### UNIDENTIFIED FLYING OBJECTS (UFO) FILES COPIES FOR RELEASE TO THE PUBLIC

File Number: AIR 39/3/3A Volume 1 – Parts 1 & 2

File Title: Reports on UFO's and Ethnology

File Timespan: Opened: 1979 - Closed 1984

File Declassified: September 2010

Location of Original File: Held at Archives New Zealand

Access to Original File: Restricted until 2043

File Contains: This file is exclusively dedicated to correspondence from / to a Christchurch based person on UFOs and ethnology.

# **NEW ZEALAND DEFENCE FORCE**

## **PUBLIC RELEASE OF UNIDENTIFIED FLYING OBJECTS (UFO) FILES**

These copied and redacted files of correspondence on **Unidentified Flying Objects** dating from 1952 to 2009 have been Declassified and released to the public by the New Zealand Defence Force under the Official Information Act.

Access to the original files held by Archives New Zealand is restricted up until the year 2080 for Personal Privacy reasons. These copied files have had the personal details of members of the public making UFO reports removed to preserve their privacy. Personal details of service personnel and civilians employed by the New Zealand Defence Force and other Government Departments and Agencies have not been removed. No other information has been removed or omitted from these files.

### **GENERAL DESCRIPTION OF FILES**

Correspondence on Flying Saucers began in New Zealand Defence Force files in 1952 and continued under different names, Unidentified Flying Objects (UFO) and Unidentified Aerial Sightings (UAS) until the present. The files contain reports of sightings by private individuals and military personnel, investigations by Defence and other Government Departments and agencies into these reports, newspaper clippings on UFOs and letters from individuals who claim to be in touch with alien beings and craft.

While the files are in general date order from 1952 until the present some file periods overlap with one another and the documents within each file are not necessarily in strict date order. There can be duplicate documents within each file and copies of the same documents (particularly media releases and reports) can appear in different files.

### **ACCESS TO UFO FILES**

These redacted files are available in hard copy from the Defence Library c/o Headquarters New Zealand Defence Force Aitken St Wellington. They are not available in electronic format.

Dear Sir/s

SHORTLY I will send you a copy  
 OF ~~THE~~ PHOTO IN COLOUR OF A  
 "Heatuitan" (WHICH IS THE REAL NAME FOR A  
 Space CRAFT) IN ACTION -  
 THERE IS NO STAR REFERENCE - AS I WAS AFTER  
 OTHER INFORMATION - BUT IT IS SKY WRITING  
 FROM NOW ON THERE WILL BE STAR REF  
 NO EXPLANATIONS - YOU SEEK AND FIND -  
 NO MATTER WHO PUBLISHES MY PROPOSAL  
 ITS A SEEK AND FIND - WHICH WILL CARRY ON  
 FOR YEARS - ALL THE SCRAPS FIRST - THEN THE  
 ACTION PHOTOS - FROM TIME TO TIME -  
 YOU WILL ALL KNOW YOU HAVE HAD VISITORS  
 WHICH WILL END THE FANTASTIC STORIES  
 MANY HAVE MADE UP ABOUT US -  
 THIS PHOTO IS GOOD -  
 ONCE I GET ANOTHER CAMERA YOU WILL SEE  
 PLenty -  
 THE FIRST THING I AM PROPOSING IS A LIST  
 OF THE PLACES THE ETHOLOGY FREQUENT -  
 YOU WERE GIVEN A LIST OF THESE SOME  
 WHILE BACK -  
 IF THE TRUTH PUBLISH - OR WHO EVER DOES

REFERRED TO	
DRD

The Star Ref-photos will be the  
The second chance for publication is the Sun Herald  
in Sydney - I intent to smash up all these  
Bizarre stories on Heatitars - you would be  
None the wiser if you saw one - study the colours  
in the photo I send you - which is the last of the  
NO star Ref ones.

I had one in colour that would have had you  
shocked - you would not have cared to go outside  
with such an  $\text{EE}$  in existence - its gone back now  
It was for my own benefit to know him -  
He was from the tree of life - and could end you a  
civilization everything - and that is not the desired thing -  
There are some strange  $\text{EE}$ 's out there - what you have  
to defend yourselves is useless even if you had the  
full capabilities of the nuclear field - some are  
thousands of years beyond that formula - there is  
nothing you do - even individually that the etiology dont  
know about - this  craft you would not know  
what is looking at you - you will probably see the photo  
of this one day - when you get out in space you will  
see all sorts and the answers then will be more fitting  
your present situation - there is no hope of you riding in  
or driving a Heatitar - or shot it down as one  
suggested with a G 22 - they can enclose a nuclear bomb  
they can do in one of your aircraft in the twink of the eye  
it just disappears no explosion or anything  
it just falls to pieces - returns to its original substances  
'Man' and all - if desired - just dust -

3

The Ethology are not people from another planet like some - but another universe - no relation to ~~us~~ what you know - or think about - think of what you would know if you spent 400 ear<sup>th</sup> years learning to be a Ethology plus the form -

"We are the ones of creation" dont forget it ->

Your hardly beginning yet - the present type of society holds you back - you will find many wonders - we will show you that we have called on you - thats all - life processes you dont know and its just as well you dont or you would be experimenting with bodies more than you do now - even if you turn yourselves to light you will be put back down if required - or another situation there is a certain situation for you and thats what you get - anyway you may read all about it - if we find someone to publish our work - we will let just photos decide it for us most of our stuff is in colour - we will get black and white -> But it was colour I wanted for private reasons now we will give you ones you like - I got what I wanted - so dont be surprised - at what you see - = A camera taking my lot and one for your lot =

Dear Sir/s,

I was interested in a TV program  
The Ancient astronomical Society talk  
last night, about ancient astronauts  
visiting Earth - well they have been visiting  
since the conception of man - No they have  
not left space effects behind although  
they have taught man many things.  
They can be "BORN" here or just change  
straight into "MAN" there would be very  
little difference between them and  
ordinary man - Just the same when our  
time comes we change straight to light  
no death cycle - it depends on what  
process is required for the persons new  
life - as told to you before the "ghost"  
enters the bones and changes to light  
flesh and all - and after there is no trace  
of bone and the reverse is the similar  
situation to be a human being -  
The origin of life is a tear as far as  
space changes are concerned - and is similar  
with man and with some it a sphere  
derived from a tear - the life line in  
man is a tear - it is in the head of man  
and the temp is like mouth - water -  
light - only must more sensitive than

RECEIVED TO
Pras...
(Date)

-2-

Living thing and when man dies - it is mainly  
sock that puts it out into the universe - or loses  
if gravitational field and returns to the universe  
it is naturally a happy tear - but in most cases it is  
given a new life when the human dies off - with us  
the tear is done in during our life and then replaced  
with a new set of circumstances - to complete a form -  
one does not know the outcome of the new form but  
we know the old one - our process take 150 space years  
that's from the 12<sup>th</sup> Dec 1973 as far as we are concerned  
9 o'clock in the morning of the 12<sup>th</sup> taking 64 days from  
that day and time - you have not got the tech or know how  
to trace the celestial like cycles - your master is  
~~know~~ not know to you - but we can tell you he is evergreen  
MAN'S life line may not be exactly a tear but if not  
would definitely be derived from one just like the splinteres  
- I have a bequeathed destination (JOB) - but your lot  
is a simple one - now that you know what the origin is  
you will see you are not prepared for celestial  
life by your writings or knowledge - we cannot help  
you - that is your lot - the breath of life in transition -  
for us the processes are testing and not always pleasant -  
pleasant - 4 space chaps keep an eye on us so we are  
all right - there is nothing you can do for us anyway -  
you will make many wonderful discoveries as you  
progress - but thousands of years away from life  
processes - even if you could live for a thousand  
years - it is nothing in space - as far as space craft  
as the units have been similar for thousands  
of years as far as the ethology of light go -

Not a lovely life there are many things out in  
 space you do not know about - in your present state you  
 could not see it - the universe around you - the ethology  
 is everywhere - you feel - is nothing yet - space wise -  
 For instance the speed of light is nothing in space  
 travel with the ethology a parsec is but a twink of  
 the eye travel time - many signs can reach you  
 from far away places out in space - as fast as you  
 can take them in what they are the same with the  
 willows (spacecraft) - just like flying you jets  
 half way round the world - while your driving your car  
 down town - just the same with the ethology - half way  
 round this part of the universe while you went down to  
 get your milk bottles and Easter - same as in the  
 old days as it is now - you would not know what you are  
 looking at as far as space craft are concerned -  
 just like early ethologies were termed crackpots  
 so are we - man is much the same now as he was then -  
 we are not after money or social standing as  
 man strives for - your society stinks - in the main  
 - we're much happier with our own lot - gods in ancient  
 times - UFO's in modern times - and you still have  
 a god you know nothing about - or would you  
 believe us - we do not think so - for such is man -  
 well that's it.

By the time you get your tongue around those names you will also realize these are the ancients and we know space in a way you would never know it and it is not for me to enlighten, concentrate on the fact that you have another life after blood and bone as the pharaohs practiced and the Jesus told you, he did not teach you to pray. Like the pharaoh he taught you there was another life the pyramids are minors they show what they knew they have a celestial meaning, there is only one other link with the celestial that is in China with method of acupuncture only the etiology don't use needles there is another thing that has better results and you have to know the dimensions of the human frame apart from blood and bone the compost form. You're like the caterpillar you change and it is nothing to do with the delusion of spirits. man talks about a body can be tested on the vertical for deficiencies without moving him from the horizontal that is another reason why the pharaoh wrapped the body the whole

3

Dimension can be lifted from the Body Live.  
Just like the projection systems used by  
space craft they can do a vertical figure  
at the same time do a horizontal (long hand) of  
the same thing.

Another thing they can do is to remove the blood  
from the body instantly by dimensional process  
or put it in, nothing to do with the general practice  
of medicine were you die and don't know  
the reason why, mind you certain types of light  
can do all sorts of things. Nothing to do with sunlight,  
that you know so well, and so on.

All the ethology of light can do for you is like the phurooth  
and your Jesus is to tell you you have another hike.  
Well that it, I thought I would give you a few  
place names etc to show you how extensive the  
ethology of light are in the galactics.

The names like other features go on and on.  
There are thousands and thousands of years of  
space flights behind the ancients and there are  
more advanced types to associate with, out in space.  
So the compost form of man is of little interest.

Yours Faithfully

Site Has 6 green stars in Her sash and 10 in Her Belt Naturally she is in Light and so were Her clothes in fact they closely resemble paper clothing and Rustle when she walks, the space boys when they are in a suit are real sharp their "hair" on their head is a type of embossed situation. others were masks for a face. Three that came to see me were wearing masks = (Phtaroth).

The main line of EEs that come here are a different lot.

The little bloke  $\rho$  as we call him came to fix my leg in 1967 he killed the germ in my leg (dysers) and it healed, so I could be outside to greet them when they came by.

I'll probably go with them when my time comes this is the 1/2 year of the process to join them it takes a long, there is no need for the big form I was originally.

- Unfortunately man does not know life processes - I myself think I would have been better off if they had continued to bind me. = Phtaroth - But they took off the bandages = Light = still they know what they want.

We all think we have a wonderful form when you're in light, but the big form does have some disadvantages

Technically you're not in it as far as the ethology  
of light is concerned. - Light is life - all you can  
do is concentrate on it.

It is your lot to die off and then become light  
Your society is not on the right track to  
get bequeathments - Biblical or general -  
The fact that the most eminent die off is no  
incentive to find out the celestial values.  
Not since the Pharaohs.

You can give your Galilean profession away  
as you have done nothing about that in 2000 years  
anyway you get no bequeathment in the present  
type of life led; or do we propose to give the  
answers but a view of space life and as seen  
by other from out there in the universe  
if you consider it theories and ramblings  
it is your misfortune you won't be getting  
the information again from any other source.  
That is celestial, not on present standards.

Well THIS is to talk ABOUT THE POLE IN THE CENTRE OF THE SPACE CRAFT THE POLE IS FULL OF LITTLE SPHERE'S THEY ARE ABOUT 3 INCHES IN DIAMETER THEY ARE BLUE AND WHITE AND DANCE UP AND DOWN UNDER ACTIVATION JUST A LITTLE BIT, and a BLUE purple BARB WIRE EFFECT IS PRODUCED, WHEN YOU ARE LOOKING AT THE POLE, IT IS JUST LIKE A COIL OF BARB WIRE COME TO LIFE WITH ALL THE SPHERE'S IN ACTIVATION VOLCANO'S HAVE BEEN KNOWN TO PRODUCE LITTLE SPHERE'S WHICH ARE NATURALLY GASS OR ARE THEY? are not necessarily gas, they can be life forms like S-A-E who is a life form yet there is a function of him in the drive of a certain space craft so with the little spheres their base is life forms you must remember the pole is in B light, actually it is associated with the seed from the tree of life.

To observe the pole with out the barbed wire effect the spheres still oscillate.

Now the people from the "Other" planet in their motors have not got the spheres worked out but they produce a dot about an inch or 2 an inch which stream through the center of a transparent motor it is a rowdy things.

Like lightning.

But it drives their craft at a great rate that's right they have a powerful motor it crackles like lightning, only controlled.

They have not got the knowledge of the origin of life and element forms like Doi Bing Bony Rege. But are doing well.

Light is life and one can create all sorts of elements as well as life forms, plus the words of creation. You're in the mechanical age doing well, but not up to creation know how, but I thought you might have a go at spheres it is part of the origin of planets

-3-

there is no point in giving you space Formulas  
as you dont know whats out there and you have  
Nothing I can refer to in the way of Interpretation.  
you have no ideal of how hard light can be how  
tough, its made your planet and all thats in it and on it  
in your present education system there is no way  
you could know any different strictly for  
Primal 2 Life patterns.

All I could possible do for my own kin is perhaps  
put them together when their time comes, perhaps  
on a vine for future Resurrection, at least that  
way they would see the universe.

The others might have better idea for them.  
Well thats it, Good Luck.

Dear Sir/s

The craft are operating 6.30pm - 7pm  
This letter is to mention you have not  
got outright sound communication  
Like you cannot talk to a man on the  
ground miles away and travelling  
overhead at thousands of m.p.h  
where the one on the ground has no  
receiver like the space craft can  
this can be done also with a sine dot  
the sine dots can be fired ~~and~~ at  
a great distance and produce the  
signal or word desired at the end of  
desired traj.

outright sound is the least system which  
also produce writing in light.

I made contact with the tree of 0000's  
last night at 8pm way out in the Never  
Nevers via the star of knowledge which  
is some 137 light years away and moving  
into orbit.

The actual contact lasted 15 minutes  
Weather "Sea Fog" ruled out viewing -  
so for the next few months my  
concentration will be there, I have a  
lot of news to catch up on;

my Contact

So I won't be writing to you during this period.

I thought that I would mention sound to add to light, water, oxygen which you have not got, you know low sets, but not the high sets, you have a long way to go in those Tech necessities of life.

I have to move along with my search and knowledge as I have only 8 years before the chief is back if our estimation is right.

Still if we do alright he might come back before hand, anything is possible with the tree of life.

We are secure in our house now so we can count the unexpected, we don't have to shift house anymore.

Just for the record, I am a process of the ethology of light in fact.

You do not know like processes so there is no point enlightening, that is why they are here helping me. Why they are here some are put in the head of the human form mine was different it is some 5000 years ~~for~~ since an ethology was placed in a woman there is one on the right one on the left of the "string" it is not for me to tell you what the "string" actually is.

Present day doctors have no idea of the true nature of the human form

- 3 -

IT CAN BE SEEN BY THEIR ACTIONS, NO WE COULD NOT HELP THEM, THEY CAN DO WONDERS WITH BLOOD AND BONE BUT EVEN THEY DIE OFF, NONE THE WISER.

NO POINT IN TELLING THEM THEY ARE DOING NO GOOD TO SOME PEOPLE, THEY ARE NOT ADVANCED ENOUGH TO HELP, AND THEIR EDUCATION DOES NOT PROVIDE FOR A SEARCHING MIND THE REALIZATION THEY DIE LIKE EVERYONE ELSE IN SPITE OF THEIR KNOW ALL KNOWLEDGE THEY PRESENT WHILE THEY ARE ALIVE -

THEY CAN NOT SEE THE INNER FORM ~~OR~~ WHAT IS TAKING PLACE WHEN THEY TREAT A PATIENT

DEAR GOD FATHER AS THEY SAY THEY ARE PRIMITIVE IS THE ONLY WORD FOR IT.

IT IS THE PROCESS OF THE OUTER FORM TO REJECT THE INNER FORM FOR ITS NEW LIFE.

ON ONE HAND YOU HAVE PRAYING TO GOD AND REJECTING THE PARTS THAT TELL THERE IS ANOTHER LIKE

"THERE ARE OTHERS" NOT OF YOUR KIN,

SETTLING FOR SUCH RUBBISH AS THE SPIRIT AND SO ON. THATS WHY WE SAY THE BIBLE IS NO GOOD TO MAN AND WILL NOT HELP HIM WHEN HIS TIME COMES.

THUS YOU GET NO HELP FROM THOSE WHO CAN HELP.

ITS OBVIOUS BY THE FACT THAT THE INNER FORM IS DONE IN WHEN IT GOES UP, EVERYTHING YOU STOOD FOR GONE, NOT EVEN A DECENT MEMORY.

YOU WILL KNOW WHO YOU ARE BUT THATS ABOUT IT.

WE KNOW THOSE THINGS. WE KNOW WHAT HAPPENS TO YOU.

ANYWAY IT WAS TO TELL YOU THAT SOUND IS

Dear SIR/S,

I Have BEEN OVER THE Book and what you Have got over a Long period is THE Basic's OF your Topic U.F.O  
There is NOTHING more THAT would Be Permitted to pass ON But what you Have got will Help you to understand THE SUBJECT, we are NOT INVOLVED WITH THE TRANSITION WORK THAT THE space CRAFT ARE,

Our Lot is TO FIND 2 old time ORIGINALS after THAT we could Be ON transition, But THAT is a Long way OFF

ONE day I will send you some photos OF space CRAFT IN action again WITH STAR REF - But NOT FOR some TIME.

We will Be at the ABOVE address ANY time you may want to contact us. We Have NO intention OF giving up our New House.

IF you are Looking FOR space CRAFT you would see THEM in the FIRST Hour OF DARKNESS.

You will FIND them much Faster IN transition THAN Satellites, IF you are Watching them you we Know the DIFFERENCE immediately, use your "letters"

RECEIVED TO

and you will find they will put their light out  
Most of them will be traveling E to G and  
EA on the clock. NE to SE SW-NE  
if there not on that track - then they are working  
on Ethology and stars.

If its the people from the "Other" Planet you can  
see by the working of their space craft that they  
have passed through the stage you are now in technically,  
and they always use a red light to view you.  
They are away out in Pegasus.

They are not likely to harm you or be interested  
in primordial 2's with such a short life line, they  
know what you become, so you can go ahead with them.  
as far as the Ethology is concerned they are not your  
~~Cup~~ Cup of tea, they deal with you after death and  
transport you to another place, whatever your  
situation is.

As long as you realize you are being visited, you are  
not the only ones in the universe then we will be  
pleased.

Your present day tech will not give you a view of the universe  
we don't see the people from the "Other" Planet  
as we call them helping you but you can always try  
your luck.

You would learn very little from viewing an  
Ethology space craft but the "Other" planets yes.  
Well good luck with your observations concentrate  
on water-light-oxygen find these out and you  
will view the world beyond.

Yours Faithfully

THIS odd LOOKING Dimension IS where some EES  
Come FROM, THIS THEIR HOME.

THE "WHEELS" ARE ACTUALLY PLANETS THAT HAVE COME  
TOGETHER AND THEY MAKE THEIR HOME ON THEM AND  
AROUND THEM.

SOME HAVE A SMALL SUN, "HOME" MADE OF COURSE  
FOR VARIOUS PURPOSES.

BY THE WAY ALL PLANETS HAVE CORDS RUNNING  
THROUGHIT INCLUDING THIS ONE YOU HAVE ONE  
ANYWAY THE ABOVE SKETCH IS WAY OUT IN THE NEVER.  
NEVERS, AND "ONCE UPON A TIME" YOURS MAY COME  
TO KNOW HOW THEY WERE MADE.

WE CAN NOT GIVE YOU MUCH HOPE IN YOUR "NEW" LIFE  
BUT THERE IS A PLACE FOR YOU.

A DIMENSION IS USUALLY MADE IN THE TWILIGHT ZONES.  
THERE IS A COUPLE OF LITTLE PLANETS ORBITING  
A SMALL SUN WITH LIFE ON THEM BETWEEN  
RASTABAN (DRACO) AND HERCULES ON YOUR STAR MAPS —  
IT'S NOT FAR FOR SPACE CRAFT OF THE ETHOLOGY TO GO  
IT'S REALLY A LONG WAY BY EARTH STANDARDS

WHEN YOU CONSIDER SOME CRAFT JUST CRUISING AT A  
100 LIGHT YEARS AN HOUR DISTANCE IS NO PROBLEM.

