MEMORANDUM FOR THE RECORD

SG1A

SG1A SUBJECT: Summary of Unconfirmed Source Information Pertaining to [REDACTED]

SG1A SG1A

1. (S) The following was provided in response to a query about [REDACTED]

SG1A a. (S) The source described the work of [REDACTED] as being confusing and contradicting. He appears to be a salesman of some type who spends a lot of time talking to people in waiting rooms and restaurants. However, he is not primarily a salesman but a courier or someone who conveys information in some form to some place or individual.

SG1A b. (S) The source stated that [REDACTED] maintains a desk in an office type building. He described a large office where people were answering phones and typing. He thought it might be an information processing center of some type. It looked like a news room. He described the building as a large white building with three spokes emanating from the central hub. Windows appeared in one wall of the hub (see attached drawings).

SG1A c. (S) The source described [REDACTED] as having contact with several nationalities, North African, Arabic, French, English.

SG1A d. (S) The source described [REDACTED] present emotional state as being fearful and restricting himself to his hotel like apartment which is across the street from old brown stone buildings. The source thought that the fear was generated by something that [REDACTED] did not do rather than something he did.

SG1A e. (S) The source felt that a great deal of subterfuge was present in [REDACTED] work. He could not be sure whether the use of subterfuge was to hide the type of work he does or that subterfuge is a part of the work.

2. (S) This data should be evaluated as soon as possible and comments forwarded to the undersigned. The comments will be used to evaluate the accuracy and intelligence value of data provided by the source.
