy ghes t he is something you should find all about. He is faboules/He goes with the Galilean Prefession. I knew this old timer out there in space /what a dear old soul.

The Star of David was the star of Bethlehem. In them days you went up and down on a certain thing to make it go.

Actually there are one or two craft with a simular situation to day but very rare.

I will take a spell for a while now as i prepare to move to Addington after xmas sometime.

You have Lets to go on with, it will take you some time now to find the an s wers i feel.

You new know something of your U F U

Dear Sir/s, I got the answer to Jes u now, He is on the Vine
 He is a word,
 I am the vine is correct ./ I appears The word
 Befor Him is his m other Mary.
 No wender he could do all these things at Galiles
 The Word situation is with most space craft.
 Adam and eve are all on the vine / its just a matter
 of identity / i know the situations whe is whe id the
 Question.
 N o doubt there will be a day when man realises what
 they lost when they killed him.
 You certainly know a lot about the putty pot.
 I would say yours were set back all this time.
 You are still in the putty pot and will be.
 The putty pot has out lived its usefullnes.
 As fer your space adventures / they will be dashed
 when the stars start moving away, and the dimensions
 free after all this time.
 Therev is a place for you as Jesus as you call him said.
 You are too war like to be let leese out in space
 as you are now.
 You have not bothered to find the answers to ypu salvation.
 Or dear old dad who has been watching you year after year.
 IN fact half of you do not concider him fer real.
 No doubt about you have strayed of the track.
 This prayer GOD bit doesnt help much either.
 MY dear old dad is fer the practical / as fer JESU
 he appreciates it / NOT necessarily goes fer it as
 he only gave you the one prayer.
 There is time and place to say a word of thanks.
 There is a place way out there were you ca do that
 Once you see it then you have another answer as fer
 as JESU is concerned. READ sign.
 WE who knew dear old dad think him first class
 What a dear old soul.
 You havent a chance really/ if Jesu had not have been
 Done in Whe knows what he would have bequeathed you.
 Yours went back to the old way of prayer and now you
 all on the recieving end.
 I dont think he will do any more fer you let
 you are still fighting amensst your selves one way or another
 Still you are listning so thats one thing.
 The practical of the Galilean Profession is whats
 Called fer , and see what happens.
 Whith the Jesu identity solved i can go en to other things.
 Thanks Dear old chap fer setting out our supper so long ago.
 Its all coming to pass now.
 Thats it.

Dear Sir/s

Bread 66 Was applied when he feed the multitudes.
Dear old dad feed Abrahams flock tooo.
Adam and the apple was the evolution process
of the Living line.

Jesu was was a special of the living line when he walked
on the sea.
He said come with me and i will make ypu fishes of men
You are EELS.

Bringing a man back to life was to revive the letter,
The same as when they touched him to be cured.
The letter again.

When it rained Pheasants again a letter or word
to make the pheasants whole.
He losta dimension on the Cross it is now completed
again/ it taken 15 years. Evolution process.
This time its the do bit no mre handouts.
123/023= cecca.

I lost a dimension when i was bonne here but
regained it in 1940 /now i have a new one,
The next period should be interesting.
I await my dear old dads pleasure.

With any luck i should be on my way again soon.
The practical of the galilean profession is your
only hope.

The evolution change should bring about a new race
for the final countdown.

Its taken me a long time to find the answers
now i can sit back and relax.

All systems are go now, The EE's watch over me
daily and dear old dad too, the search is over.
All we do is read sign at 7 pm windows and sine dots
day or night. wet or fine.do the identity signs
and thats it 5 minutes.

It will be after Xmas before we move now.
A life time here is a short one in space time
it hasent been all that bad . most have lost direction
Very few will get assistance.only a handfull.
If its the g p in the practical you never know your

Dear Sir/s,

Maybe you wonder what happens when you go up after death
All go by way of the Cross South East, so if you want to
pay your respects to the dead, and to the Ethology
who go there daily, face the south east at 7 pm
daily like the old ones did a long time ago.

The Ethology are here at 7 daily and can see you wet or fine.
It takes 5 minutes. You might see something if they see you.
The Greeks knew, Probably the Pharoahs, day or night.

The red line that goes down the spine as said a yellow one
can also be seen in space craft including the one slide
yours up there kept 20 years ago, also the red line
dear old dad wrote the ten comandments with.

When your time is up there will be 3 Saffrons in a line
to show you the way.

There is a awfur lot of people out there in the southeast.
Still it is a big place were you go to.

AS said most of the crews are out in never never land
building.

There will be one more ressurection then thats it.
one on the right one on the left. 5000 years ago
and this one, ..

The Galilean Profession will give you a few clues.
Then there is how Moses Parted the sea,
Find the living line that will give you the answers,
I suspect an / O / was responsible for that, it can do
anything For moses.

According to dear old dad / iam comming along nicely.
He might help one or two the rest havent a chance
it is said.

You will be able to do wonders in a years to come
but wont save you.

I have a fair idea what you are after your time comes.
I had sketches of the after life ones, just little EE/s.
The Letter goes up when you die, and thats it.
There is food in light / bread cocoa brandy /so on.
Food is numbers.

Dear Sir/s,

It looks a though the crews have improved on the G string.
There has been various adaptions of it in space craft.
They are now able to produce the line wkth out the crook.
I think i know what they been doing now/the common touch
with all the craft.old and new,

Dear old dad is one hell of a clever chap/ i am getting
to it now/ I have a few clues as to how he made you lot
In his own image/ thebprint/ the bones are the solid as this
planet alright/ the sheaf of weat is the clue.
In thx G P he said this is my body / bread.

Now you have your story of EVE eating the apple.
Actually the first thing that happened was the
comming into thx LIVING LINE it a endless line,
First it developed a crook or G string. then it
developed an ee which could be discribed as a serpent.
then it moved along developing a shuttleW M then
the apple then a figeration then EVE and ADAM
then the Putty POT which you call the holly grail.
You are of the putty pot situation. the straw and so on ,
The palm leaf is also in it, eagle swordfish etc,

That is the celestial line as it is today.
There is also something like the Sphinx out there.
So it is the process of evolution where eve is of the apple,
ITs a case of letters etc. There is such a lot associated
with the line, Dear old dad can do anything,
after the G P event he has not given you lot much thought.
As you only live a short time about 15 years as some
jounerys out there take that time,
Like one friendANNYL has been gone 9 years
5 years here to 1 in never never land.

I am just taking my time piecing together whats here
and out there / one one the right one on the left were
it applys,

We all love our dear old dad/we could not get along
with out him, he is always assisting.

We dont go in for this lord and god bit at all.
We give him a heart sign after his personal sign
that all thats necessary, family.and hope to work it out
for all he does for us.
Thats it for now.