WERE YOU THROUGH ANOTHER SOUND BARRIER

... NOT THE ONE YOU KNOW, THE REAL, LEARNING SOUND

ITS NOISY FOR A WHILE MIND YOU THAT IS AT GREAT SPEED  
IT ONLY GOES TO SHOW THE TOUGHNESS OF LIGHT IN CERTAIN  
APPLICATIONS, AND HOW TOUGH THE FORMS OF THE SPACE BOYS  
ARE IN B LIGHT.

WELL I WILL CLOSE AT THAT WE HAVE COVERED  
THE MAIN TOPICS OF THE SPACE SCENE  
AND MANS "WOW" LIFE.

MAYBE WE HAVE MENTIONED A LITTLE ABOUT WHAT  
IS OUT THERE IN SPACE MAYBE YOU MAY FIND  
IT OUT FOR YOURSELVES WHICH AFTER ALL IS  
THE BEST WAY.

THE "OTHER PEOPLE" OUT IN SPACE KNOW YOU  
THEY ARE FAR MORE ADVANCED AND INTO LIGHT  
FAIRLY WELL BUT THEIR SPACE CRAFT ARE  
NOT OF THE MECHANICAL AGE THEY HAVE  
LEFT THAT BEHIND, THEY WOULD NOT DO  
YOU ANY HARM UNLESS FORCED TO, THEY KNOW  
YOU HAVE A SHORT LIFE TIME.

YOU OFTEN WONDER IF THE PUBLIC ARE  
NOT ~~SEEING~~ SEEING THEIR CRAFT AS WELL  
THEY HAVE ONE OR TWO THAT RESEMBLE  
A SAUCER BUT AS SAID THEY ARE NOT  
EXACTLY MECHANICAL, BUT TO SEE ONE  
IN ACTION YOU COULD SEE THEY KNEW THE  
MECHANICAL ELECTRON PROCESS.

THEY ARE A WITZ AT PHOTO ELECTRICS.  
ITS A LONG WAY FOR THEM TO COME HERE  
BUT THEY GET AROUND.

WE ARE FRIENDLY WITH ONE OR TWO  
THE PUBLIC HAVE NOT IDENTIFIED THEM YET

P.S.

I sent you the Numerals and Numbers  
 of the Space Clock  
 also a few groups of Numbers  
 they work like the sine dots  
 they are the secrets of the Egyptian  
 Pyramids it is a formula that is used  
 widely in space, also for navigation  
 it will also show hints on how a space  
 craft is constructed and why some  
 of them are the shape they are  
 I said previously concentrate on  
 the Pharaohs for secrets of the universe  
 the Arabs got the numbers from the  
 Pharaohs so it would appear  
 link the numbers up I gave you and  
 see what you get

The Space Formula is how the pyramids were built  
 add a few dotted lines and you will  
 have the pyramid formula  
 Perhaps one day we may show you how the  
 clock works

At what ever you commonly see in the sea.  
The Boys Bodies are as tough as you could imagine  
But some Female forms are like jelly, they are not  
visible in general some wear a mask, there is an  
old custom. It may not be without foundation. (History)  
You can give you the sym-toms for transparency  
That is having to place the hands in water continually  
keep them wet, DRINKING OF WATER TO ACCESS AND  
THE EATING OF COMMON SALT, PLUS WEAKNESS INCREASING  
UNTILL THE CHANGE. APPROX 9 MONTHS.  
That is for Ethologists who have become Primal as  
That is only an odd one in thousands of years.  
Is so long ago that the EEs just say its hundreds  
and hundreds of years ago and that is in their time.  
The trouble is you dont know who you are until your time comes,  
one knows what they were alright, But the situation  
for you in the future could be total different, the  
Compost form is one hell of situation to find oneself in  
The thing is to get out with as much knowledge as possible so  
one can go straight on the job.  
Still if things go right during the fade out  
things might be o.k.  
The thing that attracts is all the gadgets and effects  
one gathers here, they are interesting.

anyway you have to find Light-Water-Oxygen  
Then you find the life out in space, that is what  
is missing in your tech-y.

We are going on to learn writing now, we did some of it before ~~before~~ and so on.

The learn writing is only for space craft in action they do it while in continuous flight while planning along its a rotary action which they are very good at much of it is from the time of 0000's

It goes further mother Kings Queens Rex Grandma Grandpa = ~~and~~ and so on.

I use to know it all but I have not done it for 14 years I know them when I see them.

It surprising how much "English" is in the letters of the Alphabet, of course its directed at me to learn.

The numbers are in stars phasing

Dear Sirs,

Things are progressing well.  
Probably you have perused the "Letters"  
By now.

In contact - as the CAAK are usually  
flying by overhead you would find  
they would respond to these letters  
Mooooom

then they would in the main respond  
by switching their lights off.

If they stop you can use the letters  
the six key ones and await results.

Sorry I am not at liberty to devolve  
the letters as to which they would  
truly stop and take a look at you.  
The signs for each different type  
are a declaration

a declaration is beneathments to  
who ever it is, according to where you  
are from, or what part you represent

In other words you would do the best

were not supposed to give out secrets of the universe other than those requested in 1966. This is no place for a etiology of light to find himself in, its people have little idea of like processes or the universe the stars at night you see. The EE's have experienced shots been fired at them even in Christchurch not that they would be effected by such things, but such is the attitude of primordial 2<sup>o</sup> (Man).

The best thing we can do is after our time comes is to come back and leave yours a note or something but that won't be for some time to come.

From observation I think most people are scared of the unknown as far as space is concerned. Some people don't like me doing this in their city, officials etc. They have tried to curb me for the last 10 years.

But space ~~with~~ wise I can not alone no matter where I am, they bring me food, etc. if I don't get it. They have made sure I am immune to most things. Man abuses the body in many ways knowing only blood, and bone, flesh etc.

The right oxygen can cure many complaints. Don't forget water.

You have neither of the ones mentioned. Bending of water and light = fruitful well that's it for now.

It takes a very long time to know which is right handed and which is left handed. Now on the tree of  $oo^s$  is a fellow called Abraham. Whether he was your Abraham of the biblical or not I do not know. But the time will come when I will know all about him, he is not an Ethology, Ethology are the ones of creation.

So you can see, that is of long long ago. You have to turn back the "pages" thousands of years for the answers to some things. That way it is said to take 100 Earth years to know space approximately, and that's with the knowledge given to you.

In your next life you will be practically dormant for hundreds and hundreds of years. Unless you warrant a bequeathment. Then there's the words of creation which man cannot even imagine as to how they work. We see so few links between man and the rest of the universe, other than part of the Creation.

In TV, radio and general reports on sightings. Only one had a resemblance to a space craft. That was about 10 years ago when they were here and they wouldn't have anything to do with Man. Their life style is totally different.

I don't think the public know what they are looking at, at all. As far as

they have seen workings but not the  
space craft itself.

As far as knowing what Celestial people

Dear SIR/S,

The change over to our New House  
Was very successful as far as space  
craft were concerned.

We had 4 clear nights in a row.  
I had 7 in the second night we were here  
and by one operating continuously in the  
time slot 10.15pm to 11pm

I put a shield which has the face of the  
"THIS and THAT" on the roof of a little shed  
and that brought in one of those on line  
its a big space craft.

To refresh the memory a "THIS and THAT"  
is a bloke that has no form like  
Bing Rege Brown, no legs or arms in  
the conventional manner.

There are many different types of these  
personalities as the name suggests.  
They are of the tree of oooo<sup>sd</sup> also they are  
of the star to a point.

I use a different language for them  
very clever fellows.

I had a photo in ~~the~~ colour of one of them  
But they had me destroy (burn) it.  
In fact when I put it in the projector  
the boys erased parts of it, to show me  
"twins" surf its responsibility did what.

2 RB  
*[Handwritten signature]*

Page 2

After I was shown, it was a gesture of good friendship to destroy it, although they could erase it, as they have done before for certain "shots".

By the way flight patterns are usually one behind the other or this  $\diamond \diamond \diamond$  By the way that is the way

they abbreviate a star  $\diamond$  I have seen them in a conventional flight pattern long ago in flights of 9 the most I've seen is 4 flights together 36 as in the first pattern that was 10 years ago.

Most of it is in singles pairs and 3, pairs  $\diamond \diamond$  3s one behind the other or  $\diamond \diamond$  you cannot mistake them.

A lot of them don't put their light on until they are in the contact area.

Some of them have a signal light and others don't they just give a sign and put their light out after contact, depending who it's.

They know everything these boys who I have had business right down to the telephone numbers.

They can erase any writing printing film typing etc. ~~in~~ copy writing all sorts of things.

It is fine tonight so they will be there is a moon so some won't be coming they don't ~~like~~ like the moon light it blocks out the ethology from the stars to a point and we don't want the ethology from the moon we prefer to take our ethology from a certain star, one in the southern galaxies only one of its type, it is our life line to the rest of the universe, you could not pick it up to what it is with the sort of equipment that man has today.

Page 3.

○ my Beautiful star of knowledge, as the Boys say -  
it certainly is, as I said before man does NOT know  
what stars are, or how they are made.

○ A few are special

I don't mind you having information on the space  
craft and space boys to a certain extent, but of the  
stars, that's only for the 'Ethology of Light' and my  
father as they say way out there

That's why the star or stars came to see me in 73  
only one or two know the answer I'm supposed to be the  
3rd in history of the universe

man is not even close to a stars identification  
so the space boys and their craft are complimentary.  
only one or two know as thrilled as me mind  
you it was one of them that led me to it.

I was so close and they ENLISTED OFF FOR me.

Boy was there some craft after that they came  
to see it being done from all over the universe  
is past history now as they say an old time original  
finding his way home.

Thus I got a gift to do me all of my days here.

Maybe we will tell you how your Jesus walked  
on the sea one day.

man does not have the celestial mind his thoughts  
are totally different, we can only bring you  
the facts of another life, endorse the  
Galilean profession in the practical not prayer.

Dear Sir,

Thank you for your letter, and my new address. We are moving into our new house day by day. The EE's have been watching our movements they don't miss a trick. There are 4 craft operating at this time and will probably continue for the rest of the month. They have all been

interfere.

Handwritten notes and signatures, including "21/1/80" and "John Jones".

We have mentioned blending the goods to light but we are looking for a quick fire method, like the space craft can go right through the walls of a house. In short they don't have to leave the space craft unless they want to. We know the peg tooth apparatus divides every thing up into little squares and the final drive is a straight line. The lot curving round to a half circle, so when you are looking through it a person or anything, the whole picture is distorted into squares and you can zoom in on your part selection.

As you look around the peg tooth from the front squares (or "windows"),

Pg 2.

it tails off into sails, which get smaller and smaller to a straight line. To infinite. It is brilliant in its "light" which is still soft light. But more brilliant than colours we know from sunlight and soon.

There are some very odd looking EEs "out there". No science fiction has come anywhere near what they look like, and that goes for the space boys and girls - themselves. That also goes for the beings of another planet way out in the never nevers.

There is a sea like here and some very interesting life forms, trees and so on, but it is not for man to know or touch. They see the way man slaughters animals here as they are the only food he knows. Or what he grows to domesticate to create food, when you have the know how to create like those of another universe. The space boys & girls. The gadget world of man is something they would not want, but get a lot of kicks out of looking at gadgets. They love twiddling with things. Playing records & soon.

By the way they are experts at producing pictures, and teach by that method. But it is applied to the mind and the pictures are Panerama views.

You feel a sharp jolt and you have your picture and you're spoken to at the same time. If wanted. The Primal 2 form (man) is very difficult to assist. It is not complete and has no holding capacity. Like if you place a leaf of ~~light~~ light into the head, it is likely to fly out after a while, whereas it's after was locked in dimension, and you can do something with it,

Pa 3

it lives on light. The Compost form is a hell of a form, you can take the inner form and stand it up. Then it will hold but dividing so the person is alive is quite a job. Mind you the personalities are millions of years in advance of primordial 2 (MAN). And when you consider it takes approx 700 years (EARTH) to be a fully fledged EE. There is a stack of knowledge.

The trouble is one goes through so many processes. I get a lot of bequeathments from EE's. They know I am on a quest for 2 personalities who will probably do me in for everything in the book for not finding them sooner. But as long as I end up with the Marions, I will be happy and so will the EE's.

I should have continued the breakthrough in 1973. But they changed my situation. They got too excited and my house was not secure. I tested the source recently and everything will go well when I want to continue. As they say "Knock and the door will be open to you", and when you're ~~in for a hammering~~ you ask a wacking big EE to give up its secrets, you're in for a hammering, and a very long session. It will be here in 2 to 3 months. So I should be settled in my new abode and waiting. He is in orbit now, but at zero position for me. Between left and right hand lines. So to me he will be coming straight for me, where I prefer to work and write the ethology.

From left to right, which read right to left, so I can get both sides of the line.

Mind you if I were to change personally, the right hand having no unity with the left.

Pg 4

then right or left would not matter.

I am like a lost sheep finding my way home by one of the oldest methods in the Universe, so long ago. The hundreds and hundreds of EE's had never seen it done before as far as we can gather in the history of the Universe. Only one or two have done it. And it looks like I am the third and it is has nothing to do with space craft, although it was one of the space boys in his craft. & that drew my attention to the dimension. It was a wonderful moment when he spotted me.

You could travel the length and breadth of the Universe and not know of their existence.

The secret will remain in my family though probably in-line not find it. But they will know about it.

And that my friend earned me my wings, so to speak. And brought the chiefs to visit me.

It is what you call pure celestial, it's my gift to the ethology of light himself, that's why I can

afford to forward you snip bits. About space

boys & girls and space craft. Not all of it, but just

enough to show you a new line. Something about

real space chaps and space craft that travel the Universe...

Few have identified the space craft although Mr. Saper sent us, identified one taken

in Hamburg, Germany - I sent it back as we had our own. Just close up - like his,

only better in colour and the EE who operated it. we burned them all as requested

by EE's. We are in a new status now and later on we will take a few shots of the

craft in action Pg 5 with star ref. We have done all the sine dots, we are in no rush. It will be when we get around to it.

We missed a golden opportunity a year or so back. It was one of the Ori ones parked on the roof of the shed, it was the type that would go well in a picture. I was so pleased to see him again that I forgot the camera which was mounted on the tripod all ready.

Very photogenic

Well that's it.

Page 2.

Your Jesus told you there were others not of your fold, so sooner or later you will have to go back to the Galilean profession for your answers. The Practical, there is no place for prayer as those people who have died, and are EE's say.

Dear God, Heavenly father it's not supposed to be like this, The scriptures are all up-the pole.

Reality hits you when you die, and you find you are only a little EE. And I mean Little. You could be put in the head of a living person to recover your circumstances. If bequeathed that's how (Little), if another situation was visualized.

That is a rare happening.

Well you are just as far out with propulsion systems, as far as space craft are concerned.

And not in it with life supporting systems, were you to inhale the "Smell" of fresh bread or which is food in light, Brandy and so on.

If you take a tin of condensed Milk, and try to take it through a closed door. The door material has no importance. Stone, steel, wood, etc..., the tin of condensed Milk just fades out to light. Just as the bones of a form can change to light and return to the original. There are several formulas in light, and that goes for food. So you have a long way to go as far as the development of food is concerned, and the base is water. Water and light blending you don't know.

The same goes for oxygen. The right oxygen can heal as well as support life, these are the sort of ingredients you have in a space craft.

Cocoa, Beef Tea, Brandy, water, bread, scotch broth, lime water, Ginger and so on is all inhaled.

That's what it is like in a space craft of the ethology.

Pa 3.

As I said with the tin of Condensed milk, it's just a matter of what you dial, as to what you get. It can be solid. But it's better in light and the concentrated form is very-filling. Just the same when "He" fed the multitudes. They had only small pieces of Bread, a mixture of Light. But light you do not know.

One wiff of bread 66 and you are full. Such is light, blending is the secret.

Dear Sir/s

Compliments of the season to you.

We have been active, we had 8 craft in.  
Last night 2 Big ones A21 and 6 Neptunean.  
(NEPTUNEAN)

Back to death, life, and soon the human form.

- 1) From the moment the form dies the life cycle, an eel goes up.
- 2) Then it is decended upon and done in for an EE.

Now, you are born with a crack on the top of your head. as you grow it closes up. It is there for a reason and that reason is for the placing of certain EE's to recover memories. To enable an EE to learn of a situation that is taking place. A process of re-birth for a certain celestial situation.

It is a process that EE's do not like in general, being put back down on the ground or being done in.

The process is the opening of the crack, then the drawing of the head, and the placing of the cups. And placing of the EE and finally the sealing up of the crack in the head.

The process of recovery takes years and years. It is one in hundreds and hundreds of years that is chosen for a process. Of course the person who gets an EE has had his/her eel taken out, or done in for an EE, and left in.

REFERRED TO
PRO (A)

Page Two

Then talked to, questioned of your life's habits, what you have done, etc...

But a celestial EE could be placed without the person knowing, for learning. It depends on what situation is for the EE's, Earth is a breeding Ground.

Doctors know blood and bone, but have no idea about the life cycle, or the head of man. They have dissected the head of course, we have seen it. —

They know the compost side of it, but have no idea what actuated it in the first place. It is only the head that has interest for us, EE's and so on.

These Physico doctors that you go in for extensively in this country, have no idea of the complex nature of the head. Sure, they have graphs of cell action, fluoroscopes, X rays and so on. But this does not show  $\frac{1}{2}$  of it. In fact it is only a small percentage. It is the other, that activates the cells, and records. That's why you remember things that were forgotten. It is the same thing that tells all when your time comes. Your living cycle is for the Development of your EE. They are malfunctions in the compost form and thus the sort of thing you do down here is not wanted in the Universe, in general.

So you are done in for a situation where you cannot do the things you did down here. If you are found to have something of real interest or associated with it. Then there is something for you. This is what your head is for, to recover the form of knowledge. In short, you have to have Celestial answers. "The Way is Narrow and takes finding."

But it is there for all who seek, and you can find it without going anywhere. It is all around you. Your form is just as big a mystery to you as the stars and planets. You don't know how they came to be, or what they really are.

Page THREE.

Water and Light are something you don't know about. There are all sorts of water and light. We can only drop a few hints that's all.

There is nothing in your modern technical Science that is much use to us. We have to go back to doing what they used to do thousands of years ago. To maintain our contacts a pocket torch is I suppose, the most modern conception. We have used Radar, radio, etc... over the years but they are not much use to us.

Photographs are not much use to us either. We see more with the eye than a camera. We write to one or two now, and again, if we think they can do themselves a favour.

We are not out to score points down here. Celestial, we are as we need all the help they can give, as we have a job out there to do.

We are hoping for a big push in around June 1980 next year. Now, I know what I'm looking for and what to do. The EE of EE's won't be back - for 10 years yet, so we are going to see if we can give him cause to be here sooner. As this time I will be able to talk to him on more even grounds. That's it for now.

Dear Sir/s

We have a slight but interesting problem.

The Social Welfare have had no luck in finding our marriage registration at

I have suggested that it has been erased.

It is only the first wife the dearly departed that is recognized by the Ethology

My first was killed in a car crash years ago, I know where she is.

I have suggested that if they find it has been erased they inform you just for the record (information).

The Ethology have erased my film before today and they might have done this to help me.

My present wife has been elocated or situation for being a good sticker.

By the way the ones who died at the South pole in the DC 10 crash have been done in for little \$\$\$.

It is no time before they go up and as that situation or form is not wanted they are done in immediately for another situation and that's what they will be for a very long time.

It is the hundreds of \$\$\$ around that do them in.

Away in the future they will be done in again.

When they are all gutted up and transported  
elsewhere

My first wife was done in, after she became an ee  
and placed in a certain situation so she can get her  
memory back. But this does NOT apply to the multitudes  
she is not happy to a certain extent with her situation  
she made a boo boo in her life down here to which  
she is stuck with, so she may not get a better situation  
it was only as a favour to me she got it in the first  
place.

With the things to be done after we change it is a big  
question if she will stick on in her present situation  
she has no choice.

If we were vines it would be OK but we are not  
in some craft there 5 or a vine just like your  
Jesus. He was a single vine that's why he said  
I am the vine of life, we are ethnologists.

As you know this planet is a personality just like  
other planets and stars (By the way the description  
of a star as taught in schools has nothing to do with  
the real nature of a star my daughter has found  
that out) at high school.

As I was saying this planet gave up a dimension to make  
the sun work in creation "From the face of the  
waters there came light and when your Jesus  
or Jesus what ever you called him walked on the sea  
his situation as a vine replaced the dimension so it  
was an easy matter to calm the sea, and as a vine  
he knew the origin of life and it was no trouble  
to bring back that chap to life, a vine has no sex  
he was complete no reproduction processes in the  
body not like you with an inner form that's why  
he was able to show the wounds he had after  
change and later to change to light slightly bigger  
than he was which is what the forms were at  
that time

-3-

By the way the Sun gives out Ethology and there could always be the Day the planet gets back its Dimension Rocks stones sticks will not give you how your planet was made, all these things Life planet starts origin are not known by man that is why the Ethology do not make themselves known to you as they are not from another planet but another universe.

