ANALYST COMMENTS

REMOTE VIEWING (RV) SESSION CCC-49

1. (U) Reference: SG1A

- a. City Plan, Stock [REDACTED]
- b. Analyst comments, Session CCC45.

2. (S/NOFORN) CUING DATA: This² was #14's fourth session against this target. Including this session, two of the four attempts have been cancelled due to external audio interference.

SG1A

a. Due to prior involvement, #14 was aware of target geo coordinates and the target grid matrix system to be employed once again. #14 was shown a facsimile of the target photo grid system constructed prior to Session CCC45. On the facsimile, shown at inclosure 1, the appropriate target grid [REDACTED] was labeled and the presumed location of #14's preceding sessions imagery (D10-E10). Both of these were pointed out to #14 to enable him to "zero" on the target grid during this session. #14 was also reminded that the actual photo with superimposed grid was in a segregated file folder appropriately labeled and marked with a large #1 within the overall Project 8003 envelope in the SS0.

b. Knowledgeability of #66 was equivalent to that reported in para 2b, Analyst Comments, session CCC45.

3. (S/NOFORN) Analysis: None possible; session cancelled.

PAUSE

Perceive the target clearly and concisely, and describe
the target to me.

PAUSE

+11 #14: The only thing that I had gotten period was the same type
of fence or wall...and then I had a look at...appeared to
be drums laying sideways. Like 55 gallon drums or something.

#66: Were you able to concentrate on the target?

#14: No. Absolutely not.

#66: What was the difficulty?

#14: Noise.

#66: Ok. Perhaps we can try later to acquire the target at a
quieter time.

#14: They must be filling up the coke machine again.

#66: Think it's the stapler downstairs.

#14: Sounds to me like they're outside of the building.

#66: Ok. Fine.