Dear Sins,

In the next form you breath out then in,
the opposite to what you do now,
Why is a rainbow round /the same reason why
most space craft are round / but not all,
There is often one on the right one on the left,
There is the opposite to the apple, out there.
It is found in the ethology and the space craft,
its a letter, there is also halves.
It's also obvioue EVE ate a letter of the tree of life,
a formula for death,
When you die you are returning to the original letter
and you are feed due to the tree of life as it was
done at the start/ but not the fruit /the opposite
to bread / grain. certain type of bread used out there
creation 66.
Once the Apple was eaten it dommed the form of man,
to decay, thats were the old saying for men/ old fruit.
You are ~~HE~~ EELS of one type/ origin es/s.
Thats why HE is known as the fisherman of fisherman,
Dont forget it rained Phesants ,
Dont forget dear old dad feed hundreds in Ab rahams day.
bread / the same as the GP. Thats all you need,
THE crews have brandy and cocoa and so on .
The GP promised you a new life /you get it free from
the apple letter, which made you eat .
Adam and eve on the tree of ethology they have lost
earth form in the main / paying the price,
As the Pho roahs depicted the eel on the head or asp
they knew the eel was in the head also, the Aligator
is out there to. two legged whip tail, on the road to Vega,
When you get out there it really is not space/ it is
another dimension of light.
At certain speeds things hopen. In fact there is more
than one dimension.
When you are watching the Lights of space craft, then they
disappear into the black thats it.
To the eyesight of celestial personalities there is
no darkness , you can see as plain as day infact better.
Day or night as you would say.
In another dimension of light out there you can even travel
faster than what you know as free flight out there.
Such as the squeeze of the universe.
In light there is the bread, faster than light they make
their own food beef tea and so on.
I will be with it and ready by the time dear old dad
does his thing.
Thats it for now.

Dear Sirs,

Your Letter of creation is a living letter.
Like the creation living line.
With the right letter your form can go to light,
The right letter can produce a RED line through
The center of your bones with yellow lines each
side of the red line, then the bones will fade to
black, the red and yellow lines will disappear
and everything the bones and the flesh will turn
to light blue light.

Thats a tip,

In the cross in the vicinity of the Southern Cross
You will find several Straight line cords associated.

The living Line G string is all powerfull
The EE/s make motors out of it, as well as their forms
and craft, Houses etc, like dimensions.

The big craft usually have 4 crew / the smaller 2
then there is the solo,

The one i am interested in a Saffron has provisions four
its big and unusual.
It is star bound / Green ones black ones are star bound.

The biggest is dear old dads one because is a terrific
size himself, what a dear ole soul.

What you go down here is fizzers compared to what is
out there.

You have not got the eyesight to see whats out there
you could be travelling along and run into a wall of solid
light and as said light can be stronger than steel.

Such are out there,

Time is not on your side to get far at least not as you are
now if you can find your letter etc you will be able to cure
you bugs and not chop of limbs etc,

I had my verciouse pulled years ago and it took a long
a long time to repair the damage my legs.

Thanks to dear old they are improving such is this man
form / poor,

Enoz will eventually fit me up with a nice situation,
so it has been a worthwhile excursion,

I will have a better form than the last one / you dont
know life processes,

I am just coming to it now Past and present with the
help of dear old dad and the EE 1/2 S.

Thats why they are here daily,

The time down here is not long in space time 5 here
to 1 out here,

Your best clues is the galilean profession. the phoraks^{phoraks} king arthur,
 argonauts,
 Dear old dad told me the story of Stanley and Livingstone
 in 1934 / also the picture of round houses in the Bizantine
 period, Just maybe i were there long ago /just maybe,
 the fields of flowers no roads ,still there are round houses out
 in space/about a year i should know the answer,
 The Ethology can only give you a little not what we know,
 When you die the last thing you know is a tug upwards.
 Writing letters is not approved of,
 Still it will get you out of this UFO dis cription
 to know something about space and its personalities
 and their origon Words and letters. there is also languages
 And Horse racing .

He said seek and you will find / Do the practical of the G P.
 Its 1987 gone by and time is running out do what you can about your
 forms,
 You have no show with the ethology of light/ they have the
 forms for space travel and have been doing so for thousands
 of years, they could change your circumstances over night
 and you would just fade away / but you are wanted.
 Not as you are / but in you new form, Just as your finger prints
 are different(evolution) so you shall be in the new life,
 The old ones have gone in the resurection 5 thousand years ago,
 The evolution process has now been changed and there will
 be a better race, thats one of the things the EE/s do well.

Most of the ee/s are away in never land building, hundreds of them,
 A place is being prepared for you as he said,
 Three saffrons will show you the way, .like the three wise men.
 One on the right one on the left.
 If you do a good mjob with the G P dear old dad might give
 you a sign,

You can only expect to come to grief with your nuts and bolts
 Viechles in space,

We are not good spellers as we consentrate on everything, but
 we get by. thus the name this ,and thats,
 There are some very unusual EE/s out there.
 You have all done this god bit in one form or another
 they used to look for him in the old days on hills and so on
 not so now days, you have had a fair go for 1987 years.
 Now it is alll comming to pass as they say,
 I am the last of them to come up,
 When you see those planets moving away you will know your
 time is near .

DEAR SIR/S

I am now positive now -

I had a manuscript from Never Never Land for a few days - it is now gone - seek and you will find - Jesus is not at Arcturus - I have found where he went to - and has been there since he left here - my introduction is now complete - there is not many space craft about they are out in Never Never Land by the hundreds building - it is now 22 years since I got the information regards "Gathering of the Planets" - so you can expect that to come about shortly - it is fair to say things could start happening in other ways 4 to 5 years time - anyway you are now in your twilight years - you are in for a torrid time - Lord Jess is going to have his "day" - its all comming to pass now -

The Ethology passed the Neuclear age thousands of years ago - is correct -

If man had taken the Galilean Profession in the positive he would have left the Neuclear age long ago -

The Big Bang theory is not correct -

Dear old dad is everywhere - EVERYTHING - its some thing you should realize - He is a bit of a scamp - But a wonderful bloke -

Dear Mr Good,

Your letter of 30 July 1985 was forwarded to me by the New Zealand Defence Liaison Staff in London.

The Ministry of Defence in New Zealand is not specifically charged with any formal responsibility for investigating so-called UFO's and neither is any other Government department. The Ministry does however take an active interest in all such reports and within the limitations of its resources conducts investigations as necessary.

With regard to your own particular enquiry I'm afraid I can find nothing on file regarding any incident in 1955. There were however a number of sightings in 1978 and the MOD report on these incidents is enclosed. Some films were taken by civilian pilots, but as commercial considerations were involved the Ministry did not examine them.

I hope the enclosed information will be of some value to you.

30 July 1985

Dear Mr McGilchrist

Thank you very much indeed for your helpful letter of 25 July. I had in fact already written to the Air Attaché at the U.S. Embassy, and await his reply.