Your Neuchap is but a mere twinkle in celestial formulas for such as your form permits you have done very well. The medical profession know blood and bone but nothing about the form "within" of course man says it is the spirit God and all the rubbish in the world well I suppose it is by courtesy of the creators you have a inner form this is why you call it God, but it is another formula, we know the situation that creates all these things it is not for us to explain it, if you knew the answers to the pharaohs the deeds of the Galilean profession then there could be something in it.

We got to live the best way we can here ~~that~~ the Ethology do a few things for us a few gifts of food and so on just enough to show their affection, as they say we are with you always.

Like we made a mistake to be married in a church they have no time for those sort of places. So it looks like we will end up at the Registry Office to satisfy officialdom.

We can only repeat, the Galilean profession is the only hope for such as man, the practical.

We will be back but never again in primordial 2 form. We have no great interest in flying even though we are associated with the space craft creation is our interest and the love of our personalities but would rather be the transporter than the transported.

The last vine to come here was in 73 when the chief came to see us. stayed for about one hour 5 on it.

Just to see what was going on.

One Day you may be can tell your people there is another like  
But if you don't learn anything then you get nothing in  
your new life, the way is narrow, and you need every  
day of your life to find a few answers, if you don't  
try then there is no hope for you, you won't get it from  
prayer although there is a odd practical chain in your Bible:  
You will find some in mythology, the Pharaohs and  
So on to Celestial Life.

As the Space Boys say "DAD is evergreen  
The pleasure is all yours to find him.

You will find your answers are far more  
Scientific than anything you can imagine.

But remember the practical NO Religion  
there is time and place to pay you respects

Find a answer and you will find you will get some help -  
Celestial help. Seek and you will find.

If someone speaks to you don't shout GOD as there  
may be 10 that may speak to you so it could be anyone  
of them depending on the subject

Then you may find the writer of these letters

knows something about space and its contents

who is searching for two personalities, in truth,

I am not alone in the search for - Same

It is being done in space as well as us.

We have the back ground, Identification is the problem

We are not your people interested in UFO as you  
call it and all the trash that goes with it.

We are the real ones born here in process  
and interested in saving our "skins" so we can greet  
old time originals way out there.

We have problems like getting out with what we know  
in transition it a big job, if successful then we will  
be with our friends in space and live happily ever after  
as stories go.

It appears in history Books Bible and like that some people were spoken to by some of the Celestial Personalities and just shouted "God" having no idea who it was that spoke to them.

There are many that could do that anyway the one who took a rib from Adam is not know as God far from it according to Celestial writings, and what we know, extreme light would to you @ Black.

From the writings of man ~~you show~~ about today you should come up with some answers to the Galilean profession in six years dont pass over the book of the unknown disciple

"I am the way I am the light" So you are looking for a formula in light.

Remember in the creation "He" activated the water and there was light.

Also there is light weight light medium and heavy. I nearly cracked it with moulding light but as they space boys say "getting closer" An strings is the answer.

Also when a earth person dies and changes to another situation there is another dimension after that, the life cord that is with you now is with you after the change and can be activated to another form if that is the wish of the powers that be, dont be like the masonry when questioned after the change "I did not mean to do it I never thought it was for real" That is if questioned your minds are an open book, just as "He" in the Galilean profession could read the minds of a crowd in a flash.

Anyway you to can find the answers in your books of your history as to how "He" done the things at Galilee if you go to prayer or conceptions of the spirit you wont get anywhere

You can find some answers if you activate water.

This will give you a clue to all sorts of space people

Same  $\int$  cord is the same one attached to the planets, in the "guttering of the planets".

actually the hand that holds the sphere is a little bit bigger than normal and there is a slight glow around the fingers and hand ~~the~~ from the wrist down it is visible and the cords show up blue in the hand and fingers, the breath of life in transition shows you the other hand the left hand.

The question now ~~arises~~ arises did Moses have a similar hand when he held back the sea.

I would not think it would have had a sphere but a slightly different application of the cords and the  $\int$  string, these cords in the hand are similar to the space craft cords, in most of the cords string or the ~~string~~ string there is one on the right one on the left.

also the cords or life lines are evident in trees. Thus it is the tree of life in action.

As said in the process of the hand the bones just don't exist when the "big" heart moved into the hand from above the wrist.

Get what you can out of these letters as we are the last of the old time originals and the last of the ethnologies to come by the light of the head or by as they say, and as the space boys say it is hundreds and hundreds of years since a situation like us came up we tried to work it out and it's at least 5000 earth years and he was not an ethnology due to what is going to happen in the universe and the latest systems there won't be any more of us, ethnologies that is. Earth form is one hell of a form, you enjoy what you got but it's a poor situation.

As far as I am concerned something must have happened 788 years ago for me to come to this stage, it's a long story.

-3-

and 150 years to go, from Dec 1973 ~~and~~ approx  
10 years to go before he talks to me again  
we are seeking through history (back in the good  
old days) for clues all the time.

We looked through the "god" conception and  
got done for a row of, for that  
so they say to me "I am with you always  
Revelation"

But we are with you always Positive.

Therefore it don't say much for man's religious  
conceptions of the celestial, and of course  
he does not know it. Poor souls that think  
like ends when they die, then comes the  
knawthing of teeth "I never meant to do it,  
I never thought it was for real" the result a  
poor situation = something for some and  
something for somebody <sup>else</sup>, the best thing  
an ordinary bloke can ~~think~~ <sup>do</sup> is to be put with his wife.  
Well that's it for now, it is not much but the  
best we can do for you at this time if you want  
to know about space life.

Dear Sir/s,

Hold on to your Hats because you have  
Never heard the likes, as they say.  
What is written is Fact so you just have  
to battle it out for yourselves.

We had the return of a space friend  
after some 5 years at 9-15 pm  
on Monday Night the 24<sup>th</sup>. He knows we  
are moving shortly so it was good to see  
them before we shifted, there are  
others operating in the area at this time  
7.30 pm till 8 pm. The EE ~ EE has not  
been in as yet although we have exchanged  
some good (sky writing) ETHOLOGY signals etc.

Now the weight of the average  
space chap is one to two pound.  
and some heavier, now how do you  
imagine they can go through a closed  
or locked door well they can, and  
they have far more strength than we  
do.

Back to the door when he gets about  
2 or 3 feet from the door he goes up in  
the air in to a rotational pattern  
which is like a thumb print and is gone  
through and returns to his normal status.  
OR just goes as is into the space craft.  
Now I think there is a connection between  
dizzy spells and this print in fact I  
think it is the identity of the space chaps  
I have had experiences with show

Rocking Backward and Forward and slow Revolving stuff  
as they were showing me.

THE PUZZLE IS THE WEIGHT DISTRIBUTION WHAT HAPPENS

NOW WITH THE HUMAN FORM TO LIGHT IS A PAINFULL  
PROCESS TO HYDROGEN FORM (THIS IS NOT THE FORM  
NOWADAYS) WHERE THE GLOW IS IN THE BONES THE  
CENTRE IS RED WHICH IS THE SAME AS THE LIFE SYSTEM  
OF THE LIGHT ANGELS THE RED LINE IS THROUGH THE WINGS  
THIS SAME RED LINE IS THROUGH THE CENTRE OF THE BONES  
AND YELLOW LINES EACH SIDE OF THE RED LINE THE PAINS  
ARE WITH THE PERSON AT THIS STAGE AND AFTER A WHILE  
THE GLOW BEGINS TO FADE AND THE BONES ARE A DULL  
GREY COLOUR AND FINALLY THE COLOR FADES AWAY  
AND YOU'RE LEFT IN HYDROGEN LIGHT CONSIDERABLY BIGGER  
THAN YOU WERE BEFORE AND THERE IS NO SIGN OF WEIGHT.  
HOWEVER TO RETURN TO THE HUMAN FORM IT IS PRACTICALLY  
INSTANT, ANYWAY THESE OLD TIME ETHOLOGY SITUATIONS  
ARE NO LONGER SUITABLE FOR LATEST TYPE CRAFT  
BUT THERE IS A PLACE FOR THEM, BUT NOT ASSOCIATED  
WITH THE ETHOLOGY OF LIGHT.

IT IS VERY DIFFICULT TO UNDERSTAND HOW FORMS GO TO  
MASS IN LIGHT. ABOUT 16 INCH WAST BUT A SMALL WEIGHT  
IS THERE, FOR INSTANCE YOU CAN FEEL THEM SITTING  
ON THE BED AS SOMETIMES I AM IN BED WHEN THEY COME  
AND THEY CHECK ME OVER.

THE BREATH OF LIFE IN TRANSITION IS A DIFFERENT THING  
TO BEING A ETHOLOGY OF LIGHT WHICH HAS A PERMANENT  
FORM, A FELLOW WHO IS IN THE PROCESS OF CHANGE  
TO A MODERN FORM HAS TWO EE IN HIM OR HER  
SO YOU RETAIN YOUR CIRCUMSTANCES DURING THE  
CHANGE THEY ARE IN LIGHT FORM THUS YOU ARE  
LIKE A NEON SIGN IN A DESERT TO ALL SPACE PEOPLE  
THUS YOU HAVE THIS SPINAL "THUMPS" PAIN IDENTITY  
AND A IDENTITY IN ETHOLOGY WRITINGS.

YOU ARE ALSO NEVER ALONE AS YOU CAN TALK TO  
YOUR EES THEY ARE IN A LIGHT STATE WHICH CAN  
NOT BE DETECTED BY MAN OR CERTAIN SPACE EES

So no harm can come to them, there are those in space who would do you for a row of — and would want you for their situation. I am dealing with 5 different types of EEs and they get up the puff for me. But they don't want to see an old time ethology again. Come into the universe that was all right 50 years ago but not anymore, it takes 150 years to be a fully fledged ethology of light, as he said suffer little children to come to me.

My main interest in space is the transition and finding one or two old timers. I know what's out there, it's no trouble for an ethology to get inside a primordial 2 person undetected to find out what they are doing if it were interesting.

But there is one chance in billions of knowing the personality, this primordial 2 situation is the end of the line, so to speak.

A ethology may ~~take~~ take up a primordial situation in search of something but sooner or later he will find his way back home. He may do everything that others do in the normal way but takes almost a life time to find himself. But usually when it comes judgement time he finds out it has done practically the same things as others have done before him unless the civilizations it has changed much, here it has not changed very much in 5000 years as far as the attitudes of people are concerned.

1st October

My space friends have been back this time with food, this is the third time they have brought us food and fed us. Steak and egg roll fish cakes beans, there is one thing about the food if you put it in the deep freeze it never goes solid, cold yes but won't freeze and the other problem is how they get it.

Inside the House through a locked door a wood door there is point in talking about reducing agents like to the Hydrogen Form. etc. it has nothing to do with getting in that door.

IT is the same thing when a person dies.

Now on the 23<sup>rd</sup> of May this year I was not out to meet the Neptunians so the Etiology of light came to see me my leg was bad and I was in bed.

So they checked me over in doing so I was lying on my back in bed and I went rigid and he lifted my rigid inner body up to a standing position where he found I had to lean against him they did in the infection and I recovered after a few days, the thing to remember in standing up my inner form I never left the bed.

Now the same I think applies to the door or any other earth material, I think the door gives up its circumstances, also I think this is the same situation with metal when it fractures this other type of light they us is always with us and it goes through phases just like some of the space craft.

By the way they count by fives  $5^s$  and there is 360 days in their year and 5 years of earth to one of their years everything is worked out by a clock formula.

The space horizon is from east to west where earth is north to south, -

Alphabet A-Z — their letters correspond with a number on the clock dial from this formulas are produced - Number System - Count by  $5^s$  approx.

It is the reverse pattern of their alphabet each number corresponds with a letter.

a circle or circumference can be divided into four axes of symmetry then this corresponds with the space clock

Seasons may be presented by clock or time system  
 eg. years

- Spectrum
- Navigation to Bases
- Graph
- Working of craft
- Center point (clock)
- System of numbers
- Alphabet
- "Standard Deviations of Graphic"
- Freq of light
- Rays of light.

One day Betta may write up a mathematical letter for you,  
 I navigate by Ethology, reflections of the sun on planets is also used, it is the movements of the "wings" of the duck or ducks situation in the sun, man does not know it. Ethology of sun and stars.

I will be moving from here any tick of the clock now.  
 I will write you my new address as it comes up.  
 I am quiet satisfied now I will go out with my memory intact, we have been trying to work it out and it appears the calculations point to the Ethology light himself will be back to see me in 10 years time from now, we are getting Betta even year and remembering more and more. Well that's the end of the Epistle, it should help you to understand ~~space~~ the "Space" in which you live.

When I am doing photos again I'll do one print for you as I do one for myself so you won't be involved in returns

Space craft are operating at this time their EE or EEs has not been inside the house as yet but was overhead a couple of nights ago when we had a clear night so I don't expect him in until the time comes for a change over.

at this time of the year they are usually in half past 6 to seven o'clock at night so there is only 1/2 an hour involved in waiting for them, the marker Ethology tells its own story they then watch for the torch signals and were in business - it is all Ethology so it is

CONFIDENTIAL.

• I have a really good go at night  
in the day time to write and draw

I have the advantage of 2 EEs

Most of the pain crabs have returned  
 to base now, they finished a week ago.  
 Only an odd "oton" will be in the area  
 plus an odd ethology of light "marion"  
 which boils down to two a week approx.  
 We are moving from in the near  
 future, the state advances is 13 all dozen  
 the house down, so it is going to be a  
 matter of luck where we can get another  
 place with a big enough back yard  
 for the crabs to get down off as  
 long as it has enough room to build  
 a little shed, as it is, they prefer  
 to set down on the roof of a shed  
 here, although the "this and that" use the  
 yard.  
 So I would like you to send back those  
 sketches the boys drew, I know they  
 are interesting, it gives you some idea  
 of the situation and space personalities  
 the dimension is here, we have had a few  
 sessions but cloudy weather and full  
 moon have not helped much, he is in orbit  
 (not around this planet) in the eagle  
 constellation I will see him in July. With  
 direct overhead, one of the old time  
 grids was here a couple of days ago.  
 To see packing, they don't miss a track.  
 You will get interesting photos later.  
 Which will compensate for returning the

DEAR SIR/S,

IT IS OBVIOUS YOU HAVE FOUND INTEREST IN THE SPACE BOYS DRAWINGS OR YOU WOULD HAVE SENT THE LAST 2 BACK. ENCLOSED IS A WRITING THAT DIVIDES THE MEN FROM THE BOYS YOU CAN KEEP THIS ONE, HAVE A GOAT DOING IT, IT IS DOWN AS FAST AS YOU COULD DRAW A STRAIGHT LINE, IT IS ONE ON THE RIGHT ONE ON THE LEFT, THERE IS VERY LITTLE ON ONE SIDE OF THE LINE, IT READS RIGHT TO LEFT ITS ALL ABOUT SPACE SITUATIONS AND YOU HAVE TO KNOW WHATS OUT IN SPACE BEFORE YOU CAN READ IT, IT IS ETHOLOGY THE SORT OF THING I WILL BE DOING AGAIN STARTING THE FIRST FIVE NIGHT NOW. ACTUALLY IT IS THE SAME  $E \sim E \sim E$  AS VIEWED ON THE PAGE OR WRITING - IT HAS BEEN TRAVELLING FOR MANY MONTHS AND NOW IN POSITION, SO NOW FOR THE NEXT FEW MONTHS WE WILL BE EXCHANGING NOTES, IT IS A LITTLE OVER 5 YEARS AGO SINCE WE HAD A LONG SESSION

10

The personality has been in space so long ago that man just does not have the understanding. IT IS AN OLD TIME ORIGINAL AS THE EES WOULD SAY OF ANOTHER UNIVERSE.

You will have your work cut out doing the writing of the enclosed in one swoop, it is continuous, it takes years of practice even with someone guiding your hand, I had an EE for a long time guiding my hand till I got the gist of it.

IT IS NOT EASY TO DO ESPECIALLY IF IT IS ONE YOU READ BOTH SIDES OF THE LINE, YOU HAVE SEEN THEIR WRITING IN ENGLISH NOW ITS THE ETHOLOGY. WHICH IS A COMMON WRITING, THERE ARE OTHERS.

IN COMMUNICATION WITH SPACE CRAFT FLYING BY IT IS THE ETHOLOGY THAT IS MOSTLY USED, IF THERE IS SOMETHING INTERESTING THEY COME BACK NEXT DAY IN THE AFTERNOON WHERE THEY CANNOT BE SEEN BY ANYBODY ELSE.

IN DIMENSION - MANS FORM IS NOT THE SITUATION WHERE HE CAN SEE AROUND HIM OR YOU WOULD BE ABLE TO SEE YOUR DEAD ONES. AND WOULD NOT BE DOING HALF THE THINGS YOU DO NOW.

THATS IT, WE WILL LEAVE IT TO YOU TO WORK THESE THINGS OUT FOR YOURSELVES.

March 28 1979.

Dear SIA/c,

You have not sent back the last 2 sketches done by the Space Boys I had a dimension visit me on the 10<sup>th</sup> March at 4 o'clock in the afternoon we had a session in light, but not the sort of light you know. Light is something you will have to get on to, not Sun light but Chromatic light you won't get it playing around with the Sun's spectrum it is just as soft not intense yet more brilliant they are more vivid in colour even the black yet quiet it is not stark. These are the dimensions, the energy is far more powerful than any nuclear energy could possibly be as it is further up the scale of things way above the elements. You work with in the nuclear. In it you can see better it does not have shadow problems, it is the sort of light you are in when you change after death

~~FILED~~  
~~Am 39~~

It is a whole new world, you have not got it metal wise, moulding light, it is much more tougher than steel, it is further up the scale of things is the only way one can put it.

The people from a planet have this light moulding formula and they use it to construct motions for their space craft and in not too far back in time constructed a whole space craft in it, it has been here some 8 or 9 years ago. They are more advanced than this man on Earth man talks of unidentified flying objects once he gets out in space he is in for some shocks and will be hand pressed to survive, man would not have a chance against some of these advanced types they are not interested in doing you in, man is down that to each other daily and his life here is still there is a place in the universe for all these millions those gone and those to come, man is still very primitive on the celestial scale. There are some brilliant minds but only on the primordial 2 scale they ~~are~~ have not got the mind of the celestial, man's whole form is a poor one. There are situations that can relieve the whole planet of its circumstances and it would be no more, total disintegration so you are really lucky for this not to have happened some years ago

But as it was said "FORGIVE THEM FOR THEY KNOW NO BETTER" This applies today as it did then, so it remains Judgement, were your very own & give's up a account of your wife and the situation you get in the after life is subject to that, anyway you will do no more Harm to anyone.

Man cremates the forms of others thus denying the person the chance of the breath of life process if he were chosen not that there would be many only one in umpteen million but the loss of hands is significant, and usually the process ~~is~~ is started many years before death. When you dont know how your races came to exist and dont know the death result there is little the celestial personality can do for such as Primodial 2.

I have listewed to the Best of Man on the Celestial overseas and I have spent 10 years doing just that and then I came back here as there was nothing to be gained, not a trace of what the celestial was about, Fortunately man does not know what he is looking at when he does see something celestial, he knows its seen something but it remains unidentified. Well thats

Dear SIR/S

Enclosed a further slip of note paper with self sketches of space personalities. With words of creation the writing is "Just having a go at me for wearing cuff links and a tie."

Anyway the sketches will give you some idea what these ~~the~~ crafts look like there are 5 or 6 different types of personalities that are more or less conventional there are others that are not conventional.

The objective was to give you identification of 2 or 3 EES that operate space craft for the ethology of light.

These sketches are out of my family folder and I wish them returned you will note on the card that the personality that presented this card has initials to the names were as others don't.

Well that's all I can show you at this time, it's just to give you some idea of space.

We can not help yours with your problems of life, just advise you you have another life which is more acceptable to the universe.

Yours Faithfully

DELETED IAW OIA SB(2)(A)

at this stage in the sixth year there is still a lot of repetition of words and the memory of the person who is being assisted to recover their circumstance starts to return and realization that the subject was once a "dead primordial" is apparent, the E.E. with the "person" under recovery is served by various members of the ethology of light to ensure he is recovering his circumstances too. The E.E. talks to the personality through the subject both learn from the personality.

If it takes many years before the person recovers their circumstances then it depends on the judgement what situation they get as to a form or just with the personality for a very long time there is a great lot to learn about other types of personalities, as well as the universe.

There are situations where there are double and triple situations in the one body, out in space mainly with the "this and that".

It is not for me to tell you how the dead are risen, just to give you an indication of an after death process. That it is a big thing to recover the circumstance even for the chosen.

Yours Faithfully

DELETED LAW 01A 59(2)(A)

It is very difficult to get a true picture but by their self sketches one gets the picture better. The words are eyes on the tree of Etymology. They are situations out in space, it takes about 150 years to really know the Etymology, I have been at it many years it involves the steps as well so it is a big field. Anyway the point of this letter is to give you a look at this space chap, because later on I may be photographing again, it won't be before the end of the year, after this dimension comes in July then we see about some photos. The Marion craft is away back now it was here 3 days. Palw Craft are operating.

Well that's it.

