MEMORANDUM FOR THE RECORD

SUBJECT: Project 8003 Coordination (U)

1. (U) At 011345 Apr 80, the undersigned met with CPT Woolfolk to brief him on status of 8003; most notably the results of Sessions #CCC38 and CCC41. The meeting was held in the SSO Conference Room, Bldg 4554.

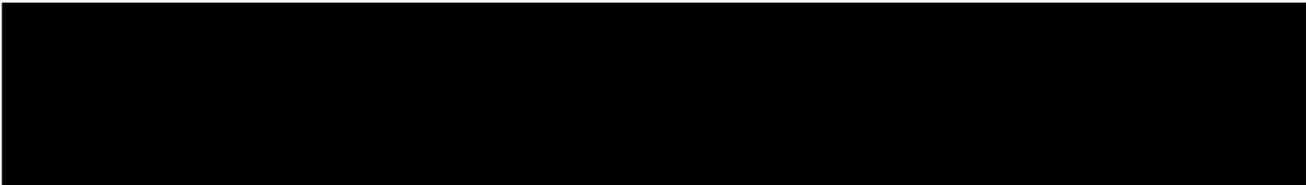

2. (S) CPT Woolfolk was briefed on the results of nine Project 8003 sessions held (or attempted) thus far. A detailed overview of Session CCC41 results and targeting methodology was provided. Also, an overview of Session CCC38 was provided in which the results were reported, but attention was drawn to the otherwise disjointed nature of the imagery throughout and general lack of validation of the single germane sketch provided.

SG1C

so) before any response could be expected. The need for such support was stressed based on the need for "feedback" to the collector. CPT Woolfolk agreed and indicated he understood.

4. (S) In the case of Session CCC38, sketch #6, CPT Woolfolk suggested Mr. Woolridge, ITAC, be requested to provide date which would assist in an aerial search for such type installation. CPT Woolfolk suggested I make the first connection to Mr. Woolridge then, if difficulties were encountered, he could try another method of support. I agreed, needing a reason anyway to recontact Mr. Woolridge re this project.