I am currently doing some research into the involvement by governments worldwide in the investigation of Unidentified Flying Objects, and would be delighted if you could give me the official attitude of the New Zealand Government. I need to know, for example, where reports of sightings are sent for official investigation. In Australia and Britain they are handled by the RAAF and RAF respectively, as you know, so I assume that the RNZAF collects sighting reports. But is there any involvement by the security and/or secret services in New Zealand? (Forgive my ignorance, but I do not know their official titles.)

You may be aware that the subject of UFOs has been investigated intensively by the CIA, National Security Agency, Defence Intelligence Agency, FBI, and a number of other agencies in the United States, and thanks to the Freedom of Information Act I have been able to acquire some very interesting declassified documents which leave little room for doubt that this much-ridiculed subject is a highly sensitive area, and many documents are above Top Secret and are being withheld in the interests of national security.

I do recall that in 1955 the New Zealand Minister of Civil Aviation, Mr Shand, called for an investigation of a particular sighting by a National Airways DC-3, and that RNZAF security officers were involved in the enquiry. I am also aware of a number of fascinating sightings by military as well as civilian pilots in New Zealand, and that Ministry of Defence Intelligence Services in Wellington was involved in investigations. It is my understanding that a few films or photos have been taken by air crew in New Zealand - just as they have all over the world - but these have not been released as far as I am aware.

It may interest you to know that in a recent letter from the British MoD Secretariat (Air Staff) 2a, I was told that there are "phenomena", although no scientific study has been made, and no defence significance found. As you know, the vast majority of UFO reports have a conventional explanation - probably 90% - and I assume that the figures are similar in New Zealand.

I do hope that this is not putting you to too much trouble, but will be glad to credit your help if and when I publish anything on the official attitude to this controversial subject.

With many thanks and best wishes

Yours sincerely

REPORT ON UNIDENTIFIABLE VISUAL AND RADAR SIGHTINGS
EAST COAST SOUTH ISLAND : DECEMBER 1978

1. As a consequence of initial adverse media comment about Defence's response to news of the alleged presence of UFO's off the east coast of the South Island on two evenings in December, my staff undertook a study of the reported events, and prepared a report for me.
2. As you know we have traditionally adopted a 'low profile' interest in reported UFO sightings, and until 22 December last had no special arrangements for responding to them. Thus, my staff, (and subsequently myself) were not informed of the reported sightings on the night of 21/22 December, until 1030 hours on 22 December.
3. At that time, and only because the sightings were observed by more than one SAFE Argosy crew on several occasions, visually and on their aircraft radar, and by Wellington Radar, I agreed that should similar circumstances be reported again, the RNZAF would attempt to put an Orion into the area to accurately observe and report on unusual visual, electronic or meteorological phenomena. CADMOT were informed of the intent, and they arranged for the Air Staff duty officer to be immediately advised of any future sightings.
4. In the event, the occurrences of 21/22 December were similarly repeated on the night of 30/31 December, but because of an administrative fault, the Wellington radar operators were not aware of the Air Staff request to be informed. My staff first became aware of the reported sightings of 30/31 December on the radio news next day; an opportunity to observe the phenomena was lost.
5. After the second sightings, and in response to an increasingly negative news media coverage, my staff arranged to launch an Orion aircraft on the night of 2/3 January; the purpose of the flight was to allay media charges this Ministry was acting irresponsibly, and to see whether any light could be thrown on the reported sightings using the Orion's disciplined crew and electronic equipments. The sortie accomplished the first objective and drew favourable media comment, but added little to our knowledge of the reasons for the purported UFO sightings. The Orion captain reached the conclusion that the Japanese squid fleet, associated with the early morning rise of Venus were leading clues.

/6. Because

6. Because the Prime Minister took a close personal interest in what went on (he spoke with DCAS twice), and specially asked he be informed of Defence's conclusions to the study it was undertaking, I believe he would wish to see a copy of the Air Staff report.

7. The Air Staff reporting officer has interviewed the principal persons involved in the purported UFO sightings, collaborated with CADMOT, the DSIR and the Meteorological Service. I consider his conclusions are valid considering the circumstances. Not surprisingly they are similar to those of an investigation into the first reported UFO sightings of a "chain of nine saucer-like objects" over Mt. Rainier, USA, in 1947 which proved to be mirages caused by a temperature inversion.

8. Mr M. Collins of the DSIR has prepared a Departmental report on the findings of several scientific studies undertaken, and which is to be submitted to the Minister of Science in the near future. The attached report takes account of the findings of the DSIR investigations, copies of which are held in Air Staff.

9. For the reasons given at para 6 I attach copies of the Air Staff report for onforwarding to the Minister of Defence and the Prime Minister. DPR plans to issue a PR statement next week.

REPORT ON UNIDENTIFIED VISUAL AND
RADAR SIGHTINGS EAST COAST SOUTH ISLAND
DECEMBER 1978

Introduction

1. On the nights of 20/21 December 78 and 30/31 December 78 Wellington ATC Radar, and the crews of SAFE Argosy aircraft (both visually and on radar) made many unidentified sightings off the east coast of the South Island. The first sightings gave rise to much publicity by the media and eventual involvement of the RNZAF when it was decided to conduct an Orion surveillance of the area on the night of 2/3 January 79. At that time it was decided to start a Defence investigation and this report is submitted in accordance with DCAS instructions to provide a report on the events surrounding the various sightings.

2. Air Staff was first advised by Civil Aviation Division of Ministry of Transport (CADMOT) of these events mid-morning 21 December 78. Historically, Defence has adopted a 'low profile' in connection with reports of unidentified sightings. Thus CADMOT has not normally reported unusual sightings to Defence. However, because of the number and nature of reports on the night 20/21 December 78 the Director of Civil Aviation specifically instructed his staff to advise Defence. On the basis of the information received Air Staff decided that should any further similar instances occur we would, if possible, carry out an investigation by the most appropriate aircraft available over the Christmas period. CADMOT were advised to contact the Defence Duty Officer in the event of any more sightings. As it transpired the memorandum from CADMOT Head Office to the ATC Centre was not delivered, thus the events of 30/31 December 78 were not reported to Air Staff until the next day.

3. Other Government agencies, notably DSIR and NZ Meteorological Services, are conducting their own investigations and have provided relevant input to this report. The report is confined to the events of 21 and 31 December 78. It does not take into account the film made by TV1 on 3 January 79 which is now being examined by DSIR and will most probably prove to be a film of Venus and Jupiter rising.

4. When interviewing witnesses it was pointed out to them that this was not a judicial enquiry. The credibility of witnesses' statements was taken at face value. However, witnesses were not necessarily interviewed separately because it was considered that, with a fairly emotive issue such as 'UFOs', corroboration was best achieved by interviewing observers of the same events together.

/Events 20/21 ...