**DELETED IAW DIA SB(2)(A)**

Know the one source of Light were as there are  
A-B-C

Now with space craft as said the swing is left  
By "Blocking" the end of the magnitude you  
can get it back to the same as the Light source  
This is with the manion were you are seeing  
the craft as sunlight only the light is intense  
with the plan craft the light you see is in  
the red but it is given off from the  
second magnitude going left, so you can see  
the control of the light situation they have  
and the elements is complete. anyway you wont  
get anywhere until you find the horiz-line  
this is what gives the spiral width.

Now the ee at the end of the magnitude (red end)  
is a very powerful situation which make  
the hard rays or short end of the spect-  
in the second and third and so on "ghow" like  
the source this is the wand my friends in  
short your spectrum will be

$$\left( \begin{array}{c} \text{Plan} \\ \text{craft} \end{array} \right) = \begin{array}{ccccccc} & & \text{W} & & & & \\ & & \text{O} & & \text{O} & & \text{O} \\ \text{O} & - & \text{O} & - & \text{O} & - & \text{O} \\ 3 & & 2 & & 1 & & 2 & & 3 \\ & & & & \text{craft} & & & & \end{array}$$

in short they can put an ee up to that sun  
and burn the feathers of you with the second  
mag, this is the practical of the old story  
fire and brimstone, there are far more  
simpler method of doing in the human race than  
that, the point being it is still a simple thing  
for the right personality to burn up this  
planet, when you can make your short waves  
give up in long waves as with the plan craft  
your getting some where, there are those we  
call the nuclear "this and that" but they are  
way way way ahead of mans efforts.  
You will recall the burning bush with moes

Well the EE that Reverse the Magnitudes is something similar, For years I was stumped by no 6 on the Celestial scale and then I found out it was the same situation in light as Tit's EE also if you can roll a ring 0 in light you would be getting some where like a smoke ring. There are EEs like Titat 0 just wee life forms about 1 inch and a half to 2 inches in diameter

With the space crews there is no swearing cursing or fancy words, all English is spoken in the simplest form possible, this is for your little EEs and so on if you think you a big shot your done in for another situation and cast out. It a case off one happy family there are plenty of opportunity for talents, its a long road to go before one is in a space craft you are dealing with the creators and one must have the necessary understanding there is no such thing as religion or that kind of thing, its the practical.

As they say there are something for some and something for others it just depends what comes out at judgement as to the situation you get.

Its those of another universe that operate space craft so you wont be associated ~~with~~ with them you will see them but they are not the situations for you to know. Their form was created millions of years ago man can only imagine how old some of these EEs are. Known as an old time situation.

I doubt if we can help you very much just tell you there is another life after death a few hints about space craft and who operates them if you accept it all or not is not for us to judge we are the only ones for hundreds and hundreds of years as they say, we are doing things for ourself in search of knowledge and it take hundreds of years to know the universe and universes

THINGS HAVE ALREADY BEEN DONE YEARS AGO TO ENSURE WE DONT LOSE TOO MUCH OF OUR CIRCUMSTANCES WHEN OUR TIME COMES TO FADE OUT. DEATH IF YOU LIKE TO CALL IT THAT, IT IS NOTHING THAT YOU CAN SEE OR DETECT. TRANSITION CAN BE IN MANY FORMULAS WITH US IT IS THE WORDS AND LETTERS OF CREATION SOMETHING YOU HAVE NO CLUES ABOUT.

THE HIGHEST I HAVE GOT UP THE CELESTIAL SCALE THAT I HAVE IDENTIFIED IS NO 5 ON THE CELESTIAL SCALE. ALTHOUGH I HAVE BEEN SPOKEN TO BY A HIGHER ORDER BUT NOT ONE I CAN NAME THE EE OF EES AS THEY SAY BUT I DONT KNOW WHAT ORDER BUT HE WAS THE HEAD MAN OF ANOTHER UNIVERSE, EACH DIFFERENT TYPE OF SITUATION IS CALLED UNIVERSES OR CIVILIZATIONS. I HAVE A WIFE HERE THAT I WANT TO GET QUALIFIED FOR ANOTHER SITUATION THE SPACE BOYS HAD DONE HER ONE OR TWO FAVOURS BUT THERE IS NOTHING TO INDICATE SHE WILL GET A FORM SO I NEED ALL THE YEARS I CAN GET FOR HER SHE IS THE MEAK AND MILD TYPE AND KNOWS THE BIBLICAL TEXT WHICH IS OF NO USE IN THE QUEST OF A FORM, SHE STICKS ON LIKE GLUE SO THERE IS A CHANCE AS IT STANDS SHE IS A LITTLE EE SO I HAVE TO GET ONE OF THESE OLD TIMERS TO BEQUEATH HER A FORM, WITH A BIT OF LUCK WE SHOULD HAVE 20 YEARS TO DO IT IN. AND THAT IS NOT LONG AS IT IS YEARS BETWEEN VISITS OF THE RIGHT ONES THAT CAN DO IT.

THATS RIGHT IM ONLY INTERESTED IN GETTING MY FAMILY THE BEST SITUATIONS I CAN, JUST BECAUSE SHE IS MY WIFE DOES NOT ENTITILE HER TO A FORM EVEN THOUGH SHE STICKS ON WITH THE LOCALS HAVE RAMPED AT OUR DOOR SHE KNOWS WHO NO 1 IS ON THE CELESTIAL SCALE, SO HE JUST MIGHT DO HER A FAVOUR, AT LEAST PUT HER INTO A SITUATION SO SHE CAN RECOVER HER CIRCUMSTANCES. WELL THATS IT, DONT FORGET TO RETURN THAT XMAS CARD AS THE PERSONALITIES LIKE TO LOOK OVER THEIR GIFTS.

CHRISTMAS CARD  
Jan 22 1979.

Dear Sir/s,

ENCLOSED SKETCH OF B2 IN ACTION  
WHEN YOU HAVE A NEUTRON LIKE THE ~~X~~  
ANY SINE IS POSSIBLE ANYWAY ~~HAUUF~~  
HALF THE REPORTS OF LIGHT PHENOMENA  
ARE DUE TO THIS APPARATUS.  
WHEN YOU ARE USING ATOMS LIKE A, S, B, C C  
F M N P PLUS MORE ADVANCED TECH IN B LIGHT  
CUM STRINGS YOU CAN ACHIEVE ALL SORTS OF THING.

NOW ENCLOSED IS A CHRISTMAS CARD  
WHICH HAS A SELF SKETCH SOME ETIOLOGY  
AND A MESSAGE AND YOU WILL GET AN  
ORIGION LOOK AT THIS DIMENSION  
I WANT IT BACK AFTER YOU HAVE HAD A  
GOOD LOOK AT IT, YOU WILL SEE HE IS NOT  
FAR FROM THE HUMAN FORM IT WAS GIVEN  
TO ME WHEN THEY WERE ALL PRESENT IN  
1973 DEC 12 IT WAS THE FINAL FLIGHT  
OF A GROUP FOR SOME YEARS AS YOU CAN SEE  
BARRY'S ENGLISH IS GOOD. IT IS ONE OF  
MY TREASURES SO DON'T FORGET TO SEND IT BACK

A PUKU CRAFT WAS IN LAST NIGHT AT 11 P.  
IT WAS A VERY GOOD CONTACT THERE WERE  
4 OTHERS BUT THIS ONE WAS SPECIAL.

I HAVE COME IN CONTACT WITH TWO REAL  
SPACE BODS THEY WERE IN THEIR O  
BUT THEY ARE TRUE SUBJECT OF KING  
NEPTUNE

These two originate from the sea, in the EVO process  
yes I know the planet they are from But unfortunately  
I have not got the good star maps I had any way it is  
not far from "Rastaban" in Draco, By the way  
several craft operate from Rastaban, and Aquila.

YES THERE is another planet with a sea we are becoming  
more familiar with its occupants as time goes by.  
We have seen pictures of it, But in recent times we have  
come in contact with these two neptuned bodies they  
have been on our space lines for many years, The space  
chart that is any way they are interesting EEs.

any way from the sketch both it as done you will see  
the action that leaves rings on the ground, yes I  
have had more than a Christmas cards from the  
Ethology of light, if they are here at Christmas time we  
do get something, my main presents were in 1973 one is  
to do me a like time, it is not the sort of thing others  
can participate in, the contact that is, IT is person to  
PERSON we are working for a form in transition  
we can avoid the general EE form that is the end  
result of the general public as they say we are the  
only ones to come by the light of the law. For 5000 years  
and then it was not actually the Ethology of light. He went  
to the tree of good we are going to the tree of  
Ethology we have to work which is what we want to do.  
as they say there are some things for some and other  
things for others, But I can tell you the situation you get  
after death is a poor one compared to the active one  
you have now, you will do no more harm to any one.  
you don't have the circumstances you have now, But there  
is a place in the universe for you all.  
IT takes many years to get a form, The forms that were the  
thing in the 30s are not the forms that are required  
Now, any way I sent you the breath of life in transition.  
you will have to work it out for yourselves.

## **PUBLIC RELEASE OF UNIDENTIFIED FLYING OBJECTS (UFO) FILES**

These copied and redacted files of correspondence on **Unidentified Flying Objects** dating from 1952 to 2009 have been Declassified and released to the public by the New Zealand Defence Force under the Official Information Act.

Access to the original files held by Archives New Zealand is restricted up until the year 2080 for Personal Privacy reasons. These copied files have had the personal details of members of the public making UFO reports removed to preserve their privacy. Personal details of service personnel and civilians employed by the New Zealand Defence Force and other Government Departments and Agencies have not been removed. No other information has been removed or omitted from these files.

### **GENERAL DESCRIPTION OF FILES**

Correspondence on Flying Saucers began in New Zealand Defence Force files in 1952 and continued under different names, Unidentified Flying Objects (UFO) and Unidentified Aerial Sightings (UAS) until the present. The files contain reports of sightings by private individuals and military personnel, investigations by Defence and other Government Departments and agencies into these reports, newspaper clippings on UFOs and letters from individuals who claim to be in touch with alien beings and craft.

While the files are in general date order from 1952 until the present some file periods overlap with one another and the documents within each file are not necessarily in strict date order. There can be duplicate documents within each file and copies of the same documents (particularly media releases and reports) can appear in different files.

### **ACCESS TO UFO FILES**

These redacted files are available in hard copy from the Defence Library c/o Headquarters New Zealand Defence Force Aitken St Wellington. They are not available in electronic format.

Dear Sir/s

There is a new space CRAFT ON THE LINE

IT IS

a up dated VERSION OF THE ONE SKETCHED  
THEY HAVE NOT BEEN FOR SOMETHING LIKE  
16 YEARS - THE ONE LAST NIGHT WAS IN  
FULL LIGHT - THEY HAVE INSTALLED THE SAME  
PROPULSION SYSTEM AS THE VEB AND ARI  
IT WOULD GIVE THE APPEARANCE OF ONE CRAFT  
ON TOP OF THE OTHER - IT IS MUCH BIGGER  
THAN THE OLD ONES - THIS CRAFT CAN FADE  
OUT JUST LIKE THE VEBs - THE OLD ONES  
DID NOT - THIS ONE IS ABOUT 80 FT LONG  
& 4 FT HIGH THE OLD ONES WERE ABOUT  
24 X 10 -

We Have Had a Lot of Visits Recently - IN THE  
HOUSE THAT IS -

IT IS A VEB THAT I HAVE BEEN SCHOOLED FOR -

- PHOTO ELECTRIC - C      STRING -

THERE WAS ONLY THE TWO IN LAST NIGHT IN THE  
TIME SLOT 7-30 TO 8 PM - THE HAND OF THE  
ETHOLOGY IS EVERYWHERE -

DONT FORGET THE 800 DOLLARS I REQUIRE FOR A  
CAR -

Dear SIR/S,  
I Require 800 Dollars FROM THE  
POWERS THAT BE IN CONSIDERATION FOR ALL THE  
INFORMATION THE GOVT HAS GOT FROM ME -  
FOR A CAR TO GET ME OUT TO CERTAIN SPACE CRAFT  
IF REQUIRED -

I Had a CAR BUT THE COST OF REPAIRS WAS  
GREATER THAN THE VALUE OF THE CAR - A PLYMOUTH  
I HAVE TO HAVE A BIG CAR AS I HAVE DIFFICULTY  
GETTING INTO ONE -

THE CUMM string is the origin of the  
UNIVERSE and most space craft are propelled  
BY THIS MEDIUM plus advanced Nuclear Principles  
Most of the advanced personalities CANAGA "GUN" -  
I Had 4 visits to the House last week BRINGING  
ME FOOD - quiet apart FROM THE USUAL CRAFT  
OVER HEAD - THE HAND OF THE ETHOLOGY ARE EVERY  
WHERE MY - MY EE IS ON and next the  
THE CUMM ON THE ETHOLOGY - I ALSO SO KNOW THE  
ORIGIN OF LIFE IN THE UNIVERSE O BUT THIS KNOWLEDGE  
IS STRICTLY FOR DEAR OLD "DAD" THE NEXT TIME  
HE COMES TO SPEND A FEW DAYS WITH ME -  
WITH HIS HELP THEY WILL GET ME OFF THE GROUND  
NEXT TIME - IT WAS ALL BUT LAST TIME -

THEY SAY THEY WILL GIVE ME A NEW SET OF CIRCUMSTANCES  
AND MY MEMORY SHOULD BE INTACT -

I HAVE FINISHED MY BEING WITH THE STAR OF  
KNOWLEDGE FOR THIS YEAR -

THEY WILL LEAVE ME HERE WHILE I AM MOBILE - ALTHOUGH  
I AM ON A INVALIDS PENSION FOR MY LEGS I CAN WALK  
SLOWLY WITHOUT A STICK BUT NOT TOO FAR - I USED TO HAVE  
PAINS IN MY LEGS BUT THEY DONE ME WITH THE PEQ TOOTH  
AND RELIEVED ME OF PAINS IN THE BONES -

RECEIVED

0 AIR

- 2 -

ONCE MY EG REACHES A CERTAIN STAGE HE WILL BE ABLE TO  
DO ME IN AND RELIEVE ME OF MY STAKES IN THE HANDS  
AND RUGGERY LEGS - ANY I WILL HAVE A DIFFERENT SET OF  
CIRCUMSTANCES TO WHAT I WAS 4000 YEARS AGO - AND  
WITH A FEW AS SPACE CAN BE A LONELY PLACE - THEY ALL  
HAVE EYES - SO I WILL HAVE ONE TOO -

I WROTE TO MILLENN some weeks ago FOR 800 DOLLARS  
FOR THE CAR BUT HAVE NOT HEARD FROM HIM -

YOU HAVE HAD THE ANSWER TO THE SINE DOTS - BREATH OF LIFE  
IN TRANSITION - ORIGIN OF THE UNIVERSE - THAT CUGHT TO  
WORTH A CONSIDERATION -

Yours Faithfully

Dear Sir/s,

BREATH OF LIFE IN TRANSITION =

- 1) UPON DEATH OF A PERSON THE FEEL GOES UP INTO THE AIR
- 2) WHEN IT IS SPOTTED IT IS DONE IN FOR A VERY TINY SITUATION
- 3) ONCE DONE IN IT IS PLACED IN A EE A SORT OF SPHERE
- 4) THERE IT REMAINS UNLESS THE MASTER HAS SOME SPECIFIC INTEREST IN IT - IF HE DOES IT IS DONE IN FOR ANOTHER SITUATION

THERE IS A SIMILARITY BETWEEN THE "O'S" OF THE TREE OF LIFE OUT IN SPACE AND THE SPHERE'S MAN IS PLACED IN - THERE ARE COUNTLESS HUNDREDS OF THESE SPHERE'S AROUND - AT PRESENT I'M NOT TO SURE THAT THERE ISN'T A TREE OF LIFE ON THIS PLANET -

EE APPLIES TO A THING, A PERSONALITY, A GADGET - ONE THING IS FOR SURE MAN IN HIS SPHERE HAS NO IDEA OF THE TIME - ONE OF MY EES PASSED 4 1/2 YEARS IN A SPHERE AND THOUGHT IT WAS HUNDREDS - IT JUST AT THE STAGE WHERE IT CAN TELL ME THINGS - IT IS A EE OF EES THAT DOES THE GET OF MAN IN FOR HIS OR HER NEW SITUATION

THE § IN THE HEAD OF MAN IS HIS SO CALLED GOD - IT IS A DIMENSION OF THE TREE OF LIFE -

THE PERSONALITIES WHO FLY THE SPACE CRAFT HAVE ONLY GOT TO TOUCH THIS DIMENSION WITH THE DIVINING ROD AND EVERY LIVING THING ON THIS PLANET WOULD PASS ON - EVERYTHING HERE ON THIS PLANET IS ASSOCIATED WITH THE TREE OF LIFE - THE MASTER HAS ONLY TO RAISE HIS HAND AND WHOLE CIVILIZATIONS WOULD PASS ON - IT'S THIS § EE THAT TELLS ALL IN A MAN'S LIFE -

# ETHOLOGY OF LIGHT 1

MAN IN HIS NEW SPHERE IS IN A FORM OF LIGHT -  
HIS TRANSITION SHOWS THAT THE DIMENSION OF THE MOON  
PLAYS ITS PART - I HAD A GO WITH THIS 88 YEARS AGO  
IT WAS TELLING ME THINGS AND GOT INTO TROUBLE -  
IT COULD BE THE DIMENSION OF THIS PLANET IS THE ONE THAT DOES  
IN THE PHAROAH'S FEEL OF MAN -

I WAS ABOUT TO FIND OUT IF THIS PLANET HAD A DIMENSION  
LIKE THE OTHERS WHEN I WAS DESCENDED UPON -  
AS IT TURNED OUT IT WAS A PLEASURE -

I AM WORKING THE STAR OF KNOWLEDGE - WEATHER PERMITTING -  
JUST NOW - JUST A FEW SPACE CRAFT ABOUT -

I WILL BE WITH THEM AGAIN IN A FEW WEEKS - I HAVE NOT BEEN  
TAKING ANY PHOTOS LATELY -

I HAVE CHANGED MY MIND ABOUT PUBLISHING - AGAIN - AFTER  
ALL THE PERSONALITIES WROTE FOR ME ABOVE TO KNOW - SO IN THE  
MEAN TIME I WILL KEEP IT THAT WAY - MOST BODS CANT GET OVER  
THE FACT THAT THE PERSONALITIES CAN READ AND WRITE  
ENGLISH -

-----  
BY THE WAY MY FEEL WAS REMOVED IN 1973 AND  
ANOTHER SITUATION PUT IN ITS PLACE TO ENABLE ME  
TO CARRY ON -

WELL THATS ABOUT IT - I MIGHT WRITE AGAIN IN A FEW  
MONTHS TIME WHEN I AM WORKING THE SPACE CRAFT -  
THEY HAVE BROUGHT GIFTS RECENTLY -

## No light shed on UFO light in sky

Sightings of a bright, pulsating, orange and white light in the sky have prompted UFO fever at Christchurch Airport.

Four Air New Zealand cargo loaders — all experienced with night sightings of aircraft — are still scratching their heads over yesterday's UFO incident at the airport.

They saw a fast-moving orange light approach the airport from the south-east then continue to move around directly overhead for about 14 minutes.

No aircraft was known to have been operating at that time and the object, or light, made no sound. There was a cloud cover and a slight breeze at the time, but the four men were convinced they were not seeing a reflected or refracted light source.

Lindley Squire, Gerald Coward, Bob Mulholland and Stuart McConnell had started work at 4am and were loading a Bristol Freighter bound for Dunedin when the incident occurred.

Mr Mulholland had just looked at his watch at 4.49am when he drove a forklift out of the cargo shed towards the aircraft waiting on the tarmac.

Seeing the bright light approaching at speed from the south-west he signalled to his colleagues to stop, and lights and engines were switched off.

"Then it was overhead," Mr Squire told "The Star."  
"But it wasn't stationary, it was hovering and moving around."

The light was circular with a white centre, a pulsating orange ring enclosing it.

"It went back to the south-east, then westwards, then back above us again."

At that stage Mr Squire went back into the cargo terminal intending to ring the control tower. He was unable to reach the tower and returned to the tarmac.

While Mr Squire was inside, Mr Coward and his two companions watched the object disappear to the east over the Cashmere Hills.

Mr Coward recalled the white light growing in intensity as the object hovered above.

After 14 years working with aircraft Mr Coward said he had seen all sorts of lights in the night sky, including falling stars, but "this was different altogether. It's a mystery to me."

Said Mr Squire: "I didn't feel scared. All I could think was 'Oh my God, what is it?' I was just engrossed."

Mr Squire admitted to having read a few books on UFOs, but said he is not "into it."

"Because of the way it moved, and knowing aircraft, I'm convinced it was a UFO."

The duty air traffic controller saw nothing from the control tower and police have only received one report of the incident — from the airline staff.

"We just hope somebody else in Christchurch might have seen something," Mr Squire said.

The Meteorological Service has been unable to offer any explanation for the incident.

A weather balloon was released at the airport at 4.56am, but that was after the object was first seen and it would not have been approaching at speed from the south-east.

The Air Force, which received a report of the incident, was also unable to explain it.

Yesterday's was the country's first reported UFO sighting since a Temuka family said it was tracked by a bright object in the sky as it drove home from Pleasant Point on July 12, last year.