Events 20/21 December 78 (Refer Chart at Annex A)

5. On 20/21 December 78 there were two SAFE Argosy flights from Woodbourne to Christchurch one of which proceeded to Dunedin and terminated, and the other returned to Woodbourne. The first aircraft departed Woodbourne 210110 NZDT. At 0159 when southbound to Christchurch the aircraft captain was asked by Wellington Radar to check the Clarence River area because Wellington ATC was receiving radar returns from there. The crew observed lights at low level that could possibly have been off the Clarence River mouth but when the aircraft was about 30 miles north the lights appeared to go out or disappear. During this period Christchurch was visible and the sky was clear. Later in the morning (0406) when the aircraft was northbound the crew was again requested to check the area because Wellington Radar was again picking up radar returns in that vicinity. The aircraft crew confirmed that lights were visible to seaward and the crew got the impression of the lights making rectangular patterns at irregular frequency. The lights had a beam appearance rather than a point source appearance and seemed to turn away rather than turn off. One light appeared to illuminate the surface of the water and the aircraft captain assesses that the source of the light could have been at about 1,000 feet. However, it is the reporting officer's opinion that from the aircraft's height (14,000 feet) it would not be possible to judge accurately the height of lights below the aircraft. One possibility is that the aircraft captain was observing lights from cars or trains because the main road and railway run parallel and very close to the coast for some miles in this area. However, the aircraft captain considers that the sightings could have been produced by four or five helicopters and the whole thing was 'quite undramatic'. The likelihood of such extensive aeronautical activity has not been confirmed by any reports received from the Police or local inhabitants. In fact, no reports have been received and the Police do not have any interest in the area.

6. The second aircraft, which departed Woodbourne at 0315, was also asked by Wellington Radar to look at the Clarence River mouth area because Wellington was picking up radar returns there. That aircraft crew did not observe anything in the region either visually or on radar.

7. Subsequent investigations and scientific observation carried out by DSIR proves conclusively (in the reporting officer's opinion) that Wellington SRE Radar does give anomalous radar returns off the east coast off the South Island. This was proved by DSIR observation of the Wellington radar 8/9 January 79 and taking a series of photographs of the radar presentation throughout the night. Concurrently three field parties were stationed at vantage points along the east coast with radio communications to the Radar Control Centre. On several occasions during the night when many large returns were painting on Wellington Radar the observers on the coast could see nothing either in the air or on the sea in the positions passed to them by the Radar Controller.

/Furthermore

RESTRICTED

Furthermore, from discussions with two or three controllers it is evident that the Wellington SRE has for several months been giving anomalous radar returns in the Clarence area and south of Wellington. It is possible that this could be caused by a modification that was recently made to the radar head at Wellington depressing it one degree. DSIR scientists are following up this possibility and their findings should be available in due course.

8. There is no evidence to suggest that there was any clandestine activity in the vicinity of the Clarence River mouth. It is possible however that surface vessels could have been in the area with or without navigation lights but it is doubtful that such vessels could have given rise to the visual observation made by the aircraft crew. The fact that Wellington Radar 'keyed' both aircraft captains to look for objects in the Clarence area might well have induced observations from the air which might or might not have been related to the Wellington Radar returns.

9. From information supplied by DSIR, the NZ Meteorological Services, and astronomers, it is evident that during this period, and indeed for the last month or so, atmospheric conditions have been conducive to freak propagation of radio and light waves. Thus it is possible that the lights observed by the aircraft captain could have been produced by ships' lights reflected or refracted from afar. Such anomalous propagation (ducting) could also give rise to spurious radar returns. Note: The reporting officer has just received (1155 NZDT) a report from Auckland that ATC has issued a NOTAM that Auckland Radar is giving spurious returns caused by atmospheric conditions.

10. During the period that the Wellington Radar Controller was in dialogue with the aircraft captains about radar returns in the Clarence area the radar was also tracking a steady return on a track of 140°(M) which started at Wellington, proceeded to 30 miles and then, with less consistent radar returns, tracked out to 60 miles where it became stationary for 35 minutes. It then moved west and appeared to 'track' the second southbound Argosy at about 0328. The Wellington Radar Controller alerted the captain that there was a strong radar return about 25 miles to the port of the aircraft. The aircraft crew observed on that bearing a very bright light which they variously describe as a bright orb, pear shaped with a reddish tinge that then turned white. From the aircraft the object appeared to be stationary by visual observation but by the aircraft radar appeared to track the aircraft. The light appeared to be very close - less than ten miles. Although the aircraft radar return and the visual observation of the light were on more or less the same bearing the crew cannot confirm that the range was coincident. It is significant that within a few minutes of the crew's observation, Venus was rising on a bearing that coincided with their visual observation. DSIR optics, physics, and meteorological experts have confirmed that prevailing atmospheric conditions might well have produced most unusual but not unknown phenomena that could have made Venus appear large, bright and orange. There is a plethora of astronomical information that describes this phenomenon. Thus it is highly probable that the aircrew's observation was an unusual view of Venus.

RESTRICTED

/11. The radar

11. The radar returns observed on the aircraft radar might have been caused by a natural return by a ship or perhaps could have been anomalous returns caused by the prevailing atmospheric conditions. During the period 19 - 28 December 78 some 50 Japanese squid boats sailed from Wellington to the area of the Mernoo Bank (120 miles east of Banks Peninsula). These vessels departed Wellington in groups of about 10 and their track to their fishing grounds is almost identical to the radar track plotted by Wellington radar. While there is no conclusive proof that these vessels could have caused the fairly steady trace observed by Wellington it is a fact that during the period of all these observations there was no shortage of shipping in the area. Furthermore, once in position and fishing, the squid fleet would have produced an intense light source which coupled with prevailing meteorological conditions could have been responsible for many and varied reflected or refracted light images. (Each boat puts out about 200kw of light.)

12. A further observation (which has not been reported by the media) was made by the crew of this the same Argosy when the aircraft was some 50 miles north east of Christchurch. The captain observed five consecutive blips on the aircraft radar which over a period of five seconds traced a pattern towards the aircraft and then veered off very sharply to its port. Simultaneously the co-pilot observed a flashing white light (which looked like a strobe light) describing the same sort of path. For the brief period that the returns were received on radar the object must have been travelling at about 10,800mph! This sighting, above all others during the night, caused the crew considerable consternation! It is possible that such a phenomenon could be produced by a meteor which are not unknown at this time of theyear. A further possible explanation could be that the effect was caused by a 'double bounce' radar contact produced by ducting. It is note-worthy that an RNZAF Orion crossing Cape Palliser on 9 January 78 at 1652 NZDT observed a radar contact at 15 miles moving fast towards the aircraft. There was no cloud and no surface contacts visible. The radar return crossed the aircraft's track one mile ahead, but there was no visual sighting. The closing speed was calculated at 1,000mph thus the object itself was travelling at some 630 mph. OPHQ staffs have considered the possibilities and assess that the radar return could have been of an object 200 miles north of NZ (perhaps cloud) with freak propogation giving rise to the radar observation made in the aircraft. But for knowing that a Defence enquiry was under way OPHQ would not normally have considered it necessary to pass on this information.