Mr Ken Thew and his family said they saw a glowing football shaped object. It appeared to a solid object, 10m high and 5m long with an iridescent green top half and a reddish-gold tinged lower section.

The family reported seeing what looked like a row of windows, emitting a strong light. At one stage the object came within 120m of the family.

# Spotlight theory on UFO sighting

Spotlight hunters could be responsible for Tuesday's reported UFO sighting at Christchurch Airport. Gunshots were heard from the Waimakariri River north of the airport in the early hours of Tuesday. The sighting can be explained by a cloud of reflected light, says the vice-president of the Christchurch Astronomical Society (Mr C. H. Rowe) the object described by New Zealand employees could well have been a

reflected spotlight. The effect, known as back-scatter, could produce an orange halo when seen through hazy cloud. Mr Rowe said today. Mr Rowe admits that in cases of reported UFO sightings he tries for the mundane explanations first. But two more witnesses to the incident have strengthened Mr Rowe's theory. Mark Ley and Rodney Jones, both 14, were camp-

ing out near the Waimakariri riverbed at the time. Mark said today how the pair were woken by a bright light - orange coloured - which shone from above on to their tent and surrounding trees. They were terrified by the incident, he said. Rodney had noted the time at 1.10am when he woke - more than three hours earlier than the reported sighting by airline

ground staff. "We opened the tent and poked our heads out," Mark said. The pair at first thought there was a fire, though they could not hear crackling but a "faint hum". The source of the light was to the south of the tent and could not be seen over the treetops. According to Mark the area was lit up for three or four minutes. "We thought at first it

might have been a car or a spotlight, which is still a possibility, but the light never stayed in one spot. "We just sat there for a while, then there were a few gunshots from behind us (to the north)". "We were lying there terrified really - my friend said it could be a UFO," Mark said. The pair managed to get back to sleep about two hours later, then woke early and cycled home.

## UFO at airport

An unidentified flying object was seen at Christchurch Airport early today by Air New Zealand staff.

The object, which approached at high speed from the south-east and hovered overhead for between 45 and 10min, was described by a witness as a bright white light with an orange perimeter, according to an air force spokesman.

The sighting was in darkness at 4.50am. No aircraft was known to be operating in the area, the spokesman said.

yours goes back to your Lord Jesus -- the Halo an " O"  
The ones befor that have another s ituation its quiet good actually  
I have met them but at this stage dont know that much about them  
excp\_t they could go back IO thousand years Egyptian or middle east  
of course they were - by their clothing --  
So when it comes to these old timers who go back 70 thousand years  
and more mans concept of life over 75 years a twinkle -  
And then it comes to personalities who are millions of ywars old  
especially those from the tree of Ethology - its a totally different world--  
I cant read every thing they do but from their tutition i get the general  
picture of the writings ----  
We are now in the the 8 th year that the Master has been comming to  
leave us little gifts -he is helping the two ee/s recover their circumstance  
-s as well- as the Personalities say DAD is evergreen - he is so it  
comes tp pass he is a swell guy -  
Well that is it - happy new year etc.

These are fabulous times for me --

The Master

What a marvellous old bloke we are very close in the practical He is very quiet spoken - he does not have hands like the ordinary bloke - the dogs know when he is here - i dont nose about when he is here leaving a gift - i convey my thanks when the Star of Knowledge comes around - HE is every thing you hope for and more - but the prayer bit is out - as far as we are concerned - only the practical counts-He closed the gap on the top of my head when the EE was put in after draining - so i know his hand is different - i know how he started the Universe - and i know how he talks -which is quiet different from man -he spent 64 days and nights with me-or 65 -i have a lack of information to determine what he is - He could be the BIG fellow i have seen 4 times watching the space craft and us He is so big that part of his head blots out part of the moon thats how i have spotted him 2 times - tremendous big bloke and i have seen part of his space craft what a tremendous ~~ring~~/size -it was a dofferent dimension from the personalities craft as they were flying through it -- 2 times i have seen him upright- I have had comformation on this big fellow from a personality - what he does but not that he is Dear old DAD -as they call him - But he was present when they stuck the 2 neddles into me - right hand side -Light- i know how to communicate with him now but i have not seen him for nearly 8 years - i have picked up a lot since these events havev taken place - i can wait -

Dear Sir/s,

Enclosed print of space craft doing sky writing - it is a Ethology of light craft from Laserta)I( in their Big Bear constellation -you may reconize the  $\pi$  sign which is the letter symbol for the ethology -it is among the signs i sent you - *cccccccc* the message tells me of the Divining rod and its bequeathments - the usual thing is we Bequeath each other everything and talk of grandma and grandad and DAD whom you call God- Grandad and Grandma ~~the~~  $\surd$  the Swan of Cygnus travelling and so on - This shot was the last one when gunning for sine dots all photos now have star reference as we are no longer interested in sine dots they were just to acquaint us with the Heirglyphics -and the state of light they were in - B Light is noted by this symbol  $\surd$  -actually the way this print was developed you dont see the sine dots on the other there is reference slightly -same shot but much larger trace - it is colour film - Mind you some of these space craft never come to light they just use the sound system - some just do the 0000/s 2 flashes for 00 four for the ethology which is 0000 which is the ths and that himself on the tree of life thus A  $\surd$  B  $\surd$  C  $\surd$  D  $\surd$  E  $\surd$  F  $\surd$  F for father

Father of Fathers Mother of Mothers Rex King Queen and so on right through the english alphabet - the space craft have a star alphabet of ten - so you are looking for several features wih the sky writing - it is done very much like the Ethology star writing which discribes personalities on the tree of ethology which one has a bequeathment for you and is happy to hear from you thus each in turn pass you down the line bequeathing you your EE/s limbs glasses to see them and every thing you are likely to want in your quest because with out the glasses of the universe you would not be able to see half of what is out there that is why the eyes of the this and that are  $\surd$  mine are to be ~~be~~ which

is the eye of the stars thus star bound - its nearly a request that you come and see them at some time -there is some odd looking blokes especially from the tree of life - some double situations - every one hears about you and passes it on - even to dear old DAD himself who has a hand in everything - it is a fabulous place when you consider the whole creation there is not such a lot of them on the trees and once you achieve something your ethology is there for ever complete with cigarette and all your EE/s .. *Hee* WM HE -EE who took a rib from Adam that is where *W* the ee/s originate - Fabulous personalities who have been around since creation They love the good old days-as wellas the present- There was a ARI in last night so i have not been to bed like old times -i had a little lie down from 3 to 5 am waiting so i will have a sleep after he goes by tonight - *9711* he will operate 3 days - still we had quiet a session-

It is unfortunate that you do not know life processes- your not far enough advanced yet - you do not know the tree of life - When the Star writes its story from the writings you will find it interesting - I offered it to the star years ago but with drew it - The personalities had me destroy the photos -if you had seen what some of them where then of course many would not have wanted to go out at night -such things one could not publish after all it was just part of teaching me the universe -and when the Master was there there was all sorts of EE/s looking on -and watching the Star of Knowledge doing its thing on the tree of life - instinct told me it was there but it took me 30 odd years to find it -the thing is to take my time with it and just plug away -it can tell me lots yet -as long as I get out with the basics I'll be right-I will have a lot of help thats one thing -thats why the visits are frequent - wanting to know when I am coming up -especially little ee/s who do not consider time of any importance -when I say not for twenty years they get up the duff to do me for a row off-cans - still they have their uses -

If you want to add anything write to the Editor of the Star Christchurch I have not mentioned you to them - its not with reporters as yet and I wont be taking the folders in for at least a fortnight -iam waiting on a roll of film to be developed there could be something on that - these things dont always record on film - yet you can see them with the naked eye -your lucky if you get half the trace of some big ones even with infra red - I am using a I25 mm lens at the moment the high powered one does not give a wide enough angle -they have gone by the time you press the cable unless they stop and that is usually directly overhead were you cant very well get at them - Well thats the story to this hour .....

There is no doubt about the Master and his Personalities are fabulous-they are so far advanced-of course they are the ones of creation and that speaks for them-they have provided man with the breath of life in transition - its a wonderful event - it takes a certain time after you are gone to be stable in your situation - were as Ethologys like myself are processed during our life time We are not of your kin -there is no way you can detect the change or you would be able to see the dead - It takes many years to change from onesituation to the other -- we never give up on the master -we are of the practical we know he can do anything he wants to -and we are in search of knowledge- i must have another go with him- I was not really ready for him last time - now i am - thanks to the personalities - he spent 64 days and nights with me nearly 8 years ago -and he is here from time to time. We have to secure this house from the Housing Corporation so we can carry on after our time comes - as it stands at the moment i will be fanning a VEB -a star bound type - I understand those are thw ones that want me - the thing is to get out with as much knowledge as possible- and that is being taken care of so they say - the odds are in my favour as i have 20 years to go yet - in that time i should score again - it realy up to the Master - I should have wound up your speculation on U F O years ago - i have had the oportunities even in recent times but when they are dishing out what you are looking for one forgets to take a simple thing like taking a photo -- Actually there are so many other things in this association apart from space craft in action- i would not like to take advantage of them - still they all dont come in and these i photo -

Dear Sir/s,

I just heard the description by Captain Stardet of the Safe Air Argosy Aeroplane that saw the Kaikoura sightings of your U F O/s

It was an ARI from Neptunea doing his thing alright It was with me earlier in the Evening -the Description they thought it was the moon only brighter - that they think they saw 5 lights - this is the STAR system - Just the one Craft - its all there in the Sketch i sent you - the Beam of light etc - Cone-shaped objects tumbling -is a dead give a way - The fact that he Emitted 5 star 00000 He was realining the space craft for star bound journey Also the fact that the many little EE/s that are to be found in space craft do themselves in for another situation in car and aeroplane Engines so this is why he was following the aeroplane to recover his EE/s - they get into the hub of bike wheels and so on - once they change from a tear to a 5 00000 their right for many a day - they are lovely little thigs but i found them to be Quiet a pest at times - Any way you see it all in that sketch that i sent you that they did for me -

The Ari i am letting Christchurch see is not the same type but it is a big one they have 2 days to take their photographs -Nights to be correct - There are some Funny looking EE/s out there in space and all sorts come on the space craft -they can do some Wonderful things with sound reproduction - picture-dimensional things -projection and so on there so far Advanced - and of course it depends what your after I had a good oportunity a couple of days ago to take Photos but i did not have any film--2 working together - Not that it matters much as we have the visits to the house regular The fellow that was here early the other Morning had not been for about 4 to 5 years ago so i was pleased to have him back on the line - there has been another regular since so we are quiet active-- The problem is to secure this house so we can operate here after my time comes -i could be away about 7 years earth time - before you hear from me - still that is a long way off yet - i just forget when HE will be back about another 10 years 3 years space time 7/2 years have gone by now - whether that is the time i go up i dont know - will have to wait and see -the process is a long one - as they said to me " I am with you always " positive --- we know you dont understand these procedures but it will come to pass - then you will know you have been visited POSITIVE - you had your oportunities -

You will note with interest that the Americans have found spokes at the Planet Saturn via their probe I refer you to the Dimension of the Personalities that I sent you a long time ago that the planets have spokes - all planets have spokes including this one as sketched - the americans have only found the action of them not the real ones as they are in dimension which man cannot see - its like the space craft some of them have simular spokes -- also each planet has a babe an ee --

I had a good go with the dimension of the moon years ago siruis - Archnar and crux and canopus

YES all stars and planets have Ethology dimensions the fact that they are rock of one type or another makes no difference there is another dimension that penetrates right through ~~any~~ any form of rock steel or otherwise-just like there is a b c light there a b c dimensions around you - the personalities create a funnel through the dimensions to look at you or through you just like little wirl pools you see in water - in fact some space craft are in this state as they fly by - just as the ethology dimensions of the moon planets are colour - the dimension of the moon is a type of horse - space EE/s use the colour fields go by night - dimensional by day - in your new life you are in another dimension but even in that dimension you could not see the personalities unless they wanted you to - freq amp mag you go right through the spectrum again only k in B Light -you dont have to manufacture food in your new life Personalities manufacture food to suit their tastes although necessary as their base is water and light anyway -my form before this process was hydrodgen mang one on the right one on left this time I am booked for a WALKING STICK spinal column which is an ancient procedure a cord of life if you like that makes you a bi ped this time the hands will be co ordinating with the same feeling were as the other situation the hands had different feeling -like shaking hands with another bod

E thology of light page 3

Also some can change to a little EE the size of a threepence and smaller depending what you want to penetrate - just like some people have reported seeing a flying saucer shaped object like a bell with port holes in the upper deck about 40 ft in diameter on photographing it is quiet q a big blob of light - actually this is the ooo/s and the real size of the craft is about 9 inches in diameter by about 6 ins high but when it gets cracking it creates a field around it changes colour hundreds of times bigger than its true size - actually although they have a purpose i consider them pests -some things they do i am not in love with - their intentions are good but i could well do with out their help -fortunately we dont see them often- but they are clever ee/s.

---

1

As for the MASTER he is everything you dreamed about and more He is one hell of a smart bloke - he can do anything -how he and the personalities do things defies explanation - but you can only have a go at it - HE has done me a favour many years ago like the personalities -what a marvellous old bloke - NO we are not the prayer type -i dont think that sort of thing does a bit of good - he is out there and it requires the practical to find him - like the Personalities he can speak all the languages of the Universe and Univers1 - so how the people go about it is up to you - as they say the way is narrow and it has to be celestial before he is interested - its the DO bit that counts - its the hand that is everywhere -The practical of the galilean profession is your best bet - not religion -that a big clue plus the fact that there k is no language barrier between the MASTER his personalities and you - so you can do things naturally -- in fact the simpler the words the better - what you have got neuclear and all is worthless celestial wise and no interest to the personalities - As the personalities say DAD is EVERGREEN - which is true --

Dear Sir/s,

There is no doubt about the Personalities - they believe in the old fable seek and you will find - one fellow leaves his gifts in the Bathroom cabinet others behind bottles and the back of everything in the Fridge others in little bushes out side (money) There is two little bushes were they leave small tokens -such as a ring of 5 cent pieces which is the sign of the Ethology E EE E )))(((  
"what i have done there with the typewriter is the actual sign- except it is in a ring -Also one must not ever look MOSES and the bush that burst into flame - because we get the fragrances of burnt toast -fresh baked bread - myrr-aroma of tobacco-violets- and so on from time to time-----  
Of course the little Angel that came in 1973 a little beauty about 6 inches high -nothing like mans interpretation of an Angel -she could do wonderfull things change to another situation to suit herself -she came and went with a space craft- same as the "Star of Stars -IO-6 " she is about 5 ft just a little girl - i have only heard of her once since 73 -via a personality - SO i dont know what i am going to become this time - i scored well with the star of knoledge and the one who talked to me for several months -Plus i have a notion That i was talking to one of the Creators Via the star of Knoledge -there is HE EE -SM-MC-~~1~~ - 1 - so which ones were taking part i could not say -they might have all been involved judging by the results - 40 odd years ago i would have gone straight through to light -just dissappear -now i dont know as i am getting a new situation i am told -

Dear Sir/s,

I have now switched to colour photos - just ordinary colour not aero infra red colour which i used to use 15 years ago - I cannot get the film i used to use its off the market - The visits are continuing -on a regular basis - What i really need is a Copy machine for letters and photos - as it is to expensive to send out photos -the colour ones that is - besides i want the photos for the folder - The weather has not been suitable the last ten days - to work the Star Of Knowledge - we are nearing the completion for this year -

14/7/81

Just a point to consider - A neuclear war those who have died in Japan for instant -years ago -or any neuclear event HAS No effect on the after life transktion form or does such a formula have any effect on the form of a personalitæ -or space craft - also the rods through your planet are not effected - actually the personalities have the means of enblosing a neuclear blast no matter what the type in mid air-self generating or otherwise such is way down the scale as far as energy is concerned -

The greatest energy in the Universe is the G String - it can do in your planet like a packet of crackers - you better believe it - the G string is the start of the universe and was made by the Supreme being of another Dimension - I know all the ethology as far as the G String is concerned but it is away a out in the universe and man may never get to see it - it created many ethologys including the Duck of Ducks whos wing movements POWER the SUNS - Man will never come to grips with that situation in thousands of years - even in your after life you are dependant on the personalities such as the Duck of Ducks and the Ethologys - If yours ever get to see the Ethology i am the fellow with a cigarette in his mouth -a funny looking fellow i must admit - I have had some successes this time so my Ethology could change but the Cigarette goes - i dont really think there was a time when others could come into this - there was a time when i used to talk to people about it - they have died off now - as the personalities have no interest in man really -it was something i had to find out for myself - I knew about transition 40 years ago in fact its more than that but it was not till 1973 i really knew about it -there was nothing on the face of this planet that referred to light forms and it wasnt till 14 years ago that the personalities who visited yours ago came back and said they would never leave me by myself again - so in 1973 they gave me something to guide me home - Thats were it came to pass i did in all the photos and writing of the past - they would be with me all the was - when i struck the Star of Knowledge the Star of Stars that was the jack pot - that gave me communication with the Universe - after being so close to it for years a Personality drew my attention to it - like the space craft it doesnt register on film very well and ive tried the lot Aero infra red Black and white was the best record film no - When they showed me how a planet was made i got a picture i like - so 1973 was the turning point -After months of tutition the answer to the films

Continued --

I had moved on thousands of years -there is no way of turning back  
 the time clock to instruct -others -besides man does not have the  
 celestial mind - he considers the personalities aliens little realizing  
 they have been coming since the first man - and the conception of some  
 one from another planet - and so on - i get sees flying Saucers  
 what do you think of that - such is the attitudes of man little knowing  
 that they are dealing directly with the Ethology of light its self  
 which includes personalities they pray to - not knowing who is who -  
 NOT knowing they have to answer for their deeds - and others like myself  
 that come here one way or another have first hand information on man  
 and can say there is little change in personal attitudes since the  
 Galilean profession was here on Earth - There are the ones that judged  
 me in turn i will judge them -LATER-It is not for me to do them in -but  
 i will have a word against them getting any bequeathments the EE/s will  
 do the rest -they have not forgotten the Galilean profession -YOU have-  
 The main features that is -you have not entered the practical -  
 We dont want you to sit and pray- your prayers are lost -  
 The situation you become which is not very bright is all the forgiveness  
 you get it is another life style were you will do no more harm to one  
 another - some may get their memories back to a certain degree others  
 wont-you could be like that for thousands of years -but society rule NO -  
 The Gnashing of teeth describes it too T -  
 We are not your situation so there is no point in looking to us for help -  
 Your situation is brought about by your own deeds -

Operations time 6-15 to 6-30 pm

There you have the operations for tonight as far as outdoors are concerned-  
 There is a moon so its not suitable for the star of knowledge - couple of  
 days before it is - we are nearly finished for the year as said -

15/7/81

The Galilean profession is the only hope for such as man - but not the  
 religious conception - man has added so many bits to suit his society -  
 Still with the thoughts and actions that man has endowed to him he has  
 has done very well for primordial 2 -  
 I have mentioned to one or two that could have the opportunity to see  
 a real space craft U F O if you like to call them that - they are not  
 thrilled - in fact they wonder what is going to happen to them in the  
 future with such things about - Of course so many are with the Ban the  
 Nuclear bomb sect - and here it is a more deadly concept flying over  
 their heads - it will sober a few up - there is no doubt about that  
 and those who consider them self scientists way down the scale -

25/5/81 Operations -- Flight line 3 ---7 time 6-15 pm cloudy .  
26/5/81 It is mostly high speed stuff just now -the time slot  
is 6 to 7 pm - I have only taken 2 rolls of film (20-Shot roll)  
since xmas -I think I will go back to radio for some after the  
frosts are gone - still its only an hour-fairly cold these nights  
outside- as an average I only get one shot of a night as far as  
photos go - and usually when I get a special in which is suitable  
for photos -my time is taken up on communications- the modern  
camera as you buy in the shops have not got a wide enough angle -  
for this sort of job - you can see more detail than the fool  
of a camera can take - you get a big 200 ft job in and all you  
get is a trace about an eighth of an inch wide - so I dont worry  
to much about photos even though I take the camera out with me -  
If the conversation is interesting I dont bother with the camera .  
even though he is doing signs - I might take a shot at the end  
of the event or just as he is coming in - We will give the local  
a go at taking photos when this Ari comes back - there is plenty  
of time and there will be other oportunities - once they have  
got over seing their first onethen it will be plain sailing --  
for further viewing - people will know what to look for -----

By the way there is a personality who is 6 ft tall - I met  
him some years ago ..

The base substance for the forms of the Personalities is  
Water-oxygen is not essential -their body tempature is much  
warmer than ours and it has a dryer situation than ours -  
Thw origin of life is a "TEAR" so when you are looking at  
the personalities when they reveal themselves some are like  
looking at the sea - while others are sky blue water plus  
the electrical field - when you sence danger the form produces  
a series of short waves right around the body SKIN actually  
straight lines on the horizontal plane -  
Mans after form is WATER but the final result can be a type  
of Black CLEAR as water is - of course its the blending of  
light an a type of water plus the G string situations -  
It was the G string that produced the tear - along the tree -  
there is no point in giving you the situations and ethology  
up to the tear as you will probably never see it - not  
even in the future-

By the way the bodies of the personalities are firm as they  
want them to be or just light and can go through anything -  
with anything - how that is done is one of their secrets -  
Well thats about it for now -----

Dear Sir/s,

Enclosed the latest flight chart - working the Star of Knowledge from time to time - only 2 interesting ones last month - they were travelling to fast for photos - the rest were Neptuneans - little ones - i am due for a visit -to the house that is - some are due in from far away places - so we can expect some new types -of space craft thar is -

8/5/81

Funny thing i was just talking about a visit due and he turns up with his usual present - he never forgets me - about every 6 weeks - marvellous bloke -  
When you know the ORIGIN of everything then your able to communicate with every EE in the Universe that comes by and they love their origin -you do a bit of theirs and they add their bit so you have a instant friendship- marvellous how it got underway -you have it G strings- that the Origin of this and every other Universe - you have no idea what has taken place - all this crap scientists talk about - big bang theory and a lot of hocus pocus is typical thats why your primordial 2 - you could not imagine the personality that started it all- when you know what he can do then you have a whole different outlook on life styles - i know man just shouts god and all the hocus pocus - were as you have a personality who can do everything at will -a person who is always doing something -evergreen like the EE/s those of creation - a fantastic old time original with a heart of gold - who never gives up - or would we ever give up on him - We know what he can do - he can be what he wants to be - you are just beginners - what you got he put it there in the first place - formulas for you to find - and been there for billions of years - thats why i say the EE/s that come here passed your age of adventure and formulas thousands of years ago - Actually the nuclear "This and Thats" are due back - they are very advanced- you are just not in that technical field it would be thousands upon thousands in the future before man could enter that field-even in a minute way -  
By the way the exprecion The Lord thy Gracious God is just for Earth Peoples not us - we prefer to do our communicating outright with the real one were as you have only got heresay - It can be d one in the practical - person to person -nothing to do with spirit-mind- prayer and all the earthly rituals - Your looking for a real BLOKE as real as you are - some had success in the old days -he is there to be found its up to you -

Dear Sir/s,

Enclosed is a cut out from a book of Leonardo Da-Vincies sketches - it is his Helicopter - Well you will note the lifting sections -this is simular to the daimond space craft  ) Da-Vincies attempt is not quiet right but it is very close - he is the closest to a space craft - He had the right idea - this spiral system is only in operation a few swconds during lift of from a roof or ground its action is rotary it takes a tremendous BITE - two tier -top one smaller than the bottom one  $\frac{1}{2}$  the size - Thickness at center would be all of 4 feet - The Diameter of the Diamont would be @ 40 ft - only the spiral rotates - the craft does not rotate - The OOOOs dance in the pole and the electrical field is rotating round the pole - and stands out like barbed wire except that the barbs an the pole would be all of 2 inches -while the OOO s or little sphered dance - they are about 3 inches in dia - This space craft is only idleing at the speed of light - So are the rest - they are sometimes to fast for the eye to follow - but you can hear the rip (sound) when they are in a state of compression way out there at high speed - as long as you are aware that there is a compression state out in space at high speed you will have a lot of fun with your nuts and bolt space craft - The Ethology is every where so it doesent matter where you end up you go tob the appopreate place in your new state - others are collected so why not you - We wish you luck in your new ventures - in space -

In this sketch of leonardo,s its a single sided spiral were as the real one is double sided - also the dia - of the spiral is not greater than the space craft - it is about  $\frac{3}{4}$  the dia- with the top one half the size- More of a worm drive - also it has a shutter effect - as it goes up - it goes up real fast - the whole action would only last 2 or 3 seconds - Dont get the picture wrong this spiral does not protrude above the space craft during flight it is a projection that occurs only at lift off - youe dealing with LIGHT not nuts and bolts fixed airfoil sections as in leonardo,s effort - The Ethology can project all sorts of air foil sections as they did at Kaikoura. these are what the public have been viewing for years - with the right power plant you can do all sorts of things - and these things are powerful- This space craft i am talking about is the smaller version there are a bigger fellow on the same lines he is about 200 ft in daimeter about 40 ft pole these are getting old now -

Dear Sir/s,

Appart from visits to the house the lines are quiet with only the odd one maintaining the communications - Line I-5 (A-E) SW To NE - You will note that Andromeda is considered on par with John - Paul - Peter in the EE/s sketch of Notables - we have not found a lot of information down here on Andromeda - but remember a statue of one of the personalities is in Cyprus supposedly 2000 years old - Also the greeks writings are very similar to some of the Space writings - Of course the stature of the EE on Cyprus is refered to as some God - The EE/s love all those stories of the Golden Fleese The Ram Crysomulous etc - It must be remembered that the Personalities can create all sorts of animals in light -

The last visit was transitional processes 2am the 17 th - Activation of Light form -

You are familiar with the 8 point navigational clock now there is a 16 point clock which starts in the conventional way where the 4 is divided into 4 parts This apply to the Blade of the space craft - your getting a picture -

The blade on some have frames rather ,like a big motion picture camera to a point these frames tie in with the I-0 controll panel the Faster the frames oscilate the faster the craft goes - there you have a tit bit -

Also it gives you the viewing capacity top and bottom by the way the frames are under the top skin -

This system was of 10 years ago there has been a lot of changes since but it will give you food for thought -

I totaled the different types of space craft a wee while back and i think it was 27 top line ones -

This year there has been 8 different types on the lines - The average 3 flights daily - max II - last year -

You are up to date with the general concept - the main line as far as we are concern is transitional processes which is what concerns us at this time - this goes on for years and years 150 to be exact - Man is not in that field so there is no point on going on about it -Light is life--

Dear Sir/s,

It has been suggested to me that the EE of Galilee is none other than the holy ghost --

Away out in space is the holy ghost - i have known of him for many years - now he does have a sword in his side that is his Ethology and that would be him on the tree of life that i showed you -

right now i am all around the subject of the EE of Galilee I have a glimpse of the tie up between transition (man) the deeds of Galilee - trees - birds - and general life -- a element of B light which the EE/s use to create all sorts of things - the link between the BABE creation of Jesu and the Holy Ghost Who is a personality and not a spiritual spirit or that hocus pocus you people talk about - HE is the EE of Galilee now the final count is he your Jesus - Jesu - According to some EE/s he is the same person -years ago the same thought crossed my mind - i am the vine he said - which is the tree of life and from what i can gather its him on the tree -

I am close to the link between birth of flesh like creatures and the celestial conection a cross between the grain of the tree of life and B light - it would appear that all life trees people every thing is linked with B light

Certain elements reverse the flow of sunlight and there b light The FAIRY or seed selects the type of specimen This fairy is a cross of the seed grain of the tree of life and B light the Reverse or after life -

The Flesh doesnt matter it is the fairy that counts I found the Nymphs nomes years ago and the ~~angels~~ Angels now the fairies at the root of every tree i am within is correct - I get The Galilean picture of it raining Pheasants once you know the fairies you got it - im so close to it Breathing down its neck as it where - G strings create the life giving substance - so if you Can see the EE/s in operation they can accelerate all these element and so you get instant food or life

Your process is natural selection ----

As far as your Lord Jesus is concerned you can bet the Galilean Event is not Forgotten as shown with the Holy Ghst still having the sword in his side -

so you can expect your lot is a poor one as i have said before- AS for the man with the crown you are completely at his mercy- he is more likely to drown the lot of you - put the planet of course and let the sea do the rest -

As said he is a working bloke and a very good one too -

Any way you go to another place -

We cant see what good prayer can do for you without some practical -

Dear Sir/s,

I wrote to the Prime Minister a wee while back  
 For money - the Deposit on this state house i am in  
 It took me a while to find a suitable situation for  
 the Operations - so i am looking at you chaps - the  
 Defence Dept for the Deposit for this house -  
 You lot have had information on the Ethology for the  
 last 15 years - Mr Connelly MP told me years ago - i should  
 apply for a hand out - now the time has come -  
 MY present rent is 17 dollars a week so the Deposit would  
 have to be so the repayment are about the same -  
 You have got the answer to the sine dots and many other  
 Facets from this contact - the Housing Corporation say  
 this house is about 20 thousand dollars but i would  
 have to have it valued - never the less i am looking  
 for the Deposit -  
 There is always the Americans Goddard Space Flight Center  
 but this is a N Z contact -  
 I am thinking of giving Christchurch a go at photographing  
 That special Ari that was here just before xmas when he  
 comes back just to break up all the misconceptions  
 that people have about these things -  
 I got a Veb to go over the Christchurch Air Port for  
 the metro boys to see - TWICE at the request of Mr Thompson  
 then Minister of Defence - so i wont have any grouble  
 doing it again - I will keep out of it naturally -  
 There is a few that have asked for the oportunity to  
 see one - As i dont want anyone here in the contact area  
 over the City would be the thing - the Public will have  
 TWO nights to photo- That particular Ari is in another  
 place at this time - he is some 40 ft high and close  
 to 500 ft across so kids would have no trouble getting  
 a photo with their pocket cameras as he would not be  
 very high up - it would just be a normal work time for us -  
 They could have from five to 10 minutes to take their photos -  
 There is no rush for the Deposit for the house -  
 I would allso say if i do let the public photo one  
 there are always other oportunities so it wont be a single  
 oportunity -  
 One way or another i will get the deposit for the house  
 MR Connelly might like to have a go - i want to see what  
 you blokes have to say first -  
 Its a matter of who wants the information AFTER the city flight-  
 All the speculation about VISTTORS is at a low ebb and they  
 Might appreciate the real thing - it will sober up a few  
 at the same time -  
 There will be some sky writing as he gives his message to me -  
 you work it out for your selves as to what it is -  
 IT will probably be line 7 as usual we will see - the police  
 have allways wanted me to do something about it - this will  
 be the oportunity -

Resuming with the Star of knowledge end of this Month  
By then the Moon should be gone- This is our 9 th Year - 1972 - 81

Now I remember the Ari-Veb "cats whisker" - it is the spider  
Arachnoid . but a cats whisker describes what you see -  
The whiskers are a controlled length - now many years ago  
the defence dept kept a photo where the space craft was  
laying a track both sides of the space craft like sleepers  
on a railway track well the ari-veb ignition system is of  
that system - this is the latest type- if it is true to type  
it will be running in the 2nd magnitude - just like the big  
ari who was blue in the first instant and after exchange  
of signals changed to brown about the 6 th magnitude upon leaving--  
Actually changed to 3 a low set - 2 high sets - 0 standard sets  
As I said with light from the sun ( standard sets) swing left  
for this light B light tree of life -and all that - it does not  
give OUT light -the amount of light depends on the field of  
application colour as with gems -stones- colour of flowers etc-  
With a electrical field behind them they are brilliant colours  
Water plays a great part in it -it is not the same water you know--  
It is the SAME with the construction of the personal forms  
of the space personalities they are a type of water with light -  
I know the origin of that away out in space - Water of a certain  
substance - blending - with light -

Remember HE walked on the sea - "WATER @ Light was his form  
I dont discount that the JACK form was not in him - this is  
a high electrical form warm and dry -the fact that you are  
a primordial 2 form makes no difference the form can still be  
placed within - I sent you a print a few years back of a form  
on the vertical with the projection on the horizontal this is  
the form - at this time the only information we have on the form  
of Jesu is that he was a vine - now we have a flight crew  
who are 5 on a vine - but as to the type of ooo formula he was  
we would not know - if he was the same ooo formula as we think  
he is now then the jack form could have been used -If it was  
the babe formula then he would have been a semi B light form -  
the same as Ethologys plus his situation is a left hand rotation  
the No 3 situation that the space craft go into - Then there  
is the JELLY form in this state you could go anywhere - in these  
states you may have the primordial 2 form but you would not have  
any sexual desires as your person is really a leaf-and could only

PRO AIR

----- mate with flower types as exist out in space - i described the female  
 origin some time back - they would be the only ones your Jesu could  
 have had and it is not the male who gets the "desire"-- and its not  
 the INJECTION principal - even if ~~primida~~/ primordial 2 body -  
 Your Jesu knows of me and were going to have a great session one day -  
 I will go and see him -he gave me a message some time ago - he has  
 pretty high standards so it is up to me to find him -out there-  
 Our situations are not the same or likely to be - but we will get  
 there - i just want to thank him for what he did and make a report -  
 then i will be of with the EE/s - we have a lot to do - I am not to  
 sure that your Jesu did not visit me during the 1973 event - a space  
 form of course -there was somany visitors at the time - just as well  
 the EE/s did in all the all the photos and writings from out there  
 as the locals decended on me - they would have made a fortune out  
 of the photos and sketches - Thats why we are just leaving a little  
 book of photos and sketches behind -we dont trust this society -  
 they are still on the door now and then but it does not effect our  
 operation as wallsare no deturant to the EE/s-straight through -  
 I dont run from anybody -the locals just want noting to upset their  
 societys -so they got nothing from me or the search of the house -  
 I have no interest in doing in these primordial 2 s after my time  
 comes that up to the EE/s they will deal with a few for Poor situations  
 tats good enough for me - we dont want that type out in the Universe -  
 As he said forgive them for they know no better - big wigs now but  
 nothing when there time comes -thats what we want - thus death has k  
 its compensations - this is not thev place for Ethologys - there is  
 nothing in present trends to say that man will be much different in  
 40,000 years -Fortunately i have had the EE/s to turn to most of my  
 life - the little gifts have often came at the right time -  
 The last 14 years they have been preparing me for what lies ahead  
 so i am well on the way- so local society does not effect me -  
 Most think of Unidentified Flying Objects as may be people from  
 another planet if they are real - no idea of whats out in the Universe -  
 No idea why they are on Earth or what there lot is - Let alone people  
 from another Universe -We hope you get something out of these letters  
 as they wont be repeated by the Ethology -as For your hopes on Jesu  
 we could not see him coming to help you as you are much the same as  
 you were 2000 years ago - Apart from doing a favour to a few of my kin  
 etc. i dont think one need to come back here for a look for two or three  
 thousand years just forv a look see - as for man i dont think he will  
 have changed that much in 40,thousand years-in his attitudes-to one  
 another- there is only one alternative do the lot in as they intend -  
 But i dont think that will be for a long time Man will see the Big  
 planet coming and he will be on it - then you might see your Jesu -  
 When you are all in no position to argue -or have the situation  
 to argue -in fact you will be shocked with your situation just like  
 all the rest - REmember you have not started the practical of the  
 Galilean profession so there are no bequeathments we acknowledge many  
 of you aline yourselves with Jesu in religious ceremony but that is  
 not good enough - seek and you will find - the way is narrow - very  
 narrow - you wont find the ~~answ~~ answers in your present tect -  
 There is no one comming to your rescue - Even with D Y Robertson he  
 is only a little tiny EE - he is of this universe- he would like to  
 be an EEof EE/s but we cannot go along with what he wants to do -  
 What he could do in a Craft i would not know - his situation does  
 not fit -in a craft he would have to work and his situation does  
 not provide for it -He will be better of as a teacher when the  
 multitudes are being brought forward -i have seen pictu res of  
 what is to take place and there are millions in it - There are special  
 stars to show you the way - as i said you do not know stars -  
 you are all going there - past and present - the ethology will be  
 over-head - "There are those not of your kin" thats us - you have it  
 in your writings also you have statues "head " on columns in Cyprus -  
 thousands of years old -Not Unidentified flying objects and all that  
 hocus pocus- the Pharoahs is another good example -In Cyprus we are  
 considered Gods - but we are not -

---- The Chinese got their medical Acu - puncture method from the EE/s - The EE/s use the same principal only the needles are LIGHT not steel and can do in anything to suit - the ee/s use this system today as well as other proven systems - with light you can do all sorts of things - in the Light form nothing can decay - but with excessive light in the primordial 2 form the skin will die in decay activation and generation of your inner light form you die off - You are in generation all the time - only your/dog DOG knows about it - as dogs can see the light mentioned plus all the images - plus an individual FLOWER scent - your electrical field is linked with the flower system of space it even has sound - this is nothing to do with your odour of the body - remember that bit I sent you that the ee/s wrote THE ROBE the louder it sings well this is it - So really you can be done in by sound you know one type not the other - The ee/s use a symular type of sound system were they can project sound to any area just like the sine dots as loud or soft as required - you transmit it and have to have a receive to hear it - the EE/s dont - plus they have the viewing capacity day or night they prefer the night - actually there is no darkness to the eye of a dimension and you wont find it in your new life - but cannot see every thing at certain times - Only a year earth time seems to be hundreds and hundreds of years - But you are only little tiny ee/s and do not have the circumstances to know what is going on and depend on the Master to do you a favour one day - he is preparing a place for you - and you will be up the duff with the result - then will be the time to see the EE of Galilee - As said in his message to me - Cursing - swearing - Deficient - Lies - " NOT IN MY INTERESTS

That was my guide line to space - 8 years ago - knowing what we do about people here - WE dont see him coming to see you until its near the end or till you are in your new situation - on the planet - but you will see him one day - I can assure you he is very much up with the latest here - same as all the personalities out in space - atomic energy could not in its finest protect you from the EE/s - which is the comon thought of man seeing the space craft of the ethology - they could simply pull the dimension of this planet and it would disintergrate - break up - with out coming near it - such is the powers that be - Of course you think of aliens from outer space and all that trash not knowing how you got here in the first place or what is out in space - Admittedly you may not like what you see with some - but you would be no match for them - you would be done in swiftly and surely - remember you are only primordial 2 not forms in light - enjoy the comforts of home while you can - I enjoy both " worlds" no matter what - when you are imune to the unexpected you can sit back and enjoy life ether way a few years with the ee/s and you are not suprised at anything - local or out there - I would never give up on them or they me - they want me out there - I do too but in my own time - I feel I can go on for many years yet even with out a space craft in sight I can go on learning from the star of knoledge - learning all about space craft as well - but as said they would never give up - I dont think about being down here if I were not here I probably have been some where some where else - the powere that be done me for this situation so enjoy it - I never give up on the man with the crown way out there so I can afford to enjoy life no matter what comes my way Man Jailed Paul years ago and the same applys to us - some dont like us as we represent changes even though they know nothing about it - they see the craft but dont want to see them - just as well - as long as they stay like that untill we have gone - I will try and make it back down to near the end of my time - swap houses that is where it all started actual of thats were my wife and self will be buried if it comes to that form of transition -

Dear Sir/s,

Enclosed is a shot of one of the big Ari craft  
105 mm telephoto lens - you would notice the size  
of the trace in relation to the stars - the background  
is Carinae constellation - he is a big fellow - mind  
you he is not all that high up - about 4 mile out  
from the marker - on line 7 coming in - you can  
see he is much bigger than a jumbo jet - thats just  
the top deck lit up - they are big craft - all light  
is contained WITHIN the craft such light does not give  
out a beam thats the feature of "B" light - the same  
with their signal light - it does not give out light -  
the very latest veb-ari gives out rays in a straight  
line like cats whiskers not a general light all over  
the place - cats whiskers - now i know something about  
this but i dont remember clearly what it is all about  
its the ignition system which is set in the center  
of the space craft - this replaced the " walking stick "  
which used to fire from above the canopy down into the  
center - it way a principal derived from the divining  
rod- the ari-veb is about 40 ft in dia.  
the big Ari is 500 ft plus and 40 ft high plus -  
against 10 ft of the ari-veb - the Ari R B I is the  
biggest over 1000 ft across 50 to 60 ft high -  
It wont photo in ~~aero~~ aero infra red or any other  
film such is the nature of the composition of light  
its made from -it is blue and what you photo is  
~~daylight~~ daylight -can this big one tramp you never  
seen the likes- it is a wonderfull sight -i suppose  
the rotating light green underside the black blade  
and deck and a near violet flasher on the top which  
is rotating backwards makes it - its about 14 years  
old now not less -its been coming 14 years - the  
pilot has been to see me in the house a little fellow  
about 3 ft 6 in high - in light he was a light green  
composition same as the space craft he changes it to  
suit himself -what a dear little bloke -he is on the  
tree of Ethology- i know the words that made him -  
There is two of his type one larger than the other -  
they are a great age-millions of years - they are  
very clever fellow s -and how -but like the good old  
days -thousands of years ago is but yesterday to them -  
And their systems are up dates on things they have  
done long long ago right back to origin -the further  
you go back the more complicated it is -unlike earth  
things in general - creation its complicated and these  
old time originals know how to create but have  
symplified things - just when their atomic age was its  
hard to recon - i only know one or two what they call  
neuclear"this and thats" but it would be a very long  
time ago their neuclear age -Medical wise they would  
be a million years in advance of man- space craft  
and technical not less than 100 thousand years in  
advance it is hard to put a closer figure than that--  
Even if you knew light -water -oxygen -