13. A further sighting on the 20/21 December 78 was made by the Orderly Officer and Duty Air Traffic Controller at RNZAF Base Woodbourne. At 2350 the Orderly Officer saw what he considered to be three lights of a Bristol Freighter three to four miles from Woodbourne. However, as no aircraft could be heard and the lights did not appear to get any closer he checked through binoculars and determined that the lights appeared to be going towards Wellington. Of the three lights the middle one appeared as a white beam pointing northward. The lights appeared to move upward

/and around

RESTRICTED

and around in a rectangular pattern but at random speed. He observed the lights for about 50 minutes. The bearing from Woodbourne was about 080° (M), i.e., towards Cape Campbell. At one stage the lights appeared to 'rush forward' but generally over the period seemed to move northward and eventually fade. In comparative terms the observer considered that the lights' pattern looked like somebody 'spotlighting'. The Duty Air Traffic Controller observed the same lights from the control tower balcony. His impression was that the lights comprised one bright orange light and two less intense white lights. The large light appeared to remain stationary while the other two seemed to move north. A shaft of light periodically appeared to 'beam down' from the white lights at about 40° in a northerly direction. Using binoculars apparently had no enlarging effect on the lights! This could indicate that the lights were at a great distance from the observer and not in Cook Strait as he imagined. This thesis is supported by the fact that on checking with Wellington Radar the Woodbourne observer was advised that the radar was painting five targets in the Clarence area but no mention was made of any returns in Cook Strait. It is highly improbable that the radar returns and the visual observations were in any way connected.

14. The reporting officer awaits a copy of the taped conversation between the Wellington Radar Controller, the aircraft and the Woodbourne observer and in addition the Woodbourne observer is preparing a sketch map showing bearings, etc, in more detail. When these two pieces of evidence are available they may shed more light on the occurrence!

Summary

15. It is the reporting officer's opinion that almost all the sightings made 20/21 December 78 can be explained by natural but unusual phenomena. There were atmospheric conditions that could have produced unusual visual and radar returns. There is no doubt that Wellington SRE was (and still is) giving spurious radar returns in the area under surveillance. With some of the visual sightings of 'beams' of light it is only possible to speculate on possible causes. On-going investigation by DSIR scientists and the reporting officer may help to clarify this in due course. Perhaps the most difficult aspect to explain away is the apparent concern - even apprehension - of the aircrews involved in the sightings. At present they do not seem to be prepared to accept the fact that they might have observed Venus. Thankfully, however, neither do they believe that they saw a visitor from outer space! Perhaps when more scientific evidence is gathered their minds will be set at rest.

Events 30/31 December 78 (Refer Chart at Annex B)

16. On 30/31 December 78 an Argosy on a routine flight (but carrying the TV crew that made the film shown on Australian TV) departed Wellington at 2346 to proceed Christchurch and then

/return

turn to Woodbourne.

17. At 0013 while climbing to 14,000 feet the aircraft crew observed four to five lights close to the surface near the coast of the Kaikoura Peninsula (possibly in the Clarence River area but the crew were not sure and did not confirm with their radar). On checking with Wellington ATC the crew were advised that Wellington Radar had contacts 13 miles ahead of the aircraft (these would have been off Clarence). The crew observed a pulsing type of white light that looked like a helicopter search light zooming on to the beach somewhere north of the Kaikoura Peninsula. Again, it is difficult to explain the lights, short of them being some anomalous type of reflection or refraction, cars, or trains. However it is most probable that the Wellington Radar returns were spurious.

18. At 0018 when the aircraft was about 10 miles north of the Clarence River mouth, Wellington Radar advised the crew that there was a strong radar return behind them. They orbited and saw nothing. This was almost certainly a spurious radar return.

19. At 0042 when the aircraft was about 10 miles northeast of Motunau Island, Wellington Radar advised the crew that there was a large radar target behind the aircraft that appeared on the radar screen as a blip larger than the aircraft return and appeared to be tracking the Argosy. The aircraft captain carried out a left orbit but neither he nor the first officer saw anything. The crew did not refer to the aircraft radar and Christchurch radar was not operating for ATC purposes at the time.

20. Just before crossing the coast near Woodend the crew observed a white light on the starboard side of the aircraft and Christchurch Radar advised that there was a target at three-o'clock to the aircraft that 'moved off' when the aircraft was about 1.5 miles from touch down. No reports have been received from inhabitants of the area of any unusual lights or aeronautical activity. Thus, again, the natural explanation is that the light and radar return were spurious, possibly caused by some sort of anomalous propagation.

21. It is interesting to note that while taxiing to dispersal both the aircrew on the Argosy and the ATC officers in the control tower observed lights to the right of Sugar Loaf Hill which seemed to have the same pulsating characteristics as the lights observed earlier during the flight. The bearing of these lights would almost certainly coincide with the bearing of the squid fleet from Christchurch and if the lights could be proved to be refracted or reflected returns from the squid vessels much of the mystery would be solved!

22. At 0216 the aircraft departed Christchurch on the 035 radial. When overhead Woodend both crew members observed a large white light to the northeast. They also observed on the aircraft radar a very large target at 18 miles from the aircraft. The crew cannot be positive that the light and the radar return were coincident but that was the appearance that they gave. Slightly before these observations, the first officer had noticed through thin cloud a light which he describes as having the

RESTRICTED

appearance of a squashed orange. Eventually this light became fully visible and measured against the thumb at arms length appeared to be about two inches long, that is, a very large source of light. The crew observed this light for some minutes while cruising at 13,000 feet. Between 35 and 40 miles from Christchurch the aircraft captain, of his own volition, turned towards the light. This necessitated a 90° turn onto a heading of about 125° at about 25° bank. The aircraft speed was 215 knots. The image on the aircraft radar moved to 10 miles from the aircraft but the crew cannot say whether this was due to their velocity or the movement of the radar return. The radar image then stayed in the same relative position to the aircraft for a few minutes (as if it were 'backing up' at the aircraft's speed). At this stage the large light appeared to go above, behind, and below the aircraft as the captain turned left to regain track and avoid further 'confrontation' with the object! This series of events occurred over a time frame of about 20 minutes. Throughout, Christchurch radar was working but reported nothing. Wellington Radar had been observing the aircraft during the period but did not report any unidentified radar contact in that area.

23. The visual observation made by the crew is consistent with an unusual view of Venus. The bearing of the observation coincides with the point at which Venus would have been visible. However, this observation was made at about 0225 and Venus did not rise until about 0328. Nevertheless, DSIR scientists have advised that with super refraction it would be possible to see the planet some time before it's actual rising and if it were seen it would have the appearance that the crew described. The last effect of the light passing above, below and behind the aircraft could be explained by an astronomical phenomenon known as the 'troublesome layer'. In the prevailing conditions with a marked inversion above about 10,000 feet, and fairly strong westerly winds with standing waves on the leeward side of the Alps the inversion layer can take on a marked wave form. Thus at the time that the light performed its convolutions around the aircraft it is possible that the aircraft was passing from one side of the inversion layer to the other. The fact that the light was no longer visible tends to support this thesis and it is most probable that the aircraft's radar return was spurious or of a ship, in view of the lack of confirmation of any other targets in the area by the Wellington Radar.