Craft landed - personality visit

According to EE/s I have given you a top line bit of information and that comes from the Master - it is up to you to recognise what it is - I could not tell you which letter it was in - but it recently - I get a few more points for it - if you don't recognise it it means you will have a few points against you when your time comes - as the ee/s say you will be done for a row "off" - You got to get your sights right as far as the Master is concerned he is a working type - so if you associate your self with the Ethology you have to remember your future form is at stake - I have been giving you bits since 1949 and since I came back to NZ in 1966 - I am back here because of the Stars in this location - they are the ones I work - I have been taught how they were made so I can get their part in the Ethology - as far as the Stars go it remains a secret - it brought the star of stars to see me in 1973 so the knowledge of them goes with me - with a bit of luck I hope to be one of the ones "Star bound" seee the Universe and all that goes with it - as well as the other side of it - I am only the second or third to find my way by the stars - A personality guided me to them in early 1972 as I was centering on one - then I hit the jackpot - the tree of life - it went on for several months - then a special craft came into it and he taught me for months right up to the time the master appeared and put me on the floor 9 o'clock the morning of the 12th Dec 1973 gave me a present and stayed with me for 64 days - he said he would be back - at a certain time - then the space boys came and schooled me ever since - I think they have completed most of the photos that I had taken plus a lot extra - I have had quiet a look through the peg tooth when they tested my eye sight - and they have focused my vision

Ethology of light -

Continued --

they focused my eyes in preparation for special dimensional glasses- so i can see the ethology colours which are important in navigation- IE the Duck of Ducks - The duck of ducks has 3 eyes- you have noticed the colours from stars that emit from the surface well these are constant in movement - and correspond to the "wing" movements and give height etc -and most ee/s fly the colours - Even the sun has wing movements -and ethology - It is because of the ethology movements of stars and suns which are standards that the name Ethology of light gets its name - it takes umpteen years to be able to read it ,and you have to know space and how the planets and stars suns are constructed and how they fit in the universe even though they are sometimes clustered -joined together etc - there is a sun which has lost its comph and joined by two planets the Ethology of light use for a home base - way out there -they have focused what light it produces like a beam - as a marker for those who use it - its a red now but it still gives of light - that was done long long ago so you can get some idea of the knowledge required to do such - of course if you had a life time of millions of years you would soon improve - but it not meant to be like that - you will have your place on a New planet which is coming one day and that will be your lot- you are not like you are now - but there is a life for you - Travelling in space in your NEW life is not your lot - it is a long way to one source of life to another unless you can see what is around you - and you wont have the eyes of a dimension - Even EE/s have little things for company on their long flights like another universe you cant even see away to the south east of here were they really turn on the speed - i know there is nothing to stop man from travelling at millions of miles an hour out in space -but at speeds in light years you will find another barrier - its a dimensional barrier and you will find compression like in the sea - you will travel the surface at great speeds -but light has its barriers - Its not all SUN light -thats only one type of light - light - medium - heavy - you have a long long way to go tech -- Neuclear energy would not give it to you -even if self generating - As said celestial formulas are abundant - You only have to look at the big Ari that was here the 6th to the 12 th dec the depth of light just like looking at the sea - a deep clear blue white outside -he opened the dimension - yet he changed completely to a small brown dot when he left - you would have thought he was one of the small neptuneans -Marvelous craft - As far as light goes in spite of all the apparatus you have for it you havent began- The sun is made from another type of light - no matter what surface flies off it wont effect the dimension with it - no more than death and decay with your form - the inner form that is -so it is with the sun - its mettals are of no interest - or the composition of the human form - both compositions are of certain life times - the short and long -

-----  
With the Ari it has no colour that would appear on a grating or prism as far as the internal main section is concerned normal you see it as a white light on the shin only - more like the colour of a stone when you are viewing it with violet light - quiet colours - the next second it was a small brown dot - I could not do it justice as i was using black and white film at that time - it will be back -so i will see what i get next time - I will have to make time to photograph - when the signals start coming you do not always have the time to photo-they are usually moving too fast to get more than one photo and they stop right over you which means the camera is hard up against the legs of the tripod - all you can do is set the camera going before he gets over head and take a chance your on course - these sort of caneras are all right for taking photos of hills etc, but not much good for this game -----

Well by now you will be familiar with the pattern of things the inner ring of the navigational system 3 and 7 being the main lines - a big night would be II craft. The top score is 4 flights of 9 that was a long while ago. Now days you might see a flight of 4 but usually 2 (pairs). They are still very cagey - they dont like strangers--- The big fellows dont mind - they are used to everything - The little ones are very shy - but they like to see all the things that are in a house - inn a small craft you can only have a few things like a couple of pets - life forms - In the big Ari types there is always the possibility of an Angel being with them - sure they have wings and everything beautiful little things - they are the real ones no relation to mans conception of such - the y can change their status to a knot-o-top but in their normal state they are only about 5 inches high -at the most - Cuple dolls they sing well to -they are wonderfull little things. I heard them singing about 12 years ago -saw my first one 7 years ago when i was being processed-the eel being removed and a new EE being placed with the cups etc--so i can come up in my own time -Thats why i say you do not know life processes - you will see the eel in the breath of life sketch. The Pharoahs Eel - snake what have you - they knew about transition.

REFERRED TO  
OCCASION

Page 2

Never the less we are plodding along quietly and we will probably see some new craft introduced - I am using my old home made camera at the moment - the lens are not true but it dont hook the star traces - colour this time - And colour in the pentax - Who knows i may be able to pick up a lens 2 or 3 hundred mm for a I20 or 24 square this year - i am right f or 35 mm -

I moved into this house a year ago and now it is a case of buying it - the back yard is a bit wet in the winter but it is a ideal situation and only a street over from where i used to live - ideal for the contact -and the star of knoledge - Thats why i am here - I have written to the Prime minister for assistance to buy this place from the housing corporation and in that letter is the location of the star of knoledge to which he will pass on to you .

The EE will be at that location july to september - the situation you would not be able to get anything out of it. As the EE is in B light you might not be able to see anything - but you might see the movements as we will be in communication each fine night during that period -

It will be the 000 / s and the ethology writings - tree of life and so on - there is nothing i can do for % you as far as the tree of life is ~~concerned~~ concerned that as up to the master - i talk to him via the tree - the star of knoledge etc - as all ethologys do - you have your gods we have a master too - you dont know yours - we know ours - ours is a worker not a mythical situation - he does many things for us in the practical - And when he talks to us its like nothing you have read about - He is the one who got Abraham .

As far as the star of knoledge is concerned the contact know how remains a secret of the house .

Thats why i am staying here in Christchurch - i might be better off in my home town but it is a bit to cold when your out at nights down there - i chose this place and it is a nice set up - ideal for the job - the yard is just big enough for the average craft to get down, and there is a little shed where they can park on the roof -if they want to - they like that -..

All rent is paid for before i get my pay it is taken out of my penshon- so to pay off the house is sure fired.

We will buy the house one way or another - well thats it..

Dear Sir/s,

Merry Xmas, have you been watching the Aphroditie Inheritance on T V , well in the introduction you would have seen statues of Ancient Gods, and one of them is the Head of our space personalities. Especially in the final episode.

-----  
So that would be all of 2000 years ago- Dont forget in the space boys writings Andromeda is as predominant as Paul and John and Peter , I dont know the full story behind Andromeda-but she is special - If they have taken her out there i do not know.- any way i will find out later on.

I have a notion that the main ones of the Dâciples are on a Vine of 5 ,they are only small EE/s - I think it was them i had on line 8 in 1972.- the more i think about it ,the more i think it was them. As a matter of fact i have a line up on a Old timer who could be very well Noah.-he is in the Ethology-- I am going to find several other Old timers out there -

-----  
There is nothing Spectacular on the Film i have been taking just interesting- I missed getting the sky ~~the~~ writing of the Ari-got him coming in but could not get him on the Vertical -were the action was taking place - I will be ready for him next time he is in - Have not been out lately - cloudy most of the time - Using a smaller lens in the Camera for more time to Focus on the Subject -wider angle - Latere on in the new year i will use a I20 back behind the lens instead of the 35 mm - ill try it - Out of 30 shots there is only 2 that i would keep -

-----  
The I20 will give me the Vertical - Its home made but has done a better Job than the Pentax - i have been trying to score a I20 lens for it - telephoto -

-----  
Well thats about it for now.

Dear SIR/S, THE WILLOW SPACE CRAFT - Star ship -  
You Hope to go into space one day - Here is a little  
something for you to work out - You're quiet OK around  
the local planets - But once you get away out there  
it will be a different story -  
I have a willow come to see me now and then and  
this is from the personalities notes - Time Clock

1) Time - 8, o'clock Aug 1966 = view  $\frac{1}{4}$  East  
then at 21 main st

2) Time  = 8, o'clock NOV 1966 = view  $\frac{3}{4}$  =  - Note 

3) Time  = 7.45 1968 = view as indicated -  
then at 228 main north road

IN OTHER WORDS THE PHASE SYSTEM IS WHAT YOU ARE  
LOOKING FOR COUPLED WITH THE VIEWING POTENTIAL -

By the way some personalities have 3 fingers  and  
others have the conventional hand 4 fingers and a thumb

THE LATER SPACE CRAFT HAVE FULL VIEW AT ALL TIMES BUT IN THIS  
LETTER IS ANOTHER VIEW OF A TIME MACHINE APPART FROM  
THE GENERAL  SYSTEM -

 As you can see I have had in a Special Ari --This was a fantastic sight as it is so big about 500 Ft in diameter 40 Ft high--  
 It was one of the latest types--it was the best show for 7 years---  
 When he lit up the whole of the space craft it was great-- he was to big to get down in the back yard -so he just stopped and hovered anyway it was the greatest for some time -- he is on his way home --  
 Enclosed is a graph of the tree of life showing where Abraham is and it appears to be where your Lord Jess is -- I have had it from 3 places that it is him -- as a matter of fact it would appear that I have had communications from that source -- I remember it about 8 years ago when I was doing the 0000/ 00 / 000 /s. Which is the Tree of life --  
 This is the time of year when I can expect those from far away places --  
 The marker colour is red at this time -- Actually what happens is a craft comes in with a red or blue flasher indicating which is to indicate which one to use -- it is not necessary for big craft but it is for the little ones -- also it indicates if they are star bound or not -- if they are star bound then it is the the Ethology writings --White for projection craft -- red white and blue green those are the colours we use -- blue and green are the star bound --  
 I will be checking the Lord Jess story about July next year -- there is a lot of old time originals out there I have to check out --

 A close up off the Ari would have only produced only a blaze of light -- as he was so close and too big to get in a film shot -- colour would have revealed something -- still there will plenty of oppertunity later on-he will be back -- They usually like to give me something interesting for xmas -- not that there isnt other interesting craft on the lines -- the specials do things --

There is some small Ari craft in at the moment and(1) Neptunean ---  
The clock navigation system is the same as they use in the Craft --  
it goes right hand as well as left hand -- G being the key 7 ---  
some have 4 0000/s in the center and it depends on the O rotation  
as to the selection -- you would have to see it to know what it is --  
There is a conversion to the english alphabet in the tree of 000/s...  
but we dont use it -- actually i have forgotten some of it as we  
dont use it -- it was for to learn me the 000/s..but one of the chaps  
learnt me -- we were doing some of the 000/s .. when the big Ari was in --  
As one goes on and on there is always something new --Old systems with  
a new twist -- Old and proven systems actually you can trace back  
the type of craft years and years just by knowing 2 or 3 craft---  
they love the good old days --that is because the personalities are  
so old themselves thousands upon thousands of years old -- and just  
as far in advance of man -- but when you are with them things of  
a thousand years ago is just yesterday to them -- they like to think  
of you giving yourself up to the Master as they did 5 and 10 thousand  
years ago in the great Sun God era -- they love the old days so much---  
yet they are so far advanced on the other hand -- and improving all the  
time -- when you see a craft like that bigAri you can see man is so far  
from that tech --not in it in any way --not for thousands of years --  
neuclear is just nothing compared to that and you have to be brought  
up withthem to know what it is -- I know its origin -- they have  
bequeathed me lots but as long as i get a good working situation that  
will do me -- providing i get out with the knowledge i have i will have  
no trouble fanning one of these craft and no trouble finding my way --  
by the clock process or by the ethology of the stars -- i want to see  
the EE that is the origin of the Universe --i know it but i would like  
to see it -- If every thing goes as they say it will be i will---  
I have transport when i get out there --its a big Willow job --  
As for this D Y Robertson i mentioned i dont know what i can do for him --  
he has no knowledge of space -- and i doubt if he has the circumstances  
to understand still he has suprised me with some things -- but he does  
not want to work-- he would rather go up and down on little EE/s ....  
These EE/s are what left of Man -- Just little things --Trying to improve  
their lot-- actually i have to much to do out there to think about  
doing little EE/s... and im not the same situation -- all we can do for them  
is to gawe them a little EE for them to hold on too.--  
well thats about it ...

Dear Sir/s,

PHOTO'S ARE GOING OK - THE OPPORTUNITY IS ALWAYS THERE - SO ITS JUST A MATTER OF TIME - SOME INTERESTING SHOTS HAVE ALREADY BEEN OBTAINED - I AM STILL AT THE STAGE OF ADJUSTING THE CAMERA ETC FOR THE BEST THAT CAN BE OBTAINED FROM IT - ONCE I GET IT SET THE WAY I WANT IT - DEPENDING ON RESULTS I'll SWITCH TO COLOUR - FOR A ROLL OR TWO - SPACE CRAFT - THE TRAJECTORY IS A AND E MOSTLY AT THIS TIME - IN RELATION TO THE MARKER - AND SOUTH GALACTIC POLE - THEY DON'T NAVIGATE BY THE GALACTIC POLES G IS BETTER - I THINK I TOLD YOU BEFORE I KNEW WHERE ABRATHAM WAS - I HAVE KNOWN FOR SOME EIGHT YEARS NOW - NOW ITS A MATTER OF LINKING THE SIGNS WITH THEIR PERSONALITIES -

I AM HEARING ABOUT YOUR WORD JESUS WE REFER TO HIM AS THE EE OF GALILEE - AS SOME OF YOU CALL HIM JESU AND THE OTHER - SOME LITTLE EES INSIST THAT ONE SIGN IS THE EE OF GALILEE - THEY SAY THEY KNOW ITS THE EE OF GALILEE -

HOWEVER I HAVE A WAY OF CHECKING IT OUT - BUT THAT WON'T BE TILL ABOUT JULY NEXT YEAR WHEN I'M IN TOUCH WITH THE STAR OF KNOWLEDGE AGAIN - WE HAVE HAD THIS YEAR'S SESSION - ITS ON IT WAY BACK NOW - UNLESS A CERTAIN PARTY COME IN -

JESU = IF IT IS HIM THEN I CAN TELL YOU HE HAS NOT FORGIVEN YOU YET -

any way the EE A in question is the key in this universe - its him that makes the Decisions - He is a wonderful Bloke - I was talking to that source in 1972 maybe the very same EE - I dont usually ask questions Not when your dealing with the top ones - For found they like to do the talking - I'm a this and that - and no idea how I got here at this time - A certain party says he has the answers - anyway we are only interest in whats to come at this stage - They "say" I wont have the same situation - There has been a lot of changes in 40 years - Unfortunately you are not aware of life processes -

THE UNUSUAL = The Name D.Y. ROBERTSON Has come up twice once in 1973 and a week ago - He is from Tussock Creek Southland - a Sunday school teacher and worked on the roads for a county - Now this chap would have died some 25 or 30 years ago - Now he figures prominently at the moment - From what I can gather he is getting assistance to restore his memory and speech - So when your time comes you could well be facing him. anyway that is for you to check out for your own interests - There is also a woman - They are true Primordial 2's with Bequeathments -

As far as your Jesus is concerned there is a definite link - and will have more information next year -

 HAVE 2 IN FOR PRINTING 2 MORE -  
 HAVING A BIT OF TROUBLE JUST GETTING THE  
 BACKGROUND RIGHT IN RELATION TO THE  
 HEATUITAR - THERE IS STAR REF ALRIGHT -  
 FAIRLY GOOD - I HAVE HAD BETTER - I HAVE  
 MADE A FEW ADJUSTMENT AND WE WILL BE ABLE  
 TO SEE WHAT DIFFERENCE GETTING MORE LIGHT  
 INTO IT WILL MAKE - ONCE I GET IT RIGHT  
 ILL SWITCH TO COLOUR - FOR A COUPLE OF ROLLS -  
 ILL HAVE MY TYPEWRITER NEXT MONTH BEFORE XMAS -  
 TIME SLOT 9:30 TO 10:30 PM NOW AS THE DAYS ARE  
 GETTING LOWER - THERE IS THE ODD ONE DURING  
 THE DAY - MOSTLY IN THE AFTER NOON ABOUT 4  
 IN THE MORNING 5 TO 6 AND 9 O'CLOCK -  
 ANYWAY WE HAVE STARTED AGAIN WITH STAR REF  
 SHOTS - LOOKING FOR NEW MATERIAL - RESULTS 4  
 2 FAIR 2 GOOD - LOOKING FOR 20 GOOD ONES  
 THEN ILL SEE WHAT CAN BE DONE WITH THEM -  
 I WONT FORGET YOU - FITS UNIVERSAL YOU GET  
 A PRINT - THE LATEST ONE IS NOT UNIVERSAL  
 JUST THAT HE STOPPED DONE A COUPLE OF THING  
 AND DISSAPARED - JUST AN ACKNOWLEDGEMENT  
 FOR MESSAGE RECEIVED FROM ME -  
 THE THING IS TO GET ONE OF THE BIG HEATUITARANS

THE OTHER 2 YOU WOULD NEVER DREAM OFF -  
KNOWING THE CONSTRUCTION OF STARS AND PLANETS  
NOTHING WOULD SURPRISE -

THE PERSONALITIES ARE WITH ME - BUT I'M ON MY OWN  
NOW - I KNOW THEIR WORLD - AS THEY SAY MANY THINGS  
HAVE COME TO PASS - I WAS TOLD HOW OLD THE FIRST  
EE IS - BUT I COULD NOT QUITE HEAR WHAT THE LAST  
WORD WAS - ANYWAY ITS COLLOSIAL - SO THE PERSONALITIES  
MUST BE A MIGHTY AGE - NO WONDER THERE THOUSANDS  
OF YEARS IN ADVANCE OF MAN - ANYWAY YOU DO HAVE  
A MASTER - HERE IS A LITTLE SOMETHING FOR YOU  
ITS AS YOU WOULD SAY IT -

Almighty God UNIVERSE OF UNIVERSE

BooHaven my Home

Almighty God

STAR OF STARS = (We have met -

Duck OF Ducks = I KNOW THE SITUATION

HORSE OF HORSES = (WHICH THEY SAY I HAVE WON THE

NAMES OF NOMEHAND) = PERSONALITIES

NOME OF NOMEHAND -

-3-

its only a matter of time before I know the rest  
of the universe - as they said assistance in understand-  
ing the universe - this has come to pass -  
on 'one hand we have yours with your God' and the  
others "Dad is evergreen" - man does not know him  
they do - I know of another Big Fellow like the  
one I described - the question is - is he the same one  
I don't think so - the other fellow always wears a hat -  
if you consider the words you know "let there be  
light and there was light" - then that would be  
similar to the creation of the personalities -  
when "He" creates its like blowing glass -  
also he can open up the sky - this is like a whirlpool  
situation and it opens up and he peeps through -  
so can the personalities - its the same sort of  
spiral that the craft can project when they want  
to do certain type of sky writing - on this craft  
◊ its a spiral lift off - its a spiral for some ees  
to go through a door - its a spiral when the star  
of knowledge writes = sky writing - and I think  
on some occasions when the space craft disappear  
they go through to another universe - some times  
its just black lines - any way when they totally disappear  
you'll know there through to the other universe -  
when you say there is "nothing" out in space your  
making a big mistake -  
there is a wacking big planet coming into  
the universe and the is either 3 or 4 stars  
showing you the way - that is where you are  
all going to -

- 4 -

How you will be taken remains to be seen - The personalities only have to do a couple of simple things and you just disappear - you have not learnt by the Galilean profession so dear old Dad will show no mercy - we will be the ones that guide the multitudes to their new home - I have seen prints of it - that's another reason why the personalities and little ees are coming here - to look at you - as for your old story Fire and Brimstone I doubt it very much - as there is so many simpler ways - anyway there are big things afoot - as we said the Galilean profession is the only hope for such as man -

as for signs - there is the personalities you don't see them very often - I would say the gathering of the planets will be your first big sign - all we can say is they are being hooded up now - how long it will take we don't know at this stage - as there is such a lot to go - that is your destiny - its been decided so there is little we can do for yours - as for your "god" we do not know him by that name - you stick with your Jesu or Jesus that's your best bet - as far as I can gather he is the ee of another universe and may not be in the situation to help you until your time is up - if he was one of the 3 that came to see me during a process then he would not be able to help you - at this time -

No Problem getting a publisher for  
The Hand Book on the Ethnology of Light -  
I am still awaiting your print to be  
finished - So there will be no surprises  
The rest are with star reference  
there will be no rush to publish -  
I am going to photograph all next year  
as I will only publish those of a  
universal nature - a lot are only  
information for the house -  
So most of the house information will  
be taken away by EE's, they do that now -  
one group to the other - that way they  
keep up with what I have been given -  
as there are those who cannot leave  
their craft - Fortunately one  
publisher who is interested can handle  
colour - anyway we have left it till  
the end of next year - then we will see  
what we got - I will have another  
type writer before Xmas so I will have  
all next year to prepare the publication  
as said there is no story -

Some space operate on frames - Like Laying  
a Railway of sleepers BOTH sides of the  
CART IN sodium -

The latest have a new system  
although just looking they appear to be round  
very few are like this late model

This gives you some idea of cords  
The odd looking thing on the top is spark gap  
The very latest have done away with this  
apparatus and ignites in the center so you get

IN SHORT THEIR TECH IS SUCH THE CAN UTILIZE  
all the facets a sun has -  
To give you some idea THE CAN ENCLOSE A  
Nuclear Bomb and have the same effect  
or it exploding continually -

3  
That was years ago -

as said they are from another universe  
and they dabbled in Nuclear thousands of years ago -  
Some still use the balance system - there is a lot  
to choose from - any way if you see this

CRAFT about you will know what it is -  
The Beacon at the bottom is what he signals  
with - also it plays a part in the lifting  
sequence - when the whole bottom lights up  
you would naturally think it was round -  
He is due back shortly - He usually comes  
as far as here on a ~~TRAY~~ and goes  
back the same way as he comes -  
He is "Blue" thus star bound 4-2-4  
Star of stars 6-10 and so on star seq

1-2-3-4-

From here there is another galactic  
way to the south via the south galactic  
pole just keep on going you cannot see it  
as it is away out of this universe -  
its a long way away

DEAR SIR,

THINK NOW SPACE WISE - I am one on the  
RIGHT ONE ON THE LEFT - THERE IS ONE  
ON THE RIGHT ONE ON THE LEFT AND MY  
OTHER HALF IS DOI BEAR -  $\diamond$  enclosed -  
Like the story of ancient Greeks  
Pollux and Castor one up there one  
down here - Now although he can  
change to another dimension for travel  
he can write very similar to what  
I do and so can others - Take the place  
of one another - Now they have  
marked these enclosed letters some  
time back and I have no further use  
for them you might find interest  
in the comments made by my crew -

you will see one has Neon gone ②  
this refers to mans christ thing -  
you have not got the message the practical  
Now ② is a dimension away far far  
out in space - I know how to get there  
but there is no star map that gives  
one the location to talk about it  
as a matter of interest I think that  
is were your Jesus as you call him is -  
I think he was one of 3 that came to  
see me in 1974 - Not visions and all  
that crap like you lot talk about  
but as he is now - he left a little

ENCLOSURE  
RECEIVED

Message on the Back of His picture So I Recon it  
Was Him 2 Females with Him - they are EE's of another  
Universe - He was also one of a crew who gave me a print  
as men - I fail as far as recognizing Him positively -  
any way time will tell - when He was at the House He was  
doing things - no talk - in the other state we seldom talk -

Now enclosed is Doi Bears Letter - Take particular note  
of the signs at the top these are ~~the~~ key signs

of Lot - and what He says -

Take particular note of the sign of the star of knowledge -  
enclosed is the writing (once again) you keep it -

Now this particular star is in the Southern Hemisphere  
its a long way out - it watches over you - its one  
of the reasons why I am here in NZ. -

its writing is etymology its message meaning is Exclusive  
to the House - But it can do all you can do and more no  
matter what language - you too can find it - also learn  
from it - its a beautiful EE -

The name EE is derived from one of the creators

the "He" EE is the one who took a rib from adam - of

Biblical fame - Take particular note of these signs  
you see in letters - as one day if you get way out in  
space you will encounter them -

Publication -

Now Whitcous has suggested some thing that  
appeals to us - and that is a hand book - it will not  
be a story But a message of 800 words or less

THE SKETCHES DONE BY THE CREW - PHOTOS OF SKY  
 WAITING WITH STAR REF = GETTING THESE NOW -  
 NAVIGATION - CLOCK - A BIT OF THIS AND THAT SOMETHING FOR  
 EVERYONE - TO WHICH YOU CAN ALL HAVE THE ~~THE~~ PLEASURE  
 OF WORKING OUT WHAT WE HAVE BEEN DOING FOR  
 HUNDREDS OF YEARS TO COME - SO IT WON'T BE BEFORE  
 '982 - I SENT SOME SKETCHES TO A NEWSPAPER AS SUGGESTED  
 BY THE PAPANUI HERALD WHERE I DO ALL MY COPYING -  
 I THINK THAT HAS SHUT THEM IT WAS THE TRUTH FOR ONE -  
 OTHERS WANT THE PHOTOS - BUT THAT IS NOT WHAT WE WANT  
 REALLY - THE HAND BOOK IS THE SHOT - SO YOU WILL HAVE  
 THE PROOF YOU WANT IN IT - AND WE CAN PILE IN THE  
 PHOTOS WE WANT AS WELL AS OTHER THINGS -  
 THERE SHOULD BE NO SURPRISES IN IT FOR YOU EXCEPT THE  
 PHOTOS ALL WILL HAVE STAR REF WHICH SAYS YOUR STATE OF TECH-  
 THE WAY A SPACE CRAFT CAN REPRODUCE ITS SELF  
 E TITANTWO - THATS TECHNOLOGY -

Take a good look at Doi Bear in his heatuitar  
 the pole - He is inside it - THIS IS HIM  and "I" FOR  
 HIS TYPE OF CRAFT - AND THEY CAN PROJECT THEMSELVES  
 TO THE GROUND IN THAT STATE - AS THAT THERE ARE 8 FT HIGH

THATS IT -

REC'D GONE 2

Christchurch

Dear Sir,

Your letter dated 30 June 1970 has been referred to me by Defence officials.

My agency has been established for some time now and one of its primary tasks is the correlation and analysis of all astronomical phenomena and space vehicle activity as it applies to Defence studies. In this particular field we are grateful for the valuable research being undertaken by the likes of you, who so readily make the data available to Defence planning staffs.

I am unable to release much of our findings but include some data concerning the AGK3 space unit which we have had intermittent contact with for some time. It may be of interest to you that we use the spherical co-ordinate system in determining the celestial position of space units from our photographs together with a least squares solution.

The copies of two of our prints enclosed do in fact prove one of your previous theories that some of the space units, in this case the AGK3, are in fact transparent. We managed to photograph a host of these units in our sky prior to a mass sky writing 'display' earlier this year (FIG1). FIG 2 is a good closeup of one of the AGK3 exhausts and proves that it too is transparent.

I regret, however, that I am unable to disclose. However, my Auckland agency for ~~representative~~, incidentally a former resident of Papanui, who specialises in non-celestial body movements and the interpretation/analysis of historical revelations of space and time would be grateful for the opportunity of communicating with you. It would therefore be appreciated if you could provide him with a summary of your findings to date in order that he has a reliable base on which to develop his theories. His private address is:

Dear Sir,

Well [redacted] we have been receiving your letters for some time and we have not contacted you before as we don't like entering into correspondence with members of the public on this very important subject. But Mr [redacted] spoke to the PM after receiving your latest epic and the Minister of Defence flew up to see me and has ordered me to investigate your claims.

DELETED IAW OIA S9(2)(A)

Perhaps I'd better introduce myself, My name is [redacted] and I'm in charge of Special Investigations in the Dept. of Defence. Naturally I can't give you my own address as the CELESTIAL PEOPLE have me marked as a wanted man and if you have been visited by one of the operators already then they could as you well know make a transparent manifestation and pick up my address and bingo that's the end of me. It may interest you to know they have a price on my head of 14 dukal exprazzos on my head. You are to contact me at or at least using the following address;

please write to him and mention my name, he is under my command and will give you some column charts, deviation graphs and apex positions which as you know will halve your work. More important though he will send you a book on the DOT-SINE method and will put you on the mailing list for our monthly publication called 'SIGHTINGS OF SPACECRAFT DURING THE MONTH OF -----'. Don't tell anyone about this though as this is all classified information and we are a fairly tight circle. *NO USE FOR SUCH = NOT REQUIRED*

Now the Prime Minister has instructed that you are to be helped out with this camera business. We can't give you a bank of cameras however and we are not in a position to develop or print your colour film, what we can do however is to loan you an automatic infra-red wide-angle telephoto zoom lens and supply you with film and do all your developing and printing for you. You'll have to sharpen up your photography though because the Minister of Def. wasn't very impressed and showed your last effort to Mr Muldoon who said it would be cheaper to put one of the INTELLIGENCE PHOTO experts in your home with you but I got that squashed. I'm sure you don't want one of those young girls stopping at your place. Now to get one of these cameras just fill in the attached form and forward it to me I'll forward it to the right people. *What a Teller of Tales.*

Just a thing or two on these OPERATORS, don't worry about a thing they won't touch you as we've put a BLANKET over your area and they'll respect that. They play the rules and we've agreed to give them landing rights if they respect our Blanket areas. The PM was tickled pink when I pulled that one as we couldn't stop them landing anyway. Well now you know why I'm a wanted man. I know more than you about transparent manifestations and the 23 not 8 different species of operators. Well          we are considering making you a full time agent with responsibilities for research into EGYPTIAN HIEROGLYPHICS and their effect on SPACE NAVIGATION. *Not A Bad Play Boy.*

Good Luck

DELETED 1AW 01A S9(2)(A)

When you write use airmail-as nothing is safe on the trains the celestial craft often go into a hover over a travelling train uplift the mail, read it and replace it. They don't touch the aircraft as they are so unreliable and we are guarding them with our new SKYHAWK which are fitted with the new GF-22 weapon. As you know this would have little effect on the CELESTIAL CRAFT'S body but a lucky shot could seriously damage its Glorian Juvicle which would give the craft no control in its Yawing Axis , send it into an uncontrollable spin and of course a crash or a lonely death in space.

THE ABOVE IS A LOAD OF RUBBISH *8/12/67*  
Don't worry about using the co-ordinate method, we have been telling him for years to change to the CONSTELLATION system which you have very correctly seen is quicker, simpler and more accurate. Baker does however come out with some good stuff now and again.

The light meth you are using to contact the craft is OK but you will have difficulties when they are flying faster than the speed of light. Prince Philip made some interesting observations on this and put forward a very good theories on the ways to counter this lack of communication. WE know they use a magnetic radiometer and if you cut the voltage of your torch bulb by half they have no trouble picking up your signals. We tried and have had terrific results. AS A LUNER - I DO NOT FOLLOW THIS LINE

You're quite right about our photography we were all over top of you, we are however sending ou aircraft ove\$ your place on Tuesdays and Thursdays until we get a good print. We are not even sure we have the right place as there are two houses in Papanui one with a red roof and one with a tile roof, which have been spotted as being in contact with the space ships. Now our expert on the 'DOT-SINE' method if you want any information is ;

Dear SIR/S

Well-Well-There is NOTHING Like THE Real Subject To Shut up Newspapers -  
Yes THEY WANT THE Sensational Bits But DONT like HAVING To work it out like THE Public - THEY dont like THE ETHology OF Light BEING thousands OF years in advance OF THIS Society -

actually it suits us - as a matter OF Fact as whitcous have suggested a Hand Book would Cover our Lot Better as there will be several sketches and photos those with star ref and those without - it must be remembered THE Sky writings are messages to THE House Not For others - Just like THE Gifts exclusive to THE House - with a Hand Book you will have interest in it For Centuries to come - after all THAT'S what we Really desire - THE star ref photos are coming OF THE Line now, as I am after "Lines" - we Really need a 300 or 400mm Telephoto Lens at 45° wide angle - we got THE Conventional 300 and 500mm Telephoto Lens  
You Can Buy From THE Shops

THESE LENS WITH DO THE JOB - BUT AS THE ANGLE OF VIEW IS SMALL ONE MISSES A LOT IN THE FRAM - WE CAN ONLY COVER PART OF THE TRAJECTORY AND HOPE ITS AIMED AT THE PART WHERE ITS DOING THE WRITING - I CAN READ IT WITH OUT A CAMERA - THE SPEED AT WHICH IT IS DONE MAKES IT IMPOSSIBLE TO AIM AT THE CRAFT - NEAR SPEED OF LIGHT - ONLY ONE SHOT IN 20 WILL BE ANY GOOD DUE TO THE SPEED BUT THE RIGHT CRAFT HAVE BEEN IN - AND ARE EXPECTED TO CONTINUE FOR A WEEK OR TWO YET - THEY ARE COMING IN FROM ALL POINTS OR PARTS OF THE UNIVERSE - THE PRINT I AM SENDING YOU SHOULD BE READY NEXT WEEK IT HAS NO STAR REF - BUT IT WILL SERVE AS A GUIDE TO THOSE WITH STAR REF - THERE IS NO POINT IN GIVING YOU A SHOT OF A HEATSTAR (AS SAID TO NEWS) I DID THAT 30 YEARS AGO - ALL I GOT WAS WHAT IS THAT - THE  $\diamond$  IS YOUR BEST BET - IF WE GET ONE IN COLOUR IT WILL SHOW YOU PLENTY - USUALLY THEY COME IN THE DAY TIME - BUT HAVE COME AT NIGHT - THE PROBLEM IS I GET A NICE ONE AND THEY TAKE IT AWAY AND GIVE IT TO THEIR EEOFFES - I HAD A BEAUTY BUT THEY ERASED IT FROM THE FILM SHOWING ME FEATURES - COLOUR - STILL THEY ARE A GREAT CREW - AND IT GETS BETTER AS WE GO ALONG - WE HAVE MADE GREAT STRIDES IN THE LAST 14 YEARS - THE HAND BOOK WILL BE THE SHOT AS IT WILL COVER WHAT WE WANT TO LEAVE BEHIND - AND AFTER ALL THAT IS THE OBJECTIVE - AS THERE IS NO WAY I CAN TURN BACK TIME TO TEACH YOU ALL WHAT IT ALL IS - WHEN MAN GETS AWAY OUT IN SPACE HE WILL SEE THE THINGS

3

mentioned in the Hand Book - after all I will be out there  
along with Aze, Doi, Bing, Brady so you know us -  
= AFTER = THE ONLY THING we can do is to call and leave you  
a note to say we called we are not the situation  
that can help you - IF THE BOGS CANNOT CHANGE my  
situation I'll still be "one on the right one on the left"  
They are doing their best to change it - I hope they  
can - Well that's the news for now -

The Big Heatdactar has been operating a week, its a  
ARI Type - IF HE IS IN TONIGHT I'll set the camera going  
BE FOR HE GETS TO THE LENS COVERAGE AND I HOPE HE  
PASSES THE RIGHT SPOT. HE IS OPERATING C AND F  
ALONG WITH ANOTHER ONE. IN NOVEMBER I WILL STACK TWO  
CAMERAS COVERING THE AREA ~~BE~~ AFTER I GET ANOTHER  
TRIPOD - THE TROUBLE WITH THESE CAMERAS YOU GOT TO  
PLACE A COVER IN FRONT OF THE LENS ~~SET~~ TRIGGER THE SHOT  
REMOVE THE COVER AND THEN AFTER THE SHOT PLACE  
THE COVER AND RELEASE THE CABLE OTHERWISE YOU HAVE  
GOT "HOOKS" ON THE STAR TRACES - AND WERE YOU ONLY  
HAVE A FEW SECONDS TO FIND THE TARGET THE RITUAL  
OF THE COVER IS REALLY NOT ON - BUT ONE HAS TO WITH  
THESE CAMERAS - I MADE A BODY THAT DOES NOT LOOK  
THE STARS - AS YET I HAVE NOT BEEN ABLE TO FIND A  
PROPER LENS FOR IT - WE WILL GET THERE - A FRIEND OF  
MINE IS COMING OUT ONCE A WEEK TO OPERATE THE CAMERA  
SO I CAN HAVE TIME TO DO THE SIGNALS - THE TROUBLE IS  
THE EES DONT LIKE STRANGERS - THEY HAVE SEEN HIM A  
FEW TIMES SO IT MIGHT WORK OUT O.K. -  
MR HOLYOAKE WHEN HE WAS PM TRIED TO GET ME  
A DEPT-MENTAL CAMERA SOPER AND CO - I FILLED IN A  
FORM FOR A SIX INCH LENS CAMERA BUT IT NEVER  
EVENTUATED - PERHAPS WHEN THE RESULTS OF WHAT  
THE 35mm CAMERAS ARE PUBLISHED WE MIGHT  
GET ONE AS THAT IS WHAT ONE NEEDS FOR THIS -  
WHEN THEY COME IN HERE THEY ARE REALLY TRAMPING  
THEY CAN TURN ON A "PIN POINT" - THE LOOK FOR ME  
EVERY DAY EVEN THOUGH THEY KNOW I CANNOT SEE  
THEM THROUGH THE CLOUDS

-3-

I Have a way of talking to them indirectly -

Especially the ones during the day - I was disappointed I didn't get this big fellow last night - still I had only a few seconds to do so - The craft can do sign writing at near speed of light - so a whole string of writing only takes a few seconds - it really needs 4 or these little cameras to cover the area and set them going the moment they appear still we will see what I can do in November - using a 300 and 500mm lens - of course if a projection craft comes in - its all over bar the shouting - enclosed is a little bit written by Doi Bear you should read over and over as it refers to a certain star also they come here deliberately to help me - its not a case were they are passing by  $\frac{1}{2}$  of them do not, drop below the speed of light or put there lights on till they get here I dont think a photo of Doi Bears space craft parked on the roof of the shed would be any advantage to you as you can see the same thing in H's sketch - as he says I am with you always positive - naturally the others come too - working for ourselves - we are only going to take one or two with star ref B-W - so you can see there here - colour gives me more information - I've got to get out with my memory intact - so far everything is going well - I have a crew and a heatitar awaiting me - work it out for yourselves I am not misleading you or trying to baffle you - I can @rwe on of these things and I can find my way out there - I expect to be here 20 years yet - I'll find the two personalities im looking for out there

- 4 -

I've got problems out there now, and I'm years away from transition - I'm Hoping it will IRON out before hand - The Big Question is whether it will stick on if the going gets tough - Not everything will face transition processes - still it is necessary to get a steady state situation to operate a modern heat exchanger - Just remember you too can find a star of knowledge - It's not impossible - Most of the valuable stuff will be taken away when my time comes so you only get what I more or less send you -

Really I'm only doing this for the little EEs they wanted you all to know they were there - you are only little EEs when your time comes - apart from that there would be little point in continuing - Taking photos - apart from our own interests - we will take these photos just to show yours they are there - in most cases it's the space craft its self doing the writing although they can do it by projection - The print I'm sending you is the craft in action - The only difference will be now is with star traces - so there will be no surprises there - The writings are personal messages to me - So we leave it at that - One day if you work it out you might find them very interesting - They are not doing it for the benefit of the public -

That's it ~~DELETED~~ IAW DIA S9(2)(A)

Dear Sir/s,

Right - I Have Located a Lens \$900  
 WORTH - Will Have it next week -  
 USING A S-U-CAMERA - Have to get another  
 Tripod - You Have seen the Sky writing  
 over the years - You will get a print  
 about a fortnights time - it has no star ref  
 = GUNNING FOR DIMENSIONS - WITH THE NEW  
 lens it will be the same with star ref  
 B-W Film - NOT COLOUR - THE MEDIA CANNOT  
 HANDLE COLOUR - I HAVE BEEN LOOKING FOR  
 SUCH A LENS FOR YEARS - 8 TO BE EXACT -  
 NOW IS THE TIME TO SPEAK UP IF YOU WANT  
 COPIES - I AM EXPECTING A CRAFT (HEATUITAR)  
 IN ABOUT XMAS - NOV-DEC-JAN - WHICH WILL  
 GIVE ME THE NECESSARY - FROM TERE BRA TALA -  
 YOU WORK IT OUT FOR YOURSELVES THE SAME  
 AS THE REST - THE PHOTOS WILL GIVE YOU  
 FOOD FOR THOUGHT FOR MANY A LONG DAY -  
 "There are those we would NOT HELP" and  
 THE REST GET THEIR BEQUESTMENT ON

IN THIS  SKETCH YOU ARE LOOKING  
 STRAIGHT AT THE PERSONALITY

They are thousands of years in advance of what you know —  
You will have a lot of fun working it out — From photos  
on. When you get out in space you might see what it  
all refers to —

From now on you can expect anything — I will be financial  
after the 30th October —

You would realize the writings are my own benefit — and  
there is no way I could turn back the pages nearly 40 years  
to show anyone as things are in progress all the time  
I had the Alphabet to the Tree of Life — But when  
some "people" cleaned out my house — which was supposed  
to be for my benefit — I lost the info — now I have  
12 Digits of it back and looking for the rest — The locals  
did not get the photos — these were taken away — the move  
was anticipated — that's why they switched to person  
to person — sketches and writings — some of which you  
have seen — now I'm settled we are back to photos —  
our personal experience with society is they are not  
to be helped — far too many do not have to answer for  
what they do —

It's 100 years to be a fully fledged Ethology I had 150 to go  
from the 12 Dec 1973 — we could not teach you like  
processes in your life time — I have some 5 fellows  
nursing me along — there is no way of helping you  
with your problems — I got to get out of here with a suitable  
situation and my memory intact — from a double dimension  
to a single in order to handle the new type heatitars  
the old "Rock of Ages" type are gone — there are only  
one or two left now — old time originals — and that is  
is no place for an Ethology — not on the ground —  
it was better 5000 years ago in some ways —