24. As the aircraft approached Kaikoura two or three radar contacts were noted on the aircraft radar at about ten o'clock position. These would be consistent with the radar returns Wellington had noted in the Clarence area for most of the night - and were almost certainly spurious.

25. Approaching Cape Campbell the aircraft captain observed what he thought was a fishing fleet off Cape Palliser. These might well have been part of the squid fleet enroute south.

26. As the aircraft turned towards Blenheim the first officer observed what appeared to be orange lights in the Nelson Bay area which appeared to move across the sounds towards Picton. No explanation can be offered for this observation but it has not

RESTRICTED

/been confirmed

been confirmed by any sightings made from the ground. The aircraft landed at Blenheim at 0315.

Conclusions

27. The foregoing report has been compiled after interviews with most of the principle witnesses involved with the sightings 20/21 and 30/31 December 1978. The SAFE pilots were most helpful to the reporting officer in the very frank manner in which they related their experiences and the time they spent in interview. It is considered that the reporting officer should, as soon as possible, informally debrief the SAFE aircrew involved on the general tenor of the findings to date.

28. It is evident that because of the interest over these sightings reports will continue to come in from various sources and on-going investigations by DSIR and meteorological officers will probably serve to correlate much of the information. Nevertheless, it is considered that Defence should issue a PR statement fairly soon in order to tone down much of the wild speculation that has existed over recent weeks.

29. In summary the reporting officer has made the following findings:

- a. During the period of the observations, and indeed now, atmospheric conditions over NZ are conducive to freak propogation of radio and light waves.
- b. Venus was rising in the eastern sky and at this time of the year is unusually bright in appearance.
- c. Wellington Radar has been giving spurious indications off the east coast of the South Island for some time but over recent weeks anomalous returns seem to have been more prevalent.
- d. During the period an unusually large number of vessels (the squid fleet) sailed from Wellington, often at night, to position off Banks Peninsula. Not only would these vessels provide a good source for radar returns but the lights that they use when fishing could explain some of the visual sightings of unusual lights.
- e. The reporting officer speculates that the observation of lights in the Clarence area might have been caused by trains or cars.
- f. The reporting officer is of the opinion that the large number of unusual occurrences on

/the nights

RESTRICTED

the nights in question made some aircrew and air traffic controllers particularly responsive to the various sightings.

- g. There is no connection between the many sightings in the Clarence area and the larger lights seen to the east (and which were the subject of the much publicised TV films).
- h. Almost all the sightings can be explained by natural but unusual phenomena. The few for which the evidence to date is inconclusive may well be explained in due course when current investigations are completed.

**RNZAF** *News Service*RNZAF UFO SIGHTING REPORT

The unidentified radar and visual sightings reported by aircraft and the Air Traffic Control radars off the north east coast of the South Island recently, are the result of natural but unusual atmospheric phenomena.

This is the conclusion arrived at in the Air Force's just completed investigation into the sightings.

Before arriving at his conclusions, the investigating officer interviewed all the principle witnesses involved in the sightings on the nights of 20 and 30 December. He also worked closely with the Department of Scientific and Industrial Research, the Civil Aviation Division of the Ministry of Transport, and the Meteorological Service.

His report reveals that during the months of December and early January, atmospheric conditions over New Zealand were conducive to freak effects on radar and light waves. Also, the planet Venus was rising in the eastern sky early in the morning, and at this time of the year is unusually bright in appearance.

It was also revealed that for some time the Wellington Air Traffic Control radar has been giving spurious returns off the east coast of the South Island.

Over the period more than 50 Japanese squid boats sailed from Wellington to a position 120 miles off Banks Peninsula.

Not only would the squid boats give a good source of radar return whilst in transit to the squid fishing grounds, but they generate a very large amount of light when fishing at night. Each boat generates about 200 kilowatts of light to attract squid to its lures, and this light source cannot be discounted as a cause of some of the visual sightings.

The investigating officer also speculates that lights seen in the Clarence River mouth could have come from trains or vehicles travelling along the coast, and affected by unusual atmospheric reflections and refractions.

There is no evidence to connect the many radar and visual sightings in the Clarence River and the larger lights seen to the east.

A Ministry of Defence spokesman said the Ministry was completely satisfied there were no unexplained physical objects in the skies at the time of the sightings.

The lights were almost certainly from surface or planetary sources affected by atmospheric reflection, refraction and distortion.

Radar sets are known to be subject to spurious returns, and it was significant that on the occasions the large light was being filmed by a television team on board the Argosy freighter, neither Christchurch or Wellington radars reported any related visual sightings on their screens.

The spokesman said that the Ministry of Defence was not specifically charged with formal responsibility for investigating so-called unidentified flying objects in peacetime. However, the Ministry does take an active interest in all such reports and within the limitations of its resources, conducts investigations as necessary.

Commenting on some media speculation that the country was defenceless against air attack, the spokesman said that New Zealand did not have a complex air defence system, comprising sophisticated radar equipment and a force of missiles and interceptor aircraft.

The recently announced Defence Review explains that over the next decade at least, a physical threat to New Zealand's security, by sea or from the air, is so remote that expenditure of funds on sophisticated air defence equipments could not be justified.

No costing of a comprehensive air defence system for New Zealand had been done, but the Defence spokesman said that the bill would be enormous and well beyond current resource levels.

The Defence spokesman concluded by saying that the Ministry totally discounts the possibility of visits to New Zealand, and particularly to the areas of the country where the recent reports have suggested, of alien aircraft or other flying machines. It also categorically discounts any suggestion that air activity of any kind has taken place which poses any threat to New Zealand's security. Defence does not share the view of those who believe we are visited from outer space, or covertly by the aircraft or machines of potentially unfriendly nations.

Dear Mr McLean,

Thank you for your letter of 10 December concerning the requests made under the Official Information Act by Mr H.J. Knapman of the Mutual UFO Network Inc. I have also received under separate cover a copy of Group Captain Adamson's letter and enclosures of 3 December to Mr Knapman.

I have noted that you have reviewed your earlier decision on Mr Knapman's fourth request and have now provided him with copies of Wing Commander Clement's report of 11 January 1979 on the sightings off the Kaikoura Coast late in 1978 and also a copy of the memorandum of 18 January 1979 from the Chief of Air Staff to the Chief of Defence Staff which discussed the findings of the Orion flight in January 1979. I have therefore discontinued my investigation and review on Mr Knapman's fourth request on the grounds that it has been resolved by your Ministry.

I should like to thank you and your officers for your help during my investigation and review.

The classified documents supplied to this Office can now be collected from Mr Finnie.

Yours sincerely,

Lester Castle

1. You asked for comment upon Mr Castle's letter to the Secretary at reference.
2. I am familiar with this issue and have consulted with the Ombudsman's office both before and since we received this letter. I am not dissatisfied with the Ombudsman's decision; we always knew we were on shaky ground in withholding the Clements report and in attempting to invoke Section 16(e). We did so mainly to avoid setting a precedent and also because we did not wish to enter into any more tedious and unproductive correspondence than absolutely necessary. I am sure our main concern quite definitely was the protection of Mrs Moreland's privacy and, since the Ombudsman upheld us here, I feel we can concede on the Clements report with good enough grace.
3. I attach a draft response to Mr Castle for the Secretary's consideration together with a letter we intend to send to Mr Knapman. With any luck, this will be the end of a remarkable exercise in the wasting of time.

Dear Mr Castle

Thank you for your letter of 19 November in which you discuss the requests made under the Official Information Act by Mr Harold J. Knapman.

It was a prime purpose for Defence in this matter to ensure that the former Mrs Moreland's privacy should be protected. I note your agreement with this objective and accept your ruling that we were not on good ground in extending this consideration to a refusal to provide Mr Knapman with a copy of the report by Wing Commander Clements on the sightings off the Kaikoura coast late in 1978. I understand that, consequent upon discussions between Mr Finnie of your office and Group Captain Adamson of the Air Staff, it was considered appropriate that Mr Knapman should also be provided with a copy of the internal memorandum from the Chief of Air Staff to the Chief of Defence Staff which accompanied this report.

I understand that it is appropriate that we should now write to Mr Knapman forwarding the documents in question. I enclose a copy of that letter.

Dear Mr Knapman,

Following representations made on your behalf by the Chief Ombudsman, your request for certain information made under the Official Information Act has been reviewed. You have requested copies of:

- a. the report made on several movie films allegedly handed to the RNZAF in 1954;
- b. a senior NCO's report on a UFO sighting at Whenuapai also in 1954;
- c. the report upon Mrs F. Moreland's sighting of a UFO at Blenheim in 1959; and,
- d. the internal report upon the RNZAF investigation into the Kaikoura sightings in 1978/79.

As was explained by Squadron Leader Lynch in his letter to you dated 17th November 1983, there is no record of any movie films which may have been received by the RNZAF in 1954. The Ombudsman accepts that neither the films themselves nor any references to them are held in Defence files.

I understand from the Ombudsman that you accept Squadron Leader Lynch's assurance that there is no record on file of any UFO sighting witnessed by a senior NCO at Whenuapai in 1954.

The Ombudsman has agreed that Squadron Leader Lynch's decision to withhold the report upon Mrs Moreland's sighting was correct in that it is necessary to protect her privacy.

/It

It has been agreed that you should be provided with a copy of the report of the RNZAF investigation into the unidentified visual and radar sightings off the Kaikoura coast in 1978 and this is enclosed. The Ombudsman has recommended that you also be provided with a copy of an internal memorandum from the Chief of Air Staff to the Chief of Defence Staff which accompanied this report and which explains the reasons for the investigation. This also is enclosed. You will note that reference is made to the Orion flight conducted in January 1979 and to the conclusions reached by the aircraft captain. Since the flight itself yielded no positive information, no formal report was placed on record. You will also note reference to a DSIR report on the findings of several scientific studies made into these sightings. If you wish to have access to this information then it would be proper to request it from DSIR.

I trust this information will be of interest and value to you. I am sure you will also hear from the Chief Ombudsman in due course.

Yours faithfully,

Dear Mr McLean,

MM . 21.11.

I refer to my letter of 6 November concerning the requests made under the Official Information Act by Mr H.J. Knapman on behalf of the Mutual UFO Network Inc.

I shall discuss in turn each of Mr Knapman's requests.

First, Mr Knapman asked for a copy of the report on several movie films taken by civilians in April 1954 which were made available to the Air Force and, if possible, copies of these films. I am satisfied from your report and the discussions between Mr Finnie of my office and Group Captain Adamson of your Ministry that a thorough search for this material has been made but that the Ministry simply does not hold them.

Secondly, Mr Knapman asked for a copy of a senior NCO's report on UFO sightings at Whenuapai on 18 August 1954. As mentioned in Mr Laking's letter to you on 6 April, Mr Knapman accepts the Ministry's explanation on this point. It is therefore not necessary for me to pursue this aspect.

Thirdly, Mr Knapman asked for the report on Mrs F. Moreland's sighting of a UFO on 13 July 1959. The Ministry relied on s.9(2) (a) and s.9(2) (b) of the Act to withhold this information. I am satisfied that the decision by the Ministry under s.9(2) (a) to withhold this information on the grounds that it is necessary to protect the privacy of Mrs Moreland was correct. I also consider that withholding that information is not outweighed by other considerations which render it desirable in the public interest to make it available. In forming this view, I have taken into account the extent of harassment which Mrs Moreland suffered in the past and which she would be likely to suffer in the future if this information were made available. It is therefore not necessary for me to consider the Ministry's reliance on s.9(2) (b) (i) or s.9(2) (b) (ii).

✓

acs
h
NO COPY

Fourthly, Mr Knapman asked for the report by the Air Force on 2 January 1979 of a UFO sighting at Kaikoura. Mr Knapman has clarified that what he was seeking was the internal report about the findings of the Air Force following the Orion flight in January 1979 east of Kaikoura. In fact there are two reports relevant to Mr Knapman's request for information: first, the main report of 11 January 1979 by Wing Commander J.B. Clements which you made available to me, and a further report which discussed the findings of the Orion flight on 2 January 1979 which was shown to Mr Finnie of my office on 2 November by Group Captain Adamson. You have explained that the main report was summarised in a press release at the time which contained all the salient findings of the enquiry. You add that the reconnaissance flight of 2 January yielded no further positive information. You therefore consider that the Ministry had satisfied its requirements under the Official Information Act by passing a copy of the press release to Mr Knapman (s.16(e)).

|| As Mr Finnie explained to Group Captain Adamson, the Ministry cannot rely on s.16(e) when Mr Knapman has specifically requested the Ministry's internal reports of the Kaikoura sightings and the Orion reconnaissance flight on 2 January 1979. This is because s.16(2) places on the Ministry an obligation to make information available in the way preferred by the person requesting it, except where the provisions of s.16(2)(a) or (b) or (c) apply. I understand Group Captain Adamson raised the possibility that answering such requests for reports from those persons interested in UFOs would impair the efficient administration of the Ministry. In this case, however, the information in question is readily available, i.e. the main report of 9 pages and a further report of approximately 2 pages. In my opinion it would not impair the efficient administration of your Ministry to make these two reports available to Mr Knapman.

|| While I note that the main report has not been released to any agency or person outside the Ministry until now, you have not established that there is good reason for withholding this information from Mr Knapman under the Official Information Act. Similarly, you have not established that the later report which relates to the Orion reconnaissance flight which Mr Knapman has requested can be withheld under the Act. My provisional opinion therefore is that the Ministry's decision not to make the information requested available to Mr Knapman was wrong and that it would be appropriate for me to recommend that both the main report of 11 January and the additional report discussing the Orion reconnaissance flight should be made available to Mr Knapman. I am prepared to consider any further comments you may wish to make but meantime it is open to you to review the Ministry's earlier decision and

be my
conclusion
here, I
support

make this information available to Mr Knapman. If you so decided I would discontinue my investigation and review of Mr Knapman's request on the grounds that it had been resolved by your Ministry.

You have also expressed concern about the general issue of making available Defence files on UFOs on request. You envisage a flood of demands for information that the Ministry does not have and demands for explanations it cannot give. You suggest that it would be contrary to the public interest to allow pointless diversion of the resources of a department of State and that s.9(2)(b) would seem to apply. It is not necessary for me to consider this aspect in detail because it does not form part of my investigation and review of the decision of Squadron Leader P.J. Lynch on Mr Knapman's specific requests. I would, however, comment that as I understand the position the Ministry holds very few reports of specific investigations which it has conducted into UFOs. Accordingly, the amount of specific information which the Ministry has is very limited, apart from the correspondence it receives from those who believe they have sighted UFOs and from other UFO enthusiasts. Each request for official information must now be determined by the Ministry in accordance with s.5 of the Official Information Act and the basic principle that the information shall be made available unless there is good reason for withholding it. Consequently, the Ministry will have to consider each request for particular information on its own merits.

The classified documents supplied to this office can now be collected from Mrs Richards of this office. I should be grateful for their return, together with the later report prepared by your Ministry concerning the Orion reconnaissance flight on 2 January 1979, with your further report.

Yours sincerely,

Lester Castle,
Chief Ombudsman

Rt. Hon. F.D. O'Flynn,
Minister of Defence,
Parliament Buildings,

Dear Mr. O'Flynn,

I was most disappointed to read your most crappy letter dated 23rd August, 1984. It would be about the most unacceptable letter I have come across.

You are right about one thing, that your predecessor and departmental officials have informed me there is logical explanation for the events that took place at Waikawa on the morning of the 17th December, 1978. But as usual the useless cunts could not tell me what the logical explanation was. There is every reason to doubt that what was observed was a DC8 descending towards Wellington Airport from the west, for the following reasons.

1. THE WITNESSES WERE NOT INTERVIEWED
2. WHAT WAS OBSERVED WAS DESCENDING FROM THE DIRECTION OF WELLINGTON NOT TOWARDS WELLINGTON.
3. WELLINGTON IS IN THE EAST YOU USELESS CUNT, NOT THE WEST.
4. SO ONE OBJECT WAS ERR A DC8. THIS IS CORRECT. WHAT WAS

THE OTHER BASTARD?? THE CUNT I AM TALKING ABOUT, AND THE ONE YOU ARE TRYING TO MAKE OUT WAS ALSO THE SAME DC8

after all this uncalled for pissing around in in your letter you say there IS NO EVIDENCE TO SUGGEST THAT WELLINGTON AIR TRAFFIC CONTROL ACTED IMPROPERLY ARSE, CRAP,

you lying bastard, GET YOUR FACTS STRAIGHT. you see NO REASON to seek an inquiry into the way the air traffic control handled this matter.

GET SOME GLASSES IF YOU CAN-
NOT SEE THIS.

I SEE EVERY REASON FOR AN INQUIRY TO BE HELD.

Granted a reasonable amount of time has elapsed since the sighting. THE AUTHORITIES HAVE BEEN AWARE OF THIS SIGHTING SINCE 1978 but have

REFUSED TO INVESTIGATE IT.
AT ALL!!

3/

you state in your letter that you are unable to see what purpose any further investigation would serve. Surely you must be aware that it would result in the Defense Department getting these facts straight. This disgraceful matter has made the authorities look rather silly and shows that they **CANNOT BE TRUSTED.**

The Macdonald family are well aware that aircraft are in the area on occasions, this is why they brought this matter to the attention of the authorities at the time, in an effort to see that aircraft did not crash into what was observed. They were only interested in public safety and the authorities turned on them. The Air Traffic Control at Woodhouse put a false statement of the Waikana sighting ^{on their files} and claimed the Macdonald family said it.

You are right! I have requested Air Force information on the '78-'79 UFO sightings and been refused it. I never asked the ombudsman to look into this specific matter as he treats UFO requests for information as a tit-pulling joke.

I intend to inform the Prime Minister of your behaviour and ask him to see that ^{you} offer your resignation in view of the contents of your letter. I will not put up with this behaviour from a cabinet minister. I had enclosed a copy of your letter with the errors underlined.

Dear Mr Thompson

Thank you for your letter of 31 July about the sighting of unusual phenomena at Waikawa Bay on 17 December 1978.

I understand that you have been told on a number of occasions previously both my predecessor and by departmental officials, that there is a logical explanation for this particular phenomena. There is no reason to suspect that the object sighted was other than a DC8 aircraft making its descent towards Wellington Airport from the west. As you will be aware from previous correspondence, a DC8 was flying towards Wellington over the north of the South Island at the time of the sighting.

Accordingly there is no evidence to suggest that Wellington Air Traffic Control acted improperly and I see no reason to seek an inquiry into their handling of the matter. Moreover, in view of the length of time that has elapsed since this sighting occurred, I am unable to see what purpose any further investigation would serve.

I note that your request for certain information under the Official Information Act has been denied and that you have requested the Ombudsman to review this decision. As he has yet to complete his review of this case, I am not, as I am sure you will appreciate, at liberty to comment on this aspect of your letter.

Pt Hon, Mr. O'Flynn,
Minister of Defence,
House of Representatives,
Wellington.

Dear Mr. O'Flynn,

There appears to be some confusion at Defense Headquarters over the world famous UFO sightings which took place in December, 1978. I have reason to believe that misleading data has been forwarded to the Defense Department regarding the most impressive Waikana Bay, near Picton on the 17th of December, 1978. (This sighting preceded the World famous Argosy filming by 2 weeks). The Wellington Air Traffic Control never investigated that sighting, but made out they had and apparently informed the RNZAF that the Waikana Bay event was a DC8. The Defense Department is convinced to this day that the Waikana Bay sighting was of a DC8.

Will you be checking out what the Air Traffic Control at Wellington has been up to?

Will you inform the Defense Department that data from the Wellington Air Traffic Control was grossly misleading; if you can establish this?

Will you make an effort to see that ^{the} Air Force gets the right information on their files, regarding the Waikana event?

Trusting you can sort out a matter that the National Government showed no interest in clearing up.

Thanking you,

Yours sincerely,
J. C. Thompson.
MR. JOHN C. THOMPSON

P.S. I have also been denied information under the Official Information Act, as follows:

1/ a copy of the RNZAF Report or parts of this report have not been forwarded.

2/ a list of the witnesses that were on board the Argosy on the nights of 20-21 & 30-31 December and whether they were interviewed at all. (I doubt if they were interviewed; hence the contents of their report may have been largely 'made-up'.)
